Any restriction of the trading hours or the number of days on which trading takes place on the Relevant Exchange or, as the case may be, the Determining Futures Exchange, shall not constitute a Market Disruption Event provided that the restriction occurs due to a previously announced change in the rules of the Relevant Exchange or, as the case may be, the Determining Futures Exchange.

If at least two of the Reference Banks provide the Calculation Agent with such quotations, the respective Reference Rate will be the arithmetic mean (rounded if necessary to the nearest one thousandth of a percentage point, with 0.0005 being rounded upwards) of such quotations.

If on any Interest Determination Date only one or none of the Reference Banks provides the Calculation Agent with such quotations, the Calculation Agent will determine the Reference Rate in its reasonable discretion (§ 315 BGB).

The adjusted Risk Management Fee is valid during the period of the respective Adjustment Date (excluding) to the immediately following Adjustment Date (including). However it is entitled to adjust the Stop Loss-Spread in its reasonable discretion (§ 315 BGB) to the prevailing market conditions (e.g. an increased volatility of the Underlying) on each Trading Day (the **"Spread Adjustment"**). The Spread Adjustment is applicable as of the day of its notification pursuant to § 6 of the General Conditions (including) (the **"Spread Adjustment Day"**).

"Strike" means

- (a) on the First Trade Date the Initial Strike as specified in § 1 of the Product and Underlying Data,

§ 3

Exercise Right, Exercise, Knock-out, Exercise Notice, Payment

- (1) *Exercise Right:* Subject to the occurrence of a Knock-out Event, the Security Holder shall be entitled, according to the Terms and Conditions of these Securities, to demand for each Security the payment of the Differential Amount from the Issuer.
- (2) *Exercise:* The Exercise Right can be exercised by the Security Holder on each Exercise Date prior to 10:00 a.m. (Munich local time) pursuant to the provisions of paragraph (4) of this § 3.
- (3) *Knock-out:* Upon the occurrence of a Knock-out Event, the Exercise Right forfeits and the Knock-out Amount will be paid for each Security.
- (4) *Exercise Notice:* The Exercise Right shall be exercised by the Security Holder by transmission of a duly completed written Exercise Notice (the "**Exercise Notice**") to the Principal Paying Agent possibly per facsimile, using the form of notice which may be obtained from the Website of the Issuer or, respectively by specifying all information and declarations to the

facsimile number set out in such form of notice and by transferring the Securities stated in the Exercise Notice to the account of the Issuer, which is set out in the respective form of the Exercise Notice. For this purpose the Security Holder must instruct its depositary bank, which is responsible for the order of the transfer of the specified Securities.

The Exercise Right is deemed to be effectively exercised on that day on which (i) the Principal Paying Agent receives the duly completed Exercise Notice prior to 10:00 a.m. (Munich local time) and (ii) the Securities specified in the Exercise Notice will be credited to the account of the Issuer prior to 5:00 p.m. (Munich local time).

For Securities, for which a duly completed Exercise Notice has been transmitted in time, but which has been credited to the Issuer's account after 5:00 p.m. (Munich local time), the Exercise Right is deemed to be effectively exercised on that Banking Day, on which the Securities will be credited to the account of the Issuer prior to 5:00 p.m. (Munich local time).

For Securities, for which a Security Holder transmits an Exercise Notice, which does not comply with the aforementioned provisions, or, if the Securities specified in the Exercise Notice have been credited to the Issuer's Account after 5:00 p.m. (Munich local time) of the fifth Banking Day following the transmission of the Exercise Notice, the Exercise Right is deemed to be not effectively exercised.

The amount of the Securities for which the Exercise Right shall be exercised, must comply with the Minimum Exercise Amount or an integral multiple thereof. Otherwise the amount of the Securities specified in the Exercise Notice will be rounded down to the nearest multiple of the Minimum Exercise Amount and the Exercise Right is deemed to be not effectively exercised with regard to the amount of Securities exceeding such amount. An Exercise Notice on fewer Securities than the Minimum Exercise Amount is invalid and has no effect.

Securities received by the Issuer and for which no effective Exercise Notice exists or the Exercise Right deems to be not effectively exercised, will be retransferred by the Issuer without undue delay at the expense of the relevant Security Holder.

Subject to the aforementioned provisions, the transmission of an Exercise Notice constitutes an irrevocable declaration of intent of the relevant Security Holder to exercise the respective Securities.

- (5) *Payment:* The Differential Amount will be paid five Banking Days after the respective Valuation Date pursuant to the provisions of § 6 of the Special Conditions.

The Knock-out Amount will be paid five Banking Days after the day, on which the Knock-out Event has occurred, pursuant to the provisions of § 6 of the Special Conditions.

§ 4

Differential Amount, Knock-out Amount

- (1) *Differential Amount:* The Differential Amount per Security equals an amount in the Specified Currency, which will be calculated or, respectively, specified by the Calculation Agent as follows:

In the case of Securities, for which "Call" is specified in § 1 of the Product and Underlying Data:

Differential Amount = (Relevant Reference Price - Strike) x Ratio

However, the Differential Amount is not lower than the Minimum Amount.

In the case of Securities, for which "Put" is specified in § 1 of the Product and Underlying Data:

Differential Amount = (Strike - Relevant Reference Price) x Ratio

However, the Differential Amount is not lower than the Minimum Amount.

- (2) *Knock-out Amount:* The Knock-out Amount per Security equals an amount in the Specified Currency, which will be calculated or, respectively, specified by the Calculation Agent as follows:

In the case of Securities, for which "Call" is specified in § 1 of the Product and Underlying Data:

Knock-out Amount = (Exercise Price - Strike) x Ratio

However, the Knock-out Amount is not lower than the Minimum Amount.

In the case of Securities, for which "Put" is specified in § 1 of the Product and Underlying Data:

Knock-out Amount = (Strike - Exercise Price) x Ratio

However, the Knock-out Amount is not lower than the Minimum Amount.

- (3) When calculating or, respectively, determining the Differential Amount or, respectively, the Knock-out Amount, no fees, commissions or other costs charged by the Issuer or a third party authorised by the Issuer, will be taken into account.

§ 5

Issuer's Regular Call Right, Issuer's Extraordinary Call Right

- (1) *Issuer's Regular Call Right:* The Issuer may call the Securities in whole but not in part at each Exercise Date (the "**Regular Call Right**") and redeem them pursuant to § 4 (1) of the Special Conditions at the Differential Amount. In the case of such a call, the Exercise Date, at which the Issuer exercises its Regular Call Right (the "**Call Date**") is deemed to be the Valuation Date. The Exercise Right remains unaffected until the Call Date. With the beginning of the Call Date all Exercise Rights forfeit.

The Issuer will give notice of such call at least one month prior to the Call Date pursuant to § 6 of the General Conditions. Such notice shall be irrevocable and will specify the relevant Call Date.

The Differential Amount will be paid five Banking Days after the Call Date pursuant to the provisions of § 6 of the Special Conditions.

- (2) *Issuer's Extraordinary Call Right:* Upon the occurrence of a Call Event the Issuer may call the Securities extraordinarily by giving notice pursuant to § 6 of the General Conditions and redeem the Securities at their Cancellation Amount. Such call shall become effective at the time indicated in the notice. The application of §§ 313, 314 BGB remains reserved.

The "**Cancellation Amount**" shall be the fair market value of the Securities as of the tenth Banking Day before the extraordinary call becomes effective, determined by the Calculation Agent in its reasonable discretion (§ 315 BGB).

The Cancellation Amount will be paid within five Banking Days following the date as of which the extraordinary call becomes effective, or at the date specified in the above mentioned notice, as the case may be, pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards. However, at least the Minimum Amount shall be paid.
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until

the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.

- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such a payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the default interest rate established by law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on a Valuation Date, the respective Valuation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists. Should a Market Disruption Event with respect to the Underlying occur during a Dissolution Period, the respective Dissolution Period will be extended by the time, the Market Disruption Event has lasted.

Any Payment Date relating to such Valuation Date or Dissolution Period, as the case may be, shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days the Calculation Agent shall determine in its reasonable discretion (§ 315 BGB) the respective Reference Price or, respectively, the Exercise Price required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. Such Reference Price or, respectively, Exercise Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on the 9th Banking Day, taking into account the economic position of the Security Holders. This Reference Price shall be deemed to be the relevant price of the Underlying with respect to the determination of the occurrence of a Knock-out Event, even though it has not been published by the Index Sponsor.

If within these 8 Banking Days traded Derivatives of the Underlying or, respectively, its components expire and are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. In that case, the expiration date for those Derivatives is the relevant Valuation Date.

§ 8

Index Concept, Adjustments, Replacement Underlying, New Index Sponsor and New Index Calculation Agent, Replacement Specification

- (1) *Index Concept:* The basis for the calculations or, respectively, specifications of the Calculation Agent described in the Terms and Conditions of these Securities shall be the Underlying with its provisions currently applicable, as developed and maintained by the Index Sponsor, as well as the respective method of calculation, determination, and publication of the price of the Underlying (the "**Index Concept**") applied by the Index Sponsor. This shall also apply if during the term of the Securities changes are made or occur in respect of the Index Concept, or if other measures are taken, which have an impact on the Index Concept, unless otherwise provided in the below provisions.

- (2) *Adjustments:* Upon the occurrence of an Adjustment Event the Calculation Agent shall in its reasonable discretion (§ 315 BGB) adjust the Terms and Conditions of these Securities (in particular the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Calculation Agent) and/or all prices of the Underlying determined by the Calculation Agent on the basis of the Terms and Conditions of these Securities in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. Any adjustment will be performed taking into consideration any adjustments made by the Determining Futures Exchange to the there traded Derivatives linked to the Underlying, and the remaining term of the Securities as well as the latest available price of the Underlying. If the Calculation Agent determines that, pursuant to the rules of the Determining Futures Exchange, no adjustments were made to the Derivatives linked to the Underlying, the Terms and Conditions of these Securities regularly remain unchanged. The exercised adjustments and the date of the first application shall be notified according to § 6 of the General Conditions.
- (3) *Replacement Underlying:* In cases of an Index Replacement Event or a License Termination Event, the adjustment pursuant to paragraph (2) is usually made by the Calculation Agent in its reasonable discretion (§ 315 BGB) determining, which index should be used in the future as Underlying (the "**Replacement Underlying**"). If necessary, the Calculation Agent will make further adjustments to the Terms and Conditions of these Securities (in particular to the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Issuer) and/or all prices of the Underlying determined by the Calculation Agent pursuant to the Terms and Conditions of these Securities in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. The Replacement Underlying and the adjustments made as well as the time of its first application will be published in accordance with § 6 of the General Conditions. From the first application of the Replacement Underlying on, any reference to the replaced Underlying in the Terms and Conditions of these Securities shall be deemed to refer to the Replacement Underlying.
- (4) *New Index Sponsor and New Index Calculation Agent:* If the Underlying is no longer determined by the Index Sponsor but rather by another person, company or institution (the "**New Index Sponsor**"), then all calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall occur on the basis of the Underlying as determined by the New Index Sponsor. In this case, any references to the replaced Index Sponsor in the Terms and Conditions of these Securities shall be deemed as referring to the New Index Sponsor. If the Underlying is no longer calculated by the Index Calculation Agent but rather by another person, company or institution (the "**New Index Calculation Agent**"), then all calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall occur on the basis of the Underlying as calculated by the New Index Calculation Agent. In this case, any references to the replaced Index Calculation Agent in the Terms and Conditions of these Securities shall be deemed as referring to the New Index Calculation Agent.
- (5) *Replacement Specification:* If a price of the Underlying published by the Index Sponsor or the Index Calculation Agent, as the case may be, which is required pursuant to the Terms and Conditions of these Securities will subsequently be corrected and the correction (the "**Corrected Value**") will be published by the Index Sponsor or the Index Calculation Agent, as the case may be, after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish pursuant to § 6 of the General Conditions the relevant value by using the Corrected Value (the "**Replacement Specification**").
- (6) The application of §§ 313, 314 BGB remains reserved.

Rights attached to the Securities The Securities do not have a fixed term. Instead they run for an indefinite time unless a Knock-out Event (as defined in C.15) has occurred, the Security Holders exercise their Exercise Right or the Issuer exercises its Regular Call Right. Subject to the occurrence of a Knock-out Event, the Security Holders shall be entitled to demand the payment of the Differential Amount (as defined in C.15) per Security from the Issuer (the "Exercise Right"). The Exercise Right may be exercised by the Security Holder on each Exercise Date (as defined in C.16) prior to 10:00 a.m. (Munich local time). If a Knock-out Event has occurred, the Security Holders shall be entitled to demand the payment of the Knock-out Amount (as defined in C.15). The Issuer may call the Securities on any Exercise Date in whole but not in part and pay the Differential Amount (the "Regular Call Right"). The Issuer will notify such a call at least one month prior to the call. The Securities do not bear interest. Limitation of the rights Upon the occurrence of one or more Adjustment Events (as specified in the Final Terms) the Calculation Agent will in its reasonable discretion (§ 315 BGB) adjust the Terms and Conditions of these Securities and/or all prices of the Underlying determined by the Calculation Agent on the basis of the Terms and Conditions of the Securities, pursuant to the Final Terms, in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. Upon the occurrence of one or more Call Events (the "Call Events") (as specified in the Final Terms) the Issuer may call the Securities extraordinarily pursuant to the Final Terms and redeem the Securities at their Cancellation Amount. The "Cancellation Amount" is the fair market value of the Securities determined on the day specified in the relevant Final Terms by the Calculation Agent in its reasonable discretion (§ 315 BGB). The obligations of the Market Maker are regulated by the rules of the markets organized and managed by Borsa Italiana S.p.A., and the relevant instructions to such rules.

C.15	Effect of the underlying on the value of the securities	The Securities reflect the performance of the Underlying (as defined in C.20) and allow the Security Holder to participate in both the positive and negative performance of the Underlying during the term of the Securities. A change in the price of the Underlying may have a disproportional (leveraged) effect on the price of the Securities. Call Mini Future Securities are Securities where Security Holders participate in the price development of the Underlying. Subject to the influence of other price influencing factors, if the price of the Underlying rises, the price of the Security regularly rises. Subject to the influence of other price influencing factors, if the price of the Underlying falls, the price of the Securities regularly falls. Put Mini Future Securities are Securities where Security Holders participate in the reverse price development of the Underlying. Subject to the influence of other price influencing factors, if the price of the Underlying falls, the price of the Security regularly rises. Subject to the influence of other price influencing factors, if the price of the Underlying rises, the price of the Securities regularly falls. If <u>no</u> Knock-out Event has occurred, the payment of the Differential Amount will only be made, if the Security Holder exercises its Exercise Right or the Issuer exercises its Regular Call Right. If <u>a</u> Knock-out Event has occurred, the payment shall occur prematurely and shall consist of the Knock-out Amount. Upon issuance of the Securities the "Strike" corresponds to the Initial Strike (as specified in the Final Terms). In the case of Call Mini Future Securities the Strike generally rises on a daily basis in a certain amount. In the case of Put Mini Future Securities the Strike generally falls on a daily basis in a certain amount. The "Differential Amount" equals: - in the case of Call Mini Future Securities an amount by which the Relevant Reference Price (as defined in C.19) exceeds the Strike, multiplied by the Ratio (as specified in the Final Terms). - in the case of Put Mini Future Securities an amount by which the Relevant Reference Price (as defined in C.19) falls short of the Strike, multiplied by the Ratio. However, the Differential Amount is not lower than the Minimum Amount (as specified in the Final Terms). Upon issuance of the Securities the "Knock-out Barrier" corresponds to the initial Knock-out Barrier (as specified in the Final Terms). In the case of Call Mini Future Securities the Knock-out Barrier generally rises on a regular basis in a certain amount. In the case of Put Mini Future Securities the Knock-out Barrier generally falls on a regular basis in a certain amount. The "Knock-out Amount" equals - in the case of Call Mini Future Securities an amount by which the Exercise Price (as defined in C.19) exceeds the Strike, multiplied by the Ratio (as specified in the Final Terms). - in the case of Put Mini Future Securities an amount by which the Exercise Price (as defined in C.19) falls short of the Strike, multiplied by the Ratio. However, the Knock-out Amount is not lower than the Minimum Amount. A "Knock-out Event" has occurred, if - in the case of Call Mini Future Securities the price of the Underlying with continuous observation starting at the First Trade Date (as specified in the Final Terms) (including), is at any time on or below the Knock-out Barrier;
------	---	--

		- in the case of Put Mini Future Securities the price of the Underlying with continuous observation starting at the First Trade Date (including), is at any time on or above the Knock-out Barrier.
C.16	The expiration or maturity date of the derivative securities – the exercise date or final reference date	"Exercise Date" is the last Trading Date in the month of January of each year. "Valuation Date" is the Exercise Date, on which the Exercise Right is effectively exercised, or respectively the Call Date on which the Issuer exercises its Regular Call Right.
C.17	Settlement procedure of the securities	All payments shall be made to UniCredit Bank AG (the "Principal Paying Agent"). The Principal Paying Agent shall pay the amounts due to the Clearing System for credit to the respective accounts of the depository banks for transfer to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such payment. "Clearing System" means Monte Titoli S.p.A..
C.18	Description of how any return on derivative securities takes place	Payment of the Differential Amount five Banking Days after the respective Valuation Date or payment of the Knock-out Amount five Banking Days after the day, on which the Knock-out Event has occurred.
C.19	Exercise price or final reference price of the underlying	"Exercise Price" means an amount in the Underlying Currency (as specified in the Final Terms) which the Issuer would receive following the liquidation of hedging transactions for an Underlying or its components. "Relevant Reference Price" means the Reference Price on the respective Valuation Date. The Reference Price is specified in the table in the Annex to this summary.
C.20	Type of the underlying and description where information on the underlying can be found	The Underlying is an Index as specified in the table in the Annex to this summary. For further information about the Underlying and the past and the future performance of the Underlying and its volatility, please refer to the Website, as specified in the table below.

D. RISKS

D.2	Key information on the key risks that are specific to the Issuer	<i>Potential investors should be aware that in the case of the occurrence of one of the below mentioned risk factors the securities may decline in value and that they may sustain a total loss of their investment.</i> • Macroeconomic Risk Risks from a deterioration in the macroeconomic development and/or the financial markets and from geopolitical uncertainties. • Systemic Risk
-----	--	--

	Risks from disruptions or the functional collapse of the financial system or parts of it. • Credit Risk (i) Risks from changes in the credit rating of a contracting party (borrower, counterparty, issuer or country); (ii) Risks from a deterioration of the overall economic situation and negative effects on the demand for credit and the solvency of the borrowers of HVB Group; (iii) Risks from a decrease in value of credit collateral; (iv) Risks from derivative/trading business; (v) Risks from intra-group credit exposures; (vi) Risks from exposures to sovereigns / public sector. • Market Risk (i) Risk of potential losses that can arise in response to adverse changes in market prices, other price-influencing parameters or trading-related events; (ii) Risk for trading and banking books from a deterioration in market conditions; (iii) Interest rate and foreign currency risk. • Liquidity Risk (i) Risk that the HVB Group will not be able to meet its payment obligations on time or in full; (ii) Risks from the procurement of liquidity; (iii) Risks from intra-group liquidity transfers; (iv) Market liquidity risk. • Operational Risk (i) Risk of losses resulting from inadequate or failed internal processes, people and systems, as well as from external events; (ii) IT risks; (iii) Compliance Risk; (iv) Legal and tax risks. • Business Risk Risks of losses arising from unexpected negative changes in the business volume and/or margins. • Real estate Risk Risk of losses resulting from changes in the fair value of the real estate portfolio of HVB Group. • Financial investment risk Risk of decreases in the value of the investment portfolio of the HVB Group. • Reputational Risk Risk of a negative effect on the income statement caused by adverse reactions by stakeholders due to a changed perception of HVB Group. • Strategic Risk (i) Risk that results from management either not recognising or not correctly assessing significant developments or trends in the HVB Group's environment; (ii) Risks arising from the strategic orientation of HVB Group's business model; (iii) Risks arising from the consolidation of the banking market; (iv) Risks arising from changing competitive conditions in the German financial sector; (v) Risks arising from a change in HVB's rating. • Regulatory Risks (i) Risks arising from changes to the regulatory and statutory environment of HVB Group; (ii) Risks in connection with potential resolution measures or a reorganisation proceeding. • Pension risk Risk that the pension provider will have to provide additional capital to service the vested pension commitments. • Risks arising from outsourcing activities Cross-risk-type, which affects the following risk types in particular:
--	---

		operational risk, reputational risk, strategic risk, business risk, credit, market and liquidity risk. • Risks from concentrations of risk and earnings Risks from concentrations of risk and earnings indicate increased potential losses and represent a business-strategy risk for HVB Group. • Risks from the stress testing measures imposed on HVB Group The business performance of HVB and HVB Group could be negatively affected in case of a poor stress test performance by HVB, HVB Group, UniCredit S.p.A. or one of the financial institutions with which they do business. • Risks from inadequate risk measurement models It is possible that the internal models of HVB and HVB Group could be rated as inadequate following investigations or verification through the regulatory authorities, or that they could underestimate existing risks. • Unidentified/unexpected risks HVB and HVB Group could incur greater losses than those calculated with the current risk management methods or losses previously left out of its calculations entirely.
D.6	Key information on the key risks that are specific to the securities	In the opinion of the Issuer, the key risks described below may, with regard to the Security Holder, adversely affect the value of the Securities and/or the amounts to be distributed under the Securities and/or the ability of Security Holders to sell the Securities at a reasonable price prior to their redemption. • Potential conflicts of interest The risk of conflicts of interest (as described in E.4) is related to the possibility that the Issuer, distributors or any of their affiliates, in relation to certain functions or transactions, may pursue interests which may be adverse to or do not regard the interests of the Security Holders. • Key risks related to the Securities Key risks related to the market Under certain circumstances a Security Holder may not be able to sell his Securities at all or at an adequate price prior to their redemption. Even in the case of an existing secondary market it cannot be ruled out that the Security Holder may not be in a position to dispose of the Securities in the case of an unfavourable development of the Underlying or its components or of a currency exchange rate, e.g. if such development occurs outside of the trading hours of the Securities. The market value of the Securities will be affected by the creditworthiness of the Issuer and a number of other factors (e.g. exchange rates, prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability of the Securities and Underlying-related factors) and may be substantially lower than the Purchase Price. Security Holders may not rely on being able to sufficiently hedge against price risks arising from the Securities at any time. Key risks related to the Securities in general The Issuer may possibly fail to perform its obligations under the Securities in whole or in part, e.g., in case of an insolvency of the Issuer or due to governmental or regulatory interventions. Such risk is not protected by a deposit protection scheme or any similar compensation scheme. An investment into the Securities may be illegal or unfavourable for a potential investor or not suitable, with regard to his knowledge or experience and his financial needs, goals and situation.

	The real rate of return of an investment into the Securities may be reduced or may be zero or even negative (e.g., due to incidental costs in connection with the purchase, holding and disposal of the Securities, future money depreciation (inflation) or tax effects). The differential amount may be less than the Issue Price or the respective purchase price and, under certain circumstances, no interest or ongoing payments will be made. The proceeds from the Securities may possibly not be sufficient to make interest or principal payments arising from a financing purchase of the Securities and require additional capital. <i>Risks related to Underlying-linked Securities</i> <i>Risks arising from the influence of the Underlying or its components on the market value of the Securities</i> The market value of the Securities and the amounts payable under the Securities significantly depend on the price of the Underlying or its components. It is not possible to predict the price development of the Underlying or its components in the future. Additionally, the market value of the Securities will be affected by a number of Underlying-related factors. <i>Risks arising from the fact that the observation of the Underlying or its components occurs only at specified dates or times or periods</i> Due to the fact that the observation of the Underlying or its components may occur only at specified dates, times or periods, amounts payable under the Securities may be considerably lower than the price of the Underlying or its components may have suggested. <i>Risks due to open-end structure</i> Securities may be issued without a fixed term. Security Holders have no claim for repayment until a Call Right of the Issuer or the Exercise Right of the Security Holder has been exercised. <i>Risks related to a Strike</i> A strike can lead to the Security Holders participate either to a lesser extent in a favourable performance of the Underlying or its components or to a greater extent in an unfavourable performance of the Underlying or its components. <i>Risks related to a Ratio</i> A ratio may result in the Security being in economic terms similar to a direct investment in the relevant Underlying or its components, but being nonetheless not fully comparable with such a direct investment <i>Special risks related to reference rates</i> During the term of the Securities it cannot be ruled out that underlying reference rates will no longer be available, in the relevant form at the time of the issuance of the Securities or, that in connection with the determination or publication of these reference rates it may come to inaccuracies or even manipulations by the persons responsible for the determination and/or publication, or by any other market participants. <i>Currency and Currency Exchange Rate risk with respect to the Underlying or its components</i> If the Underlying or its components are denominated in a currency other than the Specified Currency, there is a Currency Exchange Rate risk, as long as it is not excluded in the relevant Final Terms. <i>Risks related to Adjustment Events</i> Adjustments may have a substantial negative impact on the value and the future performance of the Securities as well as on the amounts to be
--	--

	distributed under the Securities. Adjustment events may also lead to an extraordinary early termination of the Securities. <i>Risks related to structure specifics</i> Because of the leverage typical for the Securities, the performance of the Underlying may have a disproportionately strong adverse effect on the value of the Securities. The time value declines in relation to the time remaining to maturity. In this case the market value of the Securities will fall to zero by the last possible Exercise Date. <i>Risks related to Call Securities</i> If the price of the Underlying falls, the Security Holders may suffer a total loss of their invested capital. <i>Risks related to Put Securities</i> If the price of the Underlying rises, the Security Holders may suffer a total loss of their invested capital. <i>Risks related to the Knock-out Barrier</i> If a Knock-out Event occurs, the Security Holder may suffer an immediate partial or total loss of his investment or lose the right to demand payment of certain amounts under the Securities. Furthermore, the Security Holder bears the reinvestment risk. <i>Risks related to the Minimum Exercise Amount</i> If the Final Terms provide that a certain number of Securities is required in order to exercise the Securities, a Security Holder may be unable to exercise some of his Securities. <i>Risks related to Securities which provide for a constant adjustment of the Strike and Knock-out Barrier</i> If the Final Terms provide that the Strike and Knock-out Barrier are subject to a constant adjustment, the risk of the occurrence of a Knock-out Event may increase and the amounts payable under Securities as well as the value of the Securities may significantly reduce. <i>Risks arising from an Issuer's Regular Call Right</i> In case of Securities with an Issuer's Call Right, Securities may be called within the Issuer's sole discretion at certain dates. If the price of the Underlying is low at the time of the Issuer's regular call, the Security Holder may suffer a partial or total loss of its invested capital. <i>Risks arising from the Exercise Right of Security Holders</i> In case of Securities with an Exercise Right of the Security Holders, Securities may be called at certain dates. If the price of the Underlying is low at the time of the exercise, the Security Holder may suffer a partial or total loss of its invested capital. <i>Risks related to Call Events</i> Upon the occurrence of a Call Event the Issuer has the right to extraordinarily call the Securities at their market value. If the market value of the Securities at the relevant time is lower than the Issue Price or the Purchase Price, the respective Security Holder will suffer a partial or total loss of its invested capital even if the Securities provide for a conditional minimum payment. <i>Risks related to Market Disruption Events</i> The Calculation Agent may defer valuations and payments and make determination in its reasonable discretion. Security Holders are not entitled to demand interest due to such delayed payment. <i>Risks arising from negative effects of hedging arrangements by the Issuer on the Securities</i>
--	--

		The entering or the liquidation of hedging transactions by the Issuer may, in individual cases, adversely affect the price of the Underlying or its components. • Key risks related to the Underlying or its components <i>No rights of ownership of the Underlying or its components</i> The Underlying or its components will not be held by the Issuer for the benefit of the Security Holders, and as such, Security Holders will not obtain any rights of ownership (e.g., voting rights, rights to receive dividends or other distributions or other rights) with respect to the Underlying or its components. Key risks related to shares The performance of Share-linked Securities (i.e. Securities related to indices as components of the Underlying and shares as index components) depends on the performance of the respective shares, which may be subject to certain factors. Dividend payments may have an adverse effect on the Security Holder. Key risks related to indices The performance of Index-linked Securities depends on the performance of the respective indices, which largely depend on the composition and the performance of their index components. The Issuer may neither have influence on the respective index nor the index concept. If the Issuer also acts as sponsor or calculation agent of the index, this may lead to conflicts of interest. In general, an index sponsor does not assume liability. Generally, an index may at any time be altered, terminated or replaced by any successor index. Security Holders may not or only partly participate in dividends or other distributions in relation to the index components. If the index entails a leverage factor, investors bear an enhanced risk of losses. Indices may be affected disproportionately negative in the case of an unfavourable development in a country, region or industrial sector. Indices may include fees which negatively affect their performance. Due to regulatory measures in the future the Index may not be used as Underlying of the Securities or only subject to changed conditions. The Securities are not capital protected. Investors may lose the value of their entire investment or part of it.

C. STRUMENTI FINANZIARI

C.1	Descrizione del tipo e della classe degli Strumenti Finanziari	Strumenti Finanziari Call Mini Future Strumenti Finanziari Put Mini Future Gli Strumenti Finanziari saranno emessi come Certificati non alla pari. I "Certificati" sono titoli al portatore (<i>Inhaberschuldverschreibungen</i>) ai sensi della Sezione 793 del Codice Civile tedesco (<i>Bürgerliches Gesetzbuch, BGB</i>). Gli Strumenti Finanziari sono rappresentati da un certificato globale permanente senza cedola. I portatori degli Strumenti Finanziari (i "Titolari") non sono autorizzati a ricevere Strumenti Finanziari in forma effettiva. L'ISIN è specificato nella tabella contenuta nell'Allegato alla presente nota di sintesi.
C.2	Valuta di emissione degli Strumenti Finanziari	Gli Strumenti Finanziari saranno emessi in Euro "EUR"(la " Valuta di Emissione ").

C.5	Eventuali restrizioni alla libera trasferibilità degli strumenti finanziari	Non applicabile. Non sono previste restrizioni alla libera trasferibilità degli Strumenti Finanziari.
C.8	Descrizione dei diritti connessi agli strumenti finanziari compreso il "ranking" e le restrizioni a tali diritti	Diritto applicabile agli Strumenti Finanziari Gli Strumenti Finanziari, per forma e contenuto, e tutti i diritti ed obblighi dell'Emittente e dei Titolari, sono regolati dalla legge della Repubblica Federale Tedesca. Diritti collegati agli Strumenti Finanziari Gli Strumenti Finanziari non hanno una durata fissa. Al contrario, la durata è illimitata e fino al verificarsi di un Evento di Knock-out (come definito sub C.15), i Titolari fanno valere il proprio Diritto di Esercizio ovvero l'Emittente esercita il proprio Diritto di Riscatto Regolare. Salvo il verificarsi di un Evento di Knock-out, i Titolari hanno il diritto a chiedere il pagamento dell'Importo Differenziale (come definito sub C.15) per Strumento Finanziario da parte dell'Emittente (il "Diritto di Esercizio"). Il Diritto di Esercizio può essere fatto valere dal Titolare ad ogni Data di Esercizio (come definita sub C.16) prima delle ore 10:00 (ora locale di Monaco). Qualora si sia verificato un Evento di Knock-out, i Titolari hanno diritto a chiedere il pagamento dell'Importo Knock-out (come definito sub C.15). L'Emittente può riscattare gli Strumenti Finanziari ad ogni Data di Esercizio per l'intero e non in parte e pagare l'Importo Differenziale (il "Diritto di Riscatto Regolare"). L'Emittente dovrà comunicare l'esercizio del riscatto almeno un mese prima del riscatto. Gli Strumenti Finanziari non pagano interessi. Limitazione dei diritti Al ricorrere di uno o più Eventi di Rettifica (come definiti nelle Condizioni Definitive) l'Agente per il Calcolo modificherà a propria ragionevole discrezione (§ 315 BGB) i Termini e le Condizioni di questi Strumenti Finanziari e/o tutti i prezzi dei Sottostanti determinati dall'Agente per il Calcolo sulla base dei Termini e le Condizioni degli Strumenti Finanziari, conformemente alle Condizioni Definitive, in modo tale che la posizione economica dei Titolari resti immodificata nella maggior misura possibile. Al ricorrere di uno o più Eventi di Riscatto (gli "Eventi di Riscatto") (come specificati nelle Condizioni Definitive) l'Emittente può riscattare in via straordinaria gli Strumenti Finanziari conformemente alle Condizioni Definitive e rimborsare gli Strumenti Finanziari al loro Importo di Riscatto. L'"Importo di Riscatto" è il valore equo di mercato degli Strumenti Finanziari determinato alla data specificata nelle Condizioni Definitive dall'agente per il Calcolo a propria ragionevole discrezione (§ 315 BGB). Status degli Strumenti Finanziari Gli obblighi derivanti dagli Strumenti Finanziari costituiscono obbligazioni dirette, incondizionate e non subordinate dell'Emittente e, salvo quanto diversamente previsto dalla legge, sono parimenti ordinate con le altre obbligazioni incondizionate e non subordinate presenti e future dell'Emittente.
C.11	Ammissione alla negoziazione	Sarà presentata istanza per l'ammissione a quotazione degli Strumenti Finanziari con efficacia dal 03/07/2017 presso i seguenti mercati regolamentati o altri mercati equivalenti: ● Borsa Italiana S.p.A. – SeDeX market La prima data di quotazione sarà specificata nell'avviso di ammissione alla quotazione pubblicato da Borsa Italiana S.p.A.

		UniCredit Bank AG (ovvero il "Market Maker") si impegna a fornire la liquidità mediante proposte di acquisto e vendita conformemente ai regolamenti di Borsa Italiana, dove è prevista la quotazione degli Strumenti Finanziari. Gli obblighi del Market Maker sono stabiliti dai regolamenti dei mercati organizzati e gestiti da Borsa Italiana, e dalle istruzioni ad essi relative.
C.15	Effetto del sottostante sul valore degli strumenti finanziari	Gli Strumenti Finanziari riflettono la performance del Sottostante (come definito sub C.20) e consentono al Titolare di partecipare alla performance sia positiva sia negativa del Sottostante nel corso della durata degli Strumenti Finanziari. Una variazione del prezzo del Sottostante può avere un effetto più che proporzionale (con leva finanziaria) sul prezzo degli Strumenti Finanziari. Gli Strumenti Finanziari Call Mini Future sono Strumenti Finanziari in cui il Titolare partecipa all'andamento del prezzo del Sottostante. Soggetto all'influenza di altri fattori che influenzano il prezzo, se il prezzo del Sottostante aumenta, di regola il prezzo dello Strumento Finanziario aumenta. Soggetto all'influenza di altri fattori che influenzano il prezzo, se il prezzo del Sottostante decresce, di regola il prezzo dello Strumento Finanziario decresce. Gli Strumenti Finanziari Put Mini Future sono Strumenti Finanziari in cui il Titolare partecipa in modo inversamente proporzionale all'andamento del prezzo del Sottostante. Soggetto all'influenza di altri fattori che influenzano il prezzo, se il prezzo del Sottostante decresce, di regola il prezzo dello Strumento Finanziario aumenta. Soggetto all'influenza di altri fattori che influenzano il prezzo, se il prezzo del Sottostante aumenta, di regola il prezzo dello Strumento Finanziario decresce. Qualora <u>non si sia</u> verificato alcun Evento di Knock-out, il pagamento dell'Importo Differenziale verrà eseguito a condizione che il Titolare faccia valere il proprio Diritto di Esercizio o l'Emittente eserciti il proprio Diritto di Riscatto Regolare. Qualora <u>si sia</u> verificato un Evento di Knock-out, il pagamento dell'Importo Knock-out verrà eseguito in anticipo. Alla data di emissione degli Strumenti Finanziari lo "Strike" corrisponde allo Strike Iniziale (come indicato nelle Condizioni Definitive). Nel caso di Strumenti Finanziari Call Mini Future lo Strike generalmente aumenta su base giornaliera di un certo importo. Nel caso di Strumenti Finanziari Put Mini Future lo Strike generalmente decresce su base giornaliera di un certo importo. L' "Importo Differenziale" equivale: - nel caso di Strumenti Finanziari Call Mini Future all'importo di cui il Prezzo di Riferimento Rilevante (come definito sub C.19) supera lo Strike, moltiplicato per il Multiplo (come indicato nelle Condizioni Definitive); - nel caso di Strumenti Finanziari Put Mini Future all'importo di cui il Prezzo di Riferimento Rilevante (come definito sub C.19) è inferiore allo Strike, moltiplicato per il Multiplo. Pertanto, l'Importo Differenziale non può essere inferiore all'Importo Minimo (come specificato nelle Condizioni Definitive). Alla data di emissione degli Strumenti Finanziari la "Barriera di Knock-out" corrisponde alla Barriera di Knock-out Iniziale (come indicata nelle Condizioni Definitive). Nel caso di Strumenti Finanziari Call Mini Future la Barriera di Knock-out generalmente aumenta di un certo ammontare con regolarità. Nel caso di Strumenti Finanziari Put Mini Future la Barriera di Knock-out generalmente diminuisce di un certo ammontare con regolarità. L' "Importo di Knock-out" equivale: - nel caso di Strumenti Finanziari Call Mini Future all'importo di cui il Prezzo di Esercizio (come definito sub C.19) supera lo Strike moltiplicato per il Multiplo (come indicato nelle Condizioni Definitive); - nel caso di Strumenti Finanziari Put Mini Future all'importo di cui il Prezzo di

		Esercizio (come definito sub C.19) è inferiore allo Strike moltiplicato per il Multiplo. Peraltro, l'Importo di Knock-out non può essere inferiore all'Importo Minimo. Un "Evento di Knock-out" si verifica qualora: - nel caso di Strumenti Finanziari Call Mini Future il prezzo del Sottostante con osservazione continua a partire dal Primo Giorno di Negoziazione (come indicato nelle Condizioni Definitive) (incluso) in qualsiasi momento tocchi o scenda al di sotto della Barriera di Knock-Out; - nel caso di Strumenti Finanziari Put Mini Future il prezzo del Sottostante con osservazione continua a partire dal Primo Giorno di Negoziazione (incluso) in qualsiasi momento tocchi o superi la Barriera di Knock-Out.
C.16	La data di scadenza degli strumenti derivati – la data di esercizio o la data di riferimento finale	La "Data di Esercizio" è l'ultimo Giorno di Negoziazione nel mese di gennaio di ogni anno. La "Data di Valutazione" è la Data di Esercizio nella quale il Diritto di Esercizio è effettivamente fatto valere, o rispettivamente la Data di Riscatto nella quale l'Emittente esercita il proprio Diritto di Riscatto Regolare.
C.17	Modalità di regolamento degli strumenti derivati	Ogni pagamento dovrà essere eseguito a UniCredit Bank AG (l'"Agente Principale di Pagamento"). L'Agente Principale di Pagamento dovrà corrispondere gli importi maturati presso il Sistema di Compensazione da accreditarsi sui rispettivi conti delle banche depositarie per il trasferimento sui conti dei Titolari. Il pagamento al Sistema di Compensazione manleva l'Emittente dai propri obblighi derivanti dagli Strumenti Finanziari in relazione all'importo di tale pagamento. "Sistema di Compensazione" significa Monte Titoli S.p.A.
C.18	Descrizione delle modalità secondo le quali si generano i proventi degli strumenti derivati	Pagamento dell'Importo Differenziale cinque Giorni Lavorativi dopo la relativa Data di Valutazione o pagamento dell'Importo di Knock-out cinque Giorni Lavorativi dopo il giorno in cui l'Evento di Knock-out si è verificato.
C.19	Prezzo di esercizio o prezzo di riferimento definitivo del sottostante	"Prezzo di Esercizio" significa un importo nella Valuta di Emissione (come indicata nelle Condizioni Definitive) che l'Emittente potrebbe ricevere a seguito di liquidazione delle transazioni a fini di <i>hedging</i> per un Sottostante o delle sue componenti. "Prezzo di Riferimento Rilevante" significa il Prezzo di Riferimento alla rispettiva Data di Valutazione. Il Prezzo di Riferimento è specificato nella tabella contenuta nell'Allegato alla presente nota di sintesi.
C.20	Descrizione del tipo di sottostante e di dove siano reperibili le informazioni relative al sotto-	Il Sottostante è un Indice specificato nella tabella contenuta nell'Allegato alla presente nota di sintesi. D. RISCHI

D.2	Informazioni fondamentali sui principali rischi che sono specifici e individuali per l'Emittente	<i>I potenziali investitori devono essere consapevoli che, qualora si verifichi uno dei seguenti fattori di rischio, il valore degli strumenti finanziari potrebbe ridursi con la conseguente perdita totale del capitale investito.</i> • Rischio Macroeconomico Rischi per effetto di un deterioramento nel quadro di sviluppo macroeconomico e/o nei mercati finanziari e per effetto di incertezze geopolitiche. • Rischio Sistemico Rischi per effetto di disservizi o del collasso funzionale del sistema finanziario o parti di esso. • Rischio di Credito (i) Rischi per effetto di cambiamenti nel rating di una delle parti contrattuali (debitore, controparte, emittente o paese); (ii) Rischi per effetto di un deterioramento della situazione economica complessiva e degli effetti negativi sulla domanda di credito e la solvibilità dei debitori del Gruppo HVB; (iii) Rischi per effetto di un decremento del valore delle garanzie sui crediti; (iv) Rischi per effetto dell'attività di negoziazione/sui derivati; (v) Rischi per effetto dell'esposizione creditizia intra-gruppo; (vi) Rischi per l'esposizione verso titoli del debito sovrano / settore pubblico. • Rischio di Mercato (i) Rischi di perdite potenziali che possono sorgere in risposta a variazioni avverse nei prezzi di mercato, in altri parametri che influiscono sul prezzo o in eventi connessi alla negoziazione; (ii) Rischi per i portafogli di negoziazione e bancari per effetto di un deterioramento delle condizioni di mercato; (iii) Rischi di tasso d'interesse e di valuta estera. • Rischio di Liquidità (i) Rischio che il Gruppo HVB non sia in grado di adempiere alle proprie obbligazioni di pagamento alle scadenze ovvero pienamente; (ii) Rischi per effetto della raccolta di liquidità; (iii) Rischi per effetto di trasferimenti intra-gruppo di liquidità; (iv) Rischio di liquidità di mercato. • Rischio Operativo (i) Rischio di perdite derivanti da processi interni, risorse umane o sistemi difettosi o inadeguati o eventi esterni; (ii) Rischi informatici; (iii) Rischio connesso ad obblighi di <i>compliance</i>; (iv) Rischi legali e fiscali. • Rischio di Business Rischi di perdite dovute a inattesi cambiamenti nel volume d'affari e/o nei margini delle attività. • Rischio da investimenti di natura immobiliare Rischio di perdite derivanti da cambiamenti nel valore di mercato del portafoglio immobiliare del Gruppo HVB. • Rischio da investimenti di natura finanziaria Rischio di diminuzioni nel valore del portafoglio di investimenti del Gruppo HVB. • Rischio di Reputazione Rischi di un effetto negativo sul Conto Economico emergente da reazioni avverse da parte degli azionisti derivanti da una differente percezione del Gruppo HVB. • Rischio Strategico (i) Rischio che emerge per effetto dell'eventualità che il management non

		riconosca o non valuti correttamente importanti evoluzioni o andamenti nell'ambito del Gruppo HVB; (ii) Rischi dovuti a orientamenti strategici del modello aziendale del Gruppo HVB; (iii) Rischi dovuti al consolidamento del mercato bancario; (iv) Rischi dovuti a mutevoli condizioni competitive del settore finanziario tedesco (v) Rischi dovuti a un cambiamento del rating di HVB. • Rischi regolamentari (i) Rischi dovuti a cambiamenti nel quadro regolamentare e statutario del Gruppo HVB; (ii) Rischi connessi a possibili misure liquidatorie o a procedimenti riorganizzativi. • Rischio previdenziale Rischio che il destinatario di obblighi previdenziali debba fornire ulteriore capitale per far fronte agli impegni previdenziali maturati. • Rischi dovuti ad attività di esternalizzazione Tipologia di rischio trasversale, che in particolare può colpire le seguenti tipologie di rischi: rischio operativo, rischio di Reputazione, rischio Strategico, rischio di Business, rischio di Credito, di Mercato e di Liquidità. • Rischi per effetto della concentrazione dei rischi e dei ricavi Il rischio per effetto della concentrazione dei rischi e dei ricavi indica l'incremento delle perdite potenziali e rappresenta un rischio Strategico e di Business del Gruppo HVB. • Rischi per effetto dell'imposizione in capo al Gruppo HVB di misure di stress test I risultati di business di HVB e del Gruppo HVB potrebbero essere influenzati negativamente in caso di scarsi risultati emergenti dagli stress test di HVB, del Gruppo HVB, UniCredit S.p.A. o una delle istituzioni finanziarie con le quali essi operano. • Rischi per effetto di inadeguati modelli di valutazione dei rischi E' possibile che i modelli interni di HVB e del Gruppo HVB vengano valutati come inadeguati al seguito di verifiche e ispezioni condotte dalle autorità di vigilanza, o che essi possano sottostimare rischi esistenti. • Rischi non identificati/inattesi HVB e il Gruppo HVB potrebbero incorrere in perdite maggiori di quelle calcolate secondo i vigenti metodi di risk management o in perdite in precedenza del tutto escluse dai propri calcoli.
D.6	Informazioni fondamentali sui principali rischi che sono specifici per gli strumenti finanziari	L'Emittente ritiene che i principali rischi descritti di seguito possono, con riferimento ai Titolari, influenzare negativamente il valore degli Strumenti Finanziari e/o gli importi da distribuire derivanti dagli Strumenti Finanziari e/o la capacità dei Titolari di cedere gli Strumenti Finanziari ad un prezzo ragionevole prima del relativo rimborso. • Potenziati conflitti di interesse Il rischio di conflitti di interessi (come descritto sub E.4) è correlato alla possibilità che l'Emittente, collocatori o rispettivi affiliati perseguano, in relazione a talune funzioni o operazioni, interessi che possono o meno essere contrari agli interessi dei Titolari. • Principali rischi correlati agli Strumenti Finanziari Principali rischi correlati al mercato In alcune circostanze un Titolare può non essere in grado di rivendere i propri Strumenti Finanziari ovvero di cederli ad un prezzo adeguato prima del rimborso. Anche nell'ipotesi di esistenza di un mercato secondario non si può escludere che il Titolare possa non trovarsi in grado di cedere gli Strumenti Finanziari in ipotesi di un'evoluzione sfavorevole del Sottostante o delle sue

		componenti o di un tasso di cambio, ad esempio qualora tale sviluppo si verifichi al di fuori dell'orario di contrattazione degli Strumenti Finanziari. Il valore di mercato degli Strumenti Finanziari sarà influenzato dalla solvibilità dell'Emittente e da ulteriori fattori (e.g., tassi di cambio, interesse attuale e tassi di rendimento, il mercato per strumenti finanziari similari, le generali condizioni economiche, politiche e cicliche, la negoziabilità degli Strumenti Finanziari e dei fattori correlati al Sottostante) e può essere sostanzialmente inferiore al prezzo di Acquisto. I Titolari non possono fare affidamento sulla possibilità di tutelarsi in qualsiasi momento dai rischi di prezzo derivanti dagli Strumenti Finanziari. Principali rischi correlati agli Strumenti Finanziari in generale L'Emittente potrebbe non essere in grado di adempiere, in tutto o in parte, ai propri obblighi derivanti dagli Strumenti Finanziari, e.g. in caso di insolvenza dell'Emittente o per effetto di interventi governativi o regolamentari. A fronte di tale rischio non è previsto alcun sistema di garanzia dei depositi né alcun sistema di indennizzo analogo. Un investimento negli Strumenti Finanziari potrebbe essere contrario alla legge o non favorevole per un potenziale investitore ovvero inadatto in considerazione della propria conoscenza o esperienza, dei propri bisogni finanziari, dei propri obiettivi e della propria situazione. Il tasso di rendimento reale di un investimento negli Strumenti Finanziari può ridursi a zero ovvero assumere valori negativi (e.g., a causa di costi accessori connessi all'acquisto, alla detenzione e alla dismissione degli Strumenti Finanziari, a future svalutazioni monetarie (inflazione) o ad effetti fiscali). L'importo differenziale può essere inferiore al Prezzo di Emissione o al rispettivo prezzo di acquisto e, in alcune circostanze, non verrà corrisposto alcun interesse né verranno eseguiti pagamenti nel corso del periodo di detenzione degli Strumenti Finanziari. I proventi degli Strumenti Finanziari potrebbero non essere sufficienti a generare interessi o a permettere di eseguire i pagamenti dovuti per effetto dell'acquisto degli Strumenti Finanziari mediante finanziamento richiedendo capitale aggiuntivo. Rischi correlati a Strumenti Finanziari collegati a Sottostanti <i>Rischi dovuti all'influenza del Sottostante o di componenti dello stesso sul valore di mercato degli Strumenti Finanziari</i> Il valore di mercato degli Strumenti Finanziari e gli importi erogabili derivanti dagli Strumenti Finanziari dipendono significativamente dal prezzo del Sottostante o dai componenti dello stesso. L'evoluzione futura del prezzo del Sottostante o di componenti dello stesso non è prevedibile. Inoltre, il valore di mercato degli Strumenti Finanziari sarà influenzato da diversi fattori correlati al Sottostante. <i>Rischi dovuti al fatto che la valutazione del Sottostante o delle componenti dello stesso avviene solo in date, momenti o periodi specificati</i> A causa del fatto che la valutazione del Sottostante o di componenti dello stesso può avvenire solo in date, momenti o periodi specificati, i proventi erogabili derivanti dagli Strumenti Finanziari possono essere considerevolmente più bassi rispetto al prezzo che il Sottostante o componenti dello stesso potrebbero aver suggerito. <i>Rischi dovuti alla struttura open-end</i> Gli Strumenti Finanziari possono essere emessi senza una scadenza fissa. I Titolari non hanno diritto al rimborso fino a quando non venga esercitato un Diritto di Riscatto da parte dell'Emittente o venga fatto valere il Diritto di Esercizio da parte del Titolare. <i>Rischi correlati allo Strike</i>
--	--	--

		I Titolari possono partecipare in misura minore ad una performance favorevole del Sottostante o di componenti dello stesso o in misura maggiore ad una performance non favorevole del Sottostante o di componenti dello stesso. <i>Rischi correlati ad un Multiplo</i> Un multiplo può fare sì che lo Strumento Finanziario sia analogo, sebbene non del tutto assimilabile, in termini economici ad un investimento diretto nel relativo Sottostante o nelle componenti dello stesso. <i>Rischi particolari correlati ai tassi di riferimento</i> Durante il periodo di vigenza degli Strumenti Finanziari non si può escludere che i tassi di riferimento sottostanti non risultino più disponibili, nella formula rilevante al momento dell'emissione degli Strumenti Finanziari, oppure che in connessione con la determinazione o la pubblicazione di tali tassi di riferimento possano derivarne inaccuratezze o anche manipolazioni da parte dei soggetti responsabili per la determinazione e/o la pubblicazione, o da parte di qualsiasi altri partecipante al mercato. <i>Rischio Valuta e rischio del Tasso di Cambio con riferimento al Sottostante o a componenti dello stesso</i> Se il Sottostante o le componenti dello stesso sono espresse in una valuta diversa dalla Valuta di Emissione, esiste un rischio connesso al Tasso di Cambio a meno che tale rischio non venga escluso nelle relative Condizioni Definitive. <i>Rischi correlati ad Eventi di Rettifica</i> Rettifiche potrebbero avere un impatto negativo sostanziale sul valore e la futura performance degli Strumenti Finanziari così come sugli importi da distribuire derivanti dagli Strumenti Finanziari. Eventi di rettifica possono inoltre determinare il riscatto straordinario anticipato degli Strumenti Finanziari. <i>Rischi correlati a specificità della struttura</i> A motivo della leva finanziaria tipica degli Strumenti Finanziari, la performance del Sottostante può avere un impatto negativo più che proporzionale sul valore degli Strumenti Finanziari. Il valore nel tempo declina in relazione al periodo residuo alla liquidazione. In questa ipotesi, il valore di mercato degli Strumenti Finanziari scenderà a zero entro l'ultima Data di Esercizio possibile. <i>Rischi correlati a Strumenti Finanziari Call</i> Se il prezzo del Sottostante scende i Titolari possono subire la perdita totale del loro capitale investito. <i>Rischi correlati a Strumenti Finanziari Put</i> Se il prezzo del Sottostante sale, i Titolari possono subire la perdita totale del loro capitale investito. <i>Rischi correlati a Barriere di Knock-out</i> Se si verifica un Evento di Knock-out, il Titolare può subire un'immediata perdita parziale o totale del suo investimento oppure perdere il diritto a richiedere il pagamento di determinati importi secondo gli Strumenti Finanziari. Inoltre, il Titolare sopporta il rischio di reinvestimento. <i>Rischi correlati all'Importo Minimo di Esercizio</i> Se le Condizioni Definitive richiedono un quantitativo minimo di Strumenti Finanziari per l'esercizio degli stessi, un Titolare può non essere in grado di esercitare alcuni dei suoi Strumenti Finanziari. <i>Rischi correlati a Strumenti Finanziari che prevedono un aggiustamento costante dello Strike e della Barriera di Knock-out</i> Se le Condizioni Definitive prevedono che lo Strike e la Barriera di Knock-out sono soggetti ad aggiornamento costante, il rischio del verificarsi di un Evento di Knock-out può aumentare e possono ridursi significativamente gli importi

		esigibili ai sensi degli Strumenti Finanziari così come il valore degli Strumenti Finanziari stessi. <i>Rischi derivanti dal Diritto di Riscatto in capo all'Emittente</i> Nell'ipotesi di Strumenti Finanziari che attribuiscono all'Emittente il Diritto di Riscatto, tali Strumenti Finanziari possono essere riscattati, a discrezione dell'Emittente, a date predefinite. Qualora il prezzo del Sottostante sia basso al momento del Riscatto da parte dell'Emittente, il Titolare può subire una perdita parziale o totale del proprio capitale investito. <i>Rischi derivanti dal Diritto di Esercizio in capo ai Titolari</i> Nell'ipotesi di Strumenti Finanziari che attribuiscono un Diritto di Esercizio in capo ai Titolari, gli Strumenti possono essere riscattati a date predefinite. Qualora il prezzo del Sottostante sia basso al momento dell'esercizio, il Titolare può subire una perdita parziale o totale del proprio capitale investito. <i>Rischi correlati a Eventi di Riscatto</i> Al verificarsi di un Evento di Riscatto l'Emittente ha diritto di riscatto straordinario degli Strumenti Finanziari al rispettivo valore di mercato. Se il valore di mercato degli Strumenti Finanziari al momento rilevante è inferiore al Prezzo di Emissione o al prezzo di acquisto, il relativo Titolare sarà soggetto ad una parziale o totale perdita del capitale investito nonostante gli Strumenti Finanziari prevedano un pagamento minimo condizionale. <i>Rischi correlati a Turbative di Mercato</i> L'Agente per il Calcolo può rinviare date di valutazione e pagamenti ed effettuare valutazioni a propria ragionevole discrezione. I Titolari non hanno diritto a richiedere interessi per ritardato pagamento. <i>Rischi derivanti da effetti negativi di accordi di hedging da parte dell'Emittente degli Strumenti Finanziari</i> L'ingresso o la conclusione di operazioni di hedging da parte dell'Emittente può, in singoli casi, avere un impatto negativo sul prezzo del Sottostante o di suoi componenti. • Principali rischi correlati al Sottostante o a componenti dello stesso <i>Nessun diritto di proprietà sul Sottostante o su componenti dello stesso</i> Il Sottostante o le componenti dello stesso non saranno detenute dall'Emittente a beneficio del Titolare, e di conseguenza, i Titolari non avranno alcun diritto di proprietà (e.g. diritti di voto, diritti di ricevere dividendi o altre distribuzioni, nonché altri diritti) in relazione al Sottostante o alle componenti dello stesso. Principali rischi correlati alle azioni La performance degli Strumenti Finanziari correlati ad Azioni (i.e. Strumenti Finanziari correlati a indici quali componenti del Sottostante e azioni quali componenti dell'indice) dipende dalla performance delle rispettive azioni, che può essere influenzata da diversi fattori. Il pagamento di dividendi può avere un impatto negativo per il Titolare. Principali rischi correlati agli indici La performance di Strumenti Finanziari correlati ad Indici è legata alla performance dei rispettivi indici, che dipende largamente dalla composizione e performance dei componenti degli indici. L'Emittente può non avere alcuna influenza sul rispettivo indice o sul metodo di calcolo dell'indice. Se l'Emittente agisce anche come sponsor o agente di calcolo dell'indice, potrebbero insorgere conflitti di interesse. In generale, lo sponsor di un indice non si assume responsabilità. Di regola, un indice può essere modificato, cessato o sostituito da un indice successivo in ogni momento. I Titolari non possono, o possono partecipare solo parzialmente, ai dividendi o ad altre distribuzioni in relazione a componenti degli indici. Se l'indice comporta un fattore di leva, gli investitori sopportano un più elevato rischio di perdite. Gli indici possono

		essere influenzati negativamente in modo non proporzionale in caso andamento sfavorevole degli stessi in un paese, regione o settore industriale. Gli indici possono includere commissioni che influenzano negativamente la rispettiva performance. Inoltre, i contratti futures sono soggetti a un rischio simile a quello di un investimento diretto nell'asset sottostante di riferimento. Gli Strumenti Finanziari non hanno protezione del capitale. Gli investitori possono perdere in toto il proprio investimento o parte di tale investimento.
