## What are the key risks that are specific to the Issuer?

Potential investors should be aware that in the case of the occurrence of one of the below mentioned risk factors the Securities may decline in value and that they may sustain a total loss of their investment.

The following risks are key risks specific to the Issuer:

**Risks connected with the Strategic Plan 2020 – 2023:** On December 3<sup>rd</sup> 2019, following the completion of the 2016-2019 Strategic Plan, UniCredit presented to the capital markets in London the new 2020-2023 Strategic Plan called "Team 23" (the "**Strategic Plan**" or "**Plan**" or "**Team 23**"). The Strategic Plan contains a number of strategic, capital and financial objectives (collectively, the "**Strategic Objectives**") based on four pillars. Specifically: (i) growth and strengthen client franchise; (ii) transform and maximise productivity; (iii) disciplined risk management & controls; (iv) capital and balance sheet management. UniCredit ability to meet the new Strategic Objectives depends on a number of assumptions and circumstances, some of which are outside UniCredit's control including those relating to developments in the macroeconomic and political environments in which our Group operates, developments in applicable laws and regulations and assumptions related to the effects of specific actions or future events which we can partially forecast/ manage. For all of these reasons, investors are cautioned against making their investment decisions based exclusively on the forecast data included in the Strategic Objectives. Any failure to implement the Strategic Objectives or meet the Strategic Objectives may have a material adverse effect on UniCredit's business, financial condition or results of operations. Furthermore it should be noted that, as disclosed to the Market in the context of Strategic Plan - Team 23 presentation, the capital distribution in the new plan is based on the concept of underlying net profit. Underlying net profit adjusts stated net profit for certain non-operating items to better demonstrate the recurring, sustainable profit base of the bank. Such adjustments include: (i) sale of non-strategic assets and selected real estate properties; (ii) non-operating non-recurring charges including, but not limited to, integration costs and extraordinary IT write-offs; (iii) non-operating items in loan loss provisions, for example the updated rundown strategy for Non Core and the regulatory headwinds.

**Credit risk and risk of credit quality deterioration:** The activity, financial and capital strength and profitability of the UniCredit Group depend, among other things, on the creditworthiness of its customers. In carrying out its credit activities, the Group is exposed to the risk that an unexpected change in the creditworthiness of a counterparty may generate a corresponding change in the value of the associated credit exposure and give rise to the partial or total write down thereof. In the context of credit activities, this risk involves, among other things, the possibility that the Group's contractual counterparties may not fulfil their payment obligations, as well as the possibility that Group companies may, based on incomplete, untrue or incorrect information, grant credit that otherwise would not have been granted or that would have been granted under different conditions. Other banking activities, besides the traditional lending and deposit activities, can also expose the Group to credit risks. "Non traditional" credit risk can, for example, arise from: (i) entering into derivative contracts; (ii) buying and selling securities, futures, currencies or goods; and (iii) holding third party securities. These operations expose the UniCredit Group to the risk that the counterparty of said derivative contracts or repos may fail to fulfil its obligations or may become insolvent before the contract matures, when the Issuer or one of the other Group companies still holds a credit right against the counterparty. The Group has adopted procedures, rules and principles aimed at monitoring and managing credit risk at both individual counterparty and portfolio level. However, there is the risk that, despite these credit risk monitoring and management activities, the Group's credit exposure may exceed predetermined levels pursuant to the procedures, rules and principles it has adopted. The importance of reducing the ratio of non performing loans to total loans has been stressed on several occasions by the supervisory authorities, both publicly and within the ongoing dialogue with the Italian banks and, therefore, with the UniCredit Group.

**Liquidity Risk:** Liquidity risk refers to the possibility that the UniCredit Group may find itself unable to meet its current and future cash payment and delivery obligations without impairing its day-to-day operations or financial position. The activity of the UniCredit Group is subject in particular to funding liquidity risk, market liquidity risk, mismatch risk and contingency risk. Furthermore, it should be noted that the ECB has implemented important interventions in monetary policy, such as the "Targeted Longer-Term Refinancing Operation" (**TLTRO**) introduced in 2014 and the TLTRO II introduced in 2016. In March 2019 ECB announced a new series of quarterly targeted longer-term refinancing operations (TLTRO-III) to be launched in September 2019 to March 2021, each with a maturity of two years. It is not possible to predict the duration and the amounts with which these liquidity support operations can be repeated in the future, with the result that it is not possible to exclude a reduction or even the cancellation of this support. This would result in the need for banks to seek alternative sources of borrowing, without ruling out the difficulties of obtaining such alternative funding as well as the risk that the related costs could be higher. Such a situation could therefore adversely affect UniCredit's business, operating results and the economic and financial position of UniCredit and / or the Group.

**Basel III and Bank Capital Adequacy:** In the wake of the global financial crisis that began in 2008, the Basel Committee on Banking Supervision (the **BCBS**) approved revised global regulatory standards (**Basel III**) on bank capital adequacy and liquidity, measures to promote the build-up of capital that can be drawn down in periods of stress and the introduction of a leverage ratio as a backstop to the risk-based requirement as well as two global liquidity standards. The Basel III framework has been implemented in the EU through the Directive 2013/36/EU (the **CRD IV Directive**) and the Regulation 2013/575/EU (the **CRR**, together with the CRD IV Directive, the **CRD IV Package**) subsequently updated in the Regulation No. 876/2019. According to Article 92 of the CRR, institutions shall at all times satisfy the following Own Funds requirements: (i) a CET1 Capital ratio of 4.5 per cent; (ii) a Tier 1 Capital ratio of 6 per cent; and (iii) a Total Capital ratio of 8 per cent. These minimum ratios are complemented by the following capital buffers to be met with CET1 Capital: *Capital conservation buffer*, *Counter-cyclical capital buffer*, *Capital buffers for globally systemically important institutions (G-SIIs)* and *Capital buffers for other systemically important institutions (O-SIIs)*. In addition, under Article 133 of the CRD IV Directive, each Member State may introduce a Systemic Risk Buffer of Common Equity Tier 1 Capital for the financial sector or one or more subsets of that sector in order to prevent and mitigate long-term non-cyclical systemic or macroprudential risks not otherwise covered by the CRD IV Package. As at the date of this Registration Document, no provision is taken on the systemic risk buffer in Italy. Failure to comply with such combined buffer requirements triggers restrictions on distributions and the need for the bank to adopt a capital conservation plan on necessary remedial actions (Articles 140 and 141 of the CRD IV Directive). In addition, UniCredit is subject to the Pillar 2 requirements for banks imposed under the CRD IV Package, which will be impacted by the SREP. Specifically, the Council of the European Union adopted regulations establishing the single supervisory mechanism (the **Single Supervisory Mechanism** or **SSM**) which have given the ECB direct supervisory responsibility over "banks of systemic importance" in the Banking Union as well as their subsidiaries in a participating non-euro area Member State. The ECB has fully assumed its new supervisory responsibilities of UniCredit and the UniCredit Group. Based on the decision of ECB concerning the capital requirements following the results of its annual 2018 SREP, as of 30 September 2019, the following

capital requirements apply: Common Equity Tier 1 ratio: 10,09%; Tier 1 ratio: 11,59%; Total Capital ratio: 13,59%. Furthermore UniCredit has been informed by ECB of its final decision of its 2019 Supervisory Review and Evaluation Process: the Pillar 2 capital requirement has been lowered by 25 basis point to 175 basis point, applicable from 1st January 2020. As a consequence UniCredit is required to meet the following overall capital requirements on a consolidated basis from 1 January 2020: Common Equity Tier 1 ratio 9.84%; Tier 1 ratio 11.34%; Total Capital ratio 13.34%. Should UniCredit not be able to implement the approach to capital requirements, it may be required to maintain levels of capital which could potentially impact its credit ratings, and funding conditions and which could limit UniCredit's growth opportunities.

#### Redemption as at the Final Payment Date

If no Barrier Event has occurred, the Redemption Amount is equal to the Maximum Amount.

If a Barrier Event has occurred, the Redemption Amount corresponds to the Nominal Amount multiplied by the Worst Performance (final) and divided by the Strike. The Redemption Amount will not be greater than the Nominal Amount.

The Barrier Event occurs if the Worst Performance (b) is lower than the Barrier Level on the respective Barrier Observation Date.

"**Worst Performance (b)**" means with respect to the respective Barrier Observation Date, the performance of the Basket Component<sub>i</sub> with the worst (lowest) performance. With respect to the respective Barrier Observation Date, the performance of each Basket Component<sub>i</sub> is calculated by the Calculation Agent as K<sub>i</sub> (b) divided by K<sub>i</sub> (initial).

"**Worst Performance (final)**" means with respect to the Final Observation Date, the performance of the Basket Component<sub>i</sub> with the worst (lowest) performance. With respect to the Final Observation Date, the performance of each Basket Component<sub>i</sub> is calculated by the Calculation Agent as K<sub>i</sub> (final) divided by K<sub>i</sub> (initial).

"K<sub>i</sub> (initial)" means the Reference Price of the Basket Component<sub>i</sub> on the Initial Observation Date.

"K<sub>i</sub> (final)" means the Reference Price of the Basket Component<sub>i</sub> on the Final Observation Date.

"K<sub>i</sub> (b)" means the Reference Price of the Basket Component<sub>i</sub> on the Barrier Observation Date.

**Limitation of the rights:** Upon the occurrence of one or more adjustment events (including, but not limited to, corporate actions or the adjustment or early termination of derivatives linked to the Basket Component) (the "**Adjustment Events**") the Calculation Agent will act in accordance with relevant market practice and in good faith adjust the terms and conditions of these Securities and/or all prices of the Basket Component determined by the Calculation Agent on the basis of the terms and conditions of the Securities in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible.

Upon the occurrence of one or more call events (e.g. if, in the event of an Adjustment Event, an adjustment is not possible or not reasonable with regard to the Issuer and/or the Security Holders) the Issuer may call the Securities extraordinarily and redeem the Securities at their Cancellation Amount. The "**Cancellation Amount**" is their fair market value.

**Status of the Securities:** The obligations of the Issuer under the Securities constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer, ranking (subject to any obligations preferred by any applicable law (also subject to the bail-in instruments as implemented under Italian law)) *pari passu* with all other unsecured obligations (other than obligations ranking junior to the senior notes from time to time (including non-preferred senior notes and any further obligations permitted by law to rank junior to the senior notes following the Issue Date), if any) of the Issuer, present and future and, in the case of the senior notes, *pari passu* and rateably without any preference among themselves.

Moreover, the Market Maker undertakes to apply, in normal market conditions, a spread between bid and offer quotes not higher than 1.00%.

#### What are the key risks that are specific to the Securities?

The specific risk factors related to the Securities, which in the view of the Issuer are material, are described below:

**Credit risk of the Issuer and risks in relation to resolution measures in relation to the Issuer:** The Securities constitute unsecured obligations of the Issuer vis-a-vis the Security Holders. Any person who purchases the Securities therefore relies on the creditworthiness of the Issuer and has, in relation to his position under the Securities, no rights or claims against any other person. Security Holders are subject to the risk of a partial or total failure of the Issuer to fulfil obligations which the Issuer is liable to perform under the Securities in whole or in part, for example, in the event of the Issuer's insolvency. The worse the creditworthiness of the Issuer is the higher is the risk of a loss. In the case of realization of the credit risk of the Issuer the Security Holder may sustain a total loss of his capital. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail. The Obligations of the Issuer under the Securities are not secured, guaranteed by third parties or protected by any deposit protection or compensation scheme.

**Risks related to market value-influencing factors:** The market value of the Securities will be affected by a number of factors. These are *inter alia* the creditworthiness of the Issuer, the relevant prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability and, if applicable, the remaining term of the Securities as well as additional Underlying-related market value-influencing factors. The market value of the Securities as well as the amounts distributable under the Securities primarily depend on the price of the Underlying or its components. In general, the value of the Securities falls and the Redemption Amount decreases if the price of the Underlying or its components decreases.

**Risks related to the Redemption Amount:** The Securities will be redeemed at their maturity at the Redemption Amount. The Redemption Amount may be less than the Issue Price or the Purchase Price. This means, the Security Holder only achieves a return if the Redemption Amount exceeds the individual Purchase Price of the Security Holder. The Redemption Amount may also be lower than the Nominal Amount of the Securities or even zero. Potential return from the Securities is limited in contrast to a direct investment in the Underlying or its components. A participation in a favourable performance of the Underlying or its components beyond the Maximum Amount is excluded.

**Risks related to Barrier Event:** If a Barrier Event occurs, a more advantageous pay-out formula will be applied. In any case the Security Holder may lose his invested capital in total or in part. The occurrence of a Barrier Event depends on the performance of the Underlying or its components. The risk of the occurrence of a Barrier Event increases as closer the underlying barrier (which may also lie at or above the initial price of the Underlying or its components) lies to the current price of the Underlying or its components.

**Risks arising from missing ongoing payments:** The Securities do not bear interest or grant any other unconditional rights for ongoing payments which could compensate possible losses of principal. The payment and/or the extent of the conditional amounts depend on the performance of the Underlying or its components. Potential investors should be aware that in case of an unfavourable performance of the Underlying or its components no payment of any conditional amount may occur or that the payment of a conditional amount may irretrievably lapse for the remaining term of the Securities.

**Risks related to Early Redemption Event:** If an Early Redemption Event occurs, the Securities will be automatically early redeemed by payment of the Early Redemption Amount. The occurrence of an Early Redemption Event depends on the performance of the Underlying or its components. In this case, the Security Holder will neither participate in any future favourable performance of the Underlying or its components nor be entitled to further payments under the Securities after an early redemption. The occurrence of an Early Redemption Event will also mean that no further additional amounts will be paid after its occurrence on any payment dates for additional amounts after the Early Redemption Event. In addition, the Security Holders are exposed to the risk that they may only reinvest the principal received due to an early repayment of the Securities to less favourable conditions.

**Risks related to the Worst-of Element:** Any amounts to be distributed under the Securities, are determined by reference to the price or the performance of the Basket Component with the Worst Performance only (the "Worst-of Element"). The Security Holder can only participate in the performance of the Basket Component with the Worst Performance, whereas the performances of the other Basket Components are disregarded. Thus, the investor faces the risk of losses due to the performance of the Basket Component with the Worst Performance, even if some or all other Basket Components perform more favourably.

**Risks related to a Strike:** The Strike can lead to the Security Holders participate either to a lesser extent in a favourable performance of the Underlying or its components or to a greater extent in an unfavourable performance of the Underlying or its components. Security Holders may potentially be exposed to an increased risk of loss of their invested capital.

**Risks related to shares:** The performance of Securities linked to shares (the "Share-linked Securities") primarily depends on the performance of the respective share. An investment in Share-linked Securities may bear similar risks to a direct investment in the respective shares.

**Liquidity risk:** There is a risk that the Securities may not be widely distributed and no active trading market (the "Secondary Market") may exist and may develop for the Securities. The Issuer may, but is not obliged to, purchase Securities at any time and at any price in the open market, by tender offer or private agreement. Any Securities purchased in this way by the Issuer may be held, resold or cancelled. A repurchase of Securities by the Issuer may adversely affect the liquidity of the Securities. Neither the Issuer nor any Distributor can therefore assure that a Security Holder will be able to sell his Securities at an adequate price prior to their redemption.

**Risk related to Securities with subscription period:** The Issuer reserves the right to refrain from engaging in the issue prior to the issue date and to early terminate or extend the subscription period. In this case, the Initial Observation Date may be postponed. In addition, the Issuer has the right, in its sole discretion, to reject subscription orders from potential investors in whole or in part.

## Quali sono i principali rischi specifici dell'Emittente?

I potenziali investitori devono essere consapevoli che, qualora si verifichi uno dei seguenti fattori di rischio, il valore degli Strumenti Finanziari potrebbe ridursi con la conseguente perdita totale del capitale investito.

I seguenti rischi sono i principali rischi specifici dell'Emittente:

**Rischi connessi al Piano Strategico 2020 – 2023:** In data 3 dicembre 2019, a seguito del completamento del Piano Strategico 2016-2019, UniCredit ha presentato ai mercati finanziari a Londra il nuovo Piano Strategico 2020-2023 denominato "Team 23" (il "Piano Strategico" o "Piano" o "Team 23"). Il Piano Strategico contiene una serie di obiettivi strategici, patrimoniali e finanziari (collettivamente, gli "Obiettivi Strategici") basati su quattro pilastri. In particolare: (i) l'aumento e il rafforzamento della base di clienti; (ii) la trasformazione e la massimizzazione della produttività; (iii) la gestione disciplinata del rischio & controlli ; (iv) la gestione del capitale e del bilancio. La capacità di UniCredit di rispettare i nuovi Obiettivi Strategici dipende da numerose assunzioni e circostanze, alcune delle quali si trovano al di fuori del controllo di UniCredit, quali ipotesi relative agli sviluppi dello scenario macroeconomico e politico in cui il nostro Gruppo opera, all'evoluzione del contesto regolamentare, nonché assunzioni ipotetiche relative agli effetti di azioni specifiche o concernenti eventi futuri che si possono solo parzialmente prevedere/gestire. Per tutte queste ragioni, gli investitori sono invitati a non prendere decisioni di investimento basate esclusivamente sui dati previsionali inclusi negli Obiettivi Strategici. Eventuali fallimenti nell'attuazione o nel raggiungimento degli Obiettivi Strategici possono avere un impatto negativo rilevante sull'attività, sulla condizione finanziaria o sui risultati operativi di UniCredit. Inoltre, come comunicato al Mercato nell'ambito della presentazione del Piano Strategico - Team 23, si segnala che la distribuzione del capitale nel nuovo piano si basa sul concetto di utile netto sottostante. L'utile netto sottostante rettifica l'utile netto contabile per tenere conto di alcune poste non operative, in modo da dimostrare meglio la base di utile ricorrente e sostenibile della banca. Tali rettifiche includono: (i) la vendita di attività non strategiche e immobili selezionati; (ii) oneri non operativi, non ricorrenti, tra i quali costi di integrazione e svalutazioni IT straordinarie; (iii) poste non operative per rettifiche su crediti, ad esempio l'aggiornamento della strategia di *rundown* del portafoglio Non Core e gli effetti regolamentari sfavorevoli.

**Rischio di credito e di deterioramento della qualità del credito:** L'attività, la solidità economica, patrimoniale e finanziaria e la profitabilità del Gruppo UniCredit dipendono, tra l'altro, dal merito di credito dei propri clienti. Nello svolgimento della propria attività creditizia il Gruppo è esposto al rischio che un inatteso cambiamento del merito di credito di una controparte possa generare un corrispondente cambiamento del valore dell'associata esposizione creditizia e dare luogo a cancellazione parziale o totale della stessa. Nell'ambito dell'attività creditizia tale rischio si sostanzia, tra l'altro, nella possibilità che le proprie controparti contrattuali non adempiano alle proprie obbligazioni di pagamento nonché nella circostanza che le società del Gruppo concedano, sulla base di informazioni incomplete, non veritiera o non corrette, credito che altrimenti non avrebbero concesso o che comunque avrebbero concesso a differenti condizioni. Ulteriori attività bancarie, al di fuori di quelle tradizionali di prestito e deposito, possono esporre il Gruppo a rischi di credito. Il rischio di credito "non tradizionale" può, per esempio, derivare da: (i) sottoscrizione di contratti in derivati; (ii) compravendite di titoli, future, valute o merci; e (iii) detenzione di titoli di terzi. Tali operazioni espongono il Gruppo UniCredit al rischio che la controparte di tali contratti derivati o *repo* non adempia alle proprie obbligazioni o diventi insolvente prima della scadenza del contratto, quando l'Emittente o una delle altre società del Gruppo detiene ancora un diritto di credito nei confronti della controparte. Il Gruppo ha adottato procedure, regole e principi volti a monitorare e gestire il rischio di credito sia a livello di singola controparte che di portafoglio. Esiste tuttavia il rischio che, nonostante tali attività di monitoraggio e gestione del rischio di credito, l'esposizione creditizia del Gruppo possa superare livelli predeterminati in base alle procedure, regole e principi adottati. L'importanza di ridurre il rapporto crediti deteriorati / crediti totali è stata più volte sottolineata dalle autorità di vigilanza, sia pubblicamente che nell'ambito del dialogo in corso con le banche italiane e, quindi, con il Gruppo UniCredit.

**Rischio di liquidità:** Il rischio di liquidità identifica l'eventualità che il Gruppo UniCredit possa trovarsi nella condizione di non riuscire a far fronte agli impegni di pagamento attuali e futuri, previsti o imprevisti senza pregiudicare l'operatività quotidiana o la propria condizione finanziaria. L'attività del Gruppo UniCredit, in particolare, è soggetta al rischio di liquidità nelle diverse dimensioni del *funding liquidity risk*, *market liquidity risk*, *mismatch risk* e *contingency risk*. In tale contesto si segnala che la Banca Centrale Europea (la **BCE**) ha posto in essere importanti interventi di politica monetaria, quali il "*Targeted Longer-Term Refinancing Operation*" (**TLTRO**) introdotto nel 2014 e il **TLTRO II** introdotto nel 2016. A marzo 2019 la BCE ha annunciato un nuovo programma di rifinanziamento a lungo termine (**TLTRO III**) che sarà accessibile a partire da settembre 2019 fino a marzo 2021, con scadenza di ciascuna tranches fissata in 2 anni. Non è possibile prevedere la durata e l'intensità con cui tali operazioni di sostegno alla liquidità potranno essere riproposte in futuro, con la conseguenza che non è possibile escludere una riduzione, o persino un annullamento di tali supporti. Ciò determinerebbe la necessità per le banche di cercare fonti di provvista alternative, non sempre disponibili o disponibili a costi più elevati. La situazione descritta potrebbe quindi incidere negativamente sull'attività, sui risultati operativi e sulla situazione economica, patrimoniale e/o finanziaria di UniCredit e/o del Gruppo.

**Basilea III e Adeguatezza Patrimoniale delle Banche:** Sulla scia della crisi finanziaria globale iniziata nel 2008, il Comitato di Basilea per la Vigilanza Bancaria (il **CBVB**) ha approvato la revisione degli standard globali di regolamentazione (**Basilea III**) sull'adeguatezza patrimoniale e la liquidità delle banche, misure volte a promuovere l'accumulo di capitale che può essere utilizzato in periodi di stress, e l'introduzione di un indice di leva finanziaria che funge da freno al requisito basato sul rischio, nonché due standard globali di liquidità. Il *framework* di Basilea III è stato recepito nell'Unione Europea per il tramite della Direttiva UE/2013/36 (la **Direttiva CRD IV**) e il Regolamento UE/2013/575 (il **CRR**, insieme alla **Direttiva CRD IV**, il **Pacchetto CRD IV**) successivamente aggiornato nel Regolamento n. 876/2019. Ai sensi dell'articolo 92 del CRR, le banche devono sempre rispettare i seguenti requisiti di Fondi Propri: (i) un coefficiente di capitale primario di classe 1 (CET1 capital ratio) pari a 4,5%; (ii) un coefficiente di capitale di classe 1 (Tier 1 capital ratio) pari al 6%; e (iii) un coefficiente di capitale totale pari a 8% (Total Capital ratio). Tali requisiti minimi sono integrati dalle seguenti riserve di capitale (*buffer*) da soddisfare con il CET1 Capital: riserva di conservazione del capitale (*Capital conservation buffer*), riserva di capitale anticiclica specifica della banca (*Counter-cyclical capital buffer*), riserva di capitale per le istituzioni finanziarie sistematicamente rilevanti a livello globale (*Capital buffers for globally systemically important institutions (G-SIIs)*) e riserva di capitale per le istituzioni finanziarie sistematicamente rilevanti a livello locale (*Capital buffers for other systemically important institutions (O-SIIs)*). Inoltre, ai sensi dell'articolo 133 della Direttiva CRD IV, ogni Stato membro può introdurre una riserva di capitale a fronte del rischio sistemico di Common Equity Tier 1 Capital (*Systemic Risk Buffer of Common Equity Tier 1 Capital*) per il settore finanziario o uno o più sottoinsiemi di tale settore volta a prevenire ed

attenuare il rischio sistematico o macroprudenziale non ciclico di lungo periodo non altrimenti coperti dal Pacchetto CRD IV. Alla data del presente Documento di Registrazione, non è stata introdotta una riserva di capitale a fronte del rischio sistematico in Italia. Il mancato rispetto di tali riserve di capitale combinate determina delle restrizioni sulle distribuzioni e la necessità per la banca di adottare un piano di conservazione del capitale finalizzato alle necessarie azioni correttive (articoli 140 e 141 della Direttiva CRD IV). Inoltre, UniCredit deve attenersi ai requisiti del secondo pilastro (Pillar 2) previsti per le banche e imposti dal Pacchetto CRD IV, i quali verranno influenzati dalla SREP. In particolare, il Consiglio dell'Unione Europea ha adottato dei regolamenti istituendo il meccanismo di vigilanza unico (**Meccanismo di Vigilanza Unico** o **MVU**) che ha conferito alla BCE la responsabilità di vigilanza diretta sulle "banche di importanza sistematica" all'interno dell'Unione bancaria, nonché sulle loro controllate in uno Stato membro partecipante non appartenente all'area euro. La BCE ha assunto pienamente le nuove responsabilità di vigilanza su UniCredit e sul Gruppo UniCredit. Sulla base della decisione della BCE relativa ai requisiti patrimoniali a seguito dei risultati della SREP annuale 2018, al 30 settembre 2019 si applicano i seguenti requisiti patrimoniali: Common Equity Tier 1 ratio: 10,09%; Tier 1 ratio: 11,59%; Total Capital ratio: 13,59%. Inoltre, UniCredit è stata informata dalla BCE della decisione finale sul Processo di Revisione e Valutazione Prudenziiale per il 2019: il requisito patrimoniale del secondo pilastro è stato ridotto di 25 punti base e portato a 175 punti base, applicabile dal 1° gennaio 2020. Di conseguenza UniCredit è tenuta a soddisfare i seguenti requisiti patrimoniali complessivi su base consolidata a partire dal 1° gennaio 2020: Common Equity Tier 1 ratio 9,84%; Tier 1 ratio 11,34%; Total Capital ratio 13,34%. Qualora UniCredit non fosse in grado di attuare l'approccio ai requisiti patrimoniali, potrebbe essere tenuta a mantenere livelli di capitale che potrebbero avere un impatto potenziale sui rating e sulle condizioni di finanziamento e che potrebbero limitare le opportunità di crescita di UniCredit.

Gli Strumenti Finanziari non maturano interessi.

I Titolari hanno diritto al pagamento del rispettivo Importo Condizionato Aggiuntivo (m) al verificarsi di un Evento di Pagamento dell'Importo Condizionato Aggiuntivo (m). L'Evento di Pagamento dell'Importo Condizionato Aggiuntivo (m) si verifica se la Worst Performance (m) è pari a, o maggiore del, rilevante Livello dell'Importo Condizionato Aggiuntivo (m) alla relativa Data di Osservazione (m).

Se non si è verificato alcun Evento di Pagamento dell'Importo Condizionato Aggiuntivo (m) alla Data di Osservazione (m), non verrà corrisposto alcun Importo Condizionato Aggiuntivo (m) alla rispettiva Data di Pagamento dell'Importo Condizionato Aggiuntivo (m).

"**Worst Performance (m)**" si intende, con riguardo alla relativa Data di Osservazione (m), la performance del Componente<sub>i</sub> del Paniere con la peggiore (più bassa) performance. Con riguardo alla relativa Data di Osservazione (m), la performance di ciascun Componente<sub>i</sub> del Paniere è calcolata dall'Agente di Calcolo come  $K_i$  (m) divisa per  $K_i$  (iniziale).

" $K_i$  (m)" indica il Prezzo di Riferimento del Componente<sub>i</sub> del Paniere alla Data di Osservazione (m).

#### Rimborso Anticipato Automatico

Qualora si verifichi un Evento di Rimborso anticipato gli Strumenti Finanziari prevedono l'esercizio automatico del rimborso anticipato al relativo Importo di Rimborso Anticipato ( $k$ ) nella rispettiva Data di Rimborso Anticipato ( $k$ ).

L'Evento di Rimborso Anticipato si verifica se ciascuna Performance del Componente<sub>i</sub> del Paniere ( $k$ ) alla rispettiva Data di Osservazione ( $k$ ) è pari a, o maggiore del, rispettivo Livello di Rimborso Anticipato<sub>i</sub> ( $k$ ).

La Performance del Componente<sub>i</sub> del Paniere ( $k$ ) corrisponde a  $K_i(k)$  divisa per  $K_i$  (iniziale)

" $K_i(k)$ " indica il Prezzo di Riferimento del Componente<sub>i</sub> del Paniere alla Data di Osservazione ( $k$ ).

#### Rimborso alla Data di Pagamento Finale

Se non si è verificato alcun Evento Barriera, l'Importo di Rimborso è pari all'Importo Massimo.

Se si è verificato un Evento Barriera, l'Importo di Rimborso corrisponde al Valore Nominale moltiplicato per la Worst Performance (finale) e diviso per lo Strike. L'Importo di Rimborso non sarà superiore al Valore Nominale.

L'Evento Barriera si verifica se la Worst Performance (b) è minore del Livello Barriera alla rispettiva Data di Osservazione della Barriera.

"**Worst Performance (b)**" si intende, con riguardo alla relativa Data di Osservazione della Barriera, la performance del Componente<sub>i</sub> del Paniere con la peggiore (più bassa) performance. Con riguardo alla relativa Data di Osservazione della Barriera, la performance di ciascun Componente<sub>i</sub> del Paniere è calcolata dall'Agente di Calcolo come K<sub>i</sub> (b) divisa per K<sub>i</sub> (iniziale).

"**Worst Performance (finale)**" si intende, con riguardo alla Data di Osservazione Finale, la performance del Componente<sub>i</sub> del Paniere con la peggiore (più bassa) performance. Con riguardo alla Data di Osservazione Finale, la performance di ciascun Componente<sub>i</sub> del Paniere è calcolata dall'Agente di Calcolo come K<sub>i</sub> (finale) divisa per K<sub>i</sub> (iniziale).

"K<sub>i</sub> (iniziale)" indica il Prezzo di Riferimento del Componente<sub>i</sub> del Paniere alla Data di Osservazione Iniziale.

"K<sub>i</sub> (finale)" indica il Prezzo di Riferimento del Componente<sub>i</sub> del Paniere alla Data di Osservazione Finale.

"K<sub>i</sub> (b)" indica il Prezzo di Riferimento del Componente<sub>i</sub> del Paniere alla Data di Osservazione della Barriera.

**Restrizioni ai diritti:** Al ricorrere di uno o più eventi di rettifica (inclusi, ma non limitati a, operazioni societarie o la modifica o la risoluzione anticipata di derivati connessi al Componente del Paniere) (gli "**Eventi di Rettifica**") l'Agente di Calcolo modificherà agendo in linea con la relativa prassi di mercato ed in buona fede i termini e le condizioni di questi Strumenti Finanziari e/o tutti i prezzi del Componente del Paniere determinato dall'Agente di Calcolo sulla base dei termini e le condizioni degli Strumenti Finanziari, in modo tale che la posizione economica dei Titolari resti immodificata nella maggior misura possibile.

Al ricorrere di uno o più eventi di riscatto (ad es. se, nell'ipotesi di un Evento di Rettifica, una rettifica si rivelasse impossibile o comunque non ragionevole per l'Emissente e/o per i Titolari) l'Emissente può riscattare in via straordinaria gli Strumenti Finanziari e rimborsare gli Strumenti Finanziari al loro Importo di Riscatto. L"**Importo di Riscatto**" è il valore equo di mercato di questi ultimi.

**Stato dei Titoli:** Gli obblighi derivanti dagli Strumenti Finanziari costituiscono obbligazioni dirette, incondizionate, non subordinate e non garantite dell'Emissente, avranno pari priorità nell'ordine dei pagamenti (fatte salve le obbligazioni privilegiate da qualsiasi legge applicabile (anche soggetto allo strumento del *bail-in*, come implementato ai sensi della legge italiana)) rispetto a tutte le altre obbligazioni non garantite dell'Emissente e ad ogni altro obbligo presente e futuro, non garantito e non subordinato, dell'Emissente (salvo, quando previsto, le obbligazioni *junior* rispetto alle obbligazioni senior (incluse le obbligazioni senior non privilegiate e le eventuali ulteriori obbligazioni *junior*, rispetto a obbligazioni senior, consentite dalla legge successivamente alla Data di Emissione), ove previste).

#### Dove saranno negoziati i Titoli?

---

**Quotazione**: Non è stata presentata l'ammissione a quotazione degli Strumenti Finanziari presso un mercato regolamentato.

**Ammissione alla negoziazione:** Sarà presentata istanza per l'ammissione a negoziazione degli Strumenti Finanziari con efficacia dal 26 marzo 2020, presso il sistema multilaterale di negoziazione (MTF) Borsa Italiana SeDeX MTF.

UniCredit Bank AG (il "**Market Maker**") si impegna a fornire liquidità in conformità alle norme sul *market making* di EuroTLX, dove ci si attende che gli Strumenti Finanziari saranno negoziati. Inoltre, il Market Maker si impegna ad applicare, in condizioni normali di mercato, uno spread tra le quotazioni denaro e lettera non superiore all'1%.

### Quali sono i principali rischi specifici dei Titoli?

I fattori di rischio specifici relativi agli Strumenti Finanziari, che nell'opinione dell'Emittente sono significativi, sono descritti di seguito:

**Rischio di Credito dell'Emittente e rischi relative alle misure di risoluzione che riguardano l'Emittente:** Gli Strumenti Finanziari costituiscono obbligazioni non garantite dell'Emittente nei confronti dei Titolari. Pertanto, chiunque li acquisti è soggetto al merito creditizio dell'Emittente e non ha, in relazione alla propria posizione nell'ambito degli Strumenti Finanziari, alcun diritto o pretesa nei confronti di qualsiasi altra persona. I Titolari sono sottoposti al rischio di una parziale o totale inadempienza dell'Emittente per gli obblighi che il medesimo è tenuto ad adempiere in tutto o in parte ai sensi degli Strumenti Finanziari, ad esempio in caso di insolvenza. Peggio è la solvibilità dell'Emittente, maggiore è il rischio di perdita. Qualora il rischio di credito dell'Emittente si realizzi, il Titolare può subire una perdita totale del proprio capitale. Inoltre, i Titolari possono essere soggetti a misure di risoluzione nei confronti dell'Emittente qualora il medesimo è in fallimento o a rischio di fallimento. Gli Obblighi dell'Emittente ai sensi degli Strumenti Finanziari non sono garantiti, garantiti da terzi o protetti da un sistema di protezione dei depositi o di compensazione

**Rischi correlati a fattori che influenzano il valore di mercato:** Il valore di mercato degli Strumenti Finanziari sarà condizionato da una serie di fattori. Questi sono, *inter alia*, il merito creditizio dell'Emittente, tassi di interesse e di rendimento prevalenti, il mercato per strumenti finanziari simili, le condizioni economiche generali, politiche e cicliche, le negoziabilità e, se del caso, la durata residua degli Strumenti Finanziari nonché ulteriori fattori che potrebbero condizionare il Sottostante. Tanto il valore di mercato quanto gli importi pagabili ai sensi degli Strumenti Finanziari dipendono principalmente dal prezzo del Sottostante o dei suoi componenti. In generale, il valore degli Strumenti Finanziari e l'Importo di Rimborso diminuiscono se il prezzo del Sottostante o dei suoi componenti diminuisce.

**Rischi correlati all'Importo di Rimborso:** Gli Strumenti Finanziari verranno rimborsati alla loro scadenza all'Importo di Rimborso. L'Importo di Rimborso potrebbe essere inferiore al Prezzo di Emissione o al Prezzo di Acquisto. Ciò significa che il Titolare otterrà un rendimento solo se l'Importo di Rimborso sia superiore al singolo Prezzo di Acquisto del Titolare. L'Importo di Rimborso può anche essere inferiore al Valore Nominale degli Strumenti Finanziari o anche essere zero. Il rendimento potenziale degli Strumenti Finanziari è limitato rispetto ad un investimento diretto nel Sottostante o nei suoi componenti. È esclusa la partecipazione ad una performance favorevole del Sottostante o dei suoi componenti oltre l'Importo Massimo.

**Rischio correlato all'Evento Barriera:** Se si verifica un Evento Barriera, non verrà applicata una formula di pagamento più vantaggiosa. In ogni caso, il Titolare potrebbe perdere il proprio capitale investito integralmente o in parte. Il verificarsi di un Evento Barriera dipende dall'andamento del Sottostante o dei suoi componenti. Il rischio del verificarsi di un Evento Barriera aumenta man mano che la barriera sottostante (che può anche essere pari o superiore al prezzo iniziale del Sottostante o dei suoi componenti) si avvicina al prezzo corrente del Sottostante o dei suoi componenti.

**Rischi derivanti dal mancato pagamento di importi nel corso della durata degli Strumenti Finanziari:** Gli Strumenti Finanziari non producono interessi né concedono altri diritti incondizionati per i pagamenti nel corso della durata degli stessi che potrebbero compensare eventuali perdite di capitale. Il pagamento e/o l'entità degli importi condizionati dipendono dall'andamento del Sottostante o dei suoi componenti. I potenziali investitori devono considerare che in caso di performance sfavorevole del Sottostante o dei suoi componenti non verrà corrisposto alcun importo condizionato o che il pagamento di un importo condizionato può decadere irrimediabilmente per tutta la durata residua degli Strumenti Finanziari.

**Rischi correlati all'Evento di Rimborso Anticipato:** Se si verifica un Evento di Rimborso Anticipato, gli Strumenti Finanziari verranno automaticamente rimborsati tramite il pagamento dell'Importo di Rimborso Anticipato. Il verificarsi di un Evento di Rimborso Anticipato dipende dall'andamento del Sottostante o dei suoi componenti. In questo caso, il Titolare non beneficerà di alcuna futura performance favorevole del Sottostante o dei suoi componenti, né avrà diritto ad ulteriori pagamenti derivanti dagli Strumenti Finanziari dopo un rimborso anticipato. Il verificarsi di un Evento di Rimborso Anticipato comporterà altresì che, dopo il suo verificarsi, non verranno corrisposti ulteriori importi aggiuntivi in alcuna data di pagamento per importi aggiuntivi dopo l'Evento di Rimborso Anticipato. Inoltre, i Titolari sono esposti al rischio di poter reinvestire il capitale ricevuto a causa di un rimborso anticipato degli Strumenti Finanziari solo a condizioni meno favorevoli.

**Rischi correlati all'Elemento Worst-of:** Qualsiasi importo dovuto derivante dagli Strumenti Finanziari può essere determinato esclusivamente con riferimento al prezzo o alla performance dei Componenti del Paniere con la Peggior Performance (l'"**Elemento Worst-of**"). Il Titolare può partecipare solo alla performance del Componente del Paniere con la Worst Performance, mentre le performance degli altri Componenti del Paniere non vengono prese in considerazione. Pertanto, l'investitore soggiace al rischio di subire perdite determinate dalla performance del Componente del Paniere con la Worst Performance, anche se alcuni o tutti gli altri Componenti del Paniere hanno una performance più favorevole.

**Rischi correlati allo Strike:** Lo Strike può determinare che i Titolari possano partecipare, in misura minore, ad una performance favorevole del Sottostante o dei suoi componenti o, in misura maggiore, ad una performance sfavorevole del Sottostante o dei suoi componenti. Potenzialmente, i Titolari potrebbero essere esposti a un maggiore rischio di perdita del capitale investito.

**Rischi correlati ad azioni:** La performance degli Strumenti Finanziari collegati ad azioni (gli "**Strumenti Finanziari correlati ad Azioni**") è legata principalmente alla performance della rispettiva azione. Un investimento in Strumenti Finanziari correlati ad Azioni può comportare rischi simili a quelli di un investimento diretto nelle rispettive azioni.

**Rischio di liquidità:** Sussiste un rischio che gli Strumenti Finanziari non siano ampiamente distribuiti e che non esista un mercato attivo di negoziazione (il "**Mercato Secondario**") che possa evolversi per gli Strumenti Finanziari. L'Emittente può, ma non è obbligato, acquistare gli Strumenti Finanziari in qualsiasi momento e a qualsiasi prezzo sul mercato aperto, mediante offerta pubblica di acquisto o contratto privato. Gli Strumenti Finanziari acquistati in questo modo dall'Emittente possono essere detenuti, rivenduti o cancellati. Un riacquisto degli Strumenti Finanziari da parte dell'Emittente può influire negativamente sulla liquidità dei medesimi. Né l'Emittente né alcun Collocatore

può assicurare che un Titolare sarà in grado di vendere i propri Strumenti Finanziari ad un prezzo adeguato prima del loro rimborso.

**Rischio correlato ai Titoli con periodo di sottoscrizione:** L'Emittente si riserva il diritto di astenersi dall'effettuare l'emissione prima della data di emissione e di terminare anticipatamente o prolungare il periodo di sottoscrizione. In tal caso, la Data di Osservazione Iniziale può essere posticipata. Inoltre, l'Emittente ha il diritto, a sua esclusiva discrezione, di rifiutare in tutto o in parte gli ordini di sottoscrizione di potenziali investitori.
