- (a) the name and the address of the Security Holder, with sufficiently conclusive proof of ownership to the Principal Paying Agent that such Security Holder at the time of such notice is a holder of the respective Securities;
- (b) the security identification number and the number of Securities in relation to which the Redemption Right shall be exercised;
- (c) the cash account held by a bank to which the Redemption Amount is to be transferred.

If the number of Securities stated in the Redemption Notice deviates from the number of Securities transferred to the Principal Paying Agent, the Redemption Notice shall be deemed to have been submitted for the number of Securities corresponding to the smaller of the two numbers. Any remaining Securities are transferred back to the Security Holder at the latter's expense and risk.

No Redemption Right so exercised may be revoked or withdrawn.

- (2) *Issuer's Regular Call Right:* The Issuer may at each Banking Day starting on the First Call Date (each such date a "**Call Date**") call the Securities completely but not partially (the "**Regular Call Right**") and redeem them pursuant to § 4 (1) of the Special Conditions.

The Issuer shall give notice of such call at least seven (7) Banking Days prior to the relevant Call Date pursuant to § 6 of the General Conditions. Such notice shall be irrevocable and shall specify the relevant Call Date.

The Redemption Right of the Security Holders remains unaffected until the last Redemption Date immediately preceding the Call Date.

- (3) *Issuer's extraordinary call right:* Upon the occurrence of a Call Event the Issuer may call the Securities extraordinarily by giving notice pursuant to § 6 of the General Conditions and redeem the Securities at their Cancellation Amount. Such call shall become effective at the time indicated in the notice.

The "**Cancellation Amount**" shall be the fair market value of the Securities as of the first Banking Day before the extraordinary call becomes effective, determined by the Calculation Agent acting in accordance with relevant market practice and in good faith under then prevailing circumstances.

The determination of the fair market value is based on the economic equivalent of the Issuer's payment obligations to the Security Holders consistent with the provisions for the redemption profile, interest or other additional amounts of the Securities that would otherwise be due after the day on which the extraordinary call becomes effective and which is adjusted for taking into consideration the following parameters as of the first Banking Day before the extraordinary call becomes effective: the price of the Underlying, the remaining time to maturity, the estimated volatility, the expected dividends (if applicable), the current market interest rate as well as the interest spread associated with the credit default risk of the Issuer and any other relevant market parameter that can influence the value of the Securities.

The Cancellation Amount will be paid within five Banking Days following the date as of which the extraordinary call becomes effective, or at the date specified in the above mentioned notice, as the case may be, pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards.
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the legal interest rate ('*Saggio degli Interessi legali*'), pursuant to Section 1284 CC, without prejudice to any other mandatory provisions under Italian law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on an Observation Date, the respective Observation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Observation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days, the Calculation Agent shall determine acting in accordance with relevant market practice and in good faith the respective Reference Price required for the calculations or, respectively, specifications described in these Terms and Conditions. Such Reference Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Milan local time) on this 9th Banking Day, taking into account the financial position of the Security Holders.

If within these 8 Banking Days traded Underlying Linked Derivatives expire and are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Underlying Linked Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in these Terms and Conditions. In that case, the expiration date for those Underlying Linked Derivatives is the respective Observation Date.

§ 8

Adjustments, Type of Adjustment, New Index Sponsor and New Index Calculation Agent, Replacement Specification, Notifications

- (1) *Adjustments:* If an Adjustment Event occurs the Calculation Agent is authorised to adjust these Terms and Conditions (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 acting in accordance with relevant market practice and in good faith, taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

- (2) *Type of Adjustment:* In the context of an Adjustment the Calculation Agent may undertake in particular the following measure in accordance with paragraph (1) above:

Replacement of the Underlying: In the case of an Index Replacement Event, the Calculation Agent may replace the Underlying with a Replacement Underlying and if necessary redefine the Adjustable Product Data. As a "**Replacement Underlying**" another index can be considered which is comparable to the original index with respect to the represented constituents, the consideration of returns and distributions of the constituents included in the index (e.g. dividends) and, if applicable, fees and costs included in the index. If the Calculation Agent designates a Replacement Underlying, from the Adjustment Date on (as defined in paragraph (5) below, every reference to Underlying in these Terms and Conditions shall be a reference to the Replacement Underlying, unless the context requires otherwise.

- (3) *New Index Sponsor and New Index Calculation Agent:* If the Underlying is no longer determined by the Index Sponsor but rather by another person, company or institution (the "**New Index Sponsor**"), then all calculations or, respectively, specifications described in these Terms and Conditions shall occur on the basis of the Underlying as determined by the New Index Sponsor. In this case, any reference to the replaced Index Sponsor in these Terms and Conditions shall be deemed to refer to the New Index Sponsor.

If the Underlying is no longer calculated by the Index Calculation Agent but rather by another person, company or institution (the "**New Index Calculation Agent**"), then all calculations or, respectively, specifications described in these Terms and Conditions shall occur on the basis of the Underlying as calculated by the New Index Calculation Agent. In this case, any reference to the replaced Index Calculation Agent in the Terms and Conditions shall be deemed to refer to the New Index Calculation Agent.

- (4) *Replacement Specification:* If a published price of the Underlying as required pursuant to these Terms and Conditions is subsequently corrected and the correction (the "**Corrected Value**") will be published by the Index Sponsor or Index Calculation Agent, as the case may be, after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish pursuant to § 6 of the General Conditions the relevant value by using the Corrected Value (the "**Replacement Specification**").

- (5) *Notifications:* All Adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Security Holders according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.

§ 9

Reverse Split

- (1) *Reverse Split Right:* Upon the occurrence of a Reverse Split Event, the Issuer shall have the right but not an obligation to convert the Securities into New Securities at the Reverse Split Conversion Factor. The Reverse Split Right will be exercised by issuing a respective Reverse Split Notice. The Reverse Split Notice shall give reasonable details about the Reverse Split Event as well as the determination of the Reverse Split Conversion Factor and shall specify the Reverse Split Effective Date, which shall be a date not later than the Reverse Split End Date.

- (2) *Conversion and delivery:* By not later than the Reverse Split Payment Date, the Issuer shall deliver to each Security Holder New Securities in an aggregate number equal to each Holder's Reverse Split Delivery Amount for credit to the account of the relevant depository bank of such Securities Holder against debit of all Securities held by such Securities Holder in such account. No fractions of New Securities will be delivered. Instead, the Issuer will pay by not later than the Reverse Split Payment Date the Reverse Split Supplemental Cash Amounts (if any) if the Reverse Split Conversion Factor leads to a number of Securities held by a Security Holder which cannot be converted into the New Securities in full.

All costs, incl. possible custody fees, exchange turnover taxes, stamp taxes, transaction fees, other taxes or levies, incurred as a result of the delivery of the New Securities, shall be borne by the respective Security Holder.

- (3) *Definitions:* With respect to the Reverse Split Right, the following defined terms apply:

"**New Securities**" means newly issued securities of the Issuer having identical terms as the Securities safe for the value of the Ratio which will be adjusted by reference to the Reverse Split Conversion Factor.

"**Reverse Split Conversion Factor**" means an appropriate aggregation factor for the Securities to be replaced by New Securities with a lower aggregate number of individual securities in order to reduce the negative effects of the Reverse Split Event, as determined by the Calculation Agent acting in accordance

with relevant market practice and in good faith and taking into account the interest of the Security Holders, always provided that the economic profile of the Securities compared to the New Securities remains unchanged. Such factor shall, however, not be more than 10.000.

"Reverse Split Delivery Amount" means, with respect to a Security Holder, (i) the number of Securities hold by such Securities Holder in its custody account with the relevant depository bank (ii) divided by the Reverse Split Conversion Factor, expressed as the nearest lower whole integer.

"Reverse Split Effective Date" means the date specified in the Reverse Split Notice.

"Reverse Split End Date" means 7 calendar days following the date on which a Reverse Split Notice has been given.

"Reverse Split Event" means, at any time, that as a result of the leverage under the Securities, the market price of the Securities reaches a level below EUR 1 in the Specified Currency and that the secondary market trading may be negatively affected; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

"Reverse Split Notice" means the notice given by the Issuer pursuant to § 6 of the General Condition about the exercise of the Reverse Split Right pursuant to this § 9.

"Reverse Split Payment Date" means a day not later than 5 Banking Days after the Reverse Split Effective Date.

"Reverse Split Supplemental Cash Amount" means a cash amount expressed in the Specified Currency equal to the sum of the fair market values of such Securities hold by a Security Holder which cannot be converted in full into the New Securities at the Reverse Split Conversion Factor. The market value of the Securities will be determined as of the Reverse Split Effective Date by the Calculation Agent acting in accordance with relevant market practice and in good faith.

The items marked with "" have been extracted from the audited combined management report of UniCredit Bank GmbH for the financial year from 1 January 2024 to 31 December 2024.

What are the key risks that are specific to the Issuer?

Risks related to the Issuer’s financial situation: Risk that HVB Group will not be able to meet its payment obligations on time or in full or to obtain sufficient liquidity when required as well as that liquidity will only be available at higher interest rates, and the risk that the bank will only be able to liquidate assets on the market at a discount could create liquidity problems for HVB Group and thus could result in a limited ability to fund its activities and meet its minimum liquidity requirements.

Risks related to the Issuer’s specific business activities: Risks arising from the normal business activities of HVB Group, which involve credit risk in the lending business, market risk in the trading business as well as risks from other business activities such as the real estate business activities of HVB Group could have an adverse impact on HVB Group’s operating results, its assets and its financial situation.

General risks related to the Issuer’s business operations: Risks from inadequate or failed internal processes, people and systems or from external events, risks caused by adverse reactions of stakeholders due to their altered perception of the bank, risks from unexpected adverse changes in the future earnings of the bank as well as risks from concentrations of risk and/or earnings positions could result in financial losses, a downgrade of HVB’s rating and an increase in the business risk of the HVB Group.

Legal and regulatory risk: Changes of the regulatory and statutory environment of HVB could result in higher capital costs and a rise of costs for the implementation of regulatory requirements. In cases of non-compliance with regulatory requirements, (tax) laws, regulations, statutory provisions, agreements, mandatory practices and ethical standards, the public perception of HVB Group as well as its earnings and financial situation could be negatively affected.

Strategic and macroeconomic risk: Risks resulting from management either not recognising early enough or not correctly assessing significant developments or trends in the bank’s environment and risks arising from negative economic developments in Germany and on the international financial and capital markets could have a negative effect on the assets, liabilities, financial position and profit or loss of HVB Group. In particular, the geopolitical tensions, rising protectionism in the form of higher tariffs, less dynamic growth in China and a slower than expected recovery in the German real estate market can be major downside risks to the German economy. In addition, if any of the aforementioned risks materialises, turbulence could occur on financial and capital markets.

Underlying: Italia Leva 7 Long (ISIN: NL0010661898 / Reference Price: Closing price)
Reference Underlying: FTSE MIB Index (Reuters: .FTMIB)

The Securities are governed by Italian law. The Securities are debt instruments in dematerialized registered form pursuant to the Italian Consolidated Law on Financial Intermediation (*Testo Unico della Finanza*). The Securities will be represented by book entry and registered in the books of the Clearing System. Issuance and Term

The Securities will be issued on 9 September 2025 in Euro (EUR) (the "Specified Currency") as up to 5,000,000 Certificates. The Securities have an indefinite term.

General

The Underlying is an Index, which tracks the performance of the Reference Underlying with a constant Leverage Factor. Due to the Leverage Factor, the Security Holder participates in rising prices of the Reference Underlying as well as in falling prices of the Reference Underlying disproportionately (leveraged). The market value of the Securities regularly falls, if the value of the Reference Underlying falls, and regularly rises, if the value of the Reference Underlying rises (long).

Interest

The Securities do not bear interest.

Redemption

The Securities can be redeemed on any Redemption Date upon the exercise of the Redemption Right by the Security Holder. The Securities can also be redeemed in whole on any Call Date upon the exercise of the Regular Call Right by the Issuer.

On the Redemption Date or the Call Date, as applicable, the Security Holder receives the Redemption Amount.

The Redemption Amount is calculated by multiplying the Relevant Reference Price by the Ratio. However, the Redemption Amount will not be lower than EUR 0.00.

Additional definitions and product terms

Call Date means each Banking Day starting on 31 March 2026.

Observation Date means the fifth Banking Day prior to each Redemption Date and each Call Date.

Relevant Reference Price means the Reference Price on the respective Observation Date.

Gap Risk Fee in % (maximum):	2.6% (8%)

Ratio (initial):	0.0005

* Values as of 8 September 2025. The Calculation Agent may change the relevant fee at any time subject to the maximum value indicated in brackets.

Extraordinary termination right: Upon the occurrence of one or more call events (for example, an Index Replacement Event (for example the calculation or publication of the Underlying is indefinitely or permanently discontinued) has occurred and no suitable Replacement Underlying is available or can be determined) (the "**Call Event**"), the Issuer may call the Securities extraordinarily and redeem the Securities at their Cancellation Amount. The "**Cancellation Amount**" is their fair market value.

Adjustments to the Terms and Conditions: The Calculation Agent may adjust the Terms and Conditions of the Securities if an adjustment event (for example, a certain change to the relevant index concept) (the "**Adjustment Event**") occurs.

Reverse Split Right: Upon the occurrence of a Reverse Split Event, the Issuer may convert the Securities into New Securities at the Reverse Split Conversion Factor.

Status of the Securities: The Securities constitute direct, unconditional and unsecured obligations of the Issuer. The Securities rank *pari passu* with all other unsecured and unsubordinated present and future obligations of the Issuer. Exception: obligations which have a preference or subordination under the law.

Where will the Securities be traded?

Admission to trading: No application for the Securities to be admitted to trading on a regulated market has been made.

Listing: Application to trading will be made with effect from 10 September 2025 on the following multilateral trading facilities (MTF): SeDeX managed by Borsa Italiana S.p.A. ("**SeDeX**")

UniCredit Bank GmbH (the "**Market Maker**") undertakes to provide liquidity in accordance with the market making rules of SeDeX, where the Securities are expected to be traded.

What are the key risks that are specific to the Securities?

Credit risk of the Issuer and risks in relation to resolution measures in relation to the Issuer: The Securities constitute unsecured obligations of the Issuer vis-a-vis the Security Holders. Any person who purchases the Securities therefore relies on the creditworthiness of the Issuer and has, in relation to his/her position under the Securities, no rights or claims against any other person. Security Holders are subject to the risk of a partial or total failure of the Issuer to fulfil obligations which the Issuer is liable to perform under the Securities in whole or in part, for example, in the event of the Issuer's insolvency. The worse the creditworthiness of the Issuer is the higher is the risk of a loss. In the case of realization of the credit risk of the Issuer the Security Holder may sustain a total loss of his/her capital, even if the Securities provide for a Minimum Amount at their maturity. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail. The obligations of the Issuer under the Securities are not secured, guaranteed by third parties or protected by any deposit protection or compensation scheme.

Risks related to market value-influencing factors: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to sell the Securities at a specific time or for a specific price. The market value of the Securities will be affected by a number of factors. These are inter alia the creditworthiness of the Issuer, the relevant prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability and, if applicable, the remaining term of the Securities as well as additional Underlying-related market value-influencing factors. The market value of the Securities as well as the amounts distributable under the Securities primarily depend on the price of the Underlying.

Risks related to the Redemption Amount: The Redemption Amount may be less than the Issue Price or the purchase price or even be zero. This means, the Security Holder only achieves a return if the Redemption Amount exceeds the individual purchase price of the Security Holder. Due to the Leverage Factor comprised in the Underlying, there is even an increased risk of total loss compared to a direct investment in the Reference Underlying. **A total loss is possible.**

Risks arising from missing ongoing payments: The Securities do not bear interest or grant any other conditional or unconditional rights for ongoing payments which could compensate possible losses of principal.

Risks related to the regulation of benchmarks: The Securities make reference to a Benchmark (the "**Benchmark**") within the meaning of Regulation (EU) 2016/1011 (the "**Benchmark Regulation**") and therefore there is a risk that the Benchmark may not be used as reference value of the Securities from a certain point in time. In such event, the Securities could be de-listed, adjusted, converted or otherwise impacted. Any changes to a Benchmark as a

result of the Benchmark Regulation could have a material adverse effect on the costs of refinancing a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with the Benchmark Regulation. Potential investors should be aware that they face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value of and the amount payable under the Securities.

Risks related to indices: The performance of Securities linked to indices depends on the performance of the respective index. Changes in the price of the components of the index and changes to the composition of the index or other factors may have an adverse effect on the performance of the index. There is a risk that the index may not be used as reference value of the Securities from a certain point in time. In such event, the Securities could be de-listed, adjusted, redeemed prior to maturity or otherwise impacted.

Risks related to potential conflicts of interests: Conflicts of interest in relation to the relevant Issuer or the persons entrusted with the offer may arise, which may result in a decision to the Security Holder’s disadvantage.

Quali sono i principali rischi specifici dell'Emittente?

Rischi correlati alla situazione finanziaria dell'Emittente: Rischio che il Gruppo HVB non sia in grado di adempiere tempestivamente o pienamente alle proprie obbligazioni di pagamento o che non sia in grado di ottenere sufficiente liquidità quando richiesto nonché che la liquidità sia disponibile solo ad un tasso di interesse più alto, e rischio che la banca sia soltanto in grado di liquidare attività sul mercato a sconto potrebbe creare problemi di liquidità per il Gruppo HVB e, quindi, potrebbe comportare una limitata possibilità di finanziare le proprie attività e raggiungere i propri livelli minimi di liquidità.

Rischi relativi alle specifiche attività di business dell'Emittente: Rischi derivanti dalle normali attività di business del Gruppo HVB che potrebbero comportare rischio di credito nelle operazioni di *lending*, rischio di mercato nelle attività di negoziazione così come rischi relativi ad altre attività di business quali l'attività immobiliare del Gruppo HVB potrebbero avere un impatto negativo sui risultati operativi, sugli attivi e sulla situazione finanziaria del Gruppo HVB.

Rischi generali relativi alle operazioni commerciali dell'Emittente: Rischi derivanti da inadeguati o non riusciti processi interni, persone e sistemi o da eventi esterni così come rischi causati da reazioni avverse degli investitori a causa della loro percezione alterata della banca, rischi derivanti da inattesi cambiamenti avversi negli utili futuri della banca, nonché i rischi derivanti dalle concentrazioni di posizioni di rischio e/o di ricavo, potrebbero comportare perdite finanziarie, un declassamento del rating di HVB ed un aumento del rischio di impresa del Gruppo HVB.

Rischi legali e regolamentari: Cambiamenti del contesto regolamentare o statuario di HVB potrebbero comportare costi di capitale superiori e un aumento dei costi per l'implementazione dei requisiti regolamentari. L'eventuale non conformità a requisiti regolamentari, leggi (fiscali) regolamenti, previsioni statutarie, contratti, prassi obbligatorie e standard etici, potrebbe avere un impatto negativo sulla percezione pubblica del Gruppo HVB, nonché sui suoi utili e sulla sua situazione finanziaria.

Rischio strategico e macroeconomico: Rischi derivanti dal mancato riconoscimento tempestivo o da una valutazione non corretta di sviluppi o tendenze significative nell'ambiente della banca da parte del management e rischi derivanti da sviluppi economici negativi in Germania e nei mercati internazionali finanziari e dei capitali potrebbero avere effettivi negativi su attivi, passività, posizione finanziaria e profitto o perdite del Gruppo HVB. In particolare, le tensioni geopolitiche, il crescente protezionismo sottoforma di tariffe più alte, una crescita meno dinamica in Cina e una ripresa più lenta del previsto nel mercato immobiliare tedesco possono rappresentare significativi rischi negativi per l'economia tedesca. Inoltre, se uno qualunque dei suddetti rischi si materializzasse, potrebbe verificarsi un'instabilità sui mercati finanziari e di capitali.

Sezione 3 – Informazioni fondamentali sui Titoli

Quali sono le principali caratteristiche dei Titoli?

Generale

Il Sottostante è un Indice che tiene traccia delle prestazioni del Sottostante di Riferimento con un Fattore Leva costante. A causa del Fattore Leva, il Portatore del Titolo partecipa all'aumento del prezzo del Sottostante di Riferimento nonché alla diminuzione del prezzo del Sottostante di Riferimento in modo non proporzionale (leva). Il valore di mercato dei Titoli diminuisce regolarmente se il valore del Sottostante di Riferimento diminuisce e il valore di mercato dei Titoli cresce regolarmente se il valore del Sottostante di Riferimento cresce (long).

Interessi

I Titoli non maturano interessi.

Rimborso

I Titoli possono essere rimborsati ad una qualsiasi Data di Rimborso a seguito dell'esercizio del Diritto di Rimborso da parte del Portatore del Titolo. I Titoli possono essere altresì rimborsati integralmente ad una qualsiasi Data di Riscatto a seguito dell'esercizio del Diritto di Riscatto Regolare da parte dell'Emittente.

Alla Data di Rimborso o alla Data di Riscatto, a seconda dei casi, il Portatore del Titolo riceve l'Importo di Rimborso. L'Importo di Rimborso è calcolato moltiplicando il Prezzo di Riferimento Rilevante per il Coefficiente. Peraltro, l'Importo di Rimborso non sarà inferiore a EUR 0,00.

* Valori al 08/09/2025. L'Agente di Calcolo può cambiare la relativa commissione in qualsiasi momento fermo restando il valore massimo indicato tra parentesi.

Diritto di riscatto straordinario: Al ricorrere di uno o più eventi di riscatto (ad esempio, un Evento di Sostituzione dell'Indice (ad esempio il calcolo o la pubblicazione del Sottostante sono interrotti in modo indefinito o permanente) si è verificato e non è disponibile o può essere determinato alcun Sottostante Sostitutivo adeguato) (l'"Evento di Riscatto") l'Emittente può riscattare in via straordinaria i Titoli e rimborsare i Titoli al loro Importo di Riscatto. L'"Importo di Riscatto" è il valore equo di mercato di questi ultimi.

Rettifiche dei Termini e delle Condizioni dei Titoli: L'Agente di Calcolo potrà rettificare i Termini e le Condizioni dei Titoli qualora si verifichi un evento di rettifica (ad esempio, un certo cambiamento del relativo concetto dell'indice) (l'"Evento di Rettifica").

Diritto di Reverse Split: Al verificarsi di un Evento di Reverse Split, l'Emittente può convertire i Titoli in Nuovi Titoli al Fattore di Conversione Reverse Split.

Stato dei Titoli: I Titoli costituiscono obbligazioni dirette, incondizionate e non garantite dell'Emittente. I Titoli sono parimenti ordinati (*pari passu*) con tutte le altre obbligazioni non garantite e non subordinate presenti e future dell'Emittente. Eccezione: obbligazioni che hanno un privilegio o una subordinazione ai sensi di legge.

Dove saranno negoziati i Titoli?

Ammissione alla negoziazione: Non è stata presentata l'istanza per l'ammissione a negoziazione dei Titoli presso un mercato regolamentato.

Quotazione: Sarà presentata istanza per l'ammissione a quotazione dei Titoli con efficacia dal 10/09/2025, presso i seguenti sistemi multilaterali di negoziazione (MTF): SeDeX gestito da Borsa Italiana S.p.A. ("SeDeX")

UniCredit Bank GmbH (il "**Market Maker**") si impegna a fornire liquidità in conformità alle norme sul *market making* di SeDeX, dove ci si attende che i Titoli saranno negoziati.

Quali sono i principali rischi specifici dei Titoli?

Rischio di Credito dell'Emittente e rischi relativi alle misure di risoluzione che riguardano l'Emittente: I Titoli costituiscono obbligazioni non garantite dell'Emittente nei confronti dei Titolari. Pertanto, chiunque li acquisti è soggetto al merito creditizio dell'Emittente e non ha, in relazione alla propria posizione nell'ambito dei Titoli, alcun diritto o pretesa nei confronti di qualsiasi altra persona. I Titolari sono sottoposti al rischio di una parziale o totale inadempienza dell'Emittente per gli obblighi che il medesimo è tenuto ad adempiere in tutto o in parte ai sensi dei Titoli, ad esempio in caso di insolvenza. Peggiora la solvibilità dell'Emittente, maggiore è il rischio di perdita. Qualora il rischio di credito dell'Emittente si realizzi, il Titolare può subire una perdita totale del proprio capitale, anche se i Titoli prevedono un Importo Minimo alla loro scadenza. Inoltre, i Titolari possono essere soggetti a misure di risoluzione nei confronti dell'Emittente qualora il medesimo è in fallimento o a rischio di fallimento. Gli obblighi dell'Emittente ai sensi dei Titoli non sono garantiti, garantiti da terzi o protetti da un sistema di protezione dei depositi o di compensazione.

Rischi correlati a fattori che influenzano il valore di mercato: I Portatori dei Titoli sono esposti al rischio di forti fluttuazioni del prezzo di mercato dei Titoli nel corso della loro durata nonché al rischio di non poter vendere i Titoli in un determinato momento o ad un determinato prezzo. Il valore di mercato dei Titoli sarà condizionato da una serie di fattori. Questi sono, inter alia, il merito creditizio dell'Emittente, i relativi tassi di interesse e di rendimento prevalenti, il mercato per titoli simili, le condizioni economiche generali, politiche e cicliche, la negoziabilità e, se del caso, la durata residua dei Titoli nonché ulteriori fattori relativi al Sottostante che influenzano il valore di mercato. Tanto il valore di mercato quanto gli importi pagabili ai sensi dei Titoli dipendono principalmente dal prezzo del Sottostante.

Rischi correlati all'Importo di Rimborso: L'Importo di Rimborso potrebbe essere inferiore al Prezzo di Emissione o al Prezzo di Acquisto o anche zero. Ciò significa che il Titolare otterrà un rendimento solo se l'Importo di Rimborso sarà superiore allo specifico prezzo di acquisto pagato dal Titolare. A causa del Fattore Leva, compreso nel Sottostante, il rischio della perdita totale è anche maggiore rispetto ad un investimento diretto nel Sottostante di Riferimento. **Una perdita totale è possibile.**

Rischi derivanti dal mancato pagamento di importi nel corso della durata dei Titoli: I Titoli non sono soggetti a interessi e non garantiscono diritti - condizionati o non condizionati - per il pagamento degli importi nel corso della durata dei Titoli che possano compensare eventuali perdite di capitale.

Rischi legati alla disciplina degli indici di riferimento: I Titoli fanno riferimento a un Indice di Riferimento (*Benchmark*) (l'"Indice di Riferimento") come definito ai sensi del Regolamento (UE) 2016/1011 (il "**Regolamento Benchmark**") e pertanto sussiste il rischio che, a partire da una determinata data, l'Indice di Riferimento non possa più essere utilizzato come parametro di riferimento dei Titoli. In tal caso, i Titoli potrebbero essere rimossi dalla quotazione, rettificati, convertiti o comunque influenzati. Qualsiasi modifica ad un Indice di Riferimento derivante dal Regolamento Benchmark potrebbe determinare un sostanziale effetto negativo sui costi di rifinanziamento di un Indice di Riferimento o sui costi e rischi di amministrazione o comunque di partecipazione alla definizione di un Indice di Riferimento e di adempimento del Regolamento Benchmark. I potenziali investitori dovrebbero considerare il rischio che eventuali modifiche al relativo Indice di Riferimento potrebbero avere un sostanziale effetto negativo sul valore e sugli importi dovuti ai sensi dei Titoli.

Rischi legati agli indici: La performance dei Titoli legati ad indici è correlata alla performance dei rispettivi indici. Variazioni nel prezzo dei componenti dell'indice e variazioni nella composizione dell'indice, o altri fattori, possono incidere negativamente sulla performance dell'indice. Sussiste il rischio che, a partire da una determinata data, l'indice non possa più essere utilizzato come parametro di riferimento dei Titoli. In tal caso, i Titoli potrebbero essere rimossi dalla quotazione, rettificati, rimborsati prima della scadenza o comunque influenzati.

Rischi legati a potenziali conflitti di interesse: Possono insorgere conflitti di interesse relativi all'Emittente o ai soggetti incaricati dell'offerta che possono determinare decisioni svantaggiose per i Titolari dei Titoli.
