Such call shall become effective at the time indicated in the notice.

The "**Cancellation Amount**" shall be the fair market value of the Securities as of the first Banking Day before the extraordinary call becomes effective, determined by the Calculation Agent acting in accordance with relevant market practice and in good faith under then prevailing circumstances.

The determination of the fair market value is based on the economic equivalent of the Issuer's payment obligations to the Security Holders consistent with the provisions for the redemption profile, interest or other additional amounts of the Securities that would otherwise be due after the day on which the extraordinary call becomes effective and which is adjusted for taking into consideration the following parameters as of the first Banking Day before the extraordinary call becomes effective: the price of the Underlying, the remaining time to maturity, the estimated volatility, the expected dividends (if applicable), the current market interest rate as well as the interest spread associated with the credit default risk of the Issuer and any other relevant market parameter that can influence the value of the Securities. The Cancellation Amount will be paid within five Banking Days following the date as of which the extraordinary call becomes effective, or at the date specified in the above mentioned notice, as the case may be, pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) *Rounding:* The amounts payable under the Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards.
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such a payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the legal interest rate (*'Saggio degli Interessi legali'*), pursuant to Section 1284 CC, without prejudice to any other mandatory provisions under Italian law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on an Observation Date, the respective Observation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Observation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days the Calculation Agent shall determine acting in accordance with relevant market practice and in good faith the respective Reference Price required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. Such Reference Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on this 9th Banking Day, taking into account the financial position of the Security Holders.

If within these 8 Banking Days traded Underlying Linked Derivatives expire and are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Underlying Linked Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in the Terms and Conditions. In that case, the expiration date for those Underlying Linked Derivatives is the respective Observation Date.

§ 8

Adjustments, Type of Adjustment, New Index Sponsor and New Index Calculation Agent, Replacement Specification, Notifications

- (1) *Adjustments:* If an Adjustment Event occurs the Calculation Agent is authorised to adjust the Terms and Conditions (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 acting in accordance with relevant market practice and in good faith, taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

- (2) *Type of Adjustment:* In the context of an Adjustment the Calculation Agent may, in particular and in accordance with paragraph (1) above, in particular replace the Underlying with a Replacement Underlying and if necessary redefine the Adjustable Product Data. As a "**Replacement Underlying**" another index can be considered which is comparable to the original index with respect to the represented constituents, the consideration of returns and distributions of the

constituents included in the Index (e.g. dividends) and, if applicable, fees and costs included in the Index.

If the Calculation Agent designates a Replacement Underlying, from the Adjustment Date on (as defined in paragraph 5 below), every reference to Underlying in the Terms and Conditions shall be a reference to the Replacement Underlying, unless the context requires otherwise.

- (3) *New Index Sponsor and New Index Calculation Agent:* If the Underlying is no longer determined by the Index Sponsor but rather by another person, company or institution (the "**New Index Sponsor**"), then all calculations or, respectively, specifications described in the Terms and Conditions shall occur on the basis of the Underlying as determined by the New Index Sponsor. In this case, any reference to the replaced Index Sponsor in the Terms and Conditions shall be deemed to refer to the New Index Sponsor. If the Underlying is no longer calculated by the Index Calculation Agent but rather by another person, company or institution (the "**New Index Calculation Agent**"), then all calculations or, respectively, specifications described in the Terms and Conditions shall occur on the basis of the Underlying as calculated by the New Index Calculation Agent. In this case, any reference to the replaced Index Calculation Agent in the Terms and Conditions shall be deemed to refer to the New Index Calculation Agent.
- (4) *Replacement Specification:* If a price of the Underlying published by the Index Sponsor or the Index Calculation Agent, as the case may be, pursuant to the Terms and Conditions is subsequently corrected and the correction (the "**Corrected Value**") will be published by the Index Sponsor or the Index Calculation Agent, as the case may be, after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish pursuant to § 6 of the General Conditions the relevant value by using the Corrected Value (the "**Replacement Specification**").
- (5) *Notifications:* All Adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Securities Holders according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.

§ 9

Reverse Split

- (1) *Reverse Split Right:* Upon the occurrence of a Reverse Split Event, the Issuer shall have the right but not an obligation to convert the Securities into New Securities at the Reverse Split Conversion Factor. The Reverse Split Right will be exercised by issuing a respective Reverse Split Notice. The Reverse Split Notice shall give reasonable details about the Reverse Split Event as well as the determination of the Reverse Split Conversion Factor and shall specify the Reverse Split Effective Date, which shall be a date not later than the Reverse Split End Date.
- (2) *Conversion and delivery:* By not later than the Reverse Split Payment Date, the Issuer shall deliver to each Security Holder New Securities in an aggregate number equal to each Holder's Reverse Split Delivery Amount for credit to the account of the relevant depository bank of such Securities Holder against debit of all Securities held by such Securities Holder in such account. No fractions of New Securities will be delivered. Instead, the Issuer will pay by not later than the Reverse Split Payment Date the Reverse Split Supplemental Cash Amounts (if any) if the Reverse Split Conversion Factor leads to a number of Securities held by a Security Holder which cannot be converted into the New Securities in full.

All costs, incl. possible custody fees, exchange turnover taxes, stamp taxes, transaction fees, other taxes or levies, incurred as a result of the delivery of the New Securities, shall be borne by the respective Security Holder.

(3) *Definitions:* With respect to the Reverse Split Right, the following defined terms apply:

"New Securities" means newly issued securities of the Issuer having identical terms as the Securities save for the value of the Ratio which will be adjusted by reference to the Reverse Split Conversion Factor.

"Reverse Split Conversion Factor" means an appropriate aggregation factor for the Securities to be replaced by New Securities with a lower aggregate number of individual securities in order to reduce the negative effects of the Reverse Split Event, as determined by the Calculation Agent acting in accordance with relevant market practice and in good faith and taking into account the interest of the Security Holders, always provided that the economic profile of the Securities compared to the New Securities remains unchanged. Such factor shall, however, not be more than 10.000.

"Reverse Split Delivery Amount" means, with respect to a Security Holder, (i) the number of Securities held by such Security Holder in its custody account with the relevant depository bank (ii) divided by the Reverse Split Conversion Factor, expressed as the nearest lower whole integer.

"Reverse Split Effective Date" means the date specified in the Reverse Split Notice.

"Reverse Split End Date" means 7 calendar days following the date on which a Reverse Split Notice has been given.

"Reverse Split Event" means, at any time, that as a result of the leverage under the Securities, the market price of the Securities reaches a level below EUR 1 in the Specified Currency and that the secondary market trading may be negatively affected; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

"Reverse Split Notice" means the notice given by the Issuer pursuant to § 6 of the General Condition about the exercise of the Reverse Split Right pursuant to this § 9.

"Reverse Split Payment Date" means a day not later than 5 Banking Days after the Reverse Split Effective Date.

"Reverse Split Supplemental Cash Amount" means a cash amount expressed in the Specified Currency equal to the sum of the fair market values of such Securities held by a Security Holder which cannot be converted in full into the New Securities at the Reverse Split Conversion Factor. The market value of the Securities will be determined as of the Reverse Split Effective Date by the Calculation Agent acting in accordance with relevant market practice and in good faith.

What are the key risks that are specific to the Issuer?

Risks related to the Issuer's financial situation: Risk that HVB Group will not be able to meet its payment obligations on time or in full or to obtain sufficient liquidity when required as well as that liquidity will only be available at higher interest rates, and the risk that the bank will only be able to liquidate assets on the market at a discount could create liquidity problems for HVB Group and thus could result in a limited ability to fund its activities and meet its minimum liquidity requirements.

Risks related to the Issuer's specific business activities: Risks arising from the normal business activities of HVB Group, which involve credit risk in the lending business, market risk in the trading business as well as risks from other business activities such as the real estate business activities of HVB Group could have an adverse impact on HVB Group's operating results, its assets and its financial situation.

General risks related to the Issuer's business operations: Risks from inadequate or failed internal processes, systems and

people or from external events, risks caused by adverse reactions of stakeholders due to their altered perception of the bank, risks from unexpected adverse changes in the future earnings of the bank as well as risks from concentrations of risk and/or earnings positions could result in financial losses, a downgrade of HVB's rating and an increase in the business risk of the HVB Group.

Legal and regulatory risk: Changes of the regulatory and statutory environment of HVB could result in higher capital costs and a rise of costs for the implementation of regulatory requirements. In cases of non-compliance with regulatory requirements, (tax) laws, regulations, statutory provisions, agreements, mandatory practices and ethical standards, the public perception of HVB Group as well as its earnings and financial situation could be negatively affected.

Strategic and macroeconomic risk: Risks resulting from management either not recognising early enough or not correctly assessing significant developments or trends in the bank's environment and risks arising from negative economic developments in Germany and on the international financial and capital markets could have a negative effect on the assets, liabilities, financial position and profit or loss of HVB Group. In particular, the consequences of the Russian-Ukrainian conflict, the further spreading of new variants of COVID-19, a severe economic slowdown in China and tensions between the US and China about trade and Taiwan could dampen or endanger the continuation of the recovery of the global economy. In addition, if any of the aforementioned risks materialises, turbulence could occur on financial and capital markets.

Section 3 – Key information on the Securities

What are the main features of the Securities?

Product Type, Underlying and form of the Securities

Product Type: Open End Leverage Securities (Non-Quanto)

Underlying: ShortDAX® x7 (TR) Index EUR (ISIN: DE000A1EXZD1)

Reference Underlying: Reuters .GDAXI

Leverage Factor: 7

The Underlying is an Index, which tracks the performance of the Reference Underlying with a constant Leverage Factor. Due to the Leverage Factor, the Security Holder participates in rising prices of the Reference Underlying as well as in falling prices of the Reference Underlying disproportionately (leveraged). The market value of the Securities regularly falls, if the value of the Reference Underlying rises, and regularly rises, if the value of the Reference Underlying falls (short).

The Securities are issued as debt instruments in dematerialized registered form pursuant to the Italian Consolidated Law on Financial Intermediation (*Testo Unico della Finanza*). The Securities will be represented by book entry and registered in the books of the Clearing System. The transfer of the Securities operates by registration on the relevant accounts opened in the Clearing System. The international securities identification number (ISIN) of the Securities is set out in Section 1.

Issuance, Nominal Amount and Term

The Securities will be issued on 1 March 2023 in Euro (EUR) (the "**Specified Currency**"), without a Nominal Amount, as 10,000,000 Certificates. The Securities have an indefinite term.

Redemption of the Securities

The Securities can be redeemed on any Redemption Date upon the exercise of the Redemption Right by the Security Holder. The Securities can also be redeemed in whole on any Call Date upon the exercise of the Regular Call Right by the Issuer.

On the Redemption Date or the Call Date, as applicable, the Security Holder receives the Redemption Amount.

The Redemption Amount is calculated by multiplying the Relevant Reference Price by the Ratio.

Additional definitions and product terms

Call Date means each Banking Day starting on 31 August 2023.

Observation Date means the fifth Banking Day prior to each Redemption Date and each Call Date.

Ratio means the Initial Ratio on 3 March 2023. On each calendar day thereafter, the Ratio will be adjusted on a daily basis in order to take into account the fees as set out in the table below.

Redemption Date means each Banking Day starting on 3 April 2023.

Relevant Reference Price means the Reference Price on the respective Observation Date.

Reference Price	Initial Ratio	Management Fee in %* (maximum)	Gap Risk Fee in %* (maximum)
-----------------	---------------	--------------------------------	------------------------------

Closing price	0.000207	0.4% (0.4%)	4.5% (8%)
---------------	----------	----------------	--------------

* Values as of 3 March 2023. The Calculation Agent may change the relevant fee at any time subject to the maximum value indicated in brackets.

Extraordinary termination right: The Issuer has the right to extraordinary terminate the Securities at the fair market value of the Securities upon the occurrence of certain Call Events (for example, the calculation of the Underlying is permanently discontinued and no suitable Replacement Underlying is available).

Adjustment right: The Terms and Conditions of the Securities may be adjusted by the Calculation Agent if an Adjustment Event occurs (for example, a certain change to the relevant index concept).

Reverse Split Right: Upon the occurrence of a Reverse Split Event, the Issuer may convert the Securities into New Securities at the Reverse Split Conversion Factor.

Status of the Securities: The Securities constitute direct, unconditional and unsecured obligations of the Issuer. The Securities rank *pari passu* with all other unsecured and unsubordinated present and future obligations of the Issuer. Exception: obligations which have a preference or subordination under the law.

Where will the Securities be traded?

No application for the Securities to be admitted to trading on a regulated market has been made. However, application to trading will be made with effect from 3 March 2023 on the following multilateral trading facilities (MTF): SeDeX, organised and managed by Borsa Italiana S.p.A.

What are the key risks that are specific to the Securities?

The specific risk factors related to the Securities, which in the view of the Issuer are material, are described below:

Risk related to the rank and characteristic of the Securities in the case of a failure of the Issuer: The Security Holders bear the risk of the insolvency of the Issuer. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail.

Specific Risks related to the payment profile of the Securities: There is the particular risk that the price of the Underlying - possibly even significantly - falls and consequently the Security Holder will suffer a significant loss of his invested capital. Due to the Leverage Factor comprised in the Underlying, there is even an increased risk of total loss compared to a direct investment in the Reference Underlying.

Risks arising from the Terms and Conditions of the Securities: The Security Holders bear a risk of loss if the Securities are terminated by the Issuer. The Securities will then be redeemed at their fair market value of the Securities. This may be lower than the amount that the Security Holder would have received if there had been no extraordinary termination of the Securities. In addition, Security Holders bear a reinvestment risk. Moreover, the Security Holders bear a risk of loss if an adjustment of the Terms and Conditions is made or if a market disruption occurs.

Risks related to the investment in, the holding and selling of the Securities: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to purchase or to sell the Securities at a specific time or for a specific price.

Risks related to Indices as Underlying: The Securities are associated with risks for Security Holders similar to those of direct investments in a comparable portfolio of the assets underlying the relevant Index. Changes in the value of the Index Components consequently directly affect the price of the Index.

Quali sono i principali rischi specifici dell'Emittente?

Rischi correlati alla situazione finanziaria dell'Emittente: Rischio che il Gruppo HVB non sia in grado di adempiere tempestivamente o pienamente alle proprie obbligazioni di pagamento o che non sia in grado di ottenere sufficiente liquidità quando richiesto nonché che la liquidità sia disponibile solo ad un tasso di interesse più alto, e rischio che la banca sia soltanto in grado di liquidare attività sul mercato a sconto potrebbe creare problemi di liquidità per il Gruppo HVB e, quindi, potrebbe comportare una limitata possibilità di finanziare le proprie attività e raggiungere i propri livelli minimi di liquidità.

Rischi relativi alle specifiche attività di business dell'Emittente: Rischi derivanti dalle normali attività di business del

Gruppo HVB che potrebbero comportare rischio di credito nelle operazioni di *lending*, rischio di mercato nelle attività di negoziazione così come rischi relativi ad altre attività di business quali l'attività immobiliare del Gruppo HVB potrebbero avere un impatto negativo sui risultati operativi, sugli attivi e sulla situazione finanziaria del Gruppo HVB.

Rischi generali relativi alle operazioni commerciali dell'Emittente: Rischi derivanti da inadeguati o non riusciti processi interni, sistemi e persone o da eventi esterni così come rischi causati da reazioni avverse degli investitori a causa della loro percezione alterata della banca, rischi derivanti da inattesi cambiamenti avversi negli utili futuri della banca, nonché i rischi derivanti dalle concentrazioni di posizioni di rischio e/o di ricavo, potrebbero comportare perdite finanziarie, un declassamento del rating di HVB ed un aumento del rischio di impresa del Gruppo HVB.

Rischi legali e regolamentari: Cambiamenti del contesto regolamentare o statutario di HVB potrebbero comportare costi di capitale superiori e un aumento dei costi per l'implementazione dei requisiti regolamentari. L'eventuale non conformità a requisiti regolamentari, leggi (fiscali) regolamenti, previsioni statutarie, contratti, prassi obbligatorie e standard etici, potrebbe avere un impatto negativo sulla percezione pubblica del Gruppo HVB, nonché sui suoi utili e sulla sua situazione finanziaria.

Rischio strategico e macroeconomico: Rischi derivanti dal mancato riconoscimento tempestivo o da una valutazione non corretta di sviluppi o tendenze significative nell'ambiente della banca da parte del management e rischi derivanti da sviluppi economici negativi in Germania e nei mercati internazionali finanziari e dei capitali potrebbero avere effetti negativi su attivi, passività, posizione finanziaria e profitto o perdite del Gruppo HVB. In particolare, le conseguenze del conflitto Russo-Ucraino, l'ulteriore diffusione di nuove varianti di COVID-19, un grave rallentamento economico in Cina e le tensioni tra Stati Uniti e Cina riguardo al commercio e a Taiwan potrebbero frenare o mettere in pericolo la continuazione della ripresa dell'economia globale. Inoltre, se uno qualunque dei suddetti rischi si materializzasse, potrebbe verificarsi un'instabilità sui mercati finanziari e di capitali.

Diritto di rettifica: I Termini e Condizioni (*Terms and Conditions*) dei Titoli possono essere rettificati dall'Agente di Calcolo (*Calculation Agent*) nel caso in cui si verifichi un Evento di Rettifica (*Adjustment Event*) (ad esempio, un certo cambiamento del relativo concetto dell'indice).

Quali sono i principali rischi specifici dei Titoli?

I fattori di rischio specifici relativi ai Titoli, che nell'opinione dell'Emittente sono significativi, sono descritti di seguito:

Rischio connesso a rango e caratteristiche dei Titoli in caso di fallimento dell'Emittente: I Portatori dei Titoli sono esposti al rischio di fallimento dell'Emittente. In aggiunta, i Portatori dei Titoli possono essere soggetti a misure di risoluzione in relazione all'Emittente se l'Emittente sta fallendo od è probabile che fallisca.

Rischi specifici connessi al profilo di pagamento dei Titoli: Vi è il particolare rischio che il prezzo del Sottostante - possibilmente anche in modo significativo - diminuisca e, di conseguenza, che il Portatore del Titolo subisca una perdita significativa del capitale investito. A causa del Fattore Leva, compreso nel Sottostante, il rischio della perdita totale è anche maggiore rispetto ad un investimento diretto nel Sottostante di Riferimento.

Rischi derivanti dai Termini e Condizioni dei Titoli: I Portatori dei Titoli sono esposti ad un rischio di perdita nel caso in cui i Titoli siano estinti dall'Emittente. I Titoli saranno poi rimborsati al valore equo di mercato dei Titoli. Questo può essere inferiore rispetto all'importo che il Portatore del Titolo avrebbe ricevuto se non ci fosse stato un riscatto straordinario dei Titoli. In aggiunta, i Portatori dei Titoli sono esposti al rischio di reinvestimento. Inoltre, i Portatori dei Titoli sono esposti ad un rischio di perdita se viene effettuata una rettifica dei Termini e Condizioni o se si verifica una turbativa del mercato.

Rischi connessi all'investimento, alla detenzione e vendita dei Titoli: I Portatori dei Titoli sono esposti al rischio che il prezzo di mercato dei Titoli può essere soggetto a forti variazioni nel corso della durata dei Titoli e che il Portatore del Titolo non sia in grado di acquistare o vendere i Titoli in un momento specifico o ad un prezzo specifico.

Rischi connessi agli Indici come Sottostante: I Titoli sono associati a rischi per i Portatori dei Titoli simili a quelli relativi ad investimenti diretti in un portafoglio comparabile delle attività sottostanti il relativo Indice. Conseguentemente, le variazioni di valore delle Componenti dell'Indice influenzano direttamente il prezzo dell'Indice.
