 - If no Barrier Event has occurred, the Redemption Amount corresponds to the Maximum Amount.
 - If a Barrier Event has occurred, the Redemption Amount is specified according to the following formula:

Issuer's Extraordinary Call Right

Issuer's extraordinary call right: Upon the occurrence of a Call Event the Issuer may call the Securities extraordinarily by giving notice pursuant to § 6 of the General Conditions and redeem the Securities at their Cancellation Amount. Such call shall become effective at the time indicated in the notice.

The "**Cancellation Amount**" shall be the fair market value of the Securities as of the tenth Banking Day before the extraordinary call becomes effective, determined by the Calculation Agent acting in accordance with relevant market practice and in good faith under then prevailing circumstances.

The determination of the fair market value is based on the economic equivalent of the Issuer's payment obligations to the Security Holders consistent with the provisions for the redemption profile, interest or other additional amounts of the Securities that would otherwise be due after the day on which the extraordinary call becomes effective and which is adjusted for taking into consideration the following parameters as of the tenth Banking Day before the extraordinary call becomes effective: the price of the Underlying, the remaining time to maturity, the estimated volatility, the expected dividends (if applicable), the current market interest rate as well as the interest spread associated with the credit default risk of the Issuer and any other relevant market parameter that can influence the value of the Securities.

The Cancellation Amount will be paid within five Banking Days following the date as of which the extraordinary call becomes effective, or at the date specified in the above mentioned notice, as the case may be, pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards.
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such

delay.

- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such a payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the legal interest rate (*'Saggio degli Interessi legali'*), pursuant to Section 1284 CC, without prejudice to any other mandatory provisions under Italian law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on an Observation Date, the respective Observation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Observation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 30 consecutive Banking Days the Calculation Agent shall determine, acting in accordance with relevant market practice and in good faith, the respective Reference Price required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. Such Reference Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Milan local time) on this 31st Banking Day, taking into account the economic position of the Security Holders.

If within these 30 Banking Days traded Derivatives of the Underlying expire and are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. In that case, the expiration date for those Derivatives is the respective Observation Date.

§ 8

Adjustments, Replacement Specification

- (1) *Adjustments:* Upon the occurrence of an Adjustment Event the Terms and Conditions of these Securities (in particular the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Issuer) and/or all prices of the Underlying determined by the Calculation Agent on the basis of the Terms and Conditions of these Securities shall be adjusted in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. Such adjustments shall be made by the Calculation Agent acting in accordance with relevant market practice and in good faith. Any such adjustment will be performed taking into consideration any adjustments made by the Determining Futures Exchange to the there traded Derivatives linked to the Underlying and the remaining term of the Securities as well as the latest available price of the Underlying. If the Calculation Agent determines that, pursuant to the rules of the Determining Futures Exchange, no adjustments were made to the Derivatives linked to the Underlying, the Terms and Conditions of these Securities regularly remain unchanged. The exercised adjustments and the date of the first application shall be notified according to § 6 of the General Conditions.
- (2) *Replacement Specification:* If a price of the Underlying published by the Relevant Exchange pursuant to the Terms and Conditions of these Securities will subsequently be corrected and the correction (the "**Corrected Value**") will be published by the Relevant Exchange after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish the respective value by using the Corrected Value (the "**Replacement Specification**") pursuant to § 6 of the General Conditions.

C. SECURITIES

C.1	Type and class of the securities	Express Securities with Additional Amount (autocallable) (with date-related Barrier observation) The " Securities " will be issued as Certificates with a Nominal Amount. Rights attached to the Securities The Securities have a fixed term. The Securities do not bear interest. If an Additional Conditional Amount Payment Event (m) has occurred (as defined in C.15) the Security Holders are entitled to the payment of the respective Additional Conditional Amount (m) (as specified in the Annex to this Summary) on the respective Additional Conditional Amount Payment Date (m) (as specified in the Annex to this Summary). The Security Holders are entitled to the payment of the respective Early Redemption Amount (k) (as specified in the Annex to this Summary) on the respective Early Payment Date (k) (as defined in C.16), if an Early Redemption Event has occurred (as defined in C.15), or the Redemption Amount (as defined in C.15) on the Final Payment Date (as defined in C.16). 		Upon the occurrence of one or more call events (e.g. if, in the event of an Adjustment Event, an adjustment is not possible or not reasonable with regard to the Issuer and/or the Security Holders) the Issuer may call the Securities extraordinarily and redeem the Securities at their Cancellation Amount. The "Cancellation Amount" is the fair market value. Moreover, the Market Maker undertakes to apply, in normal market conditions, a spread between bid and offer quotes not higher than 1.00 %.

In addition, the Securities allow for the payment of an Additional Conditional Amount (m) on each Additional Conditional Amount Payment Date (m) if an Additional Conditional Amount Payment Event (m) has occurred. In addition, the Securities allow under certain circumstances for automatic early redemption at the Early Redemption Amount (k). <i>Additional Conditional Amount (m)</i> The payment of the Additional Conditional Amount (m) depends on the occurrence of an Additional Conditional Amount Payment Event (m). "Additional Conditional Amount Payment Event (m)" means that the Reference Price is equal to or greater than the relevant Additional Conditional Amount Payment Level (m) on the relevant Observation Date (m). "Additional Conditional Amount Payment Level (m)" means the respective Additional Conditional Amount Payment Factor (m) multiplied by R (initial). • If an Additional Conditional Amount Payment Event (m) has occurred on an Observation Date (m), the respective Additional Conditional Amount (m) will be paid on the respective Additional Conditional Amount Payment Date (m) • If no Additional Conditional Amount Payment Event (m) has occurred on an Observation Date (m), no Additional Conditional Amount (m) is paid on the respective Additional Conditional Amount Payment Date (m). <i>Automatic Early Redemption</i> If an Early Redemption Event has occurred the Securities will be automatically early redeemed on the immediately following Early Payment Date (k) by payment of the respective Early Redemption Amount (k). An "Early Redemption Event" means that R (k) is equal to or greater than the Early Redemption Level (k) on the respective Observation Date (k) (as defined in C.16). <i>Redemption on the Final Payment Date</i> If no Early Redemption Event has occurred, redemption is made at the Final Payment Date as follows: If <u>no</u> Barrier Event has occurred redemption is made by payment of the Redemption

		Amount which corresponds to the Maximum Amount. If a Barrier Event has occurred and R (final) is equal to or greater than the Strike R (initial) redemption is made by payment of the Redemption Amount which corresponds to the Nominal Amount multiplied by R (final) and divided by the Strike. The Redemption Amount is not greater than the Nominal Amount. "Barrier Event" means that the Reference Price on the respective Barrier Observation Date is less than the Barrier. The Observation Date(s) (K), the Early Redemption Level (k), the Additional Conditional Amount Payment Level (m), the Maximum Amount, the Barrier Level and the Strike are specified in the Annex to this Summary.
C.16	The expiration or maturity date of the derivative securities – the exercise date or final reference date	The "Final Observation Date" , the "Final Payment Date" , the "Barrier Observation Date" , the "Observation Dates (k)" , the "Observation Dates (m)" and the "Early Payment Dates (k)" are specified in the Annex to this Summary.

D. RISKS

D.2	Key information on the key risks that are specific to the Issuer	In purchasing Securities, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Securities. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the Securities. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which they currently deem not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified a number of factors which could materially adversely affect their businesses and ability to make payments due under the Securities. These factors include:
-----	--	--

		• risks connected with the Strategic Plan: in case of failure or partial occurrence of the assumptions underlying the Strategic Plan, Group's actual results may differ significantly from those set forth in the strategic objectives; • risks associated with the impact of the current macroeconomic uncertainties and the volatility of the markets on the UniCredit Group's performance; • risks connected with the UniCredit Group's activities in different geographical areas; • credit risk and risk of credit quality deterioration: risk that a bank borrower or counterparty will fail to meet its obligations in accordance with the agreed terms; • risks connected to Bank Capital Adequacy; • risks associated with disposal of non-performing loans; • risks associated with UniCredit's participation in the Atlante fund and the Italian Recovery Fund (former Atlante II fund): if the value of the assets in which the Atlante funds are invested and/or will be invested were to be reduced, or if such assets were to be replaced with assets having a greater risk profile or that are characterized by a greater degree of capital absorption, this could require to further write down UniCredit's investment in the Atlante funds with consequent impacts on the capital ratios of UniCredit and with possible negative effects on the economic, equity and/or financial situation of UniCredit and/or the Group; • risks associated with the Group's exposure to sovereign debt; • liquidity risk: UniCredit Group may find itself unable to meet its current and future, anticipated and unforeseen cash payments and delivery obligations without impairing its day-to-day operations or financial position; • risks related to intra-group exposure; • market risks: risk that changes in the market variables (securities price, exchange rates, etc.) can affect the economic value of the Group's portfolio; • risks connected with interest rate fluctuations, • risks connected with exchange rates, • risks associated with borrowings and evaluation methods of the assets and liabilities of the Issuer; • risks relating to IT system management; • risks related to deferred taxes; • risks connected with interests in the capital of the Bank of Italy; • counterparty risk in derivative and repo operations: risk that the counterparty of such operations may fail to fulfil its obligations or may become insolvent before the contract matures, when the Issuer or one of the other Group companies still holds a credit right against the counterparty; • risks connected with exercising the Goodwill Impairment Test and losses in value relating to goodwill: the future evolution of certain factors, including macroeconomic developments and the volatility of financial markets, as well as changes in the Group corporate strategy, could have a material adverse impact on impairment tests and on Group business, financial condition and results of operations; • risks connected with existing alliances and joint ventures: obligations, in relation to coinvestments, distribution agreements and sale & purchase agreements, subject to certain conditions that, if met, could result in negative impacts on the operations, operating results, capital and financial position of the Issuer and/or the Group;
--	--	---

		• risks connected with the performance of the property market; • risks connected with pensions funds: the UniCredit Group is exposed to certain risks relating to commitments to pay pension benefits to employees following the termination of their employment; • risks connected with risk monitoring methods and the validation of such methods; • risks connected with legal proceedings in progress and supervisory authority measures; • risks arising from tax disputes; • risks connected with the organisational and management model pursuant to Legislative Decree 231/2001 and the accounting administrative model pursuant to Law 262/2005; • risks connected with operations in the banking and financial sector: Group is subject to the risks arising from competition, primarily in the provision of lending and financial brokerage. The banking and financial sector is also influenced by the uncertainties surrounding the stability and overall situation of the financial markets. A deterioration of financial market conditions and a greater competitive pressure could have a negative effects on the operating results and capital and financial position of the Issuer and/or the Group; • risks connected with ordinary and extraordinary contribution to funds established under the scope of the banking crisis rules; • risks connected with the entry into force of new accounting principles and changes to applicable accounting principles; • risks connected with the political and economic decisions of EU and Eurozone countries and the United Kingdom leaving the European Union (Brexit); • forthcoming regulatory changes; • ECB Single Supervisory Mechanism: risks connected with increased capital requirements - the need for additional capital to meet capital requirements could have significant negative effects on the operating results and capital and financial position of UniCredit and/or the Group; • the bank recovery and resolution directive (BRRD) is intended to enable a range of actions to be taken in relation to credit institutions and investment firms considered to be at risk of failing. The taking of any such actions (or the perception that the taking of any such action may occur) could materially adversely affect the value of any Securities and/or the rights of Security Holders; • implementation of the BRRD in Italy: the exercise of the powers of the BRRD implemented in Italy (e.g. write-down or conversion into equity) may be applied to UniCredit and the Securities issued by UniCredit; • as of 2016 the UniCredit Group is subject to the provisions of the Regulation establishing the Single Resolution Mechanism: UniCredit is obligated to provide financial resources which could have a significant impact on UniCredit's financial and capital position; • the European proposed financial transactions tax (the FTT); and • ratings: any rating downgrade of UniCredit or other entities of the Group could have a material adverse effect on its business, financial condition and results of operations.
D.6	Key information on the key risks that are specific	In the opinion of the Issuer, the key risks described below may, with regard to the Security Holder, adversely affect the value of the Securities and/or the amounts to be distributed (including the delivery of any quantity of Underlyings or its components to be delivered) under the Securities and/or the ability of Security Holders to sell the

	to the securities	Securities at a reasonable price prior to the final payment date of the Securities. • Potential conflicts of interest The risk of conflicts of interest (as described in E.4) is related to the possibility that the Issuer, distributors or any of their affiliates, in relation to certain functions or transactions, may pursue interests which may be adverse to or do not regard the interests of the Security Holders. • Key risks related to the Securities Key risks related to the market Under certain circumstances a Security Holder may not be able to sell his Securities at all or at an adequate price prior to their redemption. Even in the case of an existing secondary market it cannot be ruled out that the Security Holder may not be in a position to dispose of the Securities in the case of an unfavourable development of the Underlying or of a currency exchange rate, e.g. if such development occurs outside of the trading hours of the Securities. The market value of the Securities will be affected by the creditworthiness of the Issuer and a number of other factors (e.g., exchange rates, prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability of the Securities and Underlying-related factors) and may be substantially lower than the Nominal Amount or the purchase price. Security Holders may not rely on being able to sufficiently hedge against price risks arising from the Securities at any time. Key risks related to the Securities in general The Issuer may possibly fail to perform its obligations under the Securities in whole or in part, e.g., in case of an insolvency of the Issuer or due to governmental or regulatory interventions. Such risk is not protected by a deposit protection scheme or any similar compensation scheme. The competent resolution authority may apply resolution tools which include, among others, a "bail-in" instrument (e.g., conversion of Securities into equity instruments or write down). Application of a resolution tool may materially affect the rights of the Security Holders. An investment into the Securities may be illegal or unfavourable for a potential investor or not suitable, with regard to his knowledge or experience and his financial needs, goals and situation. The real rate of return of an investment into the Securities may be reduced or may be zero or even negative (e.g., due to incidental costs in connection with the purchase, holding and disposal of the Securities, future money depreciation (inflation) or tax effects). The redemption amount may be less than the Issue Price or the respective purchase price and, under certain circumstances, no interest or ongoing payments will be made. The proceeds from the Securities may possibly not be sufficient to make interest or principal payments arising from a financing purchase of the Securities and require additional capital. Risks related to Underlying-linked Securities <i>Risks arising from the influence of the Underlying on the market value of the Securities</i> The market value of the Securities and the amounts payable under the Securities significantly depend on the price of the Underlying. It is not possible to predict the price development of the Underlying in the future. Additionally, the market value of the Securities will be affected by a number of Underlying-related factors. <i>Risks arising from the fact that the observation of the Underlying occurs only at specified dates or times or periods</i> Due to the fact that the observation of the Underlying may occur only at specified dates, times or periods, amounts payable under the Securities may be considerably lower than the price of the Underlying may have suggested. <i>Risks related to conditional payments: Impact of thresholds or limits</i> The payment and/or the extent of such amounts depend on the performance of the Underlying. Certain amounts only may be payable if certain thresholds or limits have been reached or if certain events have occurred.
--	-------------------	--

		<i>Risks related to Barrier Events</i> The Security Holder may lose his invested capital in total or in part. In case of a Barrier Event, the Security Holder may lose the chance to receive payment of an Additional Conditional Amount. <i>Risks related to a Strike</i> The Security Holders may participate either to a lesser extent in a favourable performance or to a greater extent in an unfavourable performance of the Underlying. <i>Risks related to a Maximum Amount</i> The potential return from the Securities may be limited. <i>Reinvestment Risk</i> Security Holders may only reinvest the principal received due to an early repayment of the Securities to less favourable conditions. <i>Risks related to Early Redemption Events</i> The Security Holder will neither participate in the future performance of the Underlying nor be entitled to further payments under the Securities after an early redemption. <i>Risks related to Adjustment Events</i> Adjustments may have a substantial negative impact on the value and the future performance of the Securities as well as on the amounts to be distributed under the Securities. Adjustment events may also lead to an extraordinary early termination of the Securities. <i>Risks related to Call Events</i> Upon the occurrence of a Call Event the Issuer has the right to extraordinarily call the Securities at their market value. If the market value of the Securities at the relevant time is lower than the Issue Price or the purchase price, the respective Security Holder will suffer a partial or total loss of its invested capital even if the Securities provide for a conditional minimum payment. <i>Risks related to Market Disruption Events</i> The Calculation Agent may defer valuations and payments and make determination in its reasonable discretion acting in accordance with relevant market practice and in good faith. Security Holders are not entitled to demand interest due to such delayed payment. <i>Risks arising from negative effects of hedging arrangements by the Issuer on the Securities</i> The entering or the liquidation of hedging transactions by the Issuer may, in individual cases, adversely affect the price of the Underlying. • Key risks related to the Underlying General risks <i>No rights of ownership of the Underlying</i> The Underlying will not be held by the Issuer for the benefit of the Security Holders, and as such, Security Holders will not obtain any rights of ownership (e.g., voting rights, rights to receive dividends, payments or other distributions or other rights) with respect to the Underlying. Key risks related to shares The performance of Share-linked Securities depends on the performance of the respective shares, which may be subject to certain factors. Dividend payments may have an adverse effect on the Security Holder. There is a sector related risk of loss, since both, the Issuer of the Securities and the Issuer of the Underlying belongs to the same economic sector and/or country. The Securities are not capital protected. Investors may lose the value of their entire investment or part of it.

C. STRUMENTI FINANZIARI

C.1	Tipo e classe degli Strumenti Finanziari	Strumenti Finanziari Express con Importo Aggiuntivo (con esercizio automatico) (con osservazione della Barriera relativa alla data) Gli "Strumenti Finanziari" saranno emessi come Certificati con un Importo Capitale I "Certificati" sono strumenti di debito nominativi dematerializzati ai sensi del Testo Unico in materia di intermediazione finanziaria (<i>Testo Unico della Finanza</i>). I Titoli sono rappresentati da una registrazione contabile. L'ISIN è indicato nell'Allegato alla presente Nota di Sintesi.
C.2	Valuta dell'emissione degli Strumenti Finanziari	Gli Strumenti Finanziari sono emessi in Euro (" EUR ") (la " Valuta Specificata ").
C.5	Restrizioni alla libera trasferibilità degli Strumenti Finanziari	Non applicabile. Gli Strumenti Finanziari sono liberamente trasferibili.
C.8	Diritti connessi ai Strumenti Finanziari, compreso il <i>ranking</i> e le restrizioni a tali diritti	Diritto applicabile agli Strumenti Finanziari Gli Strumenti Finanziari, per forma e contenuto, e tutti i diritti ed obblighi dell'Emittente e dei Titolari, sono regolati dalla legge della Repubblica Italiana. Diritti connessi agli Strumenti Finanziari Gli Strumenti Finanziari hanno una durata fissa. Gli Strumenti Finanziari non maturano interessi. In caso di Evento di Pagamento dell'Importo Condizionato Aggiuntivo (come definito sub C.15) i Titolari hanno diritto al pagamento del rispettivo Importo Condizionato Aggiuntivo (m) (come specificato nell'Allegato alla presente Nota di Sintesi) alla rispettiva Data di Pagamento dell'Importo Condizionato Aggiuntivo (m) (come specificata nell'Allegato alla presente Nota di Sintesi). I Titolari hanno diritto al pagamento del rispettivo Importo di Rimborso Anticipato (k) (come specificato nell'Allegato alla presente Nota di Sintesi) alla rispettiva Data di Pagamento Anticipata (k) (come definita sub C.16), qualora si sia verificato un Evento di Rimborso Anticipato (come definito sub C. 15), ovvero dell'Importo di Rimborso (come definito sub C.15) alla Data di Pagamento Finale (come definita sub C.16) Restrizioni ai diritti Al ricorrere di uno o più eventi di rettifica (inclusi, ma non limitati a, operazioni societarie, modifiche nei relativi condizioni commerciali, specifiche contrattuali, modifiche del modo di determinazione e/o pubblicazione del Sottostante o la modifica o la risoluzione anticipata di derivati connessi al Sottostante) (gli "Eventi di Rettifica") l'Agente per il Calcolo modificherà, agendo in linea con la relativa prassi di mercato ed in buona fede, i termini e le condizioni di questi Strumenti Finanziari

		e/o tutti i prezzi del Sottostante determinato dall'Agente per il Calcolo sulla base dei termini e le condizioni degli Strumenti Finanziari in modo tale che la posizione economica dei Titolari resti imm modificata nella maggior misura possibile. Al ricorrere di uno o più eventi di riscatto (ad es. se, nell'ipotesi di un Evento di Rettifica, una rettifica si rivelasse impossibile o comunque non ragionevole per l'Emittente e/o per i Titolari) l'Emittente può riscattare in via straordinaria gli Strumenti Finanziari e rimborsare gli Strumenti Finanziari al loro Importo di Riscatto. L'"Importo di Riscatto" è il valore equo di mercato di questi ultimi.
		Status degli Strumenti Finanziari Gli obblighi derivanti dagli Strumenti Finanziari costituiscono obbligazioni dirette, incondizionate e non garantite dell'Emittente, salvo vi siano disposizioni normative contrarie, avranno pari priorità nell'ordine dei pagamenti rispetto ad ogni altro obbligo presente e futuro non garantito e non subordinato dell'Emittente.
C.11	Ammissione alla negoziazione	Non applicabile. Non è stata presentata l'ammissione a quotazione degli Strumenti Finanziari presso un mercato regolamentato o mercato equivalente. Ad ogni modo, sarà presentata istanza di negoziazione con efficacia dal 7 Febbraio 2020, sui seguenti sistemi multilaterali di negoziazione (MTF): EuroTLX, organizzato e gestito da Borsa Italiana S.p.A. UniCredit Bank AG (il "Market Maker") si impegna a fornire liquidità mediante quotazioni denaro e lettera nel rispetto delle previsioni sul <i>market making</i> di Borsa Italiana S.p.A., dove ci si attende che gli Strumenti Finanziari saranno negoziati. Gli obblighi del Market Maker sono stabiliti dai regolamenti dei mercati organizzati e gestiti da Borsa Italiana S.p.A., e dalle rilevanti istruzioni a tali regolamenti. Inoltre, il Market Maker si impegna ad applicare, in condizioni normali di mercato, uno spread tra le quotazioni denaro e lettera non superiore a 1,00 %.
C.15	Effetto del sottostante sul valore degli strumenti finanziari	Il valore degli Strumenti Finanziari nel corso della durata dei medesimi è strettamente correlato al prezzo del Sottostante (come definito sub C.20). Di regola il valore degli Strumenti Finanziari aumenta se il prezzo del Sottostante aumenta e diminuisce se il prezzo del Sottostante diminuisce. Il rimborso alla Data di Pagamento Finale dipende da R (finale)(come definito in C.19). Gli Strumenti Finanziari consentono il pagamento di un Importo Aggiuntivo ad ogni Data di Pagamento dell'Importo Aggiuntivo, se si è verificato un Evento di Pagamento dell'Importo Condizionato Aggiuntivo. Inoltre, gli Strumenti Finanziari consentono a certe condizioni il rimborso automatico anticipato all'Importo di Rimborso Anticipato (k). <i>Importo Condizionato Aggiuntivo (m)</i> Il pagamento dell'Importo Condizionato Aggiuntivo è legato al verificarsi di un Evento di Pagamento dell'Importo Condizionato Aggiuntivo (m). Per "Evento di Pagamento dell'Importo Condizionato Aggiuntivo" si intende che il prezzo di riferimento è pari o superiore del Livello di pagamento dell' Importo Condizionato Aggiuntivo alla rispettiva Data di Osservazione(m). Per "Livello di Pagamento dell'Importo Condizionato Aggiuntivo" si intende il rispettivo fattore di pagamento dell'Importo Condizionato Aggiuntivo(m) moltiplicato per R(iniziale).

		- Se si è verificato un Evento di Pagamento dell'Importo Condizionato Aggiuntivo ad una Data di Osservazione (m), il pagamento del rispettivo Importo Condizionato Aggiuntivo (m) avviene alla rispettiva Data di Pagamento dell'Importo Condizionato Aggiuntivo (m) - Se non si è verificato alcun Evento di Pagamento dell'Importo Condizionato Aggiuntivo alla rispettiva Data di Osservazione (m), nessun Importo Condizionato Aggiuntivo (m) viene pagato alla rispettiva Data di Pagamento dell'Importo Condizionato Aggiuntivo (m). <i>Rimborso Anticipato Automatico</i> Se si è verificato un Evento di Rimborso Anticipato gli Strumenti Finanziari saranno automaticamente rimborsati anticipatamente alla Data di Pagamento Anticipata (k) immediatamente successiva mediante pagamento del rispettivo Importo di Rimborso Anticipato (k). Un "Evento di Rimborso Anticipato" indica che R (k) è pari o maggiore al Livello di Rimborso Anticipato(k) alla rispettiva Data di Osservazione(k) (come definito sub C.16). <i>Rimborso alla Data di Pagamento Finale</i> Se non si è verificato alcun Evento di Rimborso Anticipato, il rimborso avviene alla Data di Pagamento Finale come segue: - Se non si è verificato alcun Evento Barriera, il rimborso avviene mediante pagamento dell'Importo di Rimborso che coincide con l'Importo Massimo. - Se si è verificato un Evento Barriera e R (finale) è pari o maggiore dello Strike per R(iniziale) il rimborso è eseguito tramite il pagamento dell'Importo di Rimborso che corrisponde all'Importo Capitale moltiplicato per R(finale) e diviso per lo Strike. L'importo di Rimborso non è maggiore dell'Importo Capitale. Per "Evento Barriera" si intende che il Prezzo di Riferimento alla rispettiva Data di Osservazione della Barriera è inferiore al Livello Barriera. La Data di Osservazione Iniziale, il Livello di Rimborso Anticipato (k), il Livello di Pagamento dell'Importo Aggiuntivo (m), l'Importo Massimo, il Livello Barriera e lo Strike sono definiti nell'Allegato alla presente Nota di Sintesi.
C.16	Data di estinzione o scadenza degli strumenti derivati –data di esercizio o data di riferimento finale	La "Data di Osservazione Finale" , "Data di Pagamento Finale" , la "Data di Osservazione della Barriera" , le "Date di Osservazione (k)" , le "Date di Osservazione (m)" e le "Date di Pagamento Anticipato (k)" sono indicate nell'Allegato alla presente Nota di Sintesi.
C.17	Modalità di regolamento degli strumenti finanziari	Tutti i pagamenti dovranno essere effettuati a UniCredit S.p.A. (l' "Agente per il Pagamento Principale"). L'Agente per il Pagamento Principale pagherà gli importi dovuti al Sistema di Compensazione per l'accredito sui rispettivi conti delle banche depositarie che a loro volta li trasferiscono ai Portatori dei Titoli. Il pagamento al Sistema di Compensazione libererà l'Emittente dalle proprie obbligazioni ai sensi degli Strumenti Finanziari per l'importo di tale pagamento. "Sistema di Compensazione" indica Monte Titoli S.p.A., con sede legale in Piazza degli Affari 6, Milano, Italia ("Monte Titoli").
C.18	Descrizione delle modalità secondo le quali si generano i proventi degli strumenti derivati	Pagamento dell'Importo di Rimborso alla Data di Pagamento Finale ovvero pagamento del rispettivo Importo di Rimborso Anticipato (k) alla rispettiva Data di Pagamento Anticipata (k).
C.19	Prezzo di esercizio o prezzo di	"R (iniziale)" significa il Prezzo di Riferimento alla Data di Osservazione Iniziale.

	riferimento definitivo del sottostante	"R (finale)" significa il Prezzo di Riferimento alla Data di Osservazione Finale. "R (k)" significa il Prezzo di Riferimento alla rilevante Data di Osservazione (k).
C.20	Tipo di sottostante / e descrizione di dove le informazioni sul sottostante possono essere reperite	L'azione che costituisce il Sottostante è specificata nella tabella contenuta nell'Allegato alla presente Nota di Sintesi. Per ulteriori informazioni alla performance passata e futura del Sottostante ed alla sua volatilità, si prega di vedere il Sito Internet (o ogni sito internet sostitutivo), come indicato nell'Allegato alla presente Nota di Sintesi.

D. RISCHI

D.2	Informazioni fondamentali sui principali rischi che sono specifici dell'Emittente	Nell'acquistare gli Strumenti Finanziari, gli investitori si assumono il rischio che l'Emittente diventi insolvente o non sia altrimenti in grado di effettuare tutti i pagamenti dovuti in relazione agli Strumenti Finanziari. Esiste una vasta gamma di fattori che, singolarmente o congiuntamente, potrebbero rendere l'Emittente incapace di effettuare tutti i pagamenti dovuti in relazione agli Strumenti Finanziari. Non è possibile individuare tutti tali fattori, né determinare quali fattori siano più suscettibili di materializzarsi, in quanto l'Emittente può non essere a conoscenza di tutti i fattori rilevanti, e certi fattori che lo stesso attualmente ritiene non essere rilevanti possono diventare rilevanti a seguito del verificarsi di eventi che sfuggono al controllo dell'Emittente. L'Emittente ha individuato alcuni fattori che potrebbero avere un effetto sostanzialmente pregiudizievole per le sue attività e per la sua capacità di effettuare pagamenti dovuti ai sensi degli Strumenti Finanziari. Questi fattori includono: • rischi associati al Piano Strategico: in caso di mancata o solo parziale verifica dei presupposti sottostanti il Piano Strategico, i risultati effettivi del Gruppo potrebbero essere significativamente diversi da quelli previsti negli obiettivi strategici; • rischi associati all'impatto delle attuali incertezze macroeconomiche e alla volatilità dei mercati sull'andamento del Gruppo UniCredit; • rischi associati alle attività del Gruppo UniCredit nelle diverse aree geografiche; • rischio di credito e rischio di deterioramento nella qualità creditizia: rischio che una banca debitrice o controparte mancherà di far fronte alle proprie obbligazioni secondo i termini concordati; • rischi associati all'Adeguatezza Patrimoniale delle Banche; • rischi associati alla dismissione dei crediti in sofferenza; • rischi associati alla partecipazione di UniCredit al fondo Atlante e all'Italian Recovery Fund (ex fondo Atlante II): se il valore degli attivi nei quali i fondi Atlante sono investiti e/o investiranno dovesse ridursi, o se tali attivi dovessero essere sostituiti da attivi con un profilo di rischio maggiore o caratterizzati da un grado di assorbimento patrimoniale maggiore, tale circostanza potrà comportare la necessità di svalutare ulteriormente l'investimento di UniCredit nei fondi Atlante con le conseguenti ripercussioni sui ratio patrimoniali di UniCredit e con possibili effetti negativi sulla situazione economica, patrimoniale e finanziaria di UniCredit e/o del Gruppo;
-----	---	---

		• rischi associati all'esposizione del Gruppo al debito sovrano; • rischio di liquidità: il Gruppo UniCredit potrà trovarsi nell'impossibilità di rispettare i propri attuali e futuri, previsti e imprevisi pagamenti contanti e obbligazioni di consegna senza compromettere le proprie operazioni giornaliere o la propria posizione finanziaria; • rischi relativi all'esposizione infra-gruppo; • rischi di mercato: rischio che cambiamenti nelle variazioni di mercato (prezzo dei titoli, tassi di cambio, ecc.) possano influire sul valore economico del portfolio del Gruppo; • rischi associati alle fluttuazioni dei tassi di interesse; • rischi associati ai tassi di cambio; • rischi associati alle assunzioni e ai metodi di valutazione di attività e passività dell'Emittente; • rischi relativi alla gestione del sistema informatico; • rischi relativi alle imposte differite; • rischi associati a partecipazioni nel capitale della Banca d'Italia; • rischio di controparte nelle operazioni su derivati e pronti contro termine: rischio che la controparte di tali operazioni sia inadempiente alle proprie obbligazioni o divenga insolvente prima della scadenza del contratto, quando l'Emittente o una delle altre società del Gruppo vanta ancora un diritto di credito nei confronti di tale controparte; • rischi associati all'effettuazione del Test di Deterioramento dell'Avviamento e perdite di valore relative all'avviamento: l'evoluzione futura di taluni fattori, inclusi gli sviluppi macroeconomici e la volatilità dei mercati finanziari, così come cambiamenti della strategia aziendale del Gruppo, potrebbe avere un rilevante effetto negativo sui test di deterioramento e sul business del Gruppo, sulla condizione finanziaria e sui risultati delle operazioni; • rischi associati alle alleanze e joint venture esistenti: obbligazioni, relative a coinvestimenti, contratti di distribuzione, e contratti di compravendita, sottoposti a talune condizioni che, se si verificassero, potrebbero produrre impatti negativi sulle operazioni, sui risultati operativi, e sulla situazione economica, patrimoniale e finanziaria dell'Emittente e/o del Gruppo; • rischi associati all'andamento del mercato immobiliare; • rischi associati ai fondi pensione: il Gruppo UniCredit è esposto a taluni rischi correlati ad obblighi di pagamento di prestazioni pensionistiche ai propri dipendenti a seguito della cessazione del rapporto di lavoro; • rischi associati ai metodi di monitoraggio del rischio e alla validazione di tali metodi; • rischi associati ai procedimenti giudiziali pendenti e alle misure delle autorità di vigilanza; • rischi derivanti da contestazioni fiscali; • rischi associati al modello organizzativo e di gestione ai sensi del D. Lgs. 231/2001 e del modello amministrativo contabile ai sensi della L. 262/2005; • rischi associati all'operatività nel settore bancario e finanziario: il Gruppo è soggetto ai rischi derivanti dalla concorrenza, soprattutto nella concessione di credito e nell'intermediazione finanziaria. Il settore bancario e finanziario è inoltre influenzato dalle incertezze che circondano la stabilità e la situazione complessiva dei mercati finanziari. Il deterioramento delle condizioni del mercato finanziario e una più alta pressione competitiva potrebbero avere effetti negativi rilevanti sui risultati operativi e sulla situazione economica, patrimoniale e/o finanziaria dell'Emittente e/o del

		Gruppo; • rischi associati al contributo ordinario e straordinario ai fondi costituiti nell'ambito delle regole relative alle crisi bancarie; • rischi associati all'entrata in vigore di nuovi principi contabili e alle modifiche ai principi contabili applicabili; • rischi associati alle decisioni politiche e economiche dell'UE e dei paesi della Zona Euro e all'uscita del Regno Unito dall'Unione europea (Brexit); • imminenti cambiamenti regolamentari; • il Meccanismo di Vigilanza Unico della Banca Centrale Europea: rischi connessi all'aumento dei requisiti patrimoniali - la necessità di ricapitalizzazione per rispettare i requisiti patrimoniali potrebbe avere un significativo impatto negativo sui risultati operativi e sulla situazione economica, patrimoniale e finanziaria di Unicredit e/o del Gruppo; • la direttiva sul risanamento e la risoluzione delle banche (BRRD) ha lo scopo di consentire una serie di azioni che possono essere intraprese in relazione ad istituti di credito e società di investimento considerate a rischio di fallimento. L'adozione di una di tali azioni (o la percezione che possa intervenire l'adozione di una di tali azioni) può avere un impatto negativo rilevante sul valore degli Strumenti Finanziari e/o sui diritti di Portatori degli Strumenti Finanziari; • attuazione della BRRD in Italia: l'esercizio dei poteri della BRRD attuata in Italia (ad es. svalutazione o conversione in capitale) potrà essere applicato a UniCredit e agli Strumenti Finanziari emessi da UniCredit; • dal 2016 il Gruppo UniCredit è soggetto alle disposizioni del Regolamento istitutivo del Meccanismo di Vigilanza Unico: UniCredit è obbligata a stanziare risorse finanziarie che potrebbero avere un significativo impatto sulla posizione finanziaria ed economica e patrimoniale di UniCredit; • la proposta di tassa europea sulle transazioni finanziarie (la FTT); e • rating: ogni declassamento del rating di UniCredit o di altre entità del Gruppo potrebbero avere ripercussioni materiali negative sulle sue attività, sulla situazione finanziaria e sui risultati delle operazioni.
D 6	Informazioni fondamentali sui principali rischi che sono specifici per gli Strumenti Finanziari.	A parere dell'Emittente i principali rischi descritti nel prosegue possono, con riferimento ai Titolari, influenzare negativamente il valore degli Strumenti Finanziari e/o gli importi da distribuirsi (inclusa la consegna di una quantità di Sottostanti o di componenti degli stessi da consegnare) derivanti dagli Strumenti Finanziari e/o la capacità dei Titolari di vendere gli Strumenti Finanziari ad un prezzo ragionevole prima della data di pagamento finale degli Strumenti Finanziari. • Potenziati conflitti di interesse Il rischio di conflitti di interessi (come descritto sub E.4) è correlato alla possibilità che l'Emittente, collocatori o rispettivi affiliati perseguano, in relazione a talune funzioni o operazioni, interessi che possono o meno essere contrari agli interessi dei Titolari. • Principali rischi correlati agli Strumenti Finanziari Principali rischi correlati al mercato In talune circostanze un Titolare potrebbe non essere in grado di vendere i propri Strumenti Finanziari del tutto o ad un prezzo adeguato prima del loro rimborso. Anche nell'ipotesi di esistenza di un mercato secondario non si può escludere che il Titolare possa non trovarsi in grado di cedere gli Strumenti Finanziari in ipotesi di un'evoluzione sfavorevole del Sottostante o di un tasso di cambio, ad esempio qualora tale sviluppo si verifichi al di fuori dell'orario di contrattazione degli

		Strumenti Finanziari. Il valore di mercato degli Strumenti Finanziari sarà condizionato dal merito creditizio dell'Emittente e da numerosi altri fattori (ad esempio, tassi di cambio, tassi di interesse e di rendimento prevalenti, il mercato per strumenti finanziari simili, le generali condizioni economiche, politiche e cicliche, la negoziabilità degli Strumenti Finanziari e dei fattori relativi al Sottostante) e potrebbe essere sostanzialmente inferiore rispetto all'Importo Capitale o al prezzo di acquisto. I Titolari non poter fare affidamento sulla capacità di coprirsi sufficientemente nei confronti dei rischi di prezzo derivanti dagli Strumenti Finanziari in qualsiasi momento. Principali rischi correlati agli Strumenti Finanziari in generale L'Emittente potrebbe non essere in grado di adempiere, in tutto o in parte, ai propri obblighi derivanti dagli Strumenti Finanziari, ad esempio in caso di insolvenza dell'Emittente o a causa di interventi governativi o regolamentari. Tale rischio non è protetto da alcuna sistema di tutela dei depositi o alcun simile sistema di rimborso. L'autorità di risoluzione competente potrebbe applicare strumenti di risoluzione che includono, tra gli altri, uno strumento di "bail-in" (ad esempio la conversione di Strumenti Finanziari in strumenti di capitale o svalutazione). L'applicazione di uno strumento di risoluzione potrebbe influire in modo sostanziale sui diritti dei Titolari. Un investimento negli Strumenti Finanziari potrebbe essere contrario alla legge o non favorevole per un potenziale investitore ovvero inadatto in considerazione della propria conoscenza o esperienza, dei propri bisogni finanziari, dei propri obiettivi e della propria situazione. Il tasso di rendimento reale di un investimento negli Strumenti Finanziari può ridursi a zero ovvero assumere valori negativi (ad esempio, a causa di costi accessori connessi all'acquisto, alla detenzione e alla dismissione degli Strumenti Finanziari, a future svalutazioni monetarie (inflazione) o ad effetti fiscali). L'importo di rimborso potrebbe essere inferiore al Prezzo di Emissione o al rispettivo prezzo di acquisto e, in talune circostanze, non verrà corrisposto alcun interesse né verranno eseguiti pagamenti nel corso del periodo di detenzione degli Strumenti Finanziari. I proventi degli Strumenti Finanziari potrebbero non essere sufficienti per effettuare pagamenti a interessi o capitale derivanti da un acquisto finanziato degli Strumenti Finanziari e potrebbero essere necessario capitale aggiuntivo. Rischi correlati a Strumenti Finanziari collegati a Sottostanti <i>Rischi dovuti all'influenza del Sottostante sul valore di mercato degli Strumenti Finanziari</i> Il valore di mercato degli Strumenti Finanziari e gli importi erogabili derivanti dagli Strumenti Finanziari dipendono significativamente dal prezzo del Sottostante. L'evoluzione futura del prezzo del Sottostante non è prevedibile. Inoltre, il valore di mercato degli Strumenti Finanziari sarà influenzato da diversi fattori correlati al Sottostante. <i>Rischi dovuti al fatto che la valutazione del Sottostante avviene solo a date, momenti o periodi specificati</i> A causa del fatto che la valutazione del Sottostante può avvenire solo in date, momenti o periodi specificati, i proventi erogabili derivanti dagli Strumenti Finanziari possono essere considerevolmente più bassi rispetto al prezzo che il Sottostante potrebbero aver suggerito. <i>Rischi correlati a pagamenti condizionali: Impatto di soglie o limiti</i> Il pagamento e/o l'entità di tali importi dipendono dalla performance del
--	--	--

		Sottostante. Taluni importi possono essere erogati solo se sono state raggiunte specifiche soglie o limiti o se si sono verificati particolari eventi. <i>Rischi correlati a Eventi Barriera</i> Il Titolare potrebbe perdere il proprio capitale investito integralmente o in parte. Nel caso in cui un Evento Barriera, il Titolare potrebbe perdere la possibilità di ricevere il pagamento di un Importo Condizionato Aggiuntivo. <i>Rischi correlati allo Strike</i> I Titolari possono partecipare in misura minore ad una performance favorevole o in misura maggiore ad una performance non favorevole del Sottostante. <i>Rischi correlati ad un Importo Massimo</i> Il rendimento potenziale degli Strumenti Finanziari può essere soggetto a limitazioni. <i>Rischio di reinvestimento</i> I Titolari possono reinvestire il capitale ricevuto a seguito di un rimborso anticipato degli Strumenti Finanziari unicamente a condizioni meno favorevoli. <i>Rischi correlati a Eventi di Rimborso Anticipato</i> Il Titolare, a seguito di un rimborso anticipato degli Strumenti Finanziari, non potrà più partecipare alle performance future del Sottostante né avrà diritto a ulteriori pagamenti di importi derivanti dagli Strumenti Finanziari. <i>Rischi correlati ad Eventi di Rettifica</i> Delle rettifiche potrebbero avere un impatto negativo sostanziale sul valore e la futura performance degli Strumenti Finanziari così come sugli importi da distribuire derivanti dagli Strumenti Finanziari. Eventi di rettifica possono inoltre determinare il riscatto straordinario anticipato degli Strumenti Finanziari. <i>Rischi correlati a Eventi di Riscatto</i> Al verificarsi di un Evento di Riscatto l'Emittente ha diritto di riscatto straordinario degli Strumenti Finanziari al rispettivo valore di mercato. Se il valore di mercato degli Strumenti Finanziari al momento rilevante è inferiore al Prezzo di Emissione o al prezzo di acquisto, il relativo Titolare sarà soggetto ad una parziale o totale perdita del capitale investito sebbene gli Strumenti Finanziari prevedano un pagamento minimo condizionale. <i>Rischi correlati a Turbative di Mercato</i> L'Agente per il Calcolo può rinviare date di valutazione e pagamenti ed effettuare valutazioni a propria ragionevole discrezione agendo secondo le relative pratiche di mercato e in buona fede. I Titolari non hanno diritto a richiedere interessi per ritardato pagamento. <i>Rischi derivanti dagli effetti negativi degli accordi di copertura su Strumenti Finanziari conclusi dall'Emittente</i> La stipula o la liquidazione di operazioni di copertura da parte dell'Emittente possono, in singoli casi, influire negativamente sul prezzo del Sottostante. • Principali rischi correlati al Sottostante <i>Rischi generali</i> <i>Nessun diritto di proprietà sul Sottostante</i> Il Sottostante non sarà detenuto dall'Emittente a beneficio del Titolare, e di conseguenza, i Titolari non avranno alcun diritto di proprietà (e.g. diritti di voto, diritti di ricevere dividendi, pagamenti o altre distribuzioni, nonché altri diritti) in relazione al Sottostante.
--	--	--

		Principali rischi correlati alle azioni La performance degli Strumenti Finanziari correlati ad azioni dipende dalla performance delle rispettive azioni, che può essere influenzata da diversi fattori. Il pagamento di dividendi può avere un impatto negativo per il Titolare. C'è un rischio di perdita collegato al settore, poiché sia l'Emittente degli Strumenti Finanziari che l'emittente del Sottostante appartengono al medesimo settore economico e/o nazione. Gli Strumenti Finanziari non hanno protezione del capitale. Gli investitori possono perdere in toto il proprio investimento o parte di tale investimento.
