- (2) *Exercise:* Subject to the occurrence of a Knock-out Event, the Exercise Right will be automatically exercised on the Final Valuation Date.
- (3) *Knock-out:* Upon the occurrence of a Knock-out Event, the Exercise Right forfeits and the Knock-out Amount will be paid for each Security.
- (4) *Payment:* The Redemption Amount will be paid on the Final Payment Date pursuant to the provisions of § 6 of the Special Conditions.

The Knock-out Amount will be paid five Banking Days after the day, on which the Knock-out Event has occurred, pursuant to the provisions of § 6 of the Special Conditions.

§ 4

Redemption Amount

Redemption Amount: The Redemption Amount is specified in § 1 of the Product and Underlying Data.

§ 5

Issuer's Extraordinary Call Right

Issuer's Extraordinary Call Right: Upon the occurrence of a Call Event the Issuer may call the Securities extraordinarily by giving notice pursuant to § 6 of the General Conditions and redeem the Securities at their Cancellation Amount. Such call shall become effective at the time indicated in the notice.

The "**Cancellation Amount**" shall be the fair market value of the Securities as of the

first Banking Day before the extraordinary call becomes effective, determined by the Calculation Agent acting in accordance with relevant market practice and in good faith under then prevailing circumstances. The determination of the fair market value is based on the economic equivalent of the Issuer's payment obligations to the Security Holders consistent with the provisions for the redemption profile, interest or other additional amounts of the Securities that would otherwise be due after the day on which the extraordinary call becomes effective and which is adjusted for taking into consideration the following parameters as of the first Banking Day before the extraordinary call becomes effective: the price of the Underlying, the remaining time to maturity, the estimated volatility, the expected dividends (if applicable), the current market interest rate as well as the interest spread associated with the credit default risk of the Issuer and any other relevant market parameter that can influence the value of the Securities. The Cancellation Amount will be paid within five Banking Days following the date as of which the extraordinary call becomes effective, or at the date specified in the above mentioned notice, as the case may be, pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) (Intentionally left out)
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such a payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the legal interest rate ('*Saggio degli Interessi legali*'), pursuant to Section 1284 CC, without prejudice to any other mandatory provisions under Italian law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on a Valuation Date, the respective Valuation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists. The Knock-out Period will be extended respectively.

Any Payment Date relating to such Valuation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days the Calculation Agent shall determine acting in accordance with relevant market practice and in good faith a price of the Underlying (the "**Disrupted Price**"). Such Disrupted Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on the 9th Banking Day, taking into account the economic position of the Security Holders. This Disrupted Price shall be deemed to be the relevant price of the Underlying with respect to the determination of the occurrence of a Knock-out Event, even though it has not been published by the Relevant Exchange.

If within these 8 Banking Days traded Derivatives of the Underlying expire and are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Derivatives will be taken into account in order to determine the Disrupted Price. In that case, the expiration date for those Derivatives is the relevant Valuation Date.

§ 8

Adjustments, Replacement Specification

- (1) *Adjustments:* Upon the occurrence of an Adjustment Event the Terms and Conditions of these Securities (in particular the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Calculation Agent) and/or all prices of the Underlying determined by the Calculation Agent on the basis of the Terms and Conditions of these Securities shall be adjusted in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. Such adjustments shall be made by the Calculation Agent acting in accordance with relevant market practice and in good faith. Any such adjustment will be performed taking into consideration any adjustments made by the Determining Futures Exchange to the there traded Derivatives linked to the Underlying, and the remaining term of the Securities as well as the latest available price of the Underlying. If the Calculation Agent determines that, pursuant to the rules of the Determining Futures Exchange, no adjustments were made to the Derivatives linked to the Underlying, the Terms and

Conditions of these Securities shall regularly remain unchanged. The exercised adjustments and the date of the first application shall be notified pursuant to § 6 of the General Conditions.

- (2) *Replacement Specification:* If a price of the Underlying published by the Relevant Exchange pursuant to the Terms and Conditions of these Securities will subsequently be corrected and the correction (the "**Corrected Value**") will be published by the Relevant Exchange after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish the respective value by using the Corrected Value (the "**Replacement Specification**") pursuant to § 6 of the General Conditions.

C. SECURITIES

C.1	Type and class of the securities	<p>Inline Securities</p> <p>The Securities will be issued as non-par value Warrants.</p> <p>The "Warrants" are debt instruments in dematerialized registered form pursuant to the Italian Consolidated Law on Financial Intermediation (<i>Testo Unico della Finanza</i>).</p> <p>The Securities are represented by a book entry.</p> <p>The holders of the Securities (the "Security Holders") are not entitled to receive definitive Securities.</p> <p>The ISIN is specified in the table in the Annex to this Summary.</p>
C.2	Currency of the securities issue	The Securities are issued in Euro ("EUR") (the " Specified Currency ").
C.5	Restrictions of any free transferability of the securities	Not applicable. The Securities are freely transferable.
C.8	Rights attached to the securities, including ranking and limitations to those rights	<p>Governing law of the Securities</p> <p>The Securities, as to form and content, and all rights and obligations of the Issuer and the Security Holder shall be governed by the laws of the Republic of Italy.</p> <p>Rights attached to the Securities</p> <p>The Securities have a fixed term.</p> <p>Subject to the occurrence of a Knock-out Event (as defined in C.15), the Security Holders shall be entitled to demand payment of the Redemption Amount on the Final Payment Date (as defined in C.16) (the "Exercise Right").</p> <p>If a Knock-out Event has occurred, the Security Holders shall be entitled to demand the payment of the Knock-out Amount.</p> <p>The "Redemption Amount" and the "Knock-out Amount" are specified in the Annex to this summary.</p> <p>The Securities do not bear interest.</p> <p>Limitation of the rights</p>

		<p>Upon the occurrence of one or more adjustment events (including, but not limited to, corporate actions or the adjustment or early termination of derivatives linked to the Underlying) (the "Adjustment Events") the Calculation Agent will act in accordance with relevant market practice and in good faith adjust the terms and conditions of these Securities and/or all prices of the Underlying determined by the Calculation Agent on the basis of the terms and conditions of the Securities in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible.</p> <p>Upon the occurrence of one or more call events (e.g. if, in the event of an Adjustment Event, an adjustment is not possible or not reasonable with regard to the Issuer and/or the Security Holders) the Issuer may call the Securities extraordinarily and redeem the Securities at their Cancellation Amount. The "Cancellation Amount" is their fair market value.</p> <p>Status of the Securities</p> <p>The obligations under the Securities constitute direct, unconditional and unsecured obligations of the Issuer and rank, unless provided otherwise by law, <i>pari passu</i> with all other unsecured unsubordinated present and future obligations of the Issuer.</p>
C.11	Admission to trading	<p>Not applicable. No application of the Securities to be admitted to trading on a regulated or another equivalent market has been made.</p> <p>However, application to trading has been made with effect from 4 April 2019 on the following multilateral trading facilities (MTF):</p> <ul style="list-style-type: none"> ● Borsa Italiana S.p.A. – SeDeX market (MTF) <p>The UniCredit Bank AG (also the "Market Maker") undertakes to provide liquidity in accordance with the market making rules of Borsa Italiana S.p.A. – SeDeX market (MTF), where the Securities are expected to be traded. The obligations of the Market Maker are regulated by the rules of Borsa Italiana SeDeX MTF.</p>
C.15	Effect of the underlying on the value of the securities	Inline Securities are Securities which will be redeemed on the Final Payment Date by payment of the Redemption Amount, provided that no Knock-out Event has occurred during the Knock-out Period.

	<p>If no Knock-out Event has occurred, Security Holders may, depending on prevailing market conditions, participate direct proportionally as well as contrariwise in the price development of the Underlying (as defined in C.20). A change in the price of the Underlying may have a disproportionate (leveraged) effect on the price of the Securities.</p> <p>If the price of the Underlying is at any time during the Knock-out Period closer to the Lower Knock-out Barrier than to the Upper Knock-out Barrier, subject to the influence of other price influencing factors (such as expected volatility, interest rate, dividend yield, time to maturity), rising prices of the Underlying lead to rising prices of the Inline Security. If the price of the Underlying is at any time during the Knock-out Period closer to the Upper Knock-out Barrier than to the Lower Knock-out Barrier this effect inverts and, subject to the influence of other price influencing factors, rising prices of the Underlying lead to falling prices of the Inline Security. In the case of falling prices of the Underlying, it is contrary to this effect. Thus, generally spoken, the price of the Security is at its maximum if the price of the Underlying is at the middle of the Upper and the Lower Knock-out Barrier.</p> <p>However, the value of Inline Securities is limited to the maximum of the Redemption Amount.</p> <p>If at any time during the Knock-out Period a Knock-out Event has occurred, the term of the Security ends and the Security Holders only receive payment of the Knock-out Amount.</p> <p>A Knock-out Event (the "Knock-out Event") has occurred if the price of the Underlying during the Knock-out Period is at any time on or below the Lower Knock-out Barrier or on or above the Upper Knock-out Barrier.</p> <p>"Knock-out Period" means each calculation date from the 4 April 2019 (including) to the Final Valuation Date (as defined in C.16) (including).</p> <p>The "Lower Knock-out Barrier" and the "Upper Knock-out Barrier" are specified in the Annex to this Summary.</p>
C.16	<p>The expiration or maturity date of the derivative securities – the</p> <p>The "Final Valuation Date" and the "Final Payment Date" are specified in the table in the Annex to this Summary.</p> <p>The "Expiry Date (Data di Scadenza)" is specified in the table</p>

	exercise date or final reference date	in the Annex to this Summary.
C.17	Settlement procedure of the securities	<p>All payments shall be made to UniCredit Bank AG (the "Principal Paying Agent"). The Principal Paying Agent shall pay the amounts due to the Clearing System for credit to the respective accounts of the depository banks for transfer to the Security Holders.</p> <p>The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such payment.</p> <p>"Clearing System" means Monte Titoli S.p.A..</p>
C.18	Description of how any return on derivative securities takes place	Payment of the Redemption Amount on the Final Payment Date or payment of the Knock-out Amount five Banking Days after the day, on which the Knock-out Event has occurred.
C.19	Exercise price or final reference price of the underlying	Any price of the Underlying, as published by the Relevant Exchange with continuous observation during the Knock-out Period.
C.20	Type of the underlying and description where information on the underlying can be found	<p>The Underlying is a Share as specified in the table in the Annex to this Summary.</p> <p>For further information about the past and the future performance of the Underlying and its volatility, please refer to the Website, as specified in the table below.</p>

D.6	Key information on the key risks that are specific to the securities	<p>In the opinion of the Issuer, the key risks described below may, with regard to the Security Holder, adversely affect the value of the Securities and/or the amounts to be distributed under the Securities and/or the ability of Security Holders to sell the Securities at a reasonable price prior to their redemption.</p> <ul style="list-style-type: none"> ● Potential conflicts of interest <p>The risk of conflicts of interest (as described in E.4) is related to the possibility that the Issuer, distributors or any of their affiliates, in relation to certain functions or transactions, may pursue interests which may be adverse to or do not regard the interests of the Security Holders.</p> <ul style="list-style-type: none"> ● Key risks related to the Securities <p><i>Key risks related to the market</i></p> <p>Under certain circumstances a Security Holder may not be able to sell his Securities at all or at an adequate price prior to their redemption. Even in the case of an existing secondary market it cannot be ruled out that the Security Holder may not be in a position to dispose of the Securities in the case of an unfavourable development of the Underlying or of a currency exchange rate, e.g. if such development occurs outside of the trading hours of the Securities.</p> <p>The market value of the Securities will be affected by the creditworthiness of the Issuer and a number of other factors (e.g. exchange rates, prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability of the Securities and Underlying-related factors) and may be substantially lower than the purchase price. Security Holders may not rely on being able to sufficiently hedge against price risks arising from the Securities at any time.</p> <p><i>Key risks related to the Securities in general</i></p> <p>The Issuer may possibly fail to perform its obligations under the Securities in whole or in part, e.g., in case of an insolvency of the Issuer or due to governmental or regulatory interventions. Such risk is not protected by a deposit protection scheme or any similar compensation scheme. The competent resolution authority may apply resolution tools which include, among</p>

others, a "bail-in" instrument (e.g., conversion of Securities into equity instruments or write down). Application of a resolution tool may materially affect the rights of the Security Holders.

An investment into the Securities may be illegal or unfavourable for a potential investor or not suitable, with regard to his knowledge or experience and his financial needs, goals and situation.

The real rate of return of an investment into the Securities may be reduced or may be zero or even negative (e.g., due to incidental costs in connection with the purchase, holding and disposal of the Securities, future money depreciation (inflation) or tax effects).

The differential amount may be less than the Issue Price or the respective purchase price and, under certain circumstances, no interest or ongoing payments will be made.

The proceeds from the Securities may possibly not be sufficient to make interest or principal payments arising from a financing purchase of the Securities and require additional capital.

Risks related to Underlying-linked Securities

Risks arising from the influence of the Underlying on the market value of the Securities

The market value of the Securities and the amounts payable under the Securities significantly depend on the price of the Underlying. It is not possible to predict the price development of the Underlying in the future. Additionally, the market value of the Securities will be affected by a number of Underlying-related factors.

Risks arising from the fact that the observation of the Underlying occurs only at specified dates or times or periods

Due to the fact that the observation of the Underlying may occur only at specified dates, times or periods, amounts payable under the Securities may be considerably lower than the price of the Underlying may have suggested.

Risks related to Adjustment Events

Adjustments may have a substantial negative impact on the value and the future performance of the Securities as well as on the amounts to be distributed under the Securities. Adjustment events may also lead to an extraordinary early termination of the Securities.

	<p><i>Risks related to structure specifics</i></p> <p>Because of the leverage typical for the Securities, the performance of the Underlying may have a disproportionately strong adverse effect on the value of the Securities. The time value declines in relation to the time remaining to maturity. In this case the market value of the Securities will fall to zero by the last possible Exercise Date.</p> <p><i>Risks related to Inline Securities</i></p> <p>The Security Holders may suffer a total loss of their invested capital if the price of the Underlying rises as well as if the price of the Underlying falls.</p> <p><i>Risks related to the Knock-out Barrier</i></p> <p>If a Knock-out Event occurs, the Security Holder may suffer an immediate partial or total loss of his investment or lose the right to demand payment of certain amounts under the Securities.</p> <p><i>Risks related to Call Events</i></p> <p>Upon the occurrence of a Call Event the Issuer has the right to extraordinarily call the Securities at their market value. If the market value of the Securities at the relevant time is lower than the Issue Price or the purchase price, the respective Security Holder will suffer a partial or total loss of its invested capital even if the Securities provide for a conditional minimum payment.</p> <p><i>Risks related to Market Disruption Events</i></p> <p>The Calculation Agent may defer valuations and payments and make determination in its discretion acting in accordance with relevant market practice and in good faith. Security Holders are not entitled to demand interest due to such delayed payment.</p> <p><i>Risks arising from negative effects of hedging arrangements by the Issuer on the Securities</i></p> <p>The entering or the liquidation of hedging transactions by the Issuer may, in individual cases, adversely affect the price of the Underlying.</p> <ul style="list-style-type: none"> • Key risks related to the Underlying <p>General risks</p> <p><i>No rights of ownership of the Underlying</i></p> <p>The Underlying will not be held by the Issuer for the benefit of the Security Holders, and as such, Security Holders will not obtain any rights of ownership (e.g., voting rights, rights to</p>

	<p>receive dividends, payments or other distributions or other rights) with respect to the Underlying.</p> <p><i>Key risks related to shares</i></p> <p>The performance of share-linked Securities depends on the performance of the respective shares, which may be subject to certain factors. Dividend payments may have an adverse effect on the Security Holder.</p> <p>The Securities are not capital protected. Investors may lose the value of their entire investment or part of it.</p>

C.11	Ammisione alla negoziazione	<p>Non applicabile. Non è stata presentata alcuna istanza per l'ammissione a quotazione degli Strumenti Finanziari presso un mercato regolamentato o mercato equivalente.</p> <p>Ad ogni modo, è stata presentata istanza per l'ammissione a negoziazione degli Strumenti Finanziari con efficacia dal 04/04/2019 presso i seguenti sistemi multilaterali di negoziazione (MTF):</p> <ul style="list-style-type: none"> ● Borsa Italiana S.p.A. – SeDeX market (MTF) <p>UniCredit Bank AG (ovvero il "Market Maker") si impegna a fornire la liquidità conformemente ai regolamenti di Borsa Italiana S.p.A. – SeDeX market (MTF), dove è prevista la negoziazione degli Strumenti Finanziari. C.15	Effetto del sottostante sul valore degli strumenti finanziari	<p>Gli Strumenti Finanziari Inline sono strumenti finanziari che saranno rimborsati alla Data di Pagamento Finale mediante pagamento dell'Importo di Rimborso, a condizione che non si sia verificato alcun Evento di Knock-out durante il Periodo di Knock-out.</p> <p>Se non si è verificato alcun Evento di Knock-out, i Titolari possono, a seconda delle condizioni di mercato prevalenti, partecipare direttamente in misura proporzionale così come in misura opposta all'evoluzione del prezzo del Sottostante (come definito sub C.20). Una variazione del prezzo del Sottostante può avere un effetto più che proporzionale (con leva finanziaria) sul prezzo degli Strumenti Finanziari.</p> <p>Se il prezzo del Sottostante in ogni momento durante il Periodo di Knock-out è più vicino alla Barriera Inferiore di Knock-out rispetto alla Barriera Superiore di Knock-out, soggetto all'influenza di altri fattori che influenzano il prezzo (come la volatilità prevista, il tasso di interesse, il rendimento del dividendo, la scadenza), prezzi del Sottostante in aumento determinano un aumento dei prezzi dello Strumento Finanziario Inline. Se il prezzo del Sottostante in ogni momento durante il Periodo di Knock-out è più vicino alla Barriera Superiore di Knock-out rispetto alla Barriera Inferiore di Knock-out questo effetto si inverte e, soggetto all'influenza di altri fattori che influenzano il prezzo, prezzi del Sottostante in aumento determinano una riduzione dei prezzi dello Strumento Finanziario Inline. Nel caso di prezzi del Sottostante in riduzione, questo effetto</p>

Pertanto, in termini generali, il prezzo dello Strumento Finanziario è al suo massimo valore qualora il prezzo del Sottostante si trovi a metà tra la Barriera Superiore e Inferiore di Knock-out.</p> <p>Peraltro, il valore degli Strumenti Finanziari Inline è limitato al valore massimo dell'Importo di Rimborso.</p> <p>Se, in qualsiasi momento durante il Periodo di Knock-out, si verifica un Evento di Knock-out, il periodo dello Strumento Finanziario si conclude e i Titolari ricevono unicamente il pagamento dell'Importo di Knock-out.</p> <p>Un Evento di Knock-out (l""Evento di Knock-out") si verifica qualora il prezzo del Sottostante con osservazione continua durante il Periodo di Knock-out in qualsiasi momento tocchi o scenda al di sotto della Barriera Inferiore di Knock-Out o tocchi o superi la Barriera Superiore di Knock-Out.</p> <p>"Periodo di Knock-out" indica ogni giorno di calcolo dal 04/04/2019 (incluso) alla Data di Valutazione Finale (come definita sub C.16) (incluso).</p> <p>La "Barriera Inferiore di Knock-out" e la "Barriera Superiore di Knock-out" sono specificati nell'Allegato alla presente Nota di Sintesi.</p>

alcun sistema di garanzia dei depositi né alcun sistema di indennizzo analogo. L'autorità di risoluzione competente potrebbe applicare strumenti di risoluzione che includono, tra gli altri, uno strumento "bail-in" (es. la conversione degli Strumenti Finanziari in strumenti rappresentativi o riduzioni di valore). L'applicazione di uno strumento di risoluzione potrebbe influire in modo sostanziale sui diritti dei Titolari degli Strumenti Finanziari.

Un investimento negli Strumenti Finanziari potrebbe essere contrario alla legge o non favorevole per un potenziale investitore ovvero inadatto in considerazione della propria conoscenza o esperienza, dei propri bisogni finanziari, dei propri obiettivi e della propria situazione.

Il tasso di rendimento reale di un investimento negli Strumenti Finanziari può ridursi a zero ovvero assumere valori negativi (e.g., a causa di costi accessori connessi all'acquisto, alla detenzione e alla dismissione degli Strumenti Finanziari, a future svalutazioni monetarie (inflazione) o ad effetti fiscali).

L'importo differenziale può essere inferiore al Prezzo di Emissione o al rispettivo prezzo di acquisto e, in alcune circostanze, non verrà corrisposto alcun interesse né verranno eseguiti pagamenti nel corso del periodo di detenzione degli Strumenti Finanziari.

I proventi degli Strumenti Finanziari potrebbero non essere sufficienti a generare interessi o a permettere di eseguire i pagamenti dovuti per effetto dell'acquisto degli Strumenti Finanziari mediante finanziamento richiedendo capitale aggiuntivo.

Rischi correlati a Strumenti Finanziari collegati a Sottostanti

Rischi dovuti all'influenza del Sottostante sul valore di mercato degli Strumenti Finanziari

Il valore di mercato degli Strumenti Finanziari e gli importi erogabili derivanti dagli Strumenti Finanziari dipendono significativamente dal prezzo del Sottostante. L'evoluzione futura del prezzo del Sottostante non è prevedibile. Inoltre, il valore di mercato degli Strumenti Finanziari sarà influenzato da diversi fattori correlati al Sottostante.

Rischi dovuti al fatto che la valutazione del Sottostante avviene solo in date, momenti o periodi specificati

A causa del fatto che la valutazione del Sottostante può avvenire solo in date, momenti o periodi specificati, i proventi erogabili derivanti dagli Strumenti Finanziari possono essere
