The determination of the fair market value is based on the economic equivalent of the Issuer's payment obligations to the Security Holders consistent with the provisions for the redemption profile, interest or other additional amounts of the Securities that would otherwise be due after the day on which the extraordinary call becomes effective and which is adjusted for taking into consideration the following parameters as of the first Banking Day before the extraordinary call becomes effective: the price of the Underlying, the remaining time to maturity, the estimated volatility, the expected dividends (if applicable), the current market interest rate as well as the interest spread associated with the credit default risk of the Issuer and any other relevant market parameter that can influence the value of the Securities. The Cancellation Amount will be paid within five Banking Days following the date as of which the extraordinary call becomes effective, or at the date specified in the above mentioned notice, as the case may be, pursuant to the provisions of § 6 of the Special Conditions.

Event no longer exists. The Knock-out Period will be extended respectively.

Any Payment Date relating to such Valuation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days the Calculation Agent shall determine acting in accordance with relevant market practice and in good faith the respective Reference Price required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. Such Reference Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on the 9th Banking Day taking into account the financial position of the Security Holders.

If within these 8 Banking Days traded Underlying Linked Derivatives expire and are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Underlying Linked Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. In that case, the expiration date for those Derivatives is the relevant Valuation Date.

§ 8

Adjustments, Type of Adjustment, Replacement Specification, Notifications

- (1) *Adjustments:* If an Adjustment Event occurs the Calculation Agent is authorised to adjust the Terms and Conditions of these Securities (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 acting in accordance with relevant market practice and in good faith, taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer, in particular if the circumstance that triggered the Adjustment Event has not only an insignificant impact on the economic characteristics of the Securities; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

Within the context of an Adjustment the Calculation Agent proceeds as follows:

- (a) *Adjustment in accordance with the Determining Futures Exchange:* In general, the Calculation Agent will undertake the Adjustment in terms of content and timing in a way that to the greatest extent matches the designated Adjustment by the Determining Futures Exchange regarding the Underlying Linked Derivatives. The Calculation Agent is, however, also authorised to make an Adjustment if there is

no Adjustment made to the Underlying Linked Derivatives by the Determining Futures Exchange. In this case the Calculation Agent will make the Adjustment, if any, in accordance with the rulebook of the Determining Futures Exchange with respect to the Underlying Linked Derivatives.

(b) *Deviating Adjustments:* In the following cases in particular the Calculation Agent is authorised to make Adjustments deviating from the Adjustments made by the Determining Futures Exchange in order to take into account the Adjustment Goal in an appropriate manner.

(i) The Adjustment envisaged by the Determining Futures Exchange regarding the Underlying Linked Derivatives is impossible for the Issuer or the Calculation Agent or technically not feasible within reasonable economic efforts; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

(ii) The Adjustment envisaged by the Determining Futures Exchange regarding the Underlying Linked Derivatives is unreasonable for Securities Holders, the Calculation Agent or the Issuer (e.g. because the Issuer would have to breach internal trading restrictions in order to hedge its payment obligations under the Securities); whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

(iii) The Adjustment envisaged by the Determining Futures Exchange is not suitable to meet the Adjustment Goal; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

(2) *Type of Adjustment:* In the context of an Adjustment the Calculation Agent may undertake in particular the following measures in accordance with paragraph (1) above:

(a) *Adjustment of Product and Underlying Data:* The Calculation Agent may redefine the Product and Underlying Data based on an adjustment factor (e.g. in case of a capital increase against cash contribution, issue of securities with options or conversion rights in shares, a capital increase from company funds, a distribution of special dividends or other measures undertaken by the company, that issued the Underlying or a third party, that impacts the computed value of the Underlying not only in an insignificant way, based on a change of a legal or economic situation, in particular a change of the fixed assets or equity of the company).

(b) *Replacement of the Underlying:* In case of a take-over or a merger or similar measure with respect to the Underlying the Calculation Agent can replace the Underlying with the share of the successor of the issuer of the original Underlying or with another share of – inter alia – comparable liquidity and industry affiliation as the original Underlying (the "**Replacement Underlying**").

Furthermore, until completion of the take-over or merger (excluding), the Calculation Agent may determine that either the shares submitted for sale or submitted for exchange are to be the Replacement Underlying.

In case of a split or a similar measure with respect to the Underlying the Calculation Agent may determine (i) a basket of shares and/or securities or (ii) a basket of shares and/or securities and a cash component to be the Replacement Underlying. The Calculation Agent may exclusively select, in deviation from the Adjustment made by the Determining Futures Exchange, the share with the highest market capitalisation or another share from the basket of shares determined by the Determining Futures Exchange with – inter alia – comparable liquidity and industry affiliation as the original Underlying to be the Replacement Underlying. In this case the Calculation Agent will, if necessary, determine an adjustment factor by itself to meet the Adjustment Goal and will undertake an Adjustment according to paragraph 2 (a) above.

If the Calculation Agent designates a Replacement Underlying, from the Adjustment Date on (as defined in paragraph (4) below), every reference to Underlying in these Terms and Conditions shall be a reference to the Replacement Underlying, unless the context requires otherwise.

- (3) *Replacement Specification:* If a price of the Underlying published by the Relevant Exchange and required pursuant to the Terms and Conditions of these Securities is subsequently corrected and the correction (the "**Corrected Value**") will be published by the Relevant Exchange after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify the respective value by using the Corrected Value (the "**Replacement Specification**") and publish it pursuant to § 6 of the General Conditions.
- (4) *Notifications:* All Adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Securities Holder according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.

What are the key risks that are specific to the Issuer?

Risks related to the Issuer's financial situation: Risk that HVB Group will not be able to meet its payment obligations on time or in full or to obtain sufficient liquidity when required as well as that liquidity will only be available at higher interest rates, and the risk that the bank will only be able to liquidate assets on the market at a

discount could create liquidity problems for HVB Group and thus could result in a limited ability to fund its activities and meet its minimum liquidity requirements.

Risks related to the Issuer's specific business activities: Risks arising from the normal business activities of HVB Group, which involve credit risk in the lending business, market risk in the trading business as well as risks from other business activities such as the real estate business activities of HVB Group could have an adverse impact on HVB Group's operating results, its assets and its financial situation.

General risks related to the Issuer's business operations: Risks from inadequate or failed internal processes, systems and people or from external events, risks caused by adverse reactions of stakeholders due to their altered perception of the bank, risks from unexpected adverse changes in the future earnings of the bank as well as risks from concentrations of risk and/or earnings positions could result in financial losses, a downgrade of HVB's rating and an increase in the business risk of the HVB Group.

Legal and regulatory risk: Changes of the regulatory and statutory environment of HVB could result in higher capital costs and a rise of costs for the implementation of regulatory requirements. In cases of non-compliance with regulatory requirements, (tax) laws, regulations, statutory provisions, agreements, mandatory practices and ethical standards, the public perception of HVB Group as well as its earnings and financial situation could be negatively affected.

Strategic and macroeconomic risk: Risks resulting from management either not recognising early enough or not correctly assessing significant developments or trends in the bank's environment and risks arising from negative economic developments in Germany and on the international financial and capital markets could have a negative effect on the assets, liabilities, financial position and profit or loss of HVB Group. In particular, the consequences of the Russian-Ukrainian conflict, the further spreading of new variants of COVID-19, a severe economic slowdown in China and tensions between the US and China about trade and Taiwan could dampen or endanger the continuation of the recovery of the global economy. In addition, if any of the aforementioned risks materialises, turbulence could occur on financial and capital markets.

The transfer of the Securities operates by registration on the relevant accounts opened in the Clearing System. The international securities identification number (ISIN) of the Securities is set out in Section 1.

The Securities will be issued on 16 December 2022 in Euro (EUR) (the "**Specified Currency**"), without a nominal amount, as 1,000,000 Certificates. The Securities have a fixed term. They will be redeemed on 21 June 2023 (the "**Final Payment Date**").

Exercise Right

Subject to the occurrence of a Knock-out Event, the Security Holder has the right to demand of the Issuer the payment of the Differential Amount per Security (Exercise Right).

The Security Holder cannot exercise the Exercise Right prior to 14 June 2023 (the "**Final Valuation Date**").

Subject to the occurrence of a Knock-out Event, the Exercise Right will be automatically exercised on the Final Valuation Date.

The Differential Amount will be calculated by subtracting the Strike from the Relevant Reference Price. The difference will be multiplied by the Ratio.

The Differential Amount will not be lower than EUR 0.-.

Upon the effective exercise of the Exercise Right, the Differential Amount will be paid on the Final Payment Date.

Knock-out

Upon the occurrence of a Knock-out Event, the Exercise Right lapses and the Knock-out Amount will be paid for each Security.

The Knock-out Amount will be paid five Banking Days after the day, on which the Knock-out Event has occurred.

A Knock-out Event occurs if during the Knock-out Period the price of the Underlying at any time is on or below the Knock-out Barrier.

The Knock-out Amount corresponds to EUR 0.-.

Additional definitions and product terms

Relevant Reference Price means the Reference Price on the Final Valuation Date.

Prezzo di Riferimento	1	EUR 3.10	EUR 3.10	19 Dec 2022 - 14 Jun 2023

Extraordinary termination right: The Issuer has the right to extraordinary terminate the Securities at the fair market value of the Securities upon the occurrence of certain Call Events (for example, if the quotation of the Underlying on the relevant exchange is discontinued and no replacement exchange could be determined).

Adjustment right: The Terms and Conditions of the Securities may be adjusted by the Calculation Agent if an Adjustment Event occurs (for example, the company that issued the Underlying performs a corporate action).

Status of the Securities: The obligations under the Securities constitute direct and unsecured obligations of the Issuer and rank pari passu with all other unsecured and unsubordinated obligations of the Issuer. In the case of a resolution (bail-in), the Securities will, within the liability cascade, be considered only after all non-preferred liabilities of the Issuer.

Where will the Securities be traded?

No application for the Securities to be admitted to trading on a regulated market has been made. However, application to trading will be made with effect from 19 December 2022 on the following multilateral trading facilities (MTF): SeDeX, organised and managed by Borsa Italiana S.p.A.

What are the key risks that are specific to the Securities?

The specific risk factors related to the Securities, which in the view of the Issuer are material, are described below:

Risk related to the rank and characteristic of the Securities in the case of a failure of the Issuer: The Security Holders bear the risk of the insolvency of the Issuer. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail.

Specific Risks related to the payment profile of the Securities: There is a particular risk that the price of the Underlying will fall and that the value of the Securities and the payments will be disproportionately adversely affected. As a result, the Security Holder may suffer a loss of the amount paid to purchase the Securities. Even a total loss is possible. Upon the occurrence of a Knock-out Event, the term of the Securities ends and the Security Holder suffers a total loss of the amount paid to purchase the Securities. The performance of the Underlying can have a disproportionately adverse effect on the value of the Securities due to the leverage effect typical for the Securities.

Risks arising from the Terms and Conditions of the Securities: The Security Holders bear a risk of loss if the Securities are terminated by the Issuer. The Securities will then be redeemed at their fair market value of the Securities. This may be lower than the amount that the Security Holder would have received if there had been no extraordinary termination of the Securities. In addition, Security Holders bear a reinvestment risk. Moreover, the

Security Holders bear a risk of loss if an adjustment of the Terms and Conditions is made or if a market disruption occurs.

Risks related to the investment in, the holding and selling of the Securities: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to purchase or to sell the Securities at a specific time or for a specific price.

Risks related to Shares as Underlying: The price of a Share can fall sharply or it can become worthless due to the insolvency of the issuer of the Share. A change in the business development of the issuer of the Share can adversely affect the price of the Share for the Security Holder. The price of a Share can fluctuate strongly due to psychological effects on the stock markets. In the event of extraordinary events, the material conditions and risk profile of a Share can change significantly.

Quali sono i principali rischi specifici dell'Emittente?

Rischi correlati alla situazione finanziaria dell'Emittente: Rischio che il Gruppo HVB non sia in grado di adempiere tempestivamente o pienamente alle proprie obbligazioni di pagamento o che non sia in grado di ottenere sufficiente liquidità quando richiesto nonché che la liquidità sia disponibile solo ad un tasso di interesse più alto, e rischio che la banca sia soltanto in grado di liquidare attività sul mercato a sconto potrebbe creare problemi di liquidità per il Gruppo HVB e, quindi, potrebbe comportare una limitata possibilità di finanziare le proprie attività e raggiungere i propri livelli minimi di liquidità.

Rischi relativi alle specifiche attività di business dell'Emittente: Rischi derivanti dalle normali attività di business del Gruppo HVB che potrebbero comportare rischio di credito nelle operazioni di *lending*, rischio di mercato nelle attività di negoziazione così come rischi relativi ad altre attività di business quali l'attività immobiliare del Gruppo HVB potrebbero avere un impatto negativo sui risultati operativi, sugli attivi e sulla situazione finanziaria del Gruppo HVB.

Rischi generali relativi alle operazioni commerciali dell'Emittente: Rischi derivanti da inadeguati o non riusciti processi interni, sistemi e persone o da eventi esterni così come rischi causati da reazioni avverse degli investitori a causa della loro percezione alterata della banca, rischi derivanti da inattesi cambiamenti avversi negli utili futuri della banca, nonché i rischi derivanti dalle concentrazioni di posizioni di rischio e/o di ricavo, potrebbero comportare perdite finanziarie, un declassamento del rating di HVB ed un aumento del rischio di impresa del Gruppo HVB.

Rischi legali e regolamentari: Cambiamenti del contesto regolamentare o statutario di HVB potrebbero comportare costi di capitale superiori e un aumento dei costi per l'implementazione dei requisiti regolamentari. L'eventuale non conformità a requisiti regolamentari, leggi (fiscali) regolamenti, previsioni statutarie, contratti, prassi obbligatorie e standard etici, potrebbe avere un impatto negativo sulla percezione pubblica del Gruppo HVB, nonché sui suoi utili e sulla sua situazione finanziaria.

Rischio strategico e macroeconomico: Rischi derivanti dal mancato riconoscimento tempestivo o da una valutazione non corretta di sviluppi o tendenze significative nell'ambiente della banca da parte del management e rischi derivanti da sviluppi economici negativi in Germania e nei mercati internazionali finanziari e dei capitali potrebbero avere effetti negativi su attivi, passività, posizione finanziaria e profitto o perdite del Gruppo HVB. In particolare, le conseguenze del conflitto Russo-Ucraino, l'ulteriore diffusione di nuove varianti di COVID-19, un grave rallentamento economico in Cina e le tensioni tra Stati Uniti e Cina riguardo al commercio e a Taiwan potrebbero frenare o mettere in pericolo la continuazione della ripresa dell'economia globale. Inoltre, se uno qualunque dei suddetti rischi si materializzasse, potrebbe verificarsi un'instabilità sui mercati finanziari e di capitali.

Tipologia di Prodotto, Sottostante e forma dei Titoli

Tipologia di Prodotto: Titoli Call Turbo (*Call Turbo Securities*) (Non-Quanto)

Sottostante: Banco BPM SpA (ISIN: IT0005218380)

I Titoli sono emessi come titoli di debito in forma dematerializzata nominativa ai sensi del *Testo Unico della Finanza*. I Titoli saranno rappresentati da registrazioni contabili registrate sul sistema di contabilizzazione del Sistema di Gestione Accentrata (*Clearing System*). Il trasferimento dei Titoli avviene mediante registrazione sui relativi conti accesi presso il Sistema di Gestione Accentrata. Il codice internazionale di identificazione dei titoli (*International Securities Identification Number - ISIN*) dei Titoli è indicato nella Sezione 1.

Emissione, Importo Nominale e Durata

I Titoli saranno emessi il 16/12/2022 in Euro (EUR) (la "**Valuta di Emissione**"), senza importo nominale, pari a 1.000.000 Certificati. I Titoli hanno durata definita. Saranno rimborsati il 21/06/2023 (la "**Data di Pagamento Finale**").

Diritto di Esercizio

Fermo restando il verificarsi di un Evento di Knock-out, il Portatore del Titolo ha il diritto di chiedere all'Emittente il pagamento dell'Importo Differenziale per Titolo (Diritto di Esercizio).

Il Portatore del Titolo non può esercitare il Diritto di Esercizio prima del 14/06/2023 (la "**Data di Valutazione Finale**").

Fermo restando il verificarsi di un Evento di Knock-out, il Diritto di Esercizio sarà automaticamente esercitato alla Data di Valutazione Finale.

L'Importo Differenziale sarà calcolato sottraendo lo Strike dal Relativo Prezzo di Riferimento. La differenza sarà moltiplicata per il Multiplo.

L'Importo Differenziale non sarà inferiore a EUR 0.

A seguito dell'efficace esercizio del Diritto di Esercizio, l'Importo Differenziale sarà pagato alla Data di Pagamento Finale.

Knock-out

Al verificarsi di un Evento di Knock-out, il Diritto di Esercizio decade e per ciascun Titolo sarà pagato l'Importo di Knock-out.

L'Importo di Knock-out sarà pagato cinque Giorni Lavorativi dopo il giorno in cui si è verificato l'Evento di Knock-out.

Si verifica un Evento di Knock-out se durante il Periodo di Knock-out, il relativo prezzo del Sottostante in qualunque momento sia pari o inferiore alla Barriera di Knock-out.

L'Importo di Knock-out corrisponde ad EUR 0.

Definizioni aggiuntive e termini del prodotto

Diritto di riscatto straordinario: L'Emittente ha il diritto di estinguere in via straordinaria i Titoli ad un valore equo di mercato al verificarsi di certi Eventi di Call (*Call Events*) (ad esempio, se la quotazione del Sottostante sulla borsa pertinente viene interrotta e non è stato possibile determinare una borsa sostitutiva).

Diritto di rettifica: I Termini e Condizioni (*Terms and Conditions*) dei Titoli possono essere rettificati dall'Agente di Calcolo (*Calculation Agent*) nel caso in cui si verifichi un Evento di Rettifica (*Adjustment Event*) (ad esempio la società che ha emesso il Sottostante compie un'azione societaria).

Stato dei Titoli: Gli obblighi derivanti dai Titoli costituiscono obbligazioni dirette e non garantite dell'Emittente e sono parimenti ordinate con le altre obbligazioni non garantite e non subordinate dell'Emittente. In caso di risoluzione (bail-in), nell'ambito dell'ordine delle passività i Titoli saranno presi in considerazione soltanto dopo tutte le passività chirografarie di secondo livello (non-preferred) dell'Emittente.

Dove saranno negoziati i Titoli?

Non è stata presentata domanda per l'ammissione alla negoziazione dei Titoli su un mercato regolamentato. Peraltro, sarà presentata domanda per l'ammissione dei Titoli alla negoziazione con efficacia a partire dal 19/12/2022 sui seguenti sistemi multilaterali di negoziazione (MTF): SeDeX, organizzato e gestito da Borsa Italiana S.p.A.

Quali sono i principali rischi specifici dei Titoli?

I fattori di rischio specifici relativi ai Titoli, che nell'opinione dell'Emittente sono significativi, sono descritti di seguito:

Rischio connesso al collocamento e caratteristiche dei Titoli in caso di fallimento dell'Emittente: I Portatori dei Titoli sono esposti al rischio di fallimento dell'Emittente. In aggiunta, i Portatori dei Titoli possono essere soggetti a misure di risoluzione in relazione all'Emittente se l'Emittente sta fallendo od è probabile che fallisca.

Rischi specifici connessi al profilo di pagamento dei Titoli: Vi è il particolare rischio che il prezzo del Sottostante diminuisca e che il valore dei Titoli e i pagamenti siano influenzati negativamente in maniera sproporzionata. Di conseguenza, il Portatore del Titolo può subire una perdita dell'importo pagato per l'acquisto dei Titoli. E' possibile anche una perdita totale. Al verificarsi di un Evento di Knock-out, la durata dei Titoli termina e il Portatore del Titolo subisce una perdita totale dell'importo pagato per l'acquisto dei Titoli. La performance del Sottostante può avere un effetto sproporzionatamente negativo sul valore dei Titoli a causa dell'effetto leva tipico dei Titoli.

Rischi derivanti dai Termini e Condizioni dei Titoli: I Portatori dei Titoli sono esposti ad un rischio di perdita nel caso in cui i Titoli siano estinti dall'Emittente. I Titoli saranno poi rimborsati al valore equo di mercato dei Titoli. Questo può essere inferiore rispetto all'importo che il Portatore del Titolo avrebbe ricevuto se non ci fosse stato un riscatto straordinario dei Titoli. In aggiunta, i Portatori del Titolo sono esposti al rischio di reinvestimento. Inoltre, i Portatori dei Titoli sono esposti ad un rischio di perdita se viene effettuata una rettifica dei Termini e Condizioni o se si verifica una turbativa del mercato.

Rischi connessi all'investimento, alla detenzione e vendita dei Titoli: I Portatori dei Titoli sono esposti al rischio che il prezzo di mercato dei Titoli può essere soggetto a forti variazioni nel corso della durata dei Titoli e che il Portatore del Titolo non sia in grado di acquistare o vendere i Titoli in un momento specifico o ad un prezzo specifico.

Rischi connessi ad Azioni come Sottostante: Il prezzo di un'Azione può diminuire notevolmente o può diventare di nessun valore a causa dell'insolvenza dell'emittente dell'Azione. Un cambiamento nello sviluppo del business dell'emittente dell'Azione può influire negativamente sul prezzo dell'Azione per il Portatore del Titolo. Il prezzo di un'Azione può fluttuare fortemente a causa di effetti psicologici sui mercati azionari. In caso di eventi straordinari, le condizioni sostanziali e il profilo di rischio di un'Azione possono cambiare significativamente.
