What are the key risks that are specific to the Issuer?

Risks related to the Issuer's financial situation: Risk that HVB Group will not be able to meet its payment obligations on time or in full or to obtain sufficient liquidity when required as well as that liquidity will only be available at higher interest rates, and the risk that the bank will only be able to liquidate assets on the market at a

discount could create liquidity problems for HVB Group and thus could result in a limited ability to fund its activities and meet its minimum liquidity requirements.

Risks related to the Issuer's specific business activities: Risks arising from the normal business activities of HVB Group, which involve credit risk in the lending business, market risk in the trading business as well as risks from other business activities such as the real estate business activities of HVB Group could have an adverse impact on HVB Group's operating results, its assets and its financial situation.

General risks related to the Issuer's business operations: Risks from inadequate or failed internal processes, systems and people or from external events, risks caused by adverse reactions of stakeholders due to their altered perception of the bank, risks from unexpected adverse changes in the future earnings of the bank as well as risks from concentrations of risk and/or earnings positions could result in financial losses, a downgrade of HVB's rating and an increase in the business risk of the HVB Group.

Legal and regulatory risk: Changes of the regulatory and statutory environment of HVB could result in higher capital costs and a rise of costs for the implementation of regulatory requirements. In cases of non-compliance with regulatory requirements, (tax) laws, regulations, statutory provisions, agreements, mandatory practices and ethical standards, the public perception of HVB Group as well as its earnings and financial situation could be negatively affected.

Strategic and macroeconomic risk: Risks resulting from management either not recognising early enough or not correctly assessing significant developments or trends in the bank's environment and risks arising from negative economic developments in Germany and on the international financial and capital markets could have a negative effect on the assets, liabilities, financial position and profit or loss of HVB Group. In particular, the consequences of the Russian-Ukrainian conflict, the further spreading of new variants of COVID-19, a severe economic slowdown in China and tensions between the US and China about trade and Taiwan could dampen or endanger the continuation of the recovery of the global economy. In addition, if any of the aforementioned risks materialises, turbulence could occur on financial and capital markets.

Exercise Right

The Security Holder has the right to demand of the Issuer the payment of the Differential Amount per Security (Exercise Right).

The Security Holder cannot exercise the Exercise Right prior to 26 September 2023 (the "**Final Valuation Date**").

The Exercise Right will be automatically exercised on the Final Valuation Date.

The Differential Amount will be calculated by subtracting the Strike from the Relevant Reference Price. The

difference will be multiplied by the Ratio.

In addition, the Differential Amount will be adjusted by the performance of the exchange rate between the Specified Currency and the currency in which the Underlying is traded or published (Compo).

The Differential Amount will not be lower than EUR 0.-.

Upon the effective exercise of the Exercise Right, the Differential Amount will be paid on the Final Payment Date.

Additional definitions and product terms

Relevant Reference Price means the Reference Price on the Final Valuation Date.

Reference Price	Ratio	Strike
Official settlement price	0.1	USD 100.00

Extraordinary termination right: The Issuer has the right to extraordinary terminate the Securities at the fair market value of the Securities upon the occurrence of certain Call Events (for example, a change in law or the trading in the Underlying on the Reference Market is suspended indefinitely or permanently discontinued and no suitable Replacement Reference Market is available or could have been determined).

Adjustment right: The Calculation Agent may, if necessary, make adjustments to the terms and conditions of the Securities (for example determine a Replacement Reference Market).

Status of the Securities: The obligations under the Securities constitute direct and unsecured obligations of the Issuer and rank pari passu with all other unsecured and unsubordinated obligations of the Issuer. In the case of a resolution (bail-in), the Securities will, within the liability cascade, be considered only after all non-preferred liabilities of the Issuer.

Where will the Securities be traded?

No application for the Securities to be admitted to trading on a regulated market has been made. However, application to trading will be made with effect from 22 February 2023 on the following multilateral trading facilities (MTF): SeDeX, organised and managed by Borsa Italiana S.p.A.

What are the key risks that are specific to the Securities?

The specific risk factors related to the Securities, which in the view of the Issuer are material, are described below:

Risk related to the rank and characteristic of the Securities in the case of a failure of the Issuer: The Security Holders bear the risk of the insolvency of the Issuer. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail.

Specific Risks related to the payment profile of the Securities: There is a particular risk that the price of the Underlying will fall and that the value of the Securities and the payments will be disproportionately adversely affected. As a result, the Security Holder may suffer a loss of the amount paid to purchase the Securities. Even a total loss is possible. The performance of the Underlying can have a disproportionately adverse effect on the value of the Securities due to the leverage effect typical for the Securities.

Risks related to Compo Securities: The Security Holder bears an additional risk of loss due to the constant movements of the exchange rate between the Specified Currency and the currency in which the Underlying is traded or published.

Risks arising from the Terms and Conditions of the Securities: The Security Holders bear a risk of loss if the Securities are terminated by the Issuer. The Securities will then be redeemed at their fair market value of the Securities. This may be lower than the amount that the Security Holder would have received if there had been no extraordinary termination of the Securities. In addition, Security Holders bear a reinvestment risk. Moreover, the Security Holders bear a risk of loss if an adjustment of the Terms and Conditions is made or if a market disruption occurs.

Risks related to the investment in, the holding and selling of the Securities: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that

the Security Holder is not able to purchase or to sell the Securities at a specific time or for a specific price.

Risks related to Futures Contracts as Underlying: The performance of the Commodity underlying the Futures Contract can adversely affect the price of the Futures Contract for the Security Holder. The prices for Commodities can be subject to greater fluctuations, and markets for Commodities can have lower liquidity than e.g. stock markets. Apart from supply and demand the development in the price for a Commodity is influenced by numerous factors (e.g. speculations, political unrest, economic crises and natural disasters).

Quali sono i principali rischi specifici dell'Emittente?

Rischi correlati alla situazione finanziaria dell'Emittente: Rischio che il Gruppo HVB non sia in grado di adempiere tempestivamente o pienamente alle proprie obbligazioni di pagamento o che non sia in grado di ottenere sufficiente liquidità quando richiesto nonché che la liquidità sia disponibile solo ad un tasso di interesse più alto, e rischio che la banca sia soltanto in grado di liquidare attività sul mercato a sconto potrebbe creare problemi di liquidità per il Gruppo HVB e, quindi, potrebbe comportare una limitata possibilità di finanziare le proprie attività e raggiungere i propri livelli minimi di liquidità.

Rischi relativi alle specifiche attività di business dell'Emittente: Rischi derivanti dalle normali attività di business del Gruppo HVB che potrebbero comportare rischio di credito nelle operazioni di *lending*, rischio di mercato nelle attività di negoziazione così come rischi relativi ad altre attività di business quali l'attività immobiliare del Gruppo HVB potrebbero avere un impatto negativo sui risultati operativi, sugli attivi e sulla situazione finanziaria del Gruppo HVB.

Rischi generali relativi alle operazioni commerciali dell'Emittente: Rischi derivanti da inadeguati o non riusciti processi interni, sistemi e persone o da eventi esterni così come rischi causati da reazioni avverse degli investitori a causa della loro percezione alterata della banca, rischi derivanti da inattesi cambiamenti avversi negli utili futuri della banca, nonché i rischi derivanti dalle concentrazioni di posizioni di rischio e/o di ricavo, potrebbero comportare perdite finanziarie, un declassamento del rating di HVB ed un aumento del rischio di impresa del Gruppo HVB.

Rischi legali e regolamentari: Cambiamenti del contesto regolamentare o statutario di HVB potrebbero comportare costi di capitale superiori e un aumento dei costi per l'implementazione dei requisiti regolamentari. L'eventuale non conformità a requisiti regolamentari, leggi (fiscali) regolamenti, previsioni statutarie, contratti, prassi obbligatorie e standard etici, potrebbe avere un impatto negativo sulla percezione pubblica del Gruppo HVB, nonché sui suoi utili e sulla sua situazione finanziaria.

Rischio strategico e macroeconomico: Rischi derivanti dal mancato riconoscimento tempestivo o da una valutazione non corretta di sviluppi o tendenze significative nell'ambiente della banca da parte del management e rischi derivanti da sviluppi economici negativi in Germania e nei mercati internazionali finanziari e dei capitali potrebbero avere effetti negativi su attivi, passività, posizione finanziaria e profitto o perdite del Gruppo HVB. In particolare, le conseguenze del conflitto Russo-Ucraino, l'ulteriore diffusione di nuove varianti di COVID-19, un grave rallentamento economico in Cina e le tensioni tra Stati Uniti e Cina riguardo al commercio e a Taiwan potrebbero frenare o mettere in pericolo la continuazione della ripresa dell'economia globale. Inoltre, se uno qualunque dei suddetti rischi si materializzasse, potrebbe verificarsi un'instabilità sui mercati finanziari e di capitali.

Diritto di riscatto straordinario: L'Emittente ha il diritto di estinguere in via straordinaria i Titoli ad un valore equo di mercato al verificarsi di certi Eventi di Call (*Call Events*) (ad esempio, una modifica normativa o la negoziazione del Sottostante sul Mercato di Riferimento (*Reference Market*) è sospesa indefinitamente o interrotta in modo permanente e non è disponibile o potrebbe essere determinato un adeguato Mercato di Riferimento Sostitutivo (*Replacement Reference Market*)).

Diritto di rettifica: L'Agente per il Calcolo (*Calculation Agent*) potrà, se necessario, apportare modifiche ai termini e condizioni dei Titoli (ad esempio determinare un Mercato di Riferimento Sostitutivo (*Replacement Reference Market*)).

Stato dei Titoli: Gli obblighi derivanti dai Titoli costituiscono obbligazioni dirette e non garantite dell'Emittente e sono parimenti ordinate con le altre obbligazioni non garantite e non subordinate dell'Emittente. In caso di risoluzione (bail-in), nell'ambito dell'ordine delle passività i Titoli saranno presi in considerazione soltanto dopo tutte le passività chirografarie di secondo livello (non-preferred) dell'Emittente.

Dove saranno negoziati i Titoli?

Non è stata presentata domanda per l'ammissione alla negoziazione dei Titoli su un mercato regolamentato. Peraltro, sarà presentata domanda per l'ammissione dei Titoli alla negoziazione con efficacia a partire dal 22/02/2023 sui seguenti sistemi multilaterali di negoziazione (MTF): SeDeX, organizzato e gestito da Borsa Italiana S.p.A.

Quali sono i principali rischi specifici dei Titoli?

I fattori di rischio specifici relativi ai Titoli, che nell'opinione dell'Emittente sono significativi, sono descritti di seguito:

Rischio connesso al collocamento e caratteristiche dei Titoli in caso di fallimento dell'Emittente: I Portatori dei Titoli sono esposti al rischio di fallimento dell'Emittente. In aggiunta, i Portatori dei Titoli possono essere soggetti a misure di risoluzione in relazione all'Emittente se l'Emittente sta fallendo od è probabile che fallisca.

Rischi specifici connessi al profilo di pagamento dei Titoli: Vi è il particolare rischio che il prezzo del Sottostante

diminuisca e che il valore dei Titoli e i pagamenti siano influenzati negativamente in maniera sproporzionata. Di conseguenza, il Portatore del Titolo può subire una perdita dell'importo pagato per l'acquisto dei Titoli. E' possibile anche una perdita totale. La performance del Sottostante può avere un effetto sproporzionatamente negativo sul valore dei Titoli a causa dell'effetto leva tipico dei Titoli.

Rischi connessi ai Titoli Compo: Il Portatore del Titolo è esposto ad un ulteriore rischio di perdita dovuto alle costanti oscillazioni del tasso di cambio tra la Valuta di Emissione e la valuta in cui il Sottostante è negoziato o pubblicato.

Rischi derivanti dai Termini e Condizioni dei Titoli: I Portatori dei Titoli sono esposti ad un rischio di perdita nel caso in cui i Titoli siano estinti dall'Emittente. I Titoli saranno poi rimborsati al valore equo di mercato dei Titoli. Questo può essere inferiore rispetto all'importo che il Portatore del Titolo avrebbe ricevuto se non ci fosse stato un riscatto straordinario dei Titoli. In aggiunta, i Portatori del Titolo sono esposti al rischio di reinvestimento. Inoltre, i Portatori dei Titoli sono esposti ad un rischio di perdita se viene effettuata una rettifica dei Termini e Condizioni o se si verifica una turbativa del mercato.

Rischi connessi all'investimento, alla detenzione e vendita dei Titoli: I Portatori dei Titoli sono esposti al rischio che il prezzo di mercato dei Titoli può essere soggetto a forti variazioni nel corso della durata dei Titoli e che il Portatore del Titolo non sia in grado di acquistare o vendere i Titoli in un momento specifico o ad un prezzo specifico.

Rischi connessi ai Contratti Futures come Sottostante: La performance della Materia Prima sottostante al Contratto Futures può influire negativamente sul prezzo del Contratto Futures per il Portatore del Titolo. I prezzi delle Materie Prime possono essere soggetti a notevoli fluttuazioni e i mercati delle Materie Prime possono avere una minore liquidità rispetto, ad esempio, ai mercati azionari. Oltre alla domanda e all'offerta, lo sviluppo del prezzo per una Materia Prima è influenzato da numerosi fattori (ad esempio, speculazioni, disordini politici, crisi economiche e catastrofi naturali).
