If the Reference Rate Screen Page is not available at the Reference Rate Time, or if such offer rate does not appear on the Reference Rate Screen Page, the Calculation Agent will request each of the Reference Banks to provide its rates, offered to prime banks in the interbank market at the Reference Rate Financial Centre at approximately the Reference Rate Time, on the respective Interest Determination Date for deposits in the Underlying Currency for the maturity of one month in a representative amount.

If at least two of the Reference Banks provide the Calculation Agent with such quotations, the respective Reference Rate will be the arithmetic mean (rounded if necessary to the nearest one thousandth of a percentage point, with 0.0005 being rounded upwards) of such quotations.

If on any Interest Determination Date only one or none of the Reference Banks provides the Calculation Agent with such quotations, the Calculation Agent will determine the Reference Rate acting in accordance with relevant market practice and in good faith.

hedging costs and lending costs (if any)) remains substantially unchanged. The adjusted Risk Management Fee is valid during the period of the respective Adjustment Date (excluding) to the immediately following Adjustment Date (including).  - (i) the Strike, specified in accordance with the aforementioned method for this Dividend Adjustment Date, and
 - (ii) the Dividend Deduction for this Dividend Adjustment Date (the **"Dividend Adjustment"**).

§ 3

Exercise Right, Exercise, Knock-out, Exercise Notice, Suspension of the Exercise Right, Payment

- (1) *Exercise Right:* Subject to the occurrence of a Knock-out Event, the Security Holder shall be entitled, according to the Terms and Conditions of these Securities, to demand for each Security the payment of the Differential Amount from the Issuer.
- (2) *Exercise:* The Exercise Right can be exercised by the Security Holder on each

Exercise Date prior to 10:00 a.m. (Munich local time) pursuant to the provisions of paragraph (4) of this § 3.

- (3) *Knock-out*: Upon the occurrence of a Knock-out Event, the Exercise Right forfeits and the Knock-out Amount will be paid for each Security.
- (4) *Exercise Notice*: The Exercise Right shall be exercised by the Security Holder by transmission of a duly completed written Exercise Notice (the "**Exercise Notice**") to the Principal Paying Agent possibly per facsimile, using the form of notice which may be obtained from the Website of the Issuer or, respectively by specifying all information and declarations to the facsimile number set out in such form of notice and by transferring the Securities stated in the Exercise Notice to the account of the Issuer, which is set out in the respective form of the Exercise Notice. For this purpose the Security Holder must instruct its depository bank, which is responsible for the order of the transfer of the specified Securities.

The Exercise Right is deemed to be effectively exercised on that day on which (i) the Principal Paying Agent receives the duly completed Exercise Notice prior to 10:00 a.m. (Munich local time) and (ii) the Securities specified in the Exercise Notice will be credited to the account of the Issuer prior to 4:00 p.m. (Munich local time).

For Securities, for which a duly completed Exercise Notice has been transmitted in time, but which has been credited to the Issuer's account after 4:00 p.m. (Munich local time), the Exercise Right is deemed to be effectively exercised on that Banking Day, on which the Securities will be credited to the account of the Issuer prior to 4:00 p.m. (Munich local time).

For Securities, for which a Security Holder transmits an Exercise Notice, which does not comply with the aforementioned provisions, or, if the Securities specified in the Exercise Notice have been credited to the Issuer's Account after 4:00 p.m. (Munich local time) of the second Banking Day following the transmission of the Exercise Notice, the Exercise Right is deemed to be not effectively exercised.

The amount of the Securities for which the Exercise Right shall be exercised, must comply with the Minimum Exercise Amount or an integral multiple thereof. Otherwise the amount of the Securities specified in the Exercise Notice will be rounded down to the nearest multiple of the Minimum Exercise Amount and the Exercise Right is deemed to be not effectively exercised with regard to the amount of Securities exceeding such amount. An Exercise Notice on fewer Securities than the Minimum Exercise Amount is invalid and has no effect.

Securities received by the Issuer and for which no effective Exercise Notice exists or the Exercise Right deems to be not effectively exercised, will be retransferred by the Issuer without undue delay at the expense of the relevant Security Holder.

Subject to the aforementioned provisions, the transmission of an Exercise Notice constitutes an irrevocable declaration of intent of the relevant Security Holder to

exercise the respective Securities.

- (5) *Suspension of the Exercise Right*: The Exercise Right cannot be exercised:
- (a) during the period between the day, on which the company specified in § 1 of the Product and Underlying Data (the "**Company**") publishes an offer to its shareholders to acquire (a) new shares or (b) warrants or other securities with conversion or option rights on shares of the Company, and the first day after the expiration of the period determined for the exercise of the purchase right;
 - (b) prior and after the shareholders' meeting of the Company, in the period from (and including) the last depository day for shares and to (and including) the third Banking Day after the shareholders' meeting.

If the exercise of the Exercise Right is suspended on an Exercise Day according to the previous sentence, the Exercise Date will be postponed to the first Banking Day after such suspension.

- (6) *Payment*: The Differential Amount will be paid five Banking Days after the respective Valuation Date pursuant to the provisions of § 6 of the Special Conditions.

The Knock-out Amount will be paid five Banking Days after the day, on which the Knock-out Event has occurred, pursuant to the provisions of § 6 of the Special Conditions.

§ 4

Differential Amount

- (1) *Differential Amount*: The Differential Amount per Security equals an amount in the Specified Currency, which will be calculated or, respectively, specified by the Calculation Agent as follows:

In the case of Securities, for which "Call" is specified in § 1 of the Product and Underlying Data:

$$\text{Differential Amount} = (\text{Relevant Reference Price} - \text{Strike}) \times \text{Ratio}$$

However, the Differential Amount is not lower than the Minimum Amount.

In the case of Securities, for which "Put" is specified in § 1 of the Product and Underlying Data:

$$\text{Differential Amount} = (\text{Strike} - \text{Relevant Reference Price}) \times \text{Ratio}$$

However, the Differential Amount is not lower than the Minimum Amount.

- (2) When calculating or, respectively, determining the Differential Amount, no fees, commissions or other costs charged by the Issuer or a third party authorised by the Issuer, will be taken into account.

§ 5

Issuer's Regular Call Right, Issuer's Extraordinary Call Right

- (1) *Issuer's Regular Call Right:* The Issuer may call the Securities in whole but not in part at each Exercise Date (the "**Regular Call Right**") and redeem them pursuant to § 4 (1) of the Special Conditions at the Differential Amount. In the case of such a call, the Exercise Date, at which the Issuer exercises its Regular Call Right (the "**Call Date**") is deemed to be the Valuation Date. The Exercise Right remains unaffected until the Call Date. With the beginning of the Call Date all Exercise Rights forfeit.

The Issuer will give notice of such call at least one month prior to the Call Date pursuant to § 6 of the General Conditions. Such notice shall be irrevocable and will specify the relevant Call Date.

The Differential Amount will be paid five Banking Days after the Call Date pursuant to the provisions of § 6 of the Special Conditions.

- (2) *Issuer's Extraordinary Call Right:* Upon the occurrence of a Call Event the Issuer may call the Securities extraordinarily by giving notice pursuant to § 6 of the General Conditions and redeem the Securities at their Cancellation Amount. Such call shall become effective at the time indicated in the notice

The "**Cancellation Amount**" shall be the fair market value of the Securities as of the first Banking Day before the extraordinary call becomes effective, determined by the Calculation Agent acting in accordance with relevant market practice and in good faith under then prevailing circumstances. The determination of the fair market value is based on the economic equivalent of the Issuer's payment obligations to the Security Holders consistent with the provisions for the redemption profile, interest or other additional amounts of the Securities that would otherwise be due after the day on which the extraordinary call becomes effective and which is adjusted for taking into consideration the following parameters as of the first Banking Day before the extraordinary call becomes effective: the price of the Underlying, the remaining time to maturity, the estimated volatility, the expected dividends (if applicable), the current market interest rate as well as the interest spread associated with the credit default risk of the Issuer and any other relevant market parameter that can influence the value of the Securities. The Cancellation Amount will be paid within five Banking Days following the date as of which the extraordinary call becomes effective, or at the date specified in the above mentioned notice, as the case may be, pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) *Rounding*: The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards. However, at least the Minimum Amount shall be paid.
- (2) *Business day convention*: If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge*: All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such a payment.
- (4) *Interest of default*: If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the legal interest rate ('*Saggio degli Interessi legali*'), pursuant to Section 1284 CC, without prejudice to any other mandatory provisions under Italian law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement*: Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on a Valuation Date, the respective Valuation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Valuation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.
- (2) *Discretionary valuation*: Should the Market Disruption Event continue for more than 8 consecutive Banking Days the Calculation Agent shall determine acting in accordance with relevant market practice and in good faith the respective Reference Price required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. Such Reference Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on the 9th Banking Day taking into account the economic position of the Security Holders.

If within these 8 Banking Days traded Derivatives of the Underlying expire and are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. In that case, the expiration date for those Derivatives is the relevant Valuation Date.

§ 8

Adjustments, Replacement Specification

- (1) *Adjustments:* Upon the occurrence of an Adjustment Event the Terms and Conditions of these Securities (in particular the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Calculation Agent) and/or all prices of the Underlying determined by the Calculation Agent on the basis of the Terms and Conditions of these Securities shall be adjusted in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. Such adjustments shall be made by the Calculation Agent acting in accordance with relevant market practice and in good faith. Any such adjustment will be performed taking into consideration any adjustments made by the Determining Futures Exchange to the there traded Derivatives linked to the Underlying, and the remaining term of the Securities as well as the latest available price of the Underlying. If the Calculation Agent determines that, pursuant to the rules of the Determining Futures Exchange, no adjustments were made to the Derivatives linked to the Underlying, the Terms and Conditions of these Securities shall regularly remain unchanged. The exercised adjustments and the date of the first application shall be notified pursuant to § 6 of the General Conditions.
- (2) *Replacement Specification:* If a price of the Underlying published by the Relevant Exchange pursuant to the Terms and Conditions of these Securities will subsequently be corrected and the correction (the "**Corrected Value**") will be published by the Relevant Exchange after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish the respective value by using the Corrected Value (the "**Replacement Specification**") pursuant to § 6 of the General Conditions.

D.6	Key information on the key risks that are specific to the securities	<p>In the opinion of the Issuer, the key risks described below may, with regard to the Security Holder, adversely affect the value of the Securities and/or the amounts to be distributed under the Securities and/or the ability of Security Holders to sell the Securities at a reasonable price prior to their redemption.</p> <ul style="list-style-type: none"> • Potential conflicts of interest The risk of conflicts of interest (as described in E.4) is related

to the possibility that the Issuer, distributors or any of their affiliates, in relation to certain functions or transactions, may pursue interests which may be adverse to or do not regard the interests of the Security Holders.

- **Key risks related to the Securities**

Key risks related to the market

Under certain circumstances a Security Holder may not be able to sell his Securities at all or at an adequate price prior to their redemption. Even in the case of an existing secondary market it cannot be ruled out that the Security Holder may not be in a position to dispose of the Securities in the case of an unfavourable development of the Underlying or of a currency exchange rate, e.g. if such development occurs outside of the trading hours of the Securities.

The market value of the Securities will be affected by the creditworthiness of the Issuer and a number of other factors (e.g. exchange rates, prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability of the Securities and Underlying-related factors) and may be substantially lower than the purchase price. Security Holders may not rely on being able to sufficiently hedge against price risks arising from the Securities at any time.

Key risks related to the Securities in general

The Issuer may possibly fail to perform its obligations under the Securities in whole or in part, e.g., in case of an insolvency of the Issuer or due to governmental or regulatory interventions. Such risk is not protected by a deposit protection scheme or any similar compensation scheme. The competent resolution authority may apply resolution tools which include, among others, a "bail-in" instrument (e.g., conversion of Securities into equity instruments or write down). Application of a resolution tool may materially affect the rights of the Security Holders.

An investment into the Securities may be illegal or unfavourable for a potential investor or not suitable, with regard to his knowledge or experience and his financial needs, goals and situation.

The real rate of return of an investment into the Securities may be reduced or may be zero or even negative (e.g., due to incidental costs in connection with the purchase, holding and

		<p>disposal of the Securities, future money depreciation (inflation) or tax effects).</p> <p>The differential amount may be less than the Issue Price or the respective purchase price and, under certain circumstances, no interest or ongoing payments will be made.</p> <p>The proceeds from the Securities may possibly not be sufficient to make interest or principal payments arising from a financing purchase of the Securities and require additional capital.</p> <p><i>Risks related to Underlying-linked Securities</i></p> <p><i>Risks arising from the influence of the Underlying on the market value of the Securities</i></p> <p>The market value of the Securities and the amounts payable under the Securities significantly depend on the price of the Underlying. It is not possible to predict the price development of the Underlying in the future. Additionally, the market value of the Securities will be affected by a number of Underlying-related factors.</p> <p><i>Risks arising from the fact that the observation of the Underlying occurs only at specified dates or times or periods</i></p> <p>Due to the fact that the observation of the Underlying may occur only at specified dates, times or periods, amounts payable under the Securities may be considerably lower than the price of the Underlying may have suggested.</p> <p><i>Risks due to open-end structure</i></p> <p>Securities may be issued without a fixed term. Security Holders have no claim for repayment until a Call Right of the Issuer or the Exercise Right of the Security Holder has been exercised.</p> <p><i>Risks related to a Strike</i></p> <p>A strike can lead to the Security Holders participate either to a lesser extent in a favourable performance of the Underlying or to a greater extent in an unfavourable performance of the Underlying.</p> <p><i>Risks related to a Ratio</i></p> <p>A ratio may result in the Security being in economic terms similar to a direct investment in the relevant Underlying, but being nonetheless not fully comparable with such a direct investment.</p> <p><i>Special risks related to reference rates</i></p> <p>During the term of the Securities it cannot be ruled out that</p>
--	--	--

underlying reference rates will no longer be available, in the relevant form at the time of the issuance of the Securities or, that in connection with the determination or publication of these reference rates it may come to inaccuracies or even manipulations by the persons responsible for the determination and/or publication, or by any other market participants.

Risks related to Adjustment Events

Adjustments may have a substantial negative impact on the value and the future performance of the Securities as well as on the amounts to be distributed under the Securities. Adjustment events may also lead to an extraordinary early termination of the Securities.

Risks related to structure specifics

Because of the leverage typical for the Securities, the performance of the Underlying may have a disproportionately strong adverse effect on the value of the Securities. The time value declines in relation to the time remaining to maturity. In this case the market value of the Securities will fall to zero by the last possible Exercise Date.

Risks related to Call Turbo Open End Securities

If the price of the Underlying falls, the Security Holders may suffer a total loss of their invested capital.

Risks related to Put Turbo Open End Securities

If the price of the Underlying rises, the Security Holders may suffer a total loss of their invested capital.

Risks related to the Knock-out Barrier

If a Knock-out Event occurs, the Security Holder may suffer an immediate partial or total loss of his investment or lose the right to demand payment of certain amounts under the Securities. Furthermore, the Security Holder bears the reinvestment risk.

Risks related to the Minimum Exercise Amount

Since a certain number of Securities is required in order to exercise the Securities, a Security Holder may be unable to exercise some of his Securities.

Risks related to Securities which provide for a constant adjustment of the Strike and Knock-out Barrier

Since the Strike and Knock-out Barrier are subject to a constant adjustment, the risk of the occurrence of a Knock-out Event may increase and the amounts payable under Securities as well

		<p>as the value of the Securities may significantly reduce.</p> <p><i>Risks arising from an Issuer's Regular Call Right</i></p> <p>In case of Securities with an Issuer's Call Right, Securities may be called within the Issuer's sole discretion at certain dates. If the price of the Underlying is low at the time of the Issuer's regular call, the Security Holder may suffer a partial or total loss of its invested capital.</p> <p><i>Risks arising from the Exercise Right of Security Holders</i></p> <p>In case of Securities with an Exercise Right of the Security Holders, Securities may be called at certain dates. If the price of the Underlying is low at the time of the exercise, the Security Holder may suffer a partial or total loss of its invested capital.</p> <p><i>Risks related to Call Events</i></p> <p>Upon the occurrence of a Call Event the Issuer has the right to extraordinarily call the Securities at their market value. If the market value of the Securities at the relevant time is lower than the Issue Price or the purchase price, the respective Security Holder will suffer a partial or total loss of its invested capital even if the Securities provide for a conditional minimum payment.</p> <p><i>Risks related to Market Disruption Events</i></p> <p>The Calculation Agent may defer valuations and payments and make determination in its discretion acting in accordance with relevant market practice and in good faith. Security Holders are not entitled to demand interest due to such delayed payment.</p> <p><i>Risks arising from negative effects of hedging arrangements by the Issuer on the Securities</i></p> <p>The entering or the liquidation of hedging transactions by the Issuer may, in individual cases, adversely affect the price of the Underlying.</p> <ul style="list-style-type: none"> • Key risks related to the Underlying <p>General risks</p> <p><i>No rights of ownership of the Underlying</i></p> <p>The Underlying will not be held by the Issuer for the benefit of the Security Holders, and as such, Security Holders will not obtain any rights of ownership (e.g., voting rights, rights to receive dividends, payments or other distributions or other rights) with respect to the Underlying.</p>
--	--	--

		<p><i>Key risks related to shares</i></p> <p>The performance of share-linked Securities depends on the performance of the respective shares, which may be subject to certain factors. Dividend payments may have an adverse effect on the Security Holder.</p> <p>The Securities are not capital protected. Investors may lose the value of their entire investment or part of it.</p>

Finanziari.

Principali rischi correlati agli Strumenti Finanziari in generale

L'Emittente potrebbe non essere in grado di adempiere, in tutto o in parte, ai propri obblighi derivanti dagli Strumenti Finanziari, e.g. in caso di insolvenza dell'Emittente o per effetto di interventi governativi o regolamentari. A fronte di tale rischio non è previsto alcun sistema di garanzia dei depositi né alcun sistema di indennizzo analogo. L'autorità di risoluzione competente potrebbe applicare strumenti di risoluzione che includono, tra gli altri, uno strumento "bail-in" (es. la conversione degli Strumenti Finanziari in strumenti rappresentativi o riduzioni di valore). L'applicazione di uno strumento di risoluzione potrebbe influire in modo sostanziale sui diritti dei Titolari degli Strumenti Finanziari.

Un investimento negli Strumenti Finanziari potrebbe essere contrario alla legge o non favorevole per un potenziale investitore ovvero inadatto in considerazione della propria conoscenza o esperienza, dei propri bisogni finanziari, dei propri obiettivi e della propria situazione.

Il tasso di rendimento reale di un investimento negli Strumenti Finanziari può ridursi a zero ovvero assumere valori negativi (e.g., a causa di costi accessori connessi all'acquisto, alla detenzione e alla dismissione degli Strumenti Finanziari, a future svalutazioni monetarie (inflazione) o ad effetti fiscali).

L'importo differenziale può essere inferiore al Prezzo di Emissione o al rispettivo prezzo di acquisto e, in alcune circostanze, non verrà corrisposto alcun interesse né verranno eseguiti pagamenti nel corso del periodo di detenzione degli Strumenti Finanziari.

I proventi degli Strumenti Finanziari potrebbero non essere sufficienti a generare interessi o a permettere di eseguire i pagamenti dovuti per effetto dell'acquisto degli Strumenti Finanziari mediante finanziamento richiedendo capitale aggiuntivo.

Rischi correlati a Strumenti Finanziari collegati a Sottostanti

Rischi dovuti all'influenza del Sottostante sul valore di mercato degli Strumenti Finanziari

Il valore di mercato degli Strumenti Finanziari e gli importi erogabili derivanti dagli Strumenti Finanziari dipendono significativamente dal prezzo del Sottostante. L'evoluzione futura del prezzo del Sottostante non è prevedibile. Inoltre, il valore di

		<p>mercato degli Strumenti Finanziari sarà influenzato da diversi fattori correlati al Sottostante.</p> <p><i>Rischi dovuti al fatto che la valutazione del Sottostante avviene solo in date, momenti o periodi specificati</i></p> <p>A causa del fatto che la valutazione del Sottostante può avvenire solo in date, momenti o periodi specificati, i proventi erogabili derivanti dagli Strumenti Finanziari possono essere considerevolmente più bassi rispetto al prezzo che il Sottostante potrebbero aver suggerito.</p> <p><i>Rischi dovuti alla struttura open-end</i></p> <p>Gli Strumenti Finanziari possono essere emessi senza una scadenza fissa. I Titolari non hanno diritto al rimborso fino a quando non venga esercitato un Diritto di Riscatto da parte dell'Emittente o venga fatto valere il Diritto di Esercizio da parte del Titolare.</p> <p><i>Rischi correlati allo Strike</i></p> <p>I Titolari possono partecipare in misura minore ad una performance favorevole del Sottostante o in misura maggiore ad una performance non favorevole del Sottostante.</p> <p><i>Rischi correlati ad un Multiplo</i></p> <p>Un multiplo può fare sì che lo Strumento Finanziario sia analogo, sebbene non del tutto assimilabile, in termini economici ad un investimento diretto nel relativo Sottostante.</p> <p><i>Rischi particolari correlati ai tassi di riferimento</i></p> <p>Durante il periodo di vigenza degli Strumenti Finanziari non si può escludere che i tassi di riferimento sottostanti non risultino più disponibili, nella formula rilevante al momento dell'emissione degli Strumenti Finanziari, oppure che in connessione con la determinazione o la pubblicazione di tali tassi di riferimento possano derivarne inaccurately o anche manipolazioni da parte dei soggetti responsabili per la determinazione e/o la pubblicazione, o da parte di qualsiasi altri partecipante al mercato.</p> <p><i>Rischi correlati ad Eventi di Rettifica</i></p> <p>Rettifiche potrebbero avere un impatto negativo sostanziale sul valore e la futura performance degli Strumenti Finanziari così come sugli importi da distribuire derivanti dagli Strumenti Finanziari. momento dell'esercizio, il Titolare può subire una perdita parziale o totale del proprio capitale investito.

Rischi correlati a Eventi di Riscatto

Al verificarsi di un Evento di Riscatto l'Emittente ha diritto di riscatto straordinario degli Strumenti Finanziari al rispettivo valore di mercato. Se il valore di mercato degli Strumenti Finanziari al momento rilevante è inferiore al Prezzo di Emissione o al prezzo di acquisto, il relativo Titolare sarà soggetto ad una parziale o totale perdita del capitale investito nonostante gli Strumenti Finanziari prevedano un pagamento minimo condizionale.

Rischi correlati a Turbative di Mercato

L'Agente per il Calcolo può rinviare date di valutazione e pagamenti ed effettuare valutazioni a propria discrezione agendo nel rispetto delle rilevanti pratiche di mercato e della buona fede. I Titolari non hanno diritto a richiedere interessi per ritardato pagamento.

Rischi derivanti da effetti negativi di accordi di hedging da parte dell'Emittente degli Strumenti Finanziari

L'ingresso o la conclusione di operazioni di hedging da parte dell'Emittente può, in singoli casi, avere un impatto negativo sul prezzo del Sottostante.
