For this purpose the Security Holder must instruct its depositary bank, which is responsible for the order of the transfer of the specified Securities.

The Exercise Right is deemed to be effectively exercised on that day on which (i) the Principal Paying Agent receives the duly completed Exercise Notice prior to 10:00 a.m. (Munich local time) and (ii) the Securities specified in the Exercise Notice will be credited to the account of the Issuer prior to 4:00 p.m. (Munich local time).

For Securities, for which a duly completed Exercise Notice has been transmitted in time, but which has been credited to the Issuer's account after 4:00 p.m. (Munich local time), the Exercise Right is deemed to be effectively exercised on that Trading Day, on which the Securities will be credited to the account of the Issuer prior to 4:00 p.m. (Munich local time).

For Securities, for which a Security Holder transmits an Exercise Notice, which does not comply with the aforementioned provisions, or, if the Securities specified in the Exercise Notice have been credited to the Issuer's Account after 4:00 p.m. (Munich local time) of the second Banking Day following the transmission of the Exercise Notice, the Exercise Right is deemed to be not effectively exercised.

The amount of the Securities for which the Exercise Right shall be exercised, must comply with the Minimum Exercise Amount or an integral multiple thereof. Otherwise the amount of the Securities specified in the Exercise Notice will be rounded down to the nearest multiple of the Minimum Exercise Amount and the Exercise Right is deemed to be not effectively exercised with regard to the amount of Securities exceeding such amount. An Exercise Notice on fewer Securities than the Minimum Exercise Amount is invalid and has no effect.

Securities received by the Issuer and for which no effective Exercise Notice exists or the Exercise Right deems to be not effectively exercised, will be immediately retransferred by the Issuer without undue delay at the expense of the relevant Security Holder.

Subject to the aforementioned provisions, the transmission of an Exercise Notice constitutes an irrevocable declaration of intent of the relevant Security Holder to exercise the respective Securities.

However, the Differential Amount is not lower than the Minimum Amount.

In the case of Securities, for which "Put" is specified in § 1 of the Product and Underlying Data:

$$\text{Differential Amount} = (\text{Strike} - \text{Relevant Reference Price}) \times \text{Ratio}$$

However, the Differential Amount is not lower than the Minimum Amount.

- (2) When calculating or, respectively, determining the Differential Amount, no fees, commissions or other costs charged by the Issuer or a third party authorised by the Issuer, will be taken into account.

§ 5

Such call shall become effective at the time indicated in the notice.

The "**Cancellation Amount**" shall be the fair market value of the Securities as of the first Banking Day before the extraordinary call becomes effective, determined by the Calculation Agent acting in accordance with relevant market practice and in good faith. The fair market value, as calculated by the Calculation Agent, is calculated based on the redemption profile of the Securities which has to be adjusted taking into consideration the following parameters as of the first Banking Day before the extraordinary call becomes effective: the price of the Underlying, the remaining time to maturity, the volatility, the dividends (if applicable), the current interest rate as well as the counterparty risk and any other relevant market parameter that can influence the value of the Securities. The Cancellation Amount will be paid within five Banking Days following the date as of which the extraordinary call becomes effective, or at the date specified in the above mentioned notice, as the case may be, pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards. However, at least the Minimum Amount shall be paid.
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depositary banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such a payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the legal interest rate (*'Saggio degli Interessi legali'*), pursuant to Section 1284 CC, without prejudice to any other mandatory provisions under Italian law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on a Valuation Date, the respective Valuation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Valuation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days the Calculation Agent shall determine acting in accordance with relevant market practice and in good faith the respective Reference Price required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. Such Reference Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on the 9th Banking Day taking into account the economic position of the Security Holders.

If within these 8 Banking Days traded Derivatives of the Underlying or, respectively, its components expire and are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Derivatives

will be taken into account in order to conduct the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. In that case, the expiration date for those Derivatives is the relevant Valuation Date.

§ 8

Index Concept, Adjustments, Replacement Underlying, New Index Sponsor and New Index Calculation Agent, Replacement Specification

- (1) *Index Concept:* The basis for the calculations or, respectively, specifications of the Calculation Agent described in the Terms and Conditions of these Securities shall be the Underlying with its provisions currently applicable, as developed and maintained by the Index Sponsor, as well as the respective method of calculation, determination, and publication of the price of the Underlying (the "**Index Concept**") applied by the Index Sponsor. This shall also apply if during the term of the Securities changes are made or occur in respect of the Index Concept, or if other measures are taken, which have an impact on the Index Concept, unless otherwise provided in the below provisions.
- (2) *Adjustments:* Upon the occurrence of an Adjustment Event the Terms and Conditions of these Securities (in particular the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Calculation Agent) and/or all prices of the Underlying determined by the Calculation Agent on the basis of the Terms and Conditions of these Securities shall be adjusted in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. Any such adjustment will be performed taking into consideration any adjustments made by the Determining Futures Exchange to the there traded Derivatives linked to the Underlying, and the remaining term of the Securities as well as the latest available price of the Underlying. If the Calculation Agent determines that, pursuant to the rules of the Determining Futures Exchange, no adjustments were made to the Derivatives linked to the Underlying, the Terms and Conditions of these Securities regularly remain unchanged. The exercised adjustments and the date of the first application shall be notified according to § 6 of the General Conditions.
- (3) *Replacement Underlying:* In cases of an Index Replacement Event or a Index Use Event, the adjustment pursuant to paragraph (2) is usually made by the Calculation Agent acting in accordance with relevant market practice and in good faith determining, which index should be used in the future as Underlying (the "**Replacement Underlying**"). If necessary, the Calculation Agent will make further adjustments to the Terms and Conditions of these Securities (in particular to the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Issuer) and/or all prices of the Underlying determined by the Calculation Agent pursuant to the Terms and Conditions of these Securities in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. The Replacement Underlying and the adjustments made as well as the time of its first application will be published in accordance with § 6 of the General Conditions. From the first application of the Replacement Underlying on, any

reference to the replaced Underlying in the Terms and Conditions of these Securities shall be deemed to refer to the Replacement Underlying.

- (4) *New Index Sponsor and New Index Calculation Agent:* If the Underlying is no longer determined by the Index Sponsor but rather by another person, company or institution (the "**New Index Sponsor**"), then all calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall occur on the basis of the Underlying as determined by the New Index Sponsor. In this case, any references to the replaced Index Sponsor in the Terms and Conditions of these Securities shall be deemed as referring to the New Index Sponsor. If the Underlying is no longer calculated by the Index Calculation Agent but rather by another person, company or institution (the "**New Index Calculation Agent**"), then all calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall occur on the basis of the Underlying as calculated by the New Index Calculation Agent. In this case, any references to the replaced Index Calculation Agent in the Terms and Conditions of these Securities shall be deemed as referring to the New Index Calculation Agent.
- (5) *Replacement Specification:* If a price of the Underlying published by the Index Sponsor or the Index Calculation Agent, as the case may be, which is required pursuant to the Terms and Conditions of these Securities will subsequently be corrected and the correction (the "**Corrected Value**") will be published by the Index Sponsor or the Index Calculation Agent, as the case may be, after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish pursuant to § 6 of the General Conditions the relevant value by using the Corrected Value (the "**Replacement Specification**").

D.6	Key information on the key risks that are specific to the securities	In the opinion of the Issuer, the key risks described below may, with regard to the Security Holder, adversely affect the value of the Securities and/or the amounts to be distributed under the Securities and/or the ability of Security Holders to sell the Securities at a reasonable price prior to their redemption. • Potential conflicts of interest The risk of conflicts of interest (as described in E.4) is related to the possibility that the Issuer, distributors or any of their affiliates,

		in relation to certain functions or transactions, may pursue interests which may be adverse to or do not regard the interests of the Security Holders. • Key risks related to the Securities <i>Key risks related to the market</i> Under certain circumstances a Security Holder may not be able to sell his Securities at all or at an adequate price prior to their redemption. Even in the case of an existing secondary market it cannot be ruled out that the Security Holder may not be in a position to dispose of the Securities in the case of an unfavourable development of the Underlying or its components or of a currency exchange rate, e.g. if such development occurs outside of the trading hours of the Securities. The market value of the Securities will be affected by the creditworthiness of the Issuer and a number of other factors (e.g. exchange rates, prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability of the Securities and Underlying-related factors) and may be substantially lower than the purchase price. Security Holders may not rely on being able to sufficiently hedge against price risks arising from the Securities at any time. <i>Key risks related to the Securities in general</i> The Issuer may possibly fail to perform its obligations under the Securities in whole or in part, e.g., in case of an insolvency of the Issuer or due to governmental or regulatory interventions. Such risk is not protected by a deposit protection scheme or any similar compensation scheme. The competent resolution authority may apply resolution tools which include, among others, a "bail-in" instrument (e.g., conversion of Securities into equity instruments or write down). Application of a resolution tool may materially affect the rights of the Security Holders. An investment into the Securities may be illegal or unfavourable for a potential investor or not suitable, with regard to his knowledge or experience and his financial needs, goals and situation. The real rate of return of an investment into the Securities may be reduced or may be zero or even negative (e.g., due to incidental costs in connection with the purchase, holding and disposal of the Securities, future money depreciation (inflation) or tax effects). The differential amount may be less than the Issue Price or the respective purchase price and, under certain circumstances, no
--	--	--

		interest or ongoing payments will be made. The proceeds from the Securities may possibly not be sufficient to make interest or principal payments arising from a financing purchase of the Securities and require additional capital. <i>Risks related to Underlying-linked Securities</i> <i>Risks arising from the influence of the Underlying or its components on the market value of the Securities</i> The market value of the Securities and the amounts payable under the Securities significantly depend on the price of the Underlying or its components. It is not possible to predict the price development of the Underlying or its components in the future. Additionally, the market value of the Securities will be affected by a number of Underlying-related factors. <i>Risks arising from the fact that the observation of the Underlying or its components occurs only at specified dates or times or periods</i> Due to the fact that the observation of the Underlying or its components may occur only at specified dates, times or periods, amounts payable under the Securities may be considerably lower than the price of the Underlying or its components may have suggested. <i>Risks related to a Strike</i> A strike can lead to the Security Holders participate either to a lesser extent in a favourable performance of the Underlying or its components or to a greater extent in an unfavourable performance of the Underlying or its components. <i>Risks related to a Ratio</i> A ratio may result in the Security being in economic terms similar to a direct investment in the relevant Underlying or its components, but being nonetheless not fully comparable with such a direct investment. <i>Risks related to Adjustment Events</i> Adjustments may have a substantial negative impact on the value and the future performance of the Securities as well as on the amounts to be distributed under the Securities. Adjustment events may also lead to an extraordinary early termination of the Securities. <i>Risks related to structure specifics</i> Because of the leverage typical for the Securities, the performance of the Underlying may have a disproportionately strong adverse effect on the value of the Securities. The time value declines in
--	--	---

		relation to the time remaining to maturity. In this case the market value of the Securities will fall to zero by the last possible Exercise Date. <i>Risks related to Call Warrants</i> If the price of the Underlying falls, the Security Holders may suffer a total loss of their invested capital. <i>Risks related to Put Warrants</i> If the price of the Underlying rises, the Security Holders may suffer a total loss of their invested capital. <i>Risks related to the Minimum Exercise Amount</i> Since a certain number of Securities is required in order to exercise the Securities, a Security Holder may be unable to exercise some of his Securities. <i>Risks related to Call Events</i> Upon the occurrence of a Call Event the Issuer has the right to extraordinarily call the Securities at their market value. If the market value of the Securities at the relevant time is lower than the Issue Price or the purchase price, the respective Security Holder will suffer a partial or total loss of its invested capital even if the Securities provide for a conditional minimum payment. <i>Risks related to Market Disruption Events</i> The Calculation Agent may defer valuations and payments and make determination in its discretion acting in accordance with relevant market practice and in good faith. Security Holders are not entitled to demand interest due to such delayed payment. <i>Risks arising from negative effects of hedging arrangements by the Issuer on the Securities</i> The entering or the liquidation of hedging transactions by the Issuer may, in individual cases, adversely affect the price of the Underlying or its components. • Key risks related to the Underlying or its components General risks <i>No rights of ownership of the Underlying or its components</i> The Underlying or its components will not be held by the Issuer for the benefit of the Security Holders, and as such, Security Holders will not obtain any rights of ownership (e.g., voting rights, rights to receive dividends, payments or other distributions or other rights) with respect to the Underlying or its components. Key risks related to shares The performance of share-linked Securities (i.e. Securities related
--	--	---

		to indices as Underlying and shares as index components) depends on the performance of the respective shares, which may be subject to certain factors. Dividend payments may have an adverse effect on the Security Holder. Key risks related to indices The performance of index-linked Securities depends on the performance of the respective indices, which largely depend on the composition and the performance of their index components. The Issuer neither has influence on the respective index nor the index concept. In general, an index sponsor does not assume liability. Generally, an index may at any time be altered, terminated or replaced by any successor index. Security Holders do not or only partly participate in dividends or other distributions in relation to the index components. Indices may be affected disproportionately negative in the case of an unfavourable development in a country, region or industrial sector. Indices may include fees which negatively affect their performance. Due to regulatory measures in the future the index, <i>inter alia</i>, may not be used as Underlying of the Securities or only subject to changed conditions. The Securities are not capital protected. Investors may lose the value of their entire investment or part of it.

The Issuer is also the arranger and the Calculation Agent of the Securities. The Issuer or any of its affiliates act as a calculation agent or paying agent. Besides, conflicts of interest in relation to the Issuer or the persons entrusted with the offer may arise for the following reasons: • The Issuer specifies the Issue Price. • The Issuer and one of its affiliates act as Market Maker of the Securities (however, no such obligation exists). • Distributors may receive inducements from the Issuer. • The Issuer, any Distributor and any of their affiliates act as Calculation Agent or Paying Agent in relation to the Securities. • From time to time, the Issuer, any Distributor and any of their affiliates may be involved in transactions on their own account or on the account of their clients, which affect the liquidity or the price of the Underlying or its components. • The Issuer, any Distributor and any of their affiliates may issue securities in relation to the Underlying or its components on which already other securities have been issued. • The Issuer, any Distributor and any of their affiliates may possess or obtain material information about the Underlying or its components (including publicly not accessible information) in connection with its business activities or otherwise. • The Issuer, any Distributor and any of their affiliates may engage in business activities with the issuer of the Underlying or its components, its affiliates, competitors or guarantors. • The Issuer, any Distributor and any of their affiliates may also

L' "Importo di Cancellazione" è il loro valore equo di mercato. Status degli Strumenti Finanziari Gli obblighi derivanti dagli Strumenti Finanziari costituiscono obbligazioni dirette, incondizionate e non subordinate dell'Emittente e, salvo quanto diversamente previsto dalla legge, sono parimenti ordinate con le altre obbligazioni incondizionate e non subordinate presenti e future dell'Emittente.
C.11	Ammissione alla negoziazione	Non applicabile. Non è stata presentata alcuna istanza per l'ammissione a quotazione degli Strumenti Finanziari presso un mercato regolamentato o mercato equivalente. Ad ogni modo, è stata presentata istanza di negoziazione con efficacia dal 14/03/2019 sui seguenti sistemi multilaterali di negoziazione (MTF): ● Borsa Italiana S.p.A. – SeDeX market (MTF) UniCredit Bank AG (il "Market Maker") si impegna a fornire la liquidità conformemente ai regolamenti di Borsa Italiana S.p.A. – SeDeX market (MTF), dove è prevista la negoziazione degli Strumenti Finanziari. Gli obblighi del Market Maker sono stabiliti dai regolamenti di Borsa Italiana – SeDeX MTF.
C.15	Effetto del sottostante sul valore degli strumenti finanziari	Gli Strumenti Finanziari riflettono la performance del Sottostante (come definito sub C.20) e consentono al Titolare di partecipare alla performance sia positiva che negativa del Sottostante nel corso della durata degli Strumenti Finanziari. Una variazione del prezzo del Sottostante può avere un effetto più che proporzionale (con leva finanziaria) sul prezzo degli Strumenti Finanziari. I Covered Warrant Call sono Strumenti Finanziari ai quali "Call" è specificato nell'Allegato alla presente Nota di Sintesi e in cui i Titolari partecipano all'andamento del Sottostante. Soggetto all'influenza di altri fattori che influenzano il prezzo (come la volatilità prevista, il tasso di interesse, il rendimento del dividendo, la scadenza), se il

		prezzo del Sottostante aumenta, di regola il prezzo dello Strumento Finanziario aumenta. Soggetto all'influenza di altri fattori che influenzano il prezzo, se il prezzo del Sottostante diminuisce, di regola il prezzo dello Strumento Finanziario diminuisce. I Covered Warrant Put sono Strumenti Finanziari ai quali "Put" è specificato nell'Allegato alla presente Nota di Sintesi e in cui i Titolari partecipano all'andamento negativo del Sottostante. Soggetto all'influenza di altri fattori che influenzano il prezzo (come la volatilità prevista, il tasso di interesse, il rendimento del dividendo, la scadenza), se il prezzo del Sottostante diminuisce, di regola il prezzo dello Strumento Finanziario aumenta. Soggetto all'influenza di altri fattori che influenzano il prezzo, se il prezzo del Sottostante aumenta, di regola il prezzo dello Strumento Finanziario diminuisce. L' "Importo Differenziale" equivale: - nel caso di Covered Warrant Call all'importo di cui il Prezzo di Riferimento Rilevante (come definito sub C.19) supera lo Strike, moltiplicato per il Multiplo; - nel caso di Covered Warrant Put all'importo di cui il Prezzo di Riferimento Rilevante è inferiore allo Strike, moltiplicato per il Multiplo. Pertanto, l'Importo Differenziale non può essere inferiore all'Importo Minimo. Il "Multiplo", lo "Strike" e l' "Importo Minimo" sono specificati nell'Allegato alla presente Nota di Sintesi.
C.16	La data di scadenza degli strumenti derivati – la data di esercizio o la data di riferimento finale	La "Data di Valutazione Finale" e la "Data di Pagamento Finale" sono indicate nella tabella contenuta nell'Allegato alla presente Nota di Sintesi. La "Data di Valutazione" è il Giorno di Calcolo immediatamente successivo al giorno in cui il Diritto di Esercizio è stato efficacemente esercitato, in tutti i modi, non più tardi nella Data di Valutazione Finale. "Sottostante Italiano" si riferisce a un Indice promosso da Borsa Italiana (se è specificato come "Sottostante Italiano" nell'Allegato alla presente Nota di Sintesi). La "Data di Scadenza" è specificata nella tabella contenuta nell'Allegato alla presente Nota di Sintesi.
C.17	Modalità di regolamento degli strumenti derivati	Ogni pagamento dovrà essere eseguito a UniCredit Bank AG (l' "Agente Principale di Pagamento"). L'Agente Principale di Pagamento dovrà corrispondere gli importi maturati presso il Sistema di Compensazione da accreditarsi sui rispettivi conti delle banche depositarie per il trasferimento sui conti dei Titolari.

		Il pagamento al Sistema di Compensazione manleva l'Emittente dai propri obblighi derivanti dagli Strumenti Finanziari in relazione all'importo di tale pagamento. "Sistema di Compensazione" significa Monte Titoli S.p.A..
C.18	Descrizione delle modalità secondo le quali si generano i proventi degli strumenti derivati	Pagamento dell'Importo Differenziale cinque Giorni Lavorativi dopo la relativa Data di Valutazione, ma non oltre la Data di Pagamento Finale.
C.19	Prezzo di esercizio o prezzo di riferimento definitivo del sottostante	"Prezzo di Riferimento Rilevante" significa il Prezzo di Riferimento alla rispettiva Data di Valutazione. "Prezzo di Riferimento" significa, se il Sottostante è un Sottostante Italiano come specificato nella tabella contenuta nell'Allegato alla presente Nota di Sintesi, il prezzo di liquidazione di opzioni e/o futures del medesimo Sottostante con la stessa scadenza della rispettiva Data di Valutazione degli Strumenti Finanziari o se indisponibile il prezzo d'apertura del Sottostante calcolato dallo Sponsor dell'Indice pubblicato sul Mercato Rilevante nella rispettiva Data di Valutazione (il "Prezzo di Liquidazione"); se il Sottostante non è un Sottostante Italiano come specificato nella tabella contenuta nell'Allegato alla presente Nota di Sintesi, il Prezzo di Chiusura.
C.20	Descrizione del tipo di sottostante e di dove siano reperibili le informazioni relative al sottostante	Il Sottostante è un Indice come specificato nella tabella contenuta nell'Allegato alla presente Nota di Sintesi. Per ulteriori informazioni circa il Sottostante e la performance passata e futura del Sottostante e la sua relativa volatilità, si faccia riferimento al Sito Web, come specificato nella tabella sotto riportata.

D. RISCHI

D.2	Informazioni fondamentali sui principali rischi che sono specifici e individuali per	<i>I potenziali investitori devono essere consapevoli che, qualora si verifici uno dei seguenti fattori di rischio, il valore degli strumenti finanziari potrebbe ridursi con la conseguente perdita totale del capitale investito.</i> <i>Rischi correlati alla situazione finanziaria dell'emittente: Rischio di Liquidità</i>
-----	--	--

	l'Emittente	(i) Rischi che il Gruppo HVB non sia in grado di adempiere pienamente alle proprie obbligazioni di pagamento ovvero non adempia tempestivamente e (ii) rischi che il Gruppo HVB non sia in grado di ottenere sufficiente liquidità quando richiesto o (iii) che la liquidità sia disponibile solo ad un tasso di interesse più alto e (iv) rischio sistemico. • <i>Rischi relativi alla situazione finanziaria dell'emittente: Rischi originati da impegni previdenziali</i> Rischio che il destinatario di obblighi previdenziali debba fornire ulteriore capitale per far fronte agli impegni previdenziali maturati. • <i>Rischi relativi alla specifica attività di business dell'emittente: Rischio da attività di erogazione del credito (rischio di credito)</i> (i) Rischio di credito (inclusi il rischio di controparte, il rischio dell'emittente e anche il rischio del paese); (ii) Rischi per effetto della diminuzione del valore delle garanzie del prestito o in caso di esecuzione dei debiti; (iii) Rischi per effetto dell'attività di negoziazione/sui derivati; (iv) Rischi per effetto dell'esposizione creditizia nei confronti della capogruppo; (v) Rischi per l'esposizione verso titoli del debito sovrano / settore pubblico. • <i>Rischio per attività di negoziazione (Rischio di mercato)</i> I rischi emergono principalmente nel settore di attività del Corporate & Investment Banking (CIB): (i) Rischio per i portafogli di negoziazione per effetto di un deterioramento delle condizioni di mercato; (ii) Rischio per investimenti strategici o per portafogli di riserva di liquidità; (iii) Rischio dovuto ad una diminuzione nella liquidità nel mercato e (iv) Rischio di tasso d'interesse e di valuta estera. • <i>Rischi da altre attività di Business</i> (i) Rischi relativi ad investimenti di natura immobiliare e finanziari: Rischio di perdite dovute a cambi dell'equo valore dei portafogli immobiliari del Gruppo HVB e (ii) Rischi per effetto di una diminuzione del valore del portafoglio di investimento del Gruppo HVB. • <i>Rischi generali relativi alle operazioni di business dell'emittente: Rischio di Business</i> Rischi di perdite dovute a inattesi cambiamenti nel volume d'affari e/o nei margini delle attività. • <i>Rischi generali relativi alle operazioni di business dell'emittente: Rischi per effetto della concentrazione dei rischi e dei ricavi</i> Il rischio per effetto della concentrazione dei rischi e dei ricavi indica l'incremento delle perdite potenziali e rappresenta un rischio collegato alla strategia di business del Gruppo HVB. • <i>Rischi generali relativi alle operazioni di business dell'emittente:</i>
--	-------------	---

		<i>Rischio Operativo</i> Rischio dovuto all'uso della tecnologia di comunicazione e informazione, rischi dovuti a turbative di mercato e/o discontinuità di processi di business critici e rischi nel corso dell'appalto di operazioni e processi a fornitori esterni. • <i>Rischio di Reputazione</i> Rischi di un effetto negativo sul conto economico emergente da reazioni avverse da parte degli azionisti derivanti da una differente percezione del Gruppo HVB. • <i>Rischi legali e regolamentari: Rischi legali e fiscali</i> Rischi derivanti da procedimenti legali e incertezza sostanziale riguardante il risultato dei procedimenti e l'ammontare dei possibili danni. • <i>Rischi legali e regolamentari: Rischio di Conformità</i> Rischio per effetto di violazioni di o per non conformità a leggi, regolamenti, previsioni statutarie, accordi, pratiche obbligatorie e standard etici. • <i>Rischio legale e regolamentare</i> Rischi connessi alla supervisione del Gruppo HVB nel contesto del meccanismo di vigilanza unico (<i>single supervisory mechanism</i>) (SSM); Rischi connessi ai regimi regolamentari in varie giurisdizioni locali e le loro disparità; Rischio di dover adottare misure ad ampio raggio dovute al cambio di regime regolamentare; Rischi connessi ad un piano di risoluzione, misure di risoluzione e il requisito di rispettare il requisito minimo per i fondi propri e le passività ammissibili (MREL); Rischi da misure di stress test imposte al Gruppo HVB e impatto sul processo di revisione e valutazione prudenziale (SREP) sulla prestazione di business di HVB. • <i>Rischi strategici e macroeconomici</i> Rischi connessi all'andamento dell'economia in Germania e all'evoluzione dei mercati internazionali finanziari e di capitali; Rischi connessi ai livelli dei tassi di interesse.
D.6	Informazioni fondamentali sui principali rischi che sono specifici per gli strumenti finanziari	L'Emittente ritiene che i principali rischi descritti di seguito possono, con riferimento ai Titolari, influenzare negativamente il valore degli Strumenti Finanziari e/o gli importi da distribuire derivanti dagli Strumenti Finanziari e/o la capacità dei Titolari di cedere gli Strumenti Finanziari ad un prezzo ragionevole prima del loro rimborso. • Potenziati conflitti di interesse Il rischio di conflitti di interessi (come descritto sub E.4) è correlato alla possibilità che l'Emittente, collocatori o rispettivi affiliati perseguano, in relazione a talune funzioni o operazioni, interessi che posso-

		no o meno essere contrari agli interessi dei Titolari. • Principali rischi correlati agli Strumenti Finanziari <i>Principali rischi correlati al mercato</i> In alcune circostanze un Titolare può non essere in grado di rivendere i propri Strumenti Finanziari ovvero di cederli ad un prezzo adeguato prima del rimborso. Anche nell'ipotesi di esistenza di un mercato secondario non si può escludere che il Titolare possa non trovarsi in grado di cedere gli Strumenti Finanziari in ipotesi di un'evoluzione sfavorevole del Sottostante o delle sue componenti o di un tasso di cambio, ad esempio qualora tale sviluppo si verifichi al di fuori dell'orario di contrattazione degli Strumenti Finanziari. Il valore di mercato degli Strumenti Finanziari sarà influenzato dalla solvibilità dell'Emittente e da ulteriori fattori (e.g., tassi di cambio, interesse attuale e tassi di rendimento, il mercato per strumenti finanziari simili, le generali condizioni economiche, politiche e cicliche, la negoziabilità degli Strumenti Finanziari e dei fattori correlati al Sottostante) e può essere sostanzialmente inferiore al prezzo di acquisto. I Titolari non possono fare affidamento sulla possibilità di tutelarsi in qualsiasi momento dai rischi di prezzo derivanti dagli Strumenti Finanziari. <i>Principali rischi correlati agli Strumenti Finanziari in generale</i> L'Emittente potrebbe non essere in grado di adempiere, in tutto o in parte, ai propri obblighi derivanti dagli Strumenti Finanziari, e.g. in caso di insolvenza dell'Emittente o per effetto di interventi governativi o regolamentari. A fronte di tale rischio non è previsto alcun sistema di garanzia dei depositi né alcun sistema di indennizzo analogo. L'autorità di risoluzione competente potrebbe applicare strumenti di risoluzione che includono, tra gli altri, uno strumento "bail-in" (es. la conversione degli Strumenti Finanziari in strumenti rappresentativi o riduzioni di valore). L'applicazione di uno strumento di risoluzione potrebbe influire in modo sostanziale sui diritti dei Titolari degli Strumenti Finanziari. Un investimento negli Strumenti Finanziari potrebbe essere contrario alla legge o non favorevole per un potenziale investitore ovvero inadatto in considerazione della propria conoscenza o esperienza, dei propri bisogni finanziari, dei propri obiettivi e della propria situazione. Il tasso di rendimento reale di un investimento negli Strumenti Finanziari può ridursi a zero ovvero assumere valori negativi (e.g., a causa di costi accessori connessi all'acquisto, alla detenzione e alla dismissione).
--	--	---

		ne degli Strumenti Finanziari, a future svalutazioni monetarie (inflazione) o ad effetti fiscali). L'importo differenziale può essere inferiore al Prezzo di Emissione o al rispettivo prezzo di acquisto e, in alcune circostanze, non verrà corrisposto alcun interesse né verranno eseguiti pagamenti nel corso del periodo di detenzione degli Strumenti Finanziari. I proventi degli Strumenti Finanziari potrebbero non essere sufficienti a generare interessi o a permettere di eseguire i pagamenti dovuti per effetto dell'acquisto degli Strumenti Finanziari mediante finanziamento richiedendo capitale aggiuntivo. <i>Rischi correlati a Strumenti Finanziari collegati a Sottostanti</i> <i>Rischi dovuti all'influenza del Sottostante o di componenti dello stesso sul valore di mercato degli Strumenti Finanziari</i> Il valore di mercato degli Strumenti Finanziari e gli importi erogabili derivanti dagli Strumenti Finanziari dipendono significativamente dal prezzo del Sottostante o dai componenti dello stesso. L'evoluzione futura del prezzo del Sottostante o di componenti dello stesso non è prevedibile. Inoltre, il valore di mercato degli Strumenti Finanziari sarà influenzato da diversi fattori correlati al Sottostante. <i>Rischi dovuti al fatto che la valutazione del Sottostante o delle componenti dello stesso avviene solo in date, momenti o periodi specifici</i> A causa del fatto che la valutazione del Sottostante o di componenti dello stesso può avvenire solo in date, momenti o periodi specificati, i proventi erogabili derivanti dagli Strumenti Finanziari possono essere considerevolmente più bassi rispetto al prezzo che il Sottostante o componenti dello stesso potrebbero aver suggerito. <i>Rischi correlati allo Strike</i> I Titolari possono partecipare in misura minore ad una performance favorevole del Sottostante o di componenti dello stesso o in misura maggiore ad una performance non favorevole del Sottostante o di componenti dello stesso. <i>Rischi correlati ad un Multiplo</i> Un multiplo può fare sì che lo Strumento Finanziario sia analogo, sebbene non del tutto assimilabile, in termini economici ad un investimento diretto nel relativo Sottostante o nelle componenti dello stesso. <i>Rischi correlati ad Eventi di Rettifica</i> Rettifiche potrebbero avere un impatto negativo sostanziale sul valore e la futura performance degli Strumenti Finanziari così come sugli
--	--	--

		importi da distribuire derivanti dagli Strumenti Finanziari. Eventi di rettifica possono inoltre determinare il riscatto straordinario anticipato degli Strumenti Finanziari. <i>Rischi correlati a specificità della struttura</i> A motivo della leva finanziaria tipica degli Strumenti Finanziari, la performance del Sottostante può avere un impatto negativo più che proporzionale sul valore degli Strumenti Finanziari. Il valore nel tempo declina in relazione al periodo residuo alla liquidazione. In questa ipotesi, il valore di mercato degli Strumenti Finanziari scenderà a zero entro l'ultima Data di Esercizio possibile. <i>Rischi correlati a Covered Warrant Call</i> Se il prezzo del Sottostante scende i Titolari possono subire la perdita totale del loro capitale investito. <i>Rischi correlati a Covered Warrant Put</i> Se il prezzo del Sottostante sale, i Titolari possono subire la perdita totale del loro capitale investito. <i>Rischi correlati all'Importo Minimo di Esercizio</i> Poiché un quantitativo minimo di Strumenti Finanziari è necessario per l'esercizio degli stessi, un Titolare può non essere in grado di esercitare alcuni dei suoi Strumenti Finanziari. <i>Rischi correlati a Eventi di Riscatto</i> Al verificarsi di un Evento di Riscatto l'Emittente ha diritto di riscatto straordinario degli Strumenti Finanziari al rispettivo valore di mercato. Se il valore di mercato degli Strumenti Finanziari al momento rilevante è inferiore al Prezzo di Emissione o al prezzo di acquisto, il relativo Titolare sarà soggetto ad una parziale o totale perdita del capitale investito nonostante gli Strumenti Finanziari prevedano un pagamento minimo condizionale. <i>Rischi correlati a Turbative di Mercato</i> L'Agente per il Calcolo può rinviare date di valutazione e pagamenti ed effettuare valutazioni a propria discrezione agendo nel rispetto delle rilevanti pratiche di mercato e della buona fede. I Titolari non hanno diritto a richiedere interessi per ritardato pagamento. <i>Rischi derivanti da effetti negativi di accordi di hedging da parte dell'Emittente degli Strumenti Finanziari</i> L'ingresso o la conclusione di operazioni di hedging da parte dell'Emittente può, in singoli casi, avere un impatto negativo sul prezzo del Sottostante o di suoi componenti. • Principali rischi correlati al Sottostante o a componenti dello stesso
--	--	---

		Rischi generali <i>Nessun diritto di proprietà sul Sottostante o su componenti dello stesso</i> Il Sottostante o le componenti dello stesso non saranno detenute dall'Emittente a beneficio del Titolare, e di conseguenza, i Titolari non avranno alcun diritto di proprietà (e.g. diritti di voto, diritti di ricevere dividendi, pagamenti o altre distribuzioni, nonché altri diritti) in relazione al Sottostante o alle componenti dello stesso. Principali rischi correlati alle azioni La performance degli Strumenti Finanziari correlati ad azioni (i.e. Strumenti Finanziari correlati a indici quale Sottostante e azioni quali componenti dell'indice) dipende dalla performance delle rispettive azioni, che può essere influenzata da diversi fattori. Il pagamento di dividendi può avere un impatto negativo per il Titolare. Principali rischi correlati agli indici La performance di Strumenti Finanziari correlati ad indici è legata alla performance dei rispettivi indici, che dipende largamente dalla composizione e performance dei componenti degli indici. L'Emittente non ha alcuna influenza sul rispettivo indice o sul metodo di calcolo dell'indice. In generale, lo sponsor di un indice non si assume responsabilità. Di regola, un indice può essere modificato, cessato o sostituito da un indice successivo in ogni momento. I Titolari non partecipano, o possono partecipare solo parzialmente, ai dividendi o ad altre distribuzioni in relazione a componenti degli indici. Gli indici possono essere influenzati negativamente in modo non proporzionale in caso andamento sfavorevole degli stessi in un paese, regione o settore industriale. Gli Indici possono includere commissioni che influenzano negativamente la rispettiva performance. In futuro, a causa di provvedimenti di natura regolamentare, l'indice, in particolare, non potrà essere utilizzato come Sottostante degli Strumenti Finanziari, ovvero potrà esserlo solo in conformità alle mutate condizioni. Gli Strumenti Finanziari non hanno protezione del capitale. Gli investitori possono perdere in toto il proprio investimento o parte di tale investimento.
