What are the key risks that are specific to the Issuer?

Risks related to the Issuer's financial situation: Risk that HVB Group will not be able to meet its payment obligations on time or in full or to obtain sufficient liquidity when required as well as that liquidity will only be available at higher interest rates, and the risk that the bank will only be able to liquidate assets on the market at a discount could create liquidity problems for HVB Group and thus could result in a limited ability to fund its activities and meet its minimum liquidity requirements.

Risks related to the Issuer's specific business activities: Risks arising from the normal business activities of HVB Group, which involve credit risk in the lending business, market risk in the trading business as well as risks from other business activities such as the real estate business activities of HVB Group could have an adverse impact on HVB Group's operating results, its assets and its financial situation.

General risks related to the Issuer's business operations: Risks from inadequate or failed internal processes, people and systems or from external events, risks caused by adverse reactions of stakeholders due to their altered perception of the bank, risks from unexpected adverse changes in the future earnings of the bank as well as risks from concentrations of risk and/or earnings positions could result in financial losses, a downgrade of HVB's rating and an increase in the business risk of the HVB Group.

Legal and regulatory risk: Changes of the regulatory and statutory environment of HVB could result in higher capital costs and a rise of costs for the implementation of regulatory requirements. In cases of non-compliance with regulatory requirements, (tax) laws, regulations, statutory provisions, agreements, mandatory practices and ethical standards, the public perception of HVB Group as well as its earnings and financial situation could be negatively affected.

Strategic and macroeconomic risk: Risks resulting from management either not recognising early enough or not correctly assessing significant developments or trends in the bank's environment and risks arising from negative economic developments in Germany and on the international financial and capital markets could have a negative effect on the assets, liabilities, financial position and profit or loss of HVB Group. In particular, the geopolitical tensions, rising protectionism, less dynamic growth in China and a slowdown in the German real estate market could lead to a more severe slowdown in the German economy. In addition, if any of the aforementioned risks materialises, turbulence could occur on financial and capital markets.

Section 3 – Key information on the Securities

What are the main features of the Securities?

Product Type, Underlying and form of the Securities

Product Type: Tracker Open End Securities (Compo Securities)

Underlying: Aston Martin Lagonda Global Holdings PLC (ISIN: GB00BN7CG237)

The Securities are issued in dematerialized registered form pursuant to Italian law and otherwise subject to German law with regard to the claims and rights arising therefrom. The Securities will be represented by book entry and registered in the books of the Clearing System. The transfer of the Securities operates by registration on the relevant accounts opened in the Clearing System. The international securities identification number (ISIN) of the Securities is set out in Section 1.

Issuance and Term

The Securities will be issued on 17 April 2024 in Euro (EUR) (the "**Specified Currency**"), as 1,000,000 Certificates. The Securities have an indefinite term.

Dividend Amount

If a Dividend Amount Payment Event occurs, the Security Holder receives payment of the respective Dividend Amount for the relevant Dividend Observation Period.

The Dividend Amount corresponds to an amount in the Specified Currency calculated or specified by the Calculation Agent as follows:

$$\text{Dividend Amount} = \text{Dividend} \times \text{Dividend Tax Rate} \times \text{Ratio.}$$

Dividend means the dividend to be paid per Underlying share as declared in the official cash dividend announcement during the Dividend Observation Period.

Dividend Amount Payment Event means that the respective Dividend is greater than the Dividend Amount Payment Level.

The Dividend Amount Payment Level is equal to GBP 0.02 divided by the Dividend Amount Payment Factor. The Dividend Amount Payment Factor initially is 1 (one), but may be adjusted by the Calculation Agent following a change of the payment frequency of the Dividend to reflect such changed payment frequency.

Dividend Observation Date means the last Banking Day of each month starting from 30 April 2024.

Dividend Observation Period means each period from the Issue Date (including) to the first Dividend Observation Date (including) and from each Dividend Observation Date (excluding) to the next following Dividend Observation Date (including).

Dividend Tax Rate means the percentage value determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB) based on the amount of any taxes, duties, retentions, deductions or other charges incurred by the Hypothetical Investor in respect of the cash distribution.

The Dividend Amount will be adjusted by taking into account movements in the exchange rate between the Specified Currency and the currency in which the Underlying is traded or published (Compo).

Redemption of the Securities

The Securities can be redeemed on any Redemption Date upon the exercise of the Redemption Right by the Security Holder. The Securities can also be redeemed in whole on any Call Date upon the exercise of the Regular Call Right by the Issuer.

On the Redemption Date or the Call Date, as applicable, the Security Holder receives the Redemption Amount.

The Redemption Amount is calculated by multiplying the Relevant Reference Price by the Ratio.

The Redemption Amount will be adjusted by taking into account movements in the exchange rate between the Specified Currency and the currency in which the Underlying is traded or published (Compo).

Additional definitions and product terms

Call Date means the last Banking Day of the months of January, February, March, April, May, June, July, August, September, October, November and December of each year starting on 31 May 2024.

Observation Date means the 5th Banking Day prior to each Redemption Date and each Call Date.

Redemption Date means the last Banking Day of the months of January, February, March, April, May, June, July, August, September, October, November and December of each year starting on 31 May 2024.

Relevant Reference Price means the Reference Price on the respective Observation Date.

Reference Price	Ratio
Closing Price in the Underlying Currency	1

Extraordinary termination right: The Issuer has the right to extraordinary terminate the Securities at the fair market value of the Securities upon the occurrence of certain Call Events (for example, if price quotation of the Underlying on the relevant exchange is suspended indefinitely or permanently discontinued and no Replacement Exchange is available or could be determined).

Adjustment right: The Terms and Conditions of the Securities may be adjusted by the Calculation Agent if an Adjustment Event occurs (for example, each measure taken by the company that has issued the Underlying or by a third party which, as a result of a change in the legal and financial position, affects the Underlying).

Status of the Securities: The Securities constitute direct, unconditional and unsecured obligations of the Issuer. The Securities rank *pari passu* with all other unsecured and unsubordinated present and future obligations of the Issuer. Exception: obligations which have a preference or subordination under the law.

Where will the Securities be traded?

No application for the Securities to be admitted to trading on a regulated market has been made. However, application to trading will be made with effect from 18 April 2024 on the following multilateral trading facilities (MTF): Euro TLX, organised and managed by Borsa Italiana S.p.A.

What are the key risks that are specific to the Securities?

The specific risk factors related to the Securities, which in the view of the Issuer are material, are described below:

Risk related to the rank and characteristic of the Securities in the case of a failure of the Issuer: The Security Holders bear the risk of the insolvency of the Issuer. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail.

Specific Risks related to the payment profile of the Securities: There is the particular risk that the price of the Underlying falls and consequently the Security Holder will suffer a significant loss of his invested capital. A total loss is possible.

Risks related to Compo Securities: The Security Holder bears an additional risk of loss due to the constant movements of the exchange rate between the Specified Currency and the currency in which the Underlying is traded or published.

Risks arising from the Terms and Conditions of the Securities: The Security Holders bear a risk of loss if the Securities are terminated by the Issuer. The Securities will then be redeemed at their fair market value of the Securities. This may be lower than the amount that the Security Holder would have received if there had been no extraordinary termination of the Securities. In addition, Security Holders bear a reinvestment risk. Moreover, the Security Holders bear a risk of loss if an adjustment of the Terms and Conditions is made or if a market disruption occurs.

Risks related to the investment in, the holding and selling of the Securities: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of

Securities and that the Security Holder is not able to purchase or to sell the Securities at a specific time or for a specific price.

Risks related to Shares as Underlying: The Securities are associated with similar risks for the Security Holders as in case of a direct investment in the shares specified as Underlying. The price of a share can fall sharply or it can become worthless, e.g. due to the insolvency of the issuer of the share.
