The "**Cancellation Amount**" shall be the fair market value of the Securities as of the first Banking Day before the extraordinary call becomes effective, determined by the Calculation Agent acting in accordance with relevant market practice and in good faith under then prevailing circumstances.

The determination of the fair market value is based on the economic equivalent of the Issuer's payment obligations to the Security Holders consistent with the provisions for the redemption profile, interest or other additional amounts of the Securities that would otherwise be due after the day on which the extraordinary call becomes effective and which is adjusted for taking into consideration the following parameters as of the first Banking Day before the extraordinary call becomes effective: the price of the Underlying, the remaining time to maturity, the estimated volatility, the expected dividends (if applicable), the current market interest rate as well as the

interest spread associated with the credit default risk of the Issuer and any other relevant market parameter that can influence the value of the Securities.

- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such a payment.

Any Payment Date relating to such Observation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

Such Reference Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on this 9th Banking Day, taking into account the financial position of the Security Holders.

If within these 8 Banking Days traded Underlying Linked Derivatives of the respective Basket Component, expire or are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange, for the there traded Underlying Linked Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in the Terms and Conditions. - (1) *Adjustments:* If an Adjustment Event occurs the Calculation Agent is authorised to adjust the Terms and Conditions (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 acting in accordance with relevant market practice and in good faith, taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

- (2) *Type of Adjustment:* In the context of an Adjustment in relation to a Basket Component_i the Calculation Agent may, in particular and in accordance with paragraph (1) above, in particular, replace the relevant Basket Component_i by a Replacement Basket Component_i and if necessary redefine the Adjustable Product Data. As a "**Replacement Basket Component_i**," another index can be considered which is comparable to the original index with respect to the represented constituents, the consideration of returns and distributions of the constituents included in the Index (e.g. dividends) and, if applicable, fees and costs included in the Index.

If the Calculation Agent designates a Replacement Basket Component_i, from the Adjustment Date on (as defined in paragraph 5 below), every reference to the relevant Basket Component_i in the Terms and Conditions shall be a reference to the Replacement Basket Component_i, unless the context requires otherwise.

- (3) *New Index Sponsor and New Index Calculation Agent:* If a Basket Component_i is no longer determined by the respective Index Sponsor_i but rather by another person, company or institution (the "**New Index Sponsor**"), then all calculations or, respectively, specifications described in the Terms and Conditions shall occur on the basis of the respective Basket Component_i as determined by the respective New Index Sponsor. In this case, any reference to the replaced Index Sponsor_i in the Terms and Conditions shall be deemed to refer to the respective New Index Sponsor. If the respective Basket Component_i is no longer calculated by the respective Index Calculation Agent_i but rather by another person, company or institution (the "**New Index Calculation Agent**"), then all calculations or, respectively, specifications described in the Terms and Conditions shall occur on the basis of the respective Basket Component_i as calculated by the respective New Index Calculation Agent. In this case, any reference to the replaced Index Calculation Agent_i in the Terms and Conditions shall be deemed to refer to the respective New Index Calculation Agent.

- (4) *Replacement Specification:* If a price of a Basket Component_i published by the respective Index Sponsor_i or the respective Index Calculation Agent_i, as the case may be, pursuant to the Terms and Conditions is subsequently corrected and the correction (the "**Corrected Value**") will be published by the respective Index Sponsor_i or the Index Calculation Agent_i, as the case may be,

after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish pursuant to § 6 of the General Conditions the relevant value by using the Corrected Value (the "**Replacement Specification**").

- (5) *Notifications:* All Adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Security Holders according to § 6 of the General Conditions. What are the key risks that are specific to the Issuer?

Risks related to the Issuer's financial situation: Risk that HVB Group will not be able to meet its payment obligations on time or in full or to obtain sufficient liquidity when required as well as that liquidity will only be available at higher interest rates, and the risk that the bank will only be able to liquidate assets on the market at a discount could create liquidity problems for HVB Group and thus could result in a limited ability to fund its activities and meet its minimum liquidity requirements.

Risks related to the Issuer's specific business activities: Risks arising from the normal business activities of HVB Group, which involve credit risk in the lending business, market risk in the trading business as well as risks from other business activities such as the real estate business activities of HVB Group could have an adverse impact on HVB Group's operating

results, its assets and its financial situation.

General risks related to the Issuer's business operations: Risks from inadequate or failed internal processes, people and systems or from external events, risks caused by adverse reactions of stakeholders due to their altered perception of the bank, risks from unexpected adverse changes in the future earnings of the bank as well as risks from concentrations of risk and/or earnings positions could result in financial losses, a downgrade of HVB's rating and an increase in the business risk of the HVB Group.

Legal and regulatory risk: Changes of the regulatory and statutory environment of HVB could result in higher capital costs and a rise of costs for the implementation of regulatory requirements. In cases of non-compliance with regulatory requirements, (tax) laws, regulations, statutory provisions, agreements, mandatory practices and ethical standards, the public perception of HVB Group as well as its earnings and financial situation could be negatively affected.

Strategic and macroeconomic risk: Risks resulting from management either not recognising early enough or not correctly assessing significant developments or trends in the bank's environment and risks arising from negative economic developments in Germany and on the international financial and capital markets could have a negative effect on the assets, liabilities, financial position and profit or loss of HVB Group. In particular, the geopolitical tensions, rising protectionism, less dynamic growth in China and a slowdown in the German real estate market could lead to a more severe slowdown in the German economy. In addition, if any of the aforementioned risks materialises, turbulence could occur on financial and capital markets.

Provided that no Early Redemption Event has occurred, the Security Holder will receive an Additional Conditional Amount (m) subject to the following conditions:

- (A) On an Observation Date (m), an Additional Conditional Amount Payment Event occurs. On the respective Additional Conditional Amount Payment Date (m), the Security Holder will receive the respective Additional Conditional Amount (m) less all Additional Conditional Amounts (m) paid on the preceding Additional Conditional Amount Payment Dates (m).
- (B) On an Observation Date (m), an Additional Conditional Amount Payment Event does not occur. On the respective Additional Conditional Amount Payment Date (m), no Additional Conditional Amount (m) will be paid.
- (C) On an Observation Date (k), an Early Redemption Event occurs. Payment of the Additional Conditional Amount (m) will lapse for all following Additional Conditional Amount Payment Dates (m).

Additional Conditional Amount Payment Event means that the Worst Performance (m) on the respective Observation Date (m) is equal to or greater than the Additional Conditional Amount Payment Level (m).

With regard to the determination of an Additional Conditional Amount Payment Event, the performance of each Basket Component is formed by dividing the respective Reference Price_i on the Observation Date (m) by the respective Initial Reference Price_i. The Worst Performance (m) is the lowest value of such quotient.

Redemption of the Securities

Automatic early redemption on the Early Payment Dates (k)

The Securities will be redeemed early on the relevant Early Payment Date (k), if an Early Redemption Event occurs. In this case, the Security Holder receives the Early Redemption Amount (k) on the respective Early Payment Date (k).

An Early Redemption Event means that the Performance of all Basket Components on the respective Observation Date (k) is equal to or greater than the Early Redemption Level_i (k) allocable to the Basket Components_i.

The Performance of the Basket Components on the respective Observation Date (k) is calculated by dividing the Reference Price_i of the Basket Component_i on the respective Observation Date (k) by the Initial Reference Price_i.

Redemption as at the Final Payment Date

If the Securities are not redeemed early, the Securities will be redeemed on the Final Payment Date as follows:

- (A) A Barrier Event has not occurred. The Security Holder receives the Redemption Amount in the Specified Currency which is equal to the Maximum Amount.
- (B) A Barrier Event has occurred. The Security Holder receives the Redemption Amount in the Specified Currency which is calculated by multiplying the Calculation Amount by a quotient. The quotient is formed by dividing the Worst Performance (final) by the Strike.

If a Barrier Event has occurred, the Redemption Amount will not be greater than the Calculation Amount.

With regard to the payment of the Redemption Amount, the performance of each Basket Component is formed by dividing the respective Final Reference Price_i by the respective Initial Reference Price_i. The Worst Performance (final) will be the lowest value of such quotient.

Additional definitions and product terms

Barrier Event means that the Worst Performance (b) on the respective Barrier Observation Date is lower than the Barrier Level. With regard to the determination of a Barrier Event, the performance of each Basket Component is formed by dividing the respective Reference Price_i on the Barrier Observation Date by the respective Initial Reference Price_i. The Worst Performance (b) will be the lowest value of such quotient.

Final Reference Price_i means the Reference Price_i of the relevant Basket Component_i determined on the Final Observation Date.

Initial Reference Price_i means the Reference Price_i of the relevant Basket Component_i determined on the Initial Observation Date.

Calculation Amount means EUR 100.00.

Barrier Level	Strike	Maximum Amount	Initial Observation Date	Barrier Observation Date	Final Observation Date	Expiry Date (Data di Scadenza)	Final Payment Date
65%	65%	EUR 100.00	28 Jun 2024	16 Jun 2027	16 Jun 2027	16 Jun 2027	24 Jun 2027

Extraordinary termination right: The Issuer has the right to extraordinary terminate the Securities at the fair market value of the Securities upon the occurrence of certain Call Events (for example, an Index Replacement Event (for example the

calculation or publication of the respective Basket Component is indefinitely or permanently discontinued, or replaced by another index) has occurred and no suitable Replacement Underlying or Replacement Basket Component is available or can be determined).

Adjustment right: The Terms and Conditions of the Securities may be adjusted by the Calculation Agent if an Adjustment Event occurs (for example, a certain change to the relevant index concept of a Basket Component).

Status of the Securities: The obligations under the Securities constitute direct and unsecured obligations of the Issuer and rank *pari passu* with all other unsecured and unsubordinated obligations of the Issuer. In the case of a resolution (bail-in), the Securities will, within the liability cascade, be considered only after all non-preferred liabilities of the Issuer.

Where will the Securities be traded?

No application for the Securities to be admitted to trading on a regulated market has been made. However, application to trading will be made with effect from 24 June 2024 on the following multilateral trading facilities (MTF): SeDeX, organised and managed by Borsa Italiana S.p.A.

What are the key risks that are specific to the Securities?

The specific risk factors related to the Securities, which in the view of the Issuer are material, are described below:

Risk related to the rank and characteristic of the Securities in the case of a failure of the Issuer: The Security Holders bear the risk of the insolvency of the Issuer. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail.

Specific Risks related to the payment profile of the Securities: There is the particular risk that the price of the Basket Component with the worst performance falls during the term of the Securities and consequently the Security Holder will suffer a significant loss of his invested capital. A total loss is possible. Falling prices of the Basket Components will have a negative impact on the Security Holder, especially if a Barrier Event occurs.

Risks arising from the Terms and Conditions of the Securities: The Security Holders bear a risk of loss if the Securities are terminated by the Issuer. The Securities will then be redeemed at their fair market value of the Securities. This may be lower than the amount that the Security Holder would have received if there had been no extraordinary termination of the Securities. In addition, Security Holders bear a reinvestment risk. Moreover, the Security Holders bear a risk of loss if an adjustment of the Terms and Conditions is made or if a market disruption occurs.

Risks related to the investment in, the holding and selling of the Securities: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to purchase or to sell the Securities at a specific time or for a specific price.

Risks related to Indices as Basket Components: The Securities are associated with risks for Security Holders similar to those of direct investments in a comparable portfolio of the assets underlying the relevant Index. Changes in the value of the Index Components consequently directly affect the price of the Index.

Quali sono i principali rischi specifici dell'Emittente?

Rischi correlati alla situazione finanziaria dell'Emittente: Rischio che il Gruppo HVB non sia in grado di adempiere

tempestivamente o pienamente alle proprie obbligazioni di pagamento o che non sia in grado di ottenere sufficiente liquidità quando richiesto nonché che la liquidità sia disponibile solo ad un tasso di interesse più alto, e rischio che la banca sia soltanto in grado di liquidare attività sul mercato a sconto potrebbe creare problemi di liquidità per il Gruppo HVB e, quindi, potrebbe comportare una limitata possibilità di finanziare le proprie attività e raggiungere i propri livelli minimi di liquidità.

Rischi relativi alle specifiche attività di business dell'Emittente: Rischi derivanti dalle normali attività di business del Gruppo HVB che potrebbero comportare rischio di credito nelle operazioni di *lending*, rischio di mercato nelle attività di negoziazione così come rischi relativi ad altre attività di business quali l'attività immobiliare del Gruppo HVB potrebbero avere un impatto negativo sui risultati operativi, sugli attivi e sulla situazione finanziaria del Gruppo HVB.

Rischi generali relativi alle operazioni commerciali dell'Emittente: Rischi derivanti da inadeguati o non riusciti processi interni, persone e sistemi o da eventi esterni così come rischi causati da reazioni avverse degli investitori a causa della loro percezione alterata della banca, rischi derivanti da inattesi cambiamenti avversi negli utili futuri della banca, nonché i rischi derivanti dalle concentrazioni di posizioni di rischio e/o di ricavo, potrebbero comportare perdite finanziarie, un declassamento del rating di HVB ed un aumento del rischio di impresa del Gruppo HVB.

Rischi legali e regolamentari: Cambiamenti del contesto regolamentare o statutario di HVB potrebbero comportare costi di capitale superiori e un aumento dei costi per l'implementazione dei requisiti regolamentari. L'eventuale non conformità a requisiti regolamentari, leggi (fiscali) regolamenti, previsioni statutarie, contratti, prassi obbligatorie e standard etici, potrebbe avere un impatto negativo sulla percezione pubblica del Gruppo HVB, nonché sui suoi utili e sulla sua situazione finanziaria.

Rischio strategico e macroeconomico: Rischi derivanti dal mancato riconoscimento tempestivo o da una valutazione non corretta di sviluppi o tendenze significative nell'ambiente della banca da parte del management e rischi derivanti da sviluppi economici negativi in Germania e nei mercati internazionali finanziari e dei capitali potrebbero avere effettivi negativi su attivi, passività, posizione finanziaria e profitto o perdite del Gruppo HVB. In particolare, le tensioni geopolitiche, il crescente protezionismo, una crescita meno dinamica in Cina e un rallentamento nel mercato immobiliare tedesco potrebbero portare a un rallentamento più grave dell'economia tedesca. Inoltre, se uno qualunque dei suddetti rischi si materializzasse, potrebbe verificarsi un'instabilità sui mercati finanziari e di capitali.

(A) Ad una Data di Osservazione (m) si verifica un Evento di Pagamento dell'Importo Condizionato Aggiuntivo (m). Alla rispettiva Data di Pagamento dell'Importo Condizionato Aggiuntivo (m), il Portatore del Titolo riceverà il rispettivo Importo Condizionato Aggiuntivo (m) meno tutti gli Importi Condizionati Aggiuntivi (m) pagati alle precedenti Date di Pagamento dell'Importo Condizionato Aggiuntivo (m).

(B) Ad una Data di Osservazione (m) non si verifica un Evento di Pagamento dell'Importo Condizionato Aggiuntivo (m). Alla rispettiva Data di Pagamento dell'Importo Condizionato Aggiuntivo (m) non verrà pagato alcun Importo Condizionato Aggiuntivo (m).

(C) Ad una Data di Osservazione (k), si verifica un Evento di Rimborso Anticipato. Il Pagamento dell'Importo Condizionato Aggiuntivo (m) cesserà per tutte le seguenti Date di Pagamento dell'Importo Condizionato Aggiuntivo (m).

Evento di Pagamento dell'Importo Condizionato Aggiuntivo (m) indica che la Performance Peggiora (m) alla rispettiva Data di Osservazione (m) è pari o superiore al Livello di Pagamento dell'Importo Condizionato Aggiuntivo (m).

Per quanto riguarda la determinazione di un Evento di Pagamento dell'Importo Condizionato Aggiuntivo, la performance di ciascun Componente del Paniere è data dividendo il rispettivo Prezzo di Riferimento_i alla Data di Osservazione (m) per il rispettivo Prezzo di Riferimento Iniziale_i. La Performance Peggiora (m) è il valore più basso di tale quoziente.

Rimborso anticipato automatico alle Date di Pagamento Anticipato (k)

Un Evento di Rimborso Anticipato indica che la Performance di tutti i Componenti del Paniere alla rispettiva Data di Osservazione (k) è uguale o superiore al Livello di Rimborso Anticipato_i (k) attribuibile ai Componenti del Paniere_i.

La Performance dei Componenti del Paniere alla rispettiva Data di Osservazione (k) è calcolata dividendo il Prezzo di Riferimento_i del Componente del Paniere_i alla rispettiva Data di Osservazione (k) per il Prezzo di Riferimento Iniziale_i.

Rimborso alla Data di Pagamento Finale

Se i Titoli non sono rimborsati anticipatamente, i Titoli saranno rimborsati alla Data di Pagamento Finale come segue:

- (A) Non si è verificato un Evento Barriera. Il Portatore del Titolo riceve l'Importo di Rimborso nella Valuta di Emissione che è uguale all'Importo Massimo.
- (B) Si è verificato un Evento Barriera. Il Portatore del Titolo riceve l'Importo di Rimborso nella Valuta di Emissione che è calcolato moltiplicando la Base di Calcolo per un quoziente. Il quoziente è calcolato dividendo la Performance Peggiora (finale) per lo Strike.

Se si è verificato un Evento Barriera, l'Importo di Rimborso non sarà superiore alla Base di Calcolo.

Per quanto riguarda il pagamento dell'Importo di Rimborso, la performance di ciascun Componente del Paniere è data dividendo il rispettivo Prezzo di Riferimento Finale_i per il rispettivo Prezzo di Riferimento Iniziale_i. La Performance Peggiora (finale) sarà il valore più basso di tale quoziente.

Definizioni aggiuntive e termini del prodotto

Evento Barriera indica che la Performance Peggiora (b) alla rispettiva Data di Osservazione della Barriera è inferiore al Livello Barriera.

Per quanto riguarda la determinazione di un Evento Barriera, la performance di ciascun Componente del Paniere è data dividendo il rispettivo Prezzo di Riferimento_i alla Data di Osservazione Barriera per il rispettivo Prezzo di Riferimento Iniziale_i. La Performance Peggiora (b) sarà il valore più basso di tale quoziente.

Prezzo di Riferimento Finale_i indica il Prezzo di Riferimento_i del Componente del Paniere_i rilevante determinato alla Data di Osservazione Finale.

Base di Calcolo indica EUR 100.

Prezzo di Riferimento Iniziale_i indica il Prezzo di Riferimento_i del Componente del Paniere_i rilevante determinato alla Data di Osservazione Iniziale.

Livello Barriera	Strike	Importo Massimo	Data di Osservazione Iniziale	Data di Osservazione Barriera	Data di Osservazione Finale	Data di Scadenza (Expiry Date)	Data di Pagamento Finale

Diritto di riscatto straordinario: L'Emittente ha il diritto di estinguere in via straordinaria i Titoli ad un valore equo di mercato al verificarsi di certi Eventi di Call (*Call Events*) (ad esempio, si è verificato un Evento di Sostituzione dell'Indice (ad esempio, il calcolo o la pubblicazione del rispettivo Componente del Paniere sono interrotti in modo indefinito o permanente, o sostituiti da un altro indice) e non sono disponibili o non possono essere determinati alcun Sottostante Sostitutivo o Componente del Paniere Sostitutivo adeguati).

Diritto di rettifica: I Termini e Condizioni (*Terms and Conditions*) dei Titoli possono essere rettificati dall'Agente di Calcolo (*Calculation Agent*) nel caso in cui si verifichi un Evento di Rettifica (*Adjustment Event*) (ad esempio, un certo cambiamento del relativo concetto dell'indice di un Componente del Paniere).

Stato dei Titoli: Gli obblighi derivanti dai Titoli costituiscono obbligazioni dirette e non garantite dell'Emittente e sono parimenti ordinate con le altre obbligazioni non garantite e non subordinate dell'Emittente. In caso di risoluzione (*bail-in*), nell'ambito dell'ordine delle passività i Titoli saranno presi in considerazione soltanto dopo tutte le passività chirografarie di secondo livello (*non-preferred*) dell'Emittente.

Dove saranno negoziati i Titoli?

Non è stata presentata domanda per l'ammissione alla negoziazione dei Titoli su un mercato regolamentato. Peraltro, sarà presentata domanda per l'ammissione dei Titoli alla negoziazione con efficacia a partire dal 24/06/2024 sui seguenti sistemi multilaterali di negoziazione (MTF): SeDeX, organizzato e gestito da Borsa Italiana S.p.A.

Quali sono i principali rischi specifici dei Titoli?

I fattori di rischio specifici relativi ai Titoli, che nell'opinione dell'Emittente sono significativi, sono descritti di seguito:

Rischio connesso a rango e caratteristiche dei Titoli in caso di fallimento dell'Emittente: I Portatori dei Titoli sono esposti al rischio di fallimento dell'Emittente. In aggiunta, i Portatori dei Titoli possono essere soggetti a misure di risoluzione in relazione all'Emittente se l'Emittente sta fallendo od è probabile che fallisca.

Rischi specifici connessi al profilo di pagamento dei Titoli: Vi è il particolare rischio che il prezzo del Componente del Paniere con la peggiore performance diminuisca durante la vita dei Titoli e, di conseguenza, che il Portatore del Titolo subisca una perdita significativa del capitale investito. E' possibile una perdita totale. La diminuzione dei prezzi dei Componenti del Paniere avrà un impatto negativo sul Portatore del Titolo, specialmente se si verifica un Evento Barriera.

Rischi derivanti dai Termini e Condizioni dei Titoli: I Portatori dei Titoli sono esposti ad un rischio di perdita nel caso in cui i Titoli siano estinti dall'Emittente. I Titoli saranno poi rimborsati al valore equo di mercato dei Titoli. Questo può essere inferiore rispetto all'importo che il Portatore del Titolo avrebbe ricevuto se non ci fosse stato un riscatto straordinario dei Titoli. In aggiunta, i Portatori dei Titoli sono esposti al rischio di reinvestimento. Inoltre, i Portatori dei Titoli sono esposti ad un rischio di perdita se viene effettuata una rettifica dei Termini e Condizioni o se si verifica una turbativa del mercato.

Rischi connessi all'investimento, alla detenzione e vendita dei Titoli: I Portatori dei Titoli sono esposti al rischio che il prezzo di mercato dei Titoli può essere soggetto a forti variazioni nel corso della durata dei Titoli e che il Portatore del Titolo non sia in grado di acquistare o vendere i Titoli in un momento specifico o ad un prezzo specifico.

Rischi connessi agli Indici come Componente del Paniere: I Titoli sono associati a rischi per i Portatori dei Titoli simili a quelli relativi ad investimenti diretti in un portafoglio comparabile delle attività sottostanti il relativo Indice. Conseguentemente, le variazioni di valore delle Componenti dell'Indice influenzano direttamente il prezzo dell'Indice.
