Payments

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards.
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the legal interest rate ("*Saggio degli Interessi legali*"), pursuant to Section 1284 CC, without prejudice to any other mandatory provisions under Italian law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on an Observation Date(k), the respective Observation Date(k) shall be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Observation Date(k) shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 30 consecutive Banking Days, the Calculation Agent shall determine acting in accordance with relevant market practice and in good faith the respective Reference Price required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. Such Reference Price shall be the reasonable price determined in accordance with prevailing market conditions at 10 a.m. (Milan local time) on this 31st Banking Day, taking into account the economic position of the Security Holders.

If within these 30 Banking Days traded Derivatives of the Underlying expire or are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. In that case, the expiration date for those Derivatives is the respective Observation Date.

Index Concept, Adjustments, Replacement Underlying, New Index Sponsor and New Index Calculation Agent, Replacement Specification

- (1) *Index Concept:* The basis for the calculations or, respectively, specifications of the Calculation Agent described in the Terms and Conditions of these Securities shall be the Underlying with its provisions currently applicable, as developed and maintained by the Index Sponsor, as well as the respective method of calculation, determination, and publication of the price of the Underlying (the "**Index Concept**") applied by the Index Sponsor. This shall also apply if during the term of the Securities changes are made or occur in respect of the Index Concept, or if other measures are taken, which have an impact on the Index Concept, unless otherwise provided in the below provisions.
- (2) *Adjustments:* Upon the occurrence of an Adjustment Event the Terms and Conditions of these Securities (in particular the Underlying, the ratio and/or all prices of the Underlying, which have been specified by the Issuer) and/or all prices of the Underlying determined by the Calculation Agent on the basis of the Terms and Conditions of these Securities shall be adjusted in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible; such adjustments shall be made by the Calculation Agent acting in accordance with relevant market practice and in good faith. Any such adjustment will be performed taking into consideration any adjustments made by the Determining Futures Exchange to the there traded Derivatives linked to the Underlying, and the remaining term of the Securities as well as the latest available price of the Underlying. If pursuant to the rules of the Determining Futures Exchange, no adjustments were made to the Derivatives linked to the Underlying, the Terms and Conditions of these Securities regularly remain unchanged. The exercised adjustments and the date of the first application shall be notified according to § 6 of the General Conditions.
- (3) *Replacement Underlying:* In cases of an Index Replacement Event or a License Termination Event, the adjustment pursuant to paragraph (2) shall be made by the Calculation Agent acting in accordance with relevant market practice and in good faith, determining, which index should be used in the future as Underlying (the "**Replacement Underlying**"). If necessary, the Calculation Agent shall make further adjustments to the Terms and Conditions of these Securities (in particular to the Underlying, the ratio and/or all prices of the Underlying, which have been specified by the Issuer) and/or all prices of the Underlying determined by the Calculation Agent pursuant to the Terms and Conditions of these Securities in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. The Replacement Underlying and the adjustments made as well as the time of its first application will be published in accordance with § 6 of the General Conditions. From the first application of the Replacement Underlying on, any reference to the replaced Underlying in the Terms and Conditions of these Securities shall be deemed to refer to the Replacement Underlying.
- (4) *New Index Sponsor and New Index Calculation Agent:* If the Underlying is no longer determined by the Index Sponsor but rather by another person, company or institution (the "**New Index Sponsor**"), then all calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall occur on the basis of the Underlying as determined by the New Index Sponsor. In this case, any reference to the replaced Index Sponsor in the Terms and Conditions of these Securities shall be deemed to refer to the New Index Sponsor. If the Underlying is no longer calculated by the Index Calculation Agent but rather by another person, company or institution (the "**New Index Calculation Agent**"), then all calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall occur on the basis of the Underlying as calculated by the New Index Calculation Agent. In this case, any reference to the replaced Index Calculation Agent in the Terms and Conditions of these Securities shall be deemed to refer to the New Index Calculation Agent.
- (5) *Replacement Specification:* If a price of the Underlying published by the Index Sponsor or the Index Calculation Agent, as the case may be, pursuant to the Terms and Conditions of these Securities will subsequently be corrected and the correction (the "**Corrected Value**") will be published by the Index Sponsor or the Index Calculation Agent, as the case may be, after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish pursuant to § 6 of the General Conditions the relevant value by using the Corrected Value (the "**Replacement Specification**").

D.2	Key information on the key risks that are specific to the Issuer	In purchasing Securities, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Securities. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the Securities. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which they currently deem not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified a number of factors which could materially adversely affect their businesses and ability to make payments due under the Securities. These factors include: • risks connected with the review of the business model (Strategic Plan): failure or partial occurrence of the assumptions underlying the Strategic Plan or of the positive expected resulting effects could have significant negative effects on the assets and the operations; • risks associated with the impact of the current macroeconomic uncertainties and the volatility of the markets on the Group's performance; • risks connected with the volatility of markets; • risks connected with the UniCredit Group's activities in different geographical areas; • credit risk and risk of credit quality deterioration: risk that a bank borrower or counterparty will fail to meet its obligations in accordance with the agreed terms; • risks associated with disposal on non-performing loans; • risks related to the income results of the Group for the year ended 31 December 2016 and first half 2017: the present key risk factor highlights the risks related to investment in the capital of UniCredit in consideration of the variability of its income results, also in relation to current market conditions; the possible persistence of the economic and financial crisis and the uncertainty about the economic recovery could negatively affect the business, the results of operations or the financial condition of UniCredit and/or the Group; • risks associated with UniCredit's participation in the Atlante fund and the Atlante II fund: if the value of the assets in which the Atlante funds are invested and/or will be invested were to be reduced, or if such assets were to be replaced with assets having a greater risk profile or that are characterized by a greater degree of capital absorption, this could require to

		further write down UniCredit's investment in the Atlante funds, and/or could have an adverse effect on the capital ratios of UniCredit; • risks associated with the Group's exposure to sovereign debt; • liquidity risk: UniCredit Group may find itself unable to meet its current and future anticipated and unforeseen cash payments and delivery obligations without impairing its day-to-day operations or financial position; • risks related to intra-group exposure; • market risks: risk that changes in the market variables (interest rate, securities price, exchange rates, etc.) can affect the economic value of the Group's portfolio; • risks connected with interest rate fluctuations: a significant change in interest rates may have a major negative impact (e.g. reduction of value of assets and/or interest margin) on the operating results and capital and/or financial position of the relevant Issuer and/or the Group; • risks connected with exchange rates: any negative change in exchange rates, in particular if insufficiently hedged, could have major negative effects on the activity, operating results and capital and financial position of the relevant Issuer and/or the Group; • risks associated with borrowings and evaluation methods of the assets and liabilities of the relevant Issuer; • risks related to deferred taxes; • risks connected with interests in the capital of the Bank of Italy; • counterparty risk in derivative and repo operations: risk that the counterparty of such operations may fail to fulfil its obligations or may become insolvent before the contract matures, when the Issuer or one of the other Group companies still holds a credit right against the counterparty; • risks connected with exercising the Goodwill Impairment Test and losses in value relating to goodwill: the future evolution of certain factors, including macroeconomic developments and the volatility of financial markets, as well as future changes in the Group corporate strategy, could have a material adverse impact on impairment tests and on Group business, financial condition and results of operations; • risks connected with existing alliances and joint ventures: obligations, in relation to coinvestments, distribution agreements and sale & purchase agreements, subject to certain conditions that, if met, could result in negative impacts on the operations, operating results, capital and financial position of the Issuer and/or the Group; • risks connected with the performance of the property market; • risks connected with pensions: the UniCredit Group is exposed to certain risks relating to commitments to pay pension benefits to employees following the termination of their employment; • risks connected with risk monitoring methods and the validation of such methods; • risks relating to the IT system management; • risks connected with non-banking activities: default by the counterparties of operations, such as trading operations, or issuers of securities held by UniCredit Group companies, as well as, for the non-banking shareholdings (also deriving from conversion of debt into equity instruments) the mismanagement of these activities and the related equity investments could have major negative effects on the activity, operating results and capital and financial position of UniCredit and/or the Group;

		• risks connected with legal proceedings in progress and supervisory authority measures; • risks arising from tax disputes; • risks related to international sanctions with regard to sanctioned countries and to investigations and/or proceedings by the U.S. authorities; • risks connected with the organisational and management model pursuant to Legislative Decree 231/2001 and the accounting administrative model pursuant to Law 262/2005; • risks connected with Alternative Performance Indicators (APIs): APIs are not standardised, unaudited and are not indicative of the Group's future performance; • risks connected with operations in the banking and financial sector: if the Group were unable to meet the growing competitive pressure in the banking and financial sector, it could lose market share in various sectors, with consequent significant negative effects on the operating results and capital and financial position of the Issuer and/or the Group; • risks connected with ordinary and extraordinary contribution to funds established under the scope of the banking crisis rules; • risks connected with the entry into force of new accounting principles and changes to applicable accounting principles; • risks connected with the political and economic decisions of EU and Eurozone countries and the United Kingdom leaving the European Union (Brexit); • Basel III and CRD IV: UniCredit may be required to maintain levels of capital which could potentially impact its credit ratings, and funding conditions and which could limit UniCredit's growth opportunities; • forthcoming regulatory changes; • ECB Single Supervisory Mechanism: risks connected with increased capital requirements - the need for additional capital to meet capital requirements could have significant negative effects on the operating results and capital and financial position of UniCredit and/or the Group; • the bank recovery and resolution directive (BRRD) is intended to enable a range of actions to be taken in relation to credit institutions and investment firms considered to be at risk of failing. The taking of any such actions (or the perception that the taking of any such action may occur) could materially adversely affect the value of any Securities and/or the rights of Security Holders; • implementation of the BRRD in Italy: the exercise of the powers of the BRRD implemented in Italy (e.g. write-down or conversion into equity) may be applied to UniCredit and the Securities issued or guaranteed by UniCredit; • implementation of BRRD in Luxembourg: the exercise of the powers of the BRRD implemented in Luxembourg (e.g. write-down or conversion into equity) may be applied to Unicredit International Luxembourg and the Securities issued by Unicredit International Luxembourg; • as of 2016 the UniCredit Group is subject to the provisions of the Regulation establishing the Single Resolution Mechanism: UniCredit is obligated to provide financial resources which could have a significant impact on UniCredit's financial and capital position; and • ratings: any rating downgrade of UniCredit or other entities of the Group could have a material adverse effect on its business, financial condition and results of operations.

D.6	Key information on the key risks that are specific to the securities	In the opinion of the Issuer, the key risks described below may, with regard to the Security Holder, adversely affect the value of the Securities and/or the amounts to be distributed (including the delivery of any quantity of Underlyings or its components to be delivered) under the Securities and/or the ability of Security Holders to sell the Securities at a reasonable price prior to the maturity date of the Securities. • Potential conflicts of interest The risk of conflicts of interest (as described in E.4) is related to the possibility that the Issuer, distributors or agents or any of their affiliates, in relation to certain functions or transactions, may pursue interests which may be adverse to or do not regard the interests of the Security Holders. • Key risks related to the Securities Key risks related to the market Under certain circumstances a Security Holder may not be able to sell his Securities at all or at an adequate price prior to their redemption. The market value of the Securities will be affected by the creditworthiness of the Issuer and a number of other factors (e.g., exchange rates, prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability of the Securities and Underlying-related factors) and may be substantially lower than the Nominal Amount or the Purchase Price. Security Holders may not rely on being able to sufficiently hedge against price risks arising from the Securities at any time. Key risks related to the Securities in general The Issuer may possibly fail to perform its obligations under the Securities in whole or in part, e.g., in case of an insolvency of the Issuer or due to governmental or regulatory interventions. Such risk is not protected by a deposit protection scheme or any similar compensation scheme. The competent resolution authority may apply resolution tools which include, among others, a bail-in instrument (e.g., conversion of Securities into equity instruments or write down). Application of a resolution tool may materially affect the rights of the Security Holders. An investment into the Securities may be illegal or unfavourable for a potential investor or not suitable, with regard to his knowledge or experience and his financial needs. The real rate of return of an investment into the Securities may be reduced or may be zero or even negative (e.g., due to incidental costs in connection with the purchase, holding and disposal of the Securities, future money depreciation (inflation) or tax effects). The redemption amount may be less than the Issue Price or the respective purchase price and, under certain circumstances, no interest or ongoing payments will be made. The proceeds from the Securities may possibly not be sufficient to make interest or principal payments arising from a financing purchase of the Securities and require additional capital. Risks related to Underlying-linked Securities (i) Risks arising from the influence of the Underlying on the market value of the Securities; (ii) risks arising from absent ongoing distributions; (iii) risks arising from the fact that the valuation of the Underlying or a Basket Component occurs only at a specified date or point in time; (iv) risks due to only partial capital protection by the Minimum Amount; (v) risks arising from the impact of thresholds or limits; (vi) risks in relation to a Participation Factor; (vii) risks relating to a Strike Level, Final Strike Level and/or a Strike; (viii) risks due to a limitation of potential returns to a Maximum Amount or due to other limitations; (ix) specific risks in respect of Performance Telescope Securities and Garant Telescope Securities; (x) specific risks in respect of Geoscope Securities; (xi) risks with reverse structures; (xii) risks with respect to several Underlyings or a basket of Underlyings; (xiii) risk of postponement or alternative provisions for the valuation of the Underlying or the Basket Components; (xiv) currency risk with respect to the Underlying or the Basket Components; (xv) risks in relation to Adjustment Events; (xvi) risk of Market Disruptions; (xvii) risk of regulatory consequences to investors when investing in Underlying-linked Securities; (xviii) risks arising from negative effects of hedging arrangements by the Issuer on the Securities;

		(xix) risks arising from the Issuer's Conversion Right; (xx) risks related to a target volatility strategy; (xxi) risks related to Adjustment Events and (xxii) risks related to Market Disruption Events. • Key risks related to the Underlying or its components General risks (i) Risks arising from the volatility of the value of the Underlying and risk due to a short history; (ii) risks arising from Regulation (EU) 2016/1011 of the European Parliament and of the Council dated 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014; (iii) no rights of ownership in the Underlying or its constituents; (iv) risks associated with Underlyings subject to emerging market jurisdictions. Key risks related to indices (i) Similar risks to a direct investment in index components; (ii) no influence of the Issuer on the index; (iii) risks of unrecognised or new indices; (iv) risks arising from special conflicts of interests in relation to indices as Underlying; (v) risks in relation to strategy indices as Underlying; (vi) risks in relation to price indices as Underlying; (vii) risks in relation to net return indices as Underlying; (viii) risks in relation to short indices as Underlying; (ix) risks in relation to leverage indices as Underlying; (x) risks in relation to distributing indices as Underlying; (xi) risk of country or sector related indices; (xii) currency exchange risk contained in the index; (xiii) adverse effect of fees on the index level; (xiv) adverse effect of synthetic dividends on index level (xv) risks with respect to the publication of the index composition which is not constantly updated. Investors may lose the value of their entire investment or part of it.

Issue Price: EUR 1,000.00 A public offer will be made in Italy. The smallest transferable unit is 1 certificate. The smallest tradable unit is 1 certificate. The Securities will be offered to qualified investors, retail investors and/or institutional investors by way of public offerings. The public offer may be terminated by the Issuer at any time without giving any reason. Subscription period: 08 March 2018 – 27 March 2018 Subscription orders are irrevocable, except for provisions in respect to the "door to door selling", in relation to which the subscription orders will be accepted starting from 08 March 2018 to 20 March 2018 – unless closed in advance and without previous notice – and will be satisfied within the limits of the maximum number of Securities on offer. The Securities can be placed by the relevant distributor through "door to door selling" (through financial sales agents, pursuant to the articles 30 and 31 of the Italian Legislative Decree 24 February 1998, n. 58). Therefore, the effects of the

		subscription agreements will be suspended for seven days, with reference to those "door to door selling", from the date of the subscription by the investors. Within such terms, the investor can withdraw by means of a notice to the financial promoter or the distributors without any liability, expenses or other fees according to the conditions indicated in the subscription agreement. UniCredit Bank AG is the intermediary responsible for the placement of the Securities (<i>Responsabile del Collocamento</i>), as defined in article 93-bis of the Italian Legislative Decree 24 February 1998, n. 58 (as subsequently amended and supplemented). No specific allocation method is established. Subscription requests shall be satisfied by the relevant office in a chronological order and within the limits of the available amount. The effectiveness of the offer is subject to the adoption of the admission provision for trading by EuroTLX prior to the Issue Date. The Issuer undertakes to request the admission to trading on EuroTLX in time for the adoption of the admission provision by the Issue Date.
E.4	Any interest that is material to the issue/offer including conflicting interest	Any of the relevant distributors and/or their affiliates may be customers of, and borrowers from the Issuer or its affiliates. In addition, any of such distributors and their affiliates may have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for the Issuer or its affiliates in the ordinary course of business. The Issuer, as the relevant distributor, has a conflict of interest with the Security Holder with regard to the offer of the Securities, due to its role in the issue and offer of the Securities. In particular, UniCredit Bank AG is also the arranger, the swap counterparty, and the Calculation Agent of the Securities. Moreover, UniCredit Bank AG shall also act as the intermediary responsible for the placement of the Securities '<i>Responsabile del Collocamento</i>' (as defined by article 93-bis of the Italian Legislative Decree 24 February 1998, n. 58) of the Securities. With regard to trading of the Securities the UniCredit Bank AG has a conflict of interest being also the Market Maker on the EuroTLX; moreover EuroTLX is organised and managed by Euro TLX SIM S.p.A., a company in which UniCredit S.p.A. has a stake. The Issuer is also the Paying Agent of the Securities. The relevant distributors will be paid aggregate commissions equal to 2.60 per cent. of the nominal amount of the Securities. Any relevant distributor and its affiliates may also have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business. Besides, conflicts of interest in relation to the Issuer or the persons entrusted with the offer may arise for the following reasons: • The Issuer specifies the Issue Price. • The Issuer and one of its affiliates act as Market Maker of the Securities (however, no such obligation exists). • distributors may receive inducements from the Issuer. • The Issuer, any relevant distributor and any of their affiliates act as Calculation Agent or Paying Agent in relation to the Securities. • From time to time, the Issuer, any relevant distributor, and any of their affiliates may be involved in transactions on their own account or on the account of their clients, which affect the liquidity or the price of the Underlying or its components. • The Issuer, any distributor, and any of their affiliates may issue securities in relation to the Underlying or its components on which already other securities have been issued. • The Issuer, any distributor, and any of their affiliates may possess or obtain material information about the Underlying or its components (including publicly not accessible information) in connection with its business activities or otherwise. • The Issuer, any relevant distributor, and any of their affiliates may engage in

		business activities with the issuer of the Underlying or its components, its affiliates, competitors or guarantors. • The Issuer, any relevant distributor, and any of their affiliates may also act as a member of a syndicate of banks, as financial advisor or as bank of a sponsor or issuer of the Underlying or its components. In addition, the relevant distributor may receive from the Issuer an implied placement commission comprised in the Issue Price while the Issuer will receive an implied structuring commission and other charges.
E.7	Estimated expenses charged to the investor by the Issuer	Selling Concession: The Issue Price includes the following costs: a distribution fee for the intermediary equal to 2.60 % of the Issue Price and costs, for the Issuer, linked to the structuring of the product equal to 2,5892% of the Issue Price.

C. TITOLI

C.1	Tipo e classe dei titoli offerti e/o ammessi alla negoziazione, incluso qualsiasi codice identificativo dei titoli	Titoli Garant Digital Coupon “Valore Nominale” indica EUR 1.000 I Titoli saranno emessi come Certificati con un Valore Nominale. I "Certificati" sono strumenti di debito nominativi dematerializzati ai sensi del Testo Unico in materia di intermediazione finanziaria (<i>Testo Unico della Finanza</i>). I Titoli sono rappresentati da una registrazione contabile. I portatori dei Titoli (i “Portatori dei Titoli”) non hanno diritto di ricevere Titoli definitivi. Il codice ISIN (<i>International Securities Identification Number</i>) è indicato
-----	--	---

		nell'Allegato alla presente Nota di Sintesi.
C.2	Valuta dell'emissione di titoli	I Titoli sono emessi in Euro ("EUR") (la " Valuta Specificata ").
C.5	Restrizioni alla libera trasferibilità dei titoli	Non applicabile. I Titoli sono liberamente trasferibili.
C.8	Diritti connessi ai titoli, compreso il <i>ranking</i> e le restrizioni a tali diritti	Diritti connessi ai Titoli I Titoli hanno una durata fissa. I Titoli non sono fruttiferi. I Portatori dei Titoli avranno diritto al pagamento del rispettivo Importo Condizionato Aggiuntivo (k) (come indicato al punto C.15) alla Data di Pagamento dell'Importo Condizionato Aggiuntivo (k) come indicato nell'Allegato alla presente Nota di Sintesi. I Portatori dei Titoli hanno diritto al pagamento dell'Importo di Rimborso (come definito al punto C.15) alla Data di Pagamento Finale (come definita al punto C.16), che è pari all'Importo Minimo, che è indicato nell'Allegato alla presente Nota di Sintesi.
		Legge applicabile ai Titoli I Titoli, per quanto riguarda la forma ed il contenuto oltre ai diritti ed obblighi tutti dell'Emittente e dei Portatori dei Titoli, saranno soggetti alla legge italiana. Status dei Titoli Le obbligazioni dell'Emittente ai sensi dei Titoli costituiscono obbligazioni dirette, incondizionate, non subordinate e non garantite dell'Emittente aventi (subordinatamente a qualsiasi obbligazione preferita per legge (subordinatamente anche a qualsiasi strumento bail-in come attuato ai sensi della legge italiana)) pari priorità con tutte le altre obbligazioni non garantite (diverse dalle eventuali obbligazioni aventi priorità inferiore alle obbligazioni senior di volta in volta (inclusi i titoli senior non preferenziali e qualsiasi altra obbligazione che la legge preveda possa avere priorità inferiore alle obbligazioni senior successivamente alla Data di Emissione)) dell'Emittente presenti e future e, in caso di obbligazioni senior, con pari priorità e proporzionalmente senza alcuna preferenza tra le stesse. Restrizioni ai diritti L'Emittente può modificare il regolamento dei Titoli.
C.11	Ammissione alla negoziazione su un mercato regolamentato	Non applicabile. Non è stata presentata né è previsto che venga presentata l'ammissione a quotazione dei Titoli presso un mercato regolamentato o mercato equivalente. Ad ogni modo, sarà presentata istanza di negoziazione con efficacia dal 6 aprile 2018, sui seguenti sistemi multilaterali di negoziazione (MTF): EuroTLX organizzato da EuroTLX SIM S.p.A. UniCredit Bank AG (il "Market Maker") si impegna a fornire liquidità mediante quotazioni denaro e lettera nel rispetto delle previsioni sul <i>market making</i> di

		EuroTLX, dove ci si attende che i Titoli saranno negoziati. Gli obblighi del Market Maker sono stabiliti dai regolamenti dei mercati organizzati e gestiti da Euro TLX, e dalle istruzioni ad essi relative. Inoltre, il Market Maker si impegna ad applicare, in normali condizioni di mercato, uno spread sulle proposte di acquisto e vendita delle quote non maggiore di 1.00 %.
C.15	Effetto del sottostante sul valore dei titoli	Il valore dei Titoli durante la loro vita dipende principalmente dal prezzo del Sottostante (come definito al punto C.20). In linea di principio, il valore dei Titoli sale se il prezzo del Sottostante sale e scende se il prezzo del Sottostante scende. Un Importo Condizionato Aggiuntivo (k) (come definito nell'Allegato alla presente Nota di Sintesi) viene pagato alle Date di Pagamento dell'Importo Condizionato Aggiuntivo (k) (come indicato nell'Allegato alla presente Nota di Sintesi) se il Prezzo di Riferimento (come indicato nell'Allegato alla presente Nota di Sintesi) alla Data di Osservazione (k) (come indicato nell'Allegato alla presente Nota di Sintesi) è maggiore o uguale allo Strike. Strike indica il Livello Strike x R (iniziale) (come definito al punto C.19), dove il Livello Strike è indicato nell'Allegato alla presente Nota di Sintesi. Se R (k) è inferiore allo Strike, nessun Importo Aggiuntivo (k) sarà pagato alla Data di Osservazione (k) (come indicata nell'Allegato alla presente Nota di Sintesi). R (k) è definito al punto C.19.
C.16	Data di estinzione o scadenza degli strumenti derivati –data di esercizio o data di riferimento finale	La " Data di Pagamento Finale " è indicata nell'Allegato alla presente Nota di Sintesi.

L'Agente per il Pagamento Principale pagherà gli importi dovuti al Sistema di Compensazione per l'accredito sui rispettivi conti delle banche depositarie che a loro volta li trasferiscono ai Portatori dei Titoli. Il pagamento al Sistema di Compensazione libererà l'Emittente dalle proprie obbligazioni ai sensi dei Titoli per l'importo di tale pagamento. "Sistema di Compensazione" indica Monte Titoli.
C.18	Descrizione delle modalità secondo le quali si generano i proventi degli strumenti derivati	Si veda anche l'Elemento C.15 che precede. Pagamento dell'Importo di Rimborso alla Data di Pagamento Finale in occasione dell'esercizio automatico. I Titoli saranno rimborsati alla Data di Pagamento Finale all'Importo di Rimborso nella Valuta Specificata. L' "Importo di Rimborso" è pari all'Importo Minimo. L' "Importo Minimo" è definito nell'Allegato alla presente Nota di Sintesi.
C.19	Prezzo di esercizio o prezzo di riferimento definitivo del sottostante	"R (iniziale)" significa il Prezzo di Riferimento alla Data di Osservazione Iniziale. "R (k)" significa il Prezzo di Riferimento alla rilevante Data di Osservazione (k).

C.20	Tipo di sottostante / e descrizione di dove le informazioni sul sottostante possono essere reperite	Le descrizioni del Sottostante sono incluse nell'Allegato alla presente Nota di Sintesi. D. RISCHI

D.2	Informazioni fondamentali sui principali rischi che sono specifici dell'Emittente [e del Garante]	Nell'acquistare i Titoli, gli investitori si assumono il rischio che l'Emittente diventi insolvente o non sia altrimenti in grado di effettuare tutti i pagamenti dovuti in relazione ai Titoli. Esiste una vasta gamma di fattori che, singolarmente o congiuntamente, potrebbero rendere l'Emittente incapace di effettuare tutti i pagamenti dovuti in relazione ai Titoli. Non è possibile individuare tutti tali fattori, né determinare quali fattori siano più suscettibili di materializzarsi, in quanto l'Emittente può non essere a conoscenza di tutti i fattori rilevanti, e certi fattori che lo stesso attualmente ritiene non essere rilevanti possono diventare rilevanti a seguito del verificarsi di eventi che sfuggono al controllo dell'Emittente. L'Emittente ha individuato alcuni fattori che potrebbero avere un effetto sostanzialmente pregiudizievole per le loro attività e per la loro capacità di effettuare pagamenti dovuti ai sensi dei Titoli. Questi fattori includono: • rischi associati alla revisione del modello di <i>business</i> (Piano Strategico): la mancata o solo parziale verifica dei presupposti sottostanti il Piano Strategico o delle attese ripercussioni positive potrebbe avere un significativo impatto negativo sulle attività e sulle operazioni; • rischi associati all'impatto delle attuali incertezze macroeconomiche e alla volatilità dei mercati sull'andamento del Gruppo; • rischi associati alla volatilità dei mercati; • rischi associati alle attività del Gruppo UniCredit nelle diverse aree geografiche; • rischio di credito e rischio di deterioramento nella qualità creditizia: rischio che una banca debitrice o controparte mancherà di far fronte alle proprie obbligazioni secondo i termini concordati; • rischi associati alla dismissione dei crediti in sofferenza; • rischi relativi ai risultati reddituali del Gruppo per l'esercizio concluso il 31 dicembre 2016 e la prima metà del 2017: il presente fattore di rischio fondamentale evidenzia i rischi collegati a un investimento nel capitale di UniCredit in considerazione della variabilità dei suoi proventi, anche in relazione alle attuali condizioni di mercato; • rischi associati alla partecipazione di UniCredit al fondo Atlante e al fondo Atlante II: se il valore degli attivi nelle quali i fondi Atlante sono
-----	---	--

		investiti e/o investiranno dovesse ridursi, o se tali attivi dovessero essere sostituiti da attivi con un profilo di rischio maggiore o caratterizzati da un grafo di assorbimento patrimoniale maggiore, tale circostanza potrà comportare la necessità di svalutare ulteriormente l'investimento di UniCredit nei fondi Atlante e/o potrà avere un effetto negativo sui <i>ratio</i> patrimoniali di UniCredit ; • rischi associati all'esposizione del Gruppo al debito sovrano; • rischio di liquidità: il Gruppo UniCredit potrà trovarsi nell'impossibilità di rispettare i propri attuali e futuri previsti e imprevisi pagamenti contanti e obbligazioni di consegna senza compromettere le proprie operazioni giornaliere o la propria posizione finanziaria; • rischi relativi all'esposizione infra-gruppo; • rischi di mercato: rischio che cambiamenti nelle variazioni di mercato (tasso di interesse, prezzo dei titoli, tassi di cambio, ecc.) possano influire sul valore economico del portfolio del Gruppo; • rischi associati alle fluttuazioni dei tassi di interesse: un cambiamento significativo dei tassi di interesse potrà avere un notevole impatto negativo (ad es. riduzione del valore delle attività e/o del margine di interesse) sui risultati operativi e sulla situazione economica, patrimoniale e/o finanziaria del relativo Emittente e/o del Gruppo; • rischi associati ai tassi di cambio: tutti i cambiamenti negativi dei tassi di cambio, soprattutto se non sufficientemente coperti, potrebbe avere un notevole effetto negativo sull'attività, sui risultati operativi e sulla situazione economica, patrimoniale e finanziaria del relativo Emittente e/o del Gruppo; • rischi associati alle assunzioni e ai metodi di valutazione di attività e passività del rilevante Emittente; • rischi relativi alle imposte differite; • rischi associati a partecipazioni nel capitale della Banca d'Italia; • rischio di controparte nelle operazioni su derivati e pronti contro termine: rischio che la controparte di tali operazioni sia inadempiente alle proprie obbligazioni o divenga insolvente prima della scadenza del contratto, quando l'Emittente o una delle altre società del Gruppo vanta ancora un diritto di credito nei confronti di tale controparte; • rischi associati all'effettuazione del Test di Deterioramento dell'Avviamento e perdite di valore relative all'avviamento: l'evoluzione futura di taluni fattori, inclusi gli sviluppi macroeconomici e la volatilità dei mercati finanziari, così come cambiamenti futuri della strategia aziendale del Gruppo, potrebbe avere un rilevante effetto negativo sui test di deterioramento e sul <i>business</i> del Gruppo, sulla condizione finanziaria e sui risultati delle operazioni; • rischi associati alle alleanze e joint venture esistenti: obbligazioni,
--	--	--

		relative a coinvestimenti, contratti di distribuzione, e contratti di compravendita, sottoposti a talune condizioni che, se si verificassero, potrebbero produrre impatti negativi sulle operazioni, sui risultati operativi, e sulla situazione economica, patrimoniale e finanziaria dell'Emittente e/o del Gruppo; • rischi associati all'andamento del mercato immobiliare; • rischi associati alle pensioni: il Gruppo UniCredit è esposto a taluni rischi correlati ad obblighi di pagamento di prestazioni pensionistiche ai propri dipendenti a seguito della cessazione del rapporto di lavoro; • rischi associati ai metodi di monitoraggio del rischio e alla validazione di tali metodi; • rischi relativi alla gestione del sistema informatico; • rischi associati alle attività non bancarie: l'inadempimento delle controparti di una serie di operazioni, come ad esempio operazioni di negoziazione, o degli emittenti di titoli detenuti dalle società del Gruppo UniCredit, così come, per le partecipazioni non bancarie (anche derivanti dalla conversione del debito in strumenti azionari), la cattiva gestione di queste attività e dei relativi investimenti azionari potrebbe avere effetti negativi rilevanti sulle attività, sui risultati operativi, sulla situazione economica, patrimoniale e finanziaria dei UniCredit e/o del Gruppo; • rischi associati ai procedimenti giudiziali pendenti e alle misure delle autorità di vigilanza; • rischi derivanti da contestazioni fiscali; • rischi relativi alle sanzioni internazionali con riferimento ai paesi sanzionati e alle indagini e/o ai procedimenti da parte di autorità Statunitensi; • rischi associati al modello organizzativo e di gestione ai sensi del D. Lgs. 231/2001 e del modello amministrativo contabile ai sensi della L. 262/2005; • rischi associati agli Indicatori di Performance Alternativi (API): gli API sono non standardizzati, non verificati e non sono indicativi dei risultati futuri del Gruppo; • rischi associati all'operatività nel settore bancario e finanziario: se il Gruppo non fosse in grado di rispondere alla crescente pressione competitiva del settore bancario e finanziario, potrebbe perdere quote di mercato in diversi settori, con conseguenti effetti negativi rilevanti sui risultati operativi e sulla situazione economica, patrimoniale e/o finanziaria dell'Emittente e/o del Gruppo; • rischi associati al contributo ordinario e straordinario ai fondi costituiti nell'ambito delle regole relative alle crisi bancarie; • rischi associati all'entrata in vigore di nuovi principi contabili e alle
--	--	---

		modifiche ai principi contabili applicabili; - rischi associati alle decisioni politiche e economiche dell'UE e dei paesi della Zona Euro e all'uscita del Regno Unito dall'Unione europea (Brexit); - Basilea III e CRD IV: ad UniCredit potrebbe essere richiesto di mantenere un livello di capitale che potrebbe avere conseguenze sul suo rating, e sulle sue condizioni di finanziamento e che potrebbe limitare le opportunità di crescita di UniCredit; - imminenti cambiamenti regolamentari; - il Meccanismo di Vigilanza Unico della Banca Centrale Europea: rischi connessi all'aumento dei requisiti patrimoniali - la necessità di ricapitalizzazione per rispettare i requisiti patrimoniali potrebbe avere un significativo impatto negativo sui risultati operativi e sulla situazione economica, patrimoniale e finanziaria di Unicredit e/o del Gruppo; - la direttiva sul risanamento e la risoluzione delle banche (BRRD) ha lo scopo di consentire una serie di azioni che possono essere intraprese in relazione ad istituti di credito e società di investimento considerate a rischio di fallimento. L'adozione di una di tali azioni (o la percezione che possa intervenire l'adozione di una di tali azioni) può avere un impatto negativo rilevante sul valore dei Titoli e/o sui diritti di Portatori dei Titoli; - attuazione della BRRD in Italia: l'esercizio dei poteri della BRRD attuata in Italia (ad es. svalutazione o conversione in capitale) potrà essere applicato a UniCredit e ai Titoli emessi o garantiti da UniCredit; - attuazione della BRRD in Lussemburgo: l'esercizio dei poteri della BRRD attuata in Lussemburgo (ad es. svalutazione o conversione in capitale) potrà essere applicato a UniCredit International Luxembourg e ai Titoli emessi o garantiti da UniCredit International Luxembourg; - dal 2016 il Gruppo UniCredit è soggetto alle disposizioni del Regolamento istitutivo del Meccanismo di Vigilanza Unico: UniCredit è obbligata a stanziare risorse finanziarie che potrebbero avere un significativo impatto sulla posizione finanziaria ed economica e patrimoniale di UniCredit; e - i rating: ogni declassamento del rating di UniCredit o di altre entità del Gruppo potrebbero avere ripercussioni materiali negative sulle sue attività, sulla situazione finanziaria e sui risultati delle operazioni.
D 6	Informazioni fondamentali sui principali rischi che sono specifici degli strumenti finanziari.	A parere dell'Emittente, i rischi fondamentali descritti nel proseguito possono, con riferimento al Portatore dei Titoli, condizionare negativamente il valore dei Titoli e/o gli importi da distribuirsi (inclusa la consegna di una qualsiasi quantità di Sottostante o dei suoi componenti da consegnare) ai sensi dei Titoli e/o la capacità del Portatore dei Titoli di vendere i Titoli ad un prezzo ragionevole prima della data di scadenza dei Titoli. Potenziiali conflitti di interesse Il rischio di conflitti di interesse (come descritto al punto E.4) è relativo alla possibilità che l'Emittente, i collocatori o gli agenti ovvero una qualsiasi loro

	affiliata, in relazione a talune funzioni o operazioni, possano perseguire interessi che possono essere contrari a o non considerare gli interessi dei Portatori dei Titoli. • Rischi fondamentali relativi ai Titoli <i>Rischi fondamentali relativi al mercato</i> In talune circostanze un Portatore di Titoli potrebbe non essere in grado di vendere i propri Titoli del tutto o ad un prezzo adeguato prima del loro rimborso. Il valore di mercato dei Titoli sarà condizionato dal merito creditizio dell'Emittente e da numerosi altri fattori (ad esempio, tassi di cambio, tassi di interesse e di rendimento prevalenti, il mercato per titoli simili, le generali condizioni economiche, politiche e cicliche, la negoziabilità dei Titoli e fattori relativi al Sottostante) e potrebbe essere sostanzialmente inferiore rispetto al Valore Nominale o al Prezzo di Acquisto. I Portatori dei Titoli potrebbero non poter fare affidamento sulla capacità di coprirsi sufficientemente nei confronti dei rischi di prezzo derivanti dai Titoli in qualsiasi momento. <i>Rischi fondamentali relativi ai Titoli in generale</i> E' possibile che l'Emittente non riesca ad adempiere alle proprie obbligazioni ai sensi dei Titoli in tutto o in parte, ad esempio, in caso di insolvenza dell'Emittente o a causa di interventi governativi o regolamentari. Tale rischio non è protetto da alcuno sistema di tutela dei depositi o alcun simile sistema di rimborso. L'autorità di risoluzione competente potrebbe applicare strumenti di risoluzione che includono, tra gli altri, uno strumento "bail-in" (es. la conversione dei Titoli in strumenti rappresentativi o riduzioni di valore). L'applicazione di uno strumento di risoluzione potrebbe influire in modo sostanziale sui diritti dei Portatori dei Titoli. Un investimento nei titoli potrebbe non essere legale o potrebbe essere sfavorevole o non adeguato per un potenziale investitore, in relazione alla sua conoscenza o esperienza ed alle sue esigenze finanziarie. Il tasso di rendimento reale di un investimento nei Titoli potrebbe essere ridotto o pari a zero o addirittura negativo (ad esempio, a causa di costi incidentali relativi all'acquisto, detenzione o vendita dei Titoli, futuro deprezzamento del denaro (inflazione) o effetti fiscali). L'importo di rimborso potrebbe essere inferiore rispetto al Prezzo di Emissione o al rispettivo prezzo di acquisto e, in talune circostanze, non saranno effettuati pagamenti a titolo di interessi o periodici. I proventi di Titoli potrebbero non essere sufficienti per effettuare pagamenti a titolo di interessi o capitale derivanti da un acquisto finanziato dei Titoli e potrebbero essere necessario capitale aggiuntivo. <i>Rischi relativi ai Titoli a tasso fisso</i> Il Portatore di un Titolo a tasso fisso è esposto al rischio che il prezzo di quel Titolo scenda, a causa di cambiamenti nel mercato dei tassi di interesse.] <i>Rischi relativi ai Titoli legati ad un Sottostante</i> (i) rischi derivanti dall'influenza del Sottostante sul valore di mercato dei Titoli; (ii) rischi derivanti dall'assenza di collocamenti continuativi; (iii) rischi derivanti dal fatto che la valutazione del Sottostante o di un Componente del Paniere viene effettuata solo in una determinata data o momento; (iv) rischi relativi alla sola parziale protezione del capitale da parte dell'Importo Minimo; (v) rischi derivanti
--	--

		dall'impatto di soglie o limiti; (vi) relativi ad un Fattore di Partecipazione; (vii) rischi relativi al Livello Strike, al Livello Strike Finale e/o allo Strike; (viii) rischi dovuti alla limitazione del potenziale rendimento ad un Importo Massimo o ad altre limitazioni; (ix) rischi specifici relativi a Titoli Performance Telescope e a Titoli Garant Telescope; (x) specifici rischi relativi a Titoli Geoscope; (xi) rischi relativi a strutture inverse; (xii) rischi relativi a diversi Sottostanti o a paniere di Sottostanti; (xiii) rischio di posticipo o di previsioni alternative per la valutazione del Sottostante o dei Componenti del Paniere; (xiv) rischio valutario relativo al Sottostante o ai Componenti del Paniere; (xv) rischi relativi ad Eventi di Rettifica; (xvi) rischio di Turbativa del Mercato; (xvii) rischio di conseguenze regolamentari per gli investitori nel momento in cui investano in Titoli legati al Sottostante; (xviii) rischi derivanti da effetti negativi degli accordi di copertura da parte dell'Emittente sui Titoli; (xix) rischi derivanti dal Diritto di Conversione dell'Emittente; (xx) rischi relativi a strategie di volatilità target; (xxi) rischi relativi a Eventi di Aggiustamento e (xxii) rischi relativi a Eventi di Turbativa del Mercato. • Rischi fondamentali relativi al Sottostante o ai suoi componenti <i>Rischi Generali</i> (i) Rischi derivanti dalla volatilità del valore del Sottostante e rischio dovuto ad una breve storia passata; (ii) rischi derivanti dal Regolamento (UE) 2016/1011 del Parlamento Europeo e del Consiglio emanato in data 8 giugno 2016 sugli indici usati come indici di riferimento negli strumenti finanziari e nei contratti finanziari o per misurare la performance di fondi di investimento e recante modifica delle Direttive 2008/48/CE e 2014/17/UE e del Regolamento (UE) n. 596/2014; (iii) assenza di diritti di proprietà sul Sottostante o sui suoi costituenti; (iv) rischi connessi a Sottostanti soggetti a giurisdizioni dei mercati emergenti. <i>Rischi fondamentali relativi agli indici</i> (i) Rischi simili ad un investimento diretto nei componenti dell'indice; (ii) assenza di influenza da parte dell'Emittente sull'indice; (iii) rischi di indici non riconosciuti o nuovi; (iv) rischi derivanti da specifici conflitti di interesse in relazione agli indici che costituiscono il Sottostante; (v) rischi relativi ad indici di strategia quale Sottostante; (vi) rischi relativi a indici di prezzo quali Sottostante; (vii) rischi relativi ad indici a rendimento netto quale Sottostante; (viii) rischi relativi ad indici <i>short</i> quale Sottostante; (ix) rischi relativi ad indici a leva quale Sottostante; (ix) rischi relativi ad indici distributivi quale Sottostante; (xi) rischio di indici paese o indici relativi ad un settore; (xii) rischio di cambio contenuto nell'indice; (xiii) effetto negativo delle commissioni sul livello dell'indice; (xiv) effetto negativo di dividendi sintetici sul livello dell'indice (xv) rischi relativi al fatto che la pubblicazione della composizione dell'indice non è continuamente aggiornata. Gli investitori possono perdere il valore del loro intero investimento o parte di esso.
