§ 2

Interest, Additional Amount

- (1) *Interest:* The Securities do not bear interest.
- (2) *Additional Conditional Amount (m):* If with respect to an Observation Date (m) an Additional Conditional Amount Payment Event has occurred, the respective Additional Conditional Amount (m) will be paid on the respective Additional Amount Payment Date (m) pursuant to the provisions of § 6 of the Special Conditions. The respective Additional Conditional Amount (m) for each Additional Amount Payment Date (m) is specified in § 1 of the Product and Underlying Data.

If with respect to an Observation Date (m) no Additional Conditional Amount Payment Event has occurred, no Additional Conditional Amount (m) will be paid on the respective Additional Amount Payment Date (m).

- (3) *Reference Rate: "Reference Rate"* means the offer rate (expressed as per cent. per annum) for deposits in the Reference Rate Currency for the respective Designated Maturity which appears on the Screen Page as of the Reference Rate Time, on the respective Observation Date.

Subject to the occurrence of a Reference Rate Cessation Event, if the Screen Page is not available at the Reference Rate Time, or if such offer rate does not appear on the Screen Page, the Calculation Agent will

- (a) request each of the Reference Banks in the Reference Rate Financial Centre to provide its rate at which deposits in the Reference Rate Currency are offered at the Reference Rate Time on the respective Observation Date to prime banks in the interbank market for the respective Designated Maturity in a representative amount.

If at least two of the Reference Banks provide the Calculation Agent with such quotations, the Reference Rate will be the arithmetic mean (rounded if necessary to the nearest one thousandth of a percentage point, with 0.0005 being rounded upwards) of such quotations.

If on an Observation Date only one or none of the Reference Banks provides the Calculation Agent with such quotations, the respective Reference Rate will be the arithmetic mean (rounded as described above) of the rates quoted by major banks in the Reference Rate Financial Centre,

determined by the Calculation Agent acting in accordance with relevant market practice and in good faith, at the Reference Rate Time, on that Observation Date for loans in the Reference Rate Currency to leading European banks for the respective Designated Maturity and in a representative amount;

or, if the Reference Rate cannot be determined pursuant to (a) above or the determination procedure pursuant to (a) does no longer reflect current market practices for derivative instruments,

- (b) determine the Reference Rate based on the publication of the Reference Rate by an alternative authorized distributor or the Reference Rate-Administrator.

If the Calculation Agent is unable to determine the Reference Rate on the basis of the publication of the Reference Rate by an alternative authorized distributor or the Reference Rate-Administrator, the Calculation Agent will determine the Reference Rate acting in accordance with relevant market practice and in good faith. - (i) use a rate for the Reference Rate formally recommended by the Reference Rate-Administrator or, alternatively, by the supervisor of the Reference Rate or the central bank for the Reference Rate Currency, or in the absence thereof
- (ii) use the alternative rate for the Reference Rate implemented by a futures exchange or alternatively a central counterparty for the Reference Rate, provided that it is sufficiently representative of the Reference Rate; or in the absence thereof
- (iii) use the average value of the last Reference Rates published at the Reference Rate Time of the previous five Banking Days prior to the respective Observation Date.

§ 3

Redemption

Redemption: The Securities shall be redeemed by payment of the Redemption Amount on the Final Payment Date pursuant to the provisions of § 6 of the Special Conditions.

§ 4

Redemption Amount

Redemption Amount: The Redemption Amount corresponds to the Minimum Amount.

§ 5

Issuer's Conversion Right

Issuer's Conversion Right: Upon the occurrence of a Conversion Event the Securities shall be redeemed at the Settlement Amount on the Final Payment Date.

The "**Settlement Amount**" shall be the market value of the Securities, with accrued interest for the period until the Final Payment Date at the market rate of interest being traded at such time for liabilities of the Issuer with the same remaining term as the Securities within ten Banking Days following the occurrence of the Conversion Event; it shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith. The fair market value, as calculated by the Calculation Agent, is calculated based on the redemption profile of the Securities which has to be adjusted taking into consideration the following parameters as of the tenth Banking Day before the extraordinary call becomes effective: the price of the Underlying, the remaining time to maturity, the volatility, the dividends (if applicable), the current interest rate as well as the counterparty risk and any other relevant market parameter that can influence the value of the Securities. However, the Settlement Amount shall not be less than the Minimum Amount. If it is not possible to determine the market value of the Securities, the Settlement Amount corresponds to the Minimum Amount. The Settlement Amount shall be notified pursuant to § 6 of the General Conditions.

The right for payment of the Additional Amount ceases to exist in relation to all Additional Amount Payment Dates following the occurrence of a Conversion Event.

The Settlement Amount will be paid pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) *Rounding*: The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards.
- (2) *Business day convention*: If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge*: All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such payment.
- (4) *Interest of default*: If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the legal interest rate ("*Saggio degli Interessi legali*"), pursuant to Section 1284 CC, without prejudice to any other mandatory provisions under Italian law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 9

Replacement Reference Rate, Adjustment, Interest Rate Adjustment Factor, Notices

- (1) *Replacement Reference Rate*: Upon the occurrence of a Reference Rate Cessation Event on or preceding an Observation Date, the Reference Rate will be replaced by the Calculation Agent with an economically suitable reference rate (the "**Replacement Reference Rate**"). The Reference Rate should be replaced by a reference rate that pursuant to the following sequence of adjustment methods (each an "**Adjustment Method Level**")
 - (a) has been publicly and permanently declared as the replacement for the original Reference Rate by the Reference Rate-Administrator, the relevant central bank or a supervisory authority and may be used as a Replacement Reference Rate in accordance with the governing law of the Securities, or – in the event and as long as this is not the case –
 - (b) is typically used as a Replacement Reference Rate for comparable securities (in particular with a view to the Reference Rate Currency, the type of interest payment and the term), or – in the event and as long as this is not the case –
 - (c) is typically used as a reference rate for (x) interest rate swaps (fixed/floating interest) in the Reference Rate Currency or (y) exchange traded interest futures with a comparable term, or – in the event and as long as this is not the case –
 - (d) is determined by the Calculation Agent acting in accordance with relevant market practice and in good faith with a view to the Reference Rate Currency and the Designated Maturity in a reasonable economical manner, based on the general interest rate level at the relevant point in time in Italy.The Replacement Reference Rate is – subject to the occurrence of a new Reference Rate Cessation Event – applicable to all subsequent interest periods. With respect to subsequent Observation Dates, however, a new adjustment may be made with respect to the preceding Reference Rate Cessation Event if an adjustment based on a prior ranking Adjustment Method Level pursuant to the sequence (a) to (d) is then possible at that time. This includes the change from a daily interest rate previously selected under a specific Adjustment Method Level to a previously unpublished term-based interest rate.
- (2) *Adjustments*: If necessary, the Calculation Agent will make further adjustments to the Terms and Conditions of the Securities acting in accordance with relevant market practice and in good faith. This includes in particular:
 - (a) the method of calculation or determination of the Additional Amount (m); this includes the application of an interpolation or an interest rate on the Securities by means of a formula on a daily interest basis;

- (b) the method for determination of the Reference Rate (including any rounding rules),
- (c) the Designated Maturity, which can be shortened or extended;
- (d) the relevant Screen Page, Reference Rate Time and/or Reference Rate Financial Centre; and/or
- (e) the business day convention according to § 6 (2) of the Special Terms and Conditions.

Such adjustments shall enable the Calculation Agent

- (i) to use the Replacement Reference Rate in accordance with the then prevailing market practice or – to the extent that the Calculation Agent determines that the application of any part of such prevailing market practice is not technically feasible, a prevailing market practice for the Replacement Reference Rate does not exist or does not lead to economically meaningful results –
 - (ii) to use the Replacement Reference Rate in such a manner as determined by the Calculation Agent necessary for its use as the Replacement Reference Rate for the Securities; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.
- (3) *Notices:* The Calculation Agent shall notify the Issuer without undue delay of the Replacement Reference Rate pursuant to paragraph (1) and the adjustments and determinations made pursuant to paragraphs (2) as well as the date of first application, who will notify the Security Holders and any exchange, on which the Securities are listed and whose provisions require a notification to the exchange pursuant to § 6 of the General Conditions of the Securities.

What are the key risks that are specific to the Issuer?

Potential investors should be aware that in the case of the occurrence of one of the below mentioned risk factors the Securities may decline in value and that they may sustain a total loss of their investment.

The following risks are key risks specific to the Issuer:

Risks associated with the impact of current macroeconomic uncertainties and the effects of the COVID-19 pandemic outbreak: The UniCredit Group's performance is affected by the financial markets and the macroeconomic and political environment of the countries in which it operates. Expectations regarding the performance of the global economy remain uncertain in both the short term and medium term. Therefore, there is a risk that changes in the macroeconomic environment may have adverse effects on the financial and economic situation as well as on the creditworthiness of the Issuer and/or the Group. It should be noted that the national and international macroeconomic environment is subject to the risks arising from the outbreak of the viral pneumonia known as "Coronavirus" (COVID-19) and that, currently, the negative effects of this virus on international and domestic economic activities are evident, thus having an inevitable impact on the performance of the Group.

The current scenario is characterised by elements of high uncertainty - strongly influenced also by the relevant restriction measures - relating both to the general situation and, in particular, to the non-performing exposure market. In particular, in this context, it should be noted that the economic slowdown may determine a deterioration of credit portfolio quality, thus increasing the incidence of non-performing loans and the need to increase the provisions that will be set aside in the income statement. It should be noted that the Group registered a decrease in revenues compared to the corresponding period of 2019, despite an improvement in commercial performance in the latter stages of the second quarter 2020, thanks for its key markets emerged from lockdowns, proceeded in the third quarter.

Following the widespread lockdown, the Group realized additional Loan Loss Provisions totaled Euro 741 m in 3Q20 (-21.0 per cent Q/Q) of which Euro 431 m were specific LLPs reflecting credit risk in Italy characterized by the extension of moratoria on loans (SME loans having been extended into January next year) and an initial credit deterioration in CEE connected to the expirations of the moratoria in place, and Euro 305 m were overlays on LLP increasing the forward-looking coverage to reflect Covid-19 economic impact on the portfolio, and Euro 4 m on regulatory impacts connected to the introduction of new models or updating of the existing ones.

Net write-downs on loans and provisions for guarantees and commitments of the Group in the 9M20 were Euro 2,938 million.

Also as a consequence of a financial-economic context deteriorated by the Covid-19 crisis, the Group realized in the first nine months of 2020 a net loss of Euro 1,606 million, compared with the Euro 4,208 million of net profit achieved in the first nine months of 2019.

There was a decrease in revenues, down 7.4 per cent Y/Y, even if the improved economic conditions across Western Europe resulted in the third quarter in increased client activity and supported revenues increasing by 4.4 per cent Q/Q.

Finally, taking into account the revised estimates of the cost of risk, it results that the financial objectives of Team 23 for 2020 and 2021 are no longer considered relevant, although the strategic priorities communicated last December 2019 have been confirmed. It should be noted that, due to the current framework of high uncertainty and volatility, it is not currently possible to make an overall final assessment of the impacts on the medium/long-term Plan objectives in order to determine whether they are still relevant or how they are impacted, analyses that will be finalized over the next months. In particular, the current scenario is affected by a high degree of uncertainty whose outcome is not foreseeable at the moment and may require changes in evaluations already performed, in light of the evolution of the pandemic, on the effect of relief measures put in place and the shape of economic recovery. These factors will affect the Group profitability and the parameters, such as discount rates, used for evaluating Group's assets. Furthermore, considering the high uncertainty of current context, an update in the strategic plan Team 23 that reflects current conditions will be presented during the first half 2021. As a result, the evaluation made for Goodwill, Investments in associates and Deferred Tax Assets, whose recoverable amount depends on cash flows projections, might be subject to a change not foreseeable at the moment and from which could derive possible negative effects, including significant ones, on the bank's financial and economic situation.

Risks connected with the Strategic Plan 2020 – 2023: On 3 December 2019, following the completion of the 2016-2019 Strategic Plan, UniCredit presented to the financial community in London the new 2020-2023 Strategic Plan called "Team 23" (the "**Strategic Plan**" or "**Plan**" or "**Team 23**"). The Strategic Plan contains determined strategic, capital and financial objectives (collectively, the "**Strategic Objectives**") based on four pillars. Such Strategic Objectives focus on improving the cost of risk, reducing the gross NPE ratio, maintaining an appropriate capital buffer throughout the Plan as well as objectives in terms of underlying net profit and capital distribution. The four pillars are: (i) growth and strengthen client franchise; (ii) transform and maximise productivity; (iii) disciplined risk management & controls; and (iv) capital and balance sheet management. UniCredit ability to meet the new Strategic Objectives depends on a number of assumptions and circumstances, some of which are outside UniCredit's control including those relating to developments in the macroeconomic environment in which our Group operates, developments in applicable laws and regulations and assumptions related to the effects of specific actions or future events which we can partially forecast/manage. The assumptions concerning the macroeconomic scenario and the development of the regulatory framework, as well as the hypothetical assumptions on which the Plan is based, were made prior to the adoption of the restrictive provisions related to the spread of COVID-19 throughout the countries and, therefore, in a macroeconomic environment different from that one determined next to the entry into force of the restrictive provisions ("lockdown") resulting from the pandemic. Indeed, financial results for this year and potentially subsequent years could be reasonably influenced by the dynamics of the COVID-19, which were not foreseeable at the date of the Strategic Plan presentation and which are still uncertain. Taking into account the revised estimates of the cost of risk, it results that the financial objectives of Team 23 for 2020 and 2021 are no longer considered relevant, although the strategic priorities communicated last December 2019 have been confirmed. Given the high uncertainty of the environment, an update of Team 23 strategic plan will be run and presented to the markets in the Capital Markets Day in first half of 2021. For all these reasons, investors are cautioned against making their investment decisions based exclusively on the forecast data included in the Strategic Objectives. Any failure to implement the Strategic Objectives or meet the Strategic Objectives may have a material adverse effect on UniCredit's business, financial condition or results of operations.

Credit risk and risk of credit quality deterioration: The activity, financial and capital strength and profitability of the UniCredit Group depend, among other things, on the creditworthiness of its customers. In carrying out its credit activities, the Group is exposed to the risk that an unexpected change in the creditworthiness of a counterparty may generate a corresponding change in the value of the associated credit exposure and give rise to the partial or total write-down thereof. Following the COVID-19 outbreak it cannot be excluded that, credit quality for this year could be influenced with potential impacts not yet quantifiable. In particular, in this context, it should be noted that the economic slowdown may determine a deterioration of credit portfolio quality, thus increasing the incidence of non-performing loans and the need to increase the provisions that will be set aside in the income statement.

Following the widespread lockdown, the Group realized additional Loan Loss Provisions totaled Euro 741 m in 3Q20 (-21.0 per cent Q/Q) of which Euro 431 m were specific LLPs reflecting credit risk in Italy characterized by the extension of moratoria on loans (SME loans having been extended into January next year) and an initial credit deterioration in CEE connected to the expirations of the moratoria in place, and Euro 305 m were overlays on LLP increasing the forward-looking coverage to reflect Covid-19 economic impact on the portfolio, and Euro 4 m on regulatory impacts connected to the introduction of new models or updating of the existing ones.

Net write-downs on loans and provisions for guarantees and commitments of the Group in the 9M20 were Euro 2,938 million.

In the context of credit activities, this risk involves, among other things, the possibility that the Group's contractual counterparties may not fulfil their payment obligations, as well as the possibility that Group companies may, based on incomplete, untrue or incorrect information, grant credit that otherwise would not have been granted or that would have been granted under different conditions.

Other banking activities, besides the traditional lending and deposit activities, can also expose the Group to credit risks. "Non-traditional" credit risk can, for example, arise from: (i) entering derivative contracts; (ii) buying and selling securities currencies or goods; and (iii) holding third-party securities. The counterparties of said transactions or the issuers of securities held by Group entities could fail to comply due to insolvency, political or economic events, a lack of liquidity, operating deficiencies, or other reasons.

The Group has adopted procedures, rules and principles aimed at monitoring and managing credit risk at both individual counterparty and portfolio level. However, there is the risk that, despite these credit risk monitoring and management activities, the Group's credit exposure may exceed predetermined risk's levels pursuant to the procedures, rules and principles it has adopted. The importance of reducing the ratio of non-performing loans to total loans has been stressed on several occasions by the supervisory authorities, both publicly and within the ongoing dialogue with the Italian banks and, therefore, with the UniCredit Group.

Liquidity Risk: The main indicators used by the UniCredit Group to assess its liquidity profile are (i) the Liquidity Coverage Ratio (LCR), which represents an indicator of short-term liquidity subject to a minimum regulatory requirement of 100% from 2018 and which was equal to 159% in September 2020, and (ii) the Net Stable Funding Ratio (NSFR), which represents the indicator of structural liquidity and which, on the same date, was above the internal limit set at 101.3% within the risk appetite framework. Liquidity risk refers to the possibility that the UniCredit Group may find itself unable to meet its current and future, anticipated and unforeseen cash payment and delivery obligations without impairing its day-to-day operations or financial position. The activity of the UniCredit Group is subject in particular to funding liquidity risk, market liquidity risk, mismatch risk and contingency risk. The most relevant risks that the Group may face are: i) an exceptionally high usage of the committed and uncommitted lines granted to corporate customers; ii) the capacity to roll over the expiring wholesale funding and the potential cash or collateral outflows the Group may suffer in case of rating downgrades of both the banks or the sovereign debt in the geographies in which it operates. In addition to this, some risks may arise from the limitations applied to the cross-border lending among banks, which have been increased in some countries. Due to the financial market crisis, followed also by the reduced liquidity available to operators in the sector, the ECB has implemented important interventions in monetary policy, such as the "Targeted Longer-Term Refinancing Operation" ("TLTRO") introduced in 2014 and the TLTRO II introduced in 2016. In March 2019 ECB announced a new series of quarterly targeted longer-term refinancing operations (TLTRO-III) to be launched in September 2019 to March 2021, each with a maturity of two years, recently shifted by an additional year. On March 2020 new long term refinancing operations (LTROs) were announced to provide a bridge until the TLTRO III window in June 2020 and ensure liquidity and regular money market conditions. These measures were integrated with temporary collateral easing measures. It is not possible to predict the duration and the amounts with which these liquidity support operations can be repeated in the future, with the result that it is not possible to exclude a reduction or even the cancellation of this support. This would result in the need for banks to seek alternative sources of borrowing, without ruling out the difficulties of obtaining such alternative funding as well as the risk that the related costs could be higher. Such a situation could therefore adversely affect UniCredit's business, operating results and the economic and financial position of UniCredit and / or the Group.

Basel III and Bank Capital Adequacy: The Issuer shall comply with the revised global regulatory standards ("Basel III") on bank capital adequacy and liquidity, which impose requirements for, inter alia, higher and better-quality capital, better risk coverage, measures to promote the build-up of capital that can be drawn down in periods of stress and the introduction of a leverage ratio as a backstop to the risk-based requirement as well as two global liquidity standards. In terms of banking prudential regulations, the Issuer is also subject to the Bank Recovery and Resolution Directive 2014/59/EU of 15 May 2014 ("BRRD", implemented in Italy with the Legislative Decree. 180 and 181 of 16 November 2015) on the recovery and resolution of credit institutions, as well as the relevant technical standards and guidelines from EU regulatory bodies (for example the European Banking Authority (EBA) and the European Securities and Markets Authority (ESMA)), which, inter alia, provide for capital requirements for credit institutions, recovery and resolution mechanisms.

Should UniCredit not be able to meet the capital requirements imposed by the applicable laws and regulations, it may be required to maintain higher levels of capital which could potentially impact its credit ratings, and funding conditions and which could limit UniCredit's growth opportunities.

Section 3 – Key information on the Securities

What are the main features of the Securities?

Product Type, Underlying and form of the Securities

Product Type: Garant Cash Collect Securities

Underlying: EURO 3 Month EURIBOR (the "Reference Rate")

The Securities are governed by Italian law. The Securities are debt instruments in dematerialized registered form pursuant to the Italian Consolidated Law on Financial Intermediation (*Testo Unico della Finanza*). The Securities will be represented by book entry and registered in the books of the Clearing System. The transfer of the Securities operates by registration on the relevant accounts opened in the Clearing System. The international securities identification number (ISIN) of the Securities is set out in Section 1.

Issuance and Nominal Amount

The Securities will be issued on 30 April 2021 in Euro (the "Specified Currency"), with a Nominal Amount of EUR 1,000 per Security.

General

The value of the Securities during their term depends mainly on the price of the Underlying. In principle, the value of the Securities rises if the price of the Underlying rises and falls if the price of the Underlying falls.

Interest

The Securities do not bear interest.

Additional Amount

- If with respect to an Observation Date (m) an Additional Conditional Amount Payment Event has occurred, an Additional Conditional Amount (m) is paid on the respective Additional Amount Payment Date (m).
- If with respect to an Observation Date (m) no Additional Conditional Amount Payment Event has occurred, no Additional Conditional Amount (m) is paid on the respective Additional Amount Payment Date (m).

An Additional Conditional Amount Payment Event occurs, if R (m) on an Observation Date (m) is equal to or greater than the respective Additional Amount Payment Level (m).

R (m) means the Reference Rate on the relevant Observation Date (m).

Additional Amount Payment Level (m):	-0.55% (1), -0.55% (2), -0.55% (3), -0.55% (4) and -0.55% (5)
Additional Conditional Amount (m):	EUR 4.00 (1), EUR 4.00 (2), EUR 4.00 (3), EUR 4.00 (4) and EUR 4.00 (5)
Additional Amount Payment Dates (m):	2 May 2022 (1), 2 May 2023 (2), 30 April 2024 (3), 30 April 2025 (4) and 30 April 2026 (5)
Observation Dates (m):	25 April 2022 (1), 24 April 2023 (2), 23 April 2024 (3), 23 April 2025 (4) and 23 April 2026 (5)

Redemption

Provided that no Conversion Event has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount.

At the Final Payment Date the Redemption Amount is equal to the Minimum Amount.

Additional definitions and product terms

Final Payment Date:	30 April 2026
Floor Level:	100%
Minimum Amount:	EUR 1,000

Conversion of the Securities by the Issuer: Upon the occurrence of one or more Conversion Events (e.g. the administrator of the Reference Rate ceases to calculate and publish the Underlying on a permanent basis or for an indefinite period of time and a suitable replacement reference rate is available) the Issuer may convert the Securities and redeem them on the Final Payment Date by payment of the Settlement Amount. The "**Settlement Amount**" is the market value of the Securities, with accrued interest for the period until the Final Payment Date at the market rate of interest being traded at such time for liabilities of the Issuer with the same remaining term as the Securities within ten Banking Days following the occurrence of the Conversion Event, as determined by the Calculation Agent. The Settlement Amount is in any case not less than the Minimum Amount.

Adjustments to the Terms and Conditions: In case of a Reference Rate Cessation Event (e.g. it becomes unlawful for the Issuer to use the Underlying) the Underlying will be replaced by an economically appropriate replacement reference rate. In addition, the calculation agent may, if necessary, make further adjustments to the terms and conditions of the Securities (e.g. the method of calculation or determination of the Additional Conditional Amount (m)).

Status of the Securities: The obligations of the Issuer under the Securities constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer, ranking (subject to any obligations preferred by any applicable law (also subject to the bail-in instruments as implemented under Italian law)) *pari passu* with all other unsecured obligations (other than obligations ranking junior to the senior notes from time to time (including non-preferred senior notes and any further obligations permitted by law to rank junior to the senior notes following the Issue Date), if any) of the Issuer, present and future and, in the case of the senior notes, *pari passu* and rateably without any preference among themselves.

Where will the Securities be traded?

Admission to trading: No application for the Securities to be admitted to trading on a regulated market has been made.

Listing: Application to trading will be made with effect from 7 May 2021 on the following multilateral trading facilities (MTF): EuroTLX managed by Borsa Italiana S.p.A.

UniCredit Bank AG (the "**Market Maker**") undertakes to provide liquidity in accordance with the market making rules of EuroTLX, where the Securities are expected to be traded. Moreover, the Market Maker undertakes to apply, in normal market conditions, a spread between bid and offer quotes not higher than 1.00%.

What are the key risks that are specific to the Securities?

Credit risk of the Issuer and risks in relation to resolution measures in relation to the Issuer: The Securities constitute unsecured obligations of the Issuer vis-a-vis the Security Holders. Any person who purchases the Securities therefore relies on the creditworthiness of the Issuer and has, in relation to his/her position under the Securities, no rights or claims against any other person. Security Holders are subject to the risk of a partial or total failure of the Issuer to fulfil obligations which the Issuer is liable to perform under the Securities in whole or in part, for example, in the event of the Issuer's insolvency. The worse the creditworthiness of the Issuer is the higher is the risk of a loss. In the case of realization of the credit risk of the Issuer the Security Holder may sustain a total loss of his/her capital, even if the Securities provide for a Minimum Amount at their maturity. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail. The obligations of the Issuer under the Securities are non-preferred and neither secured nor guaranteed by third parties or protected by any deposit protection or compensation scheme.

Risks related to market value-influencing factors: The market value of the Securities will be affected by a number of factors. These are *inter alia* the creditworthiness of the Issuer, the relevant prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability and, if applicable, the remaining term of the Securities as well as additional Underlying-related market value-influencing factors. The market value of the Securities as well as the amounts distributable under the Securities primarily depend on the price of the Underlying.

Risks related to the Redemption Amount: The Securities will be redeemed at their maturity at the Redemption Amount. The Redemption Amount may be less than the Issue Price or the Purchase Price. This means, the Security Holder only achieves a return if the Redemption Amount, exceeds the individual Purchase Price of the Security Holder. Potential return from the Securities is limited in contrast to a direct investment in the Underlying. A participation in a favourable performance of the Underlying beyond the Maximum Amount is excluded.

Risks arising from missing ongoing payments: Any Additional Conditional Amount (m) will only be payable if an Additional Conditional Amount Payment Event occurs with respect to an Observation Date (m). If an Additional Conditional Amount Payment Event does not occur, the security holder is not entitled to receive the respective Additional Conditional Amount (m). There is the risk, that in case of an unfavourable performance of the Underlying no payment of any Additional Conditional Amount (m) may occur.

Risks related to the regulation of benchmarks: The Securities make reference to a Benchmark (the "**Benchmark**") within the meaning of Regulation (EU) 2016/1011 (the "**Benchmark Regulation**") and therefore there is a risk that the Benchmark may not be used as reference value of the Securities from a certain point in time. In such event, the Securities could be de-listed, adjusted, redeemed prior to maturity or otherwise impacted. Any changes to a Benchmark as a result of the Benchmark Regulation could have a material adverse effect on the costs of refinancing a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with the Benchmark Regulation. Potential investors should be aware that they face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value of and the amount payable under the Securities.

Risks related to reference rates: Reference rates may be subject to significant fluctuations due to multiple factors such as changes in market interest rates, measures taken by central banks, fiscal inventions, as well as macro-economic or political influences. The publication of reference rates may be discontinued, in particular due to regulatory requirements. Changes, errors or manipulation in the calculation of a reference rate may have a material adverse effect for the Security Holder.

Risks related to potential conflicts of interests: Conflicts of interest in relation to the relevant Issuer or the persons entrusted with the offer may arise, which may result in a decision to the Security Holder's disadvantage.

Liquidity risk: There is a risk that the Securities may not be widely distributed and no active trading market (the "**Secondary Market**") may exist and may develop for the Securities. The Issuer may, but is not obliged to, purchase Securities at any time and at any price in the open market, by tender offer or private agreement. Any Securities purchased in this way by the Issuer may be held, resold or cancelled. A repurchase of Securities by the Issuer may adversely affect the liquidity of the Securities. The Issuer cannot therefore assure that a Security Holder will be able to sell his Securities at an adequate price prior to their redemption.

Quali sono i principali rischi specifici dell'Emittente?

I potenziali investitori devono essere consapevoli che, qualora si verifichi uno dei seguenti fattori di rischio, il valore dei Titoli potrebbe ridursi con la conseguente perdita totale del capitale investito.

I seguenti rischi sono i principali rischi specifici dell'Emittente:

Rischi connessi all'impatto delle attuali incertezze del contesto macroeconomico e alle conseguenze derivanti dalla diffusione della pandemia da COVID-19: L'andamento del Gruppo UniCredit è influenzato dai mercati finanziari e dal contesto macroeconomico e politico dei Paesi in cui opera. Le aspettative sull'andamento dell'economia globale rimangono molto incerte sia nel breve che nel medio termine. Pertanto, sussiste il rischio che l'evoluzione del contesto macroeconomico possa produrre effetti negativi sulla situazione patrimoniale, economica e finanziaria, nonché sul merito di credito dell'Emittente e/o del Gruppo. Si segnala che sullo scenario macroeconomico nazionale ed internazionale incidono i rischi derivanti dalla diffusione della forma di polmonite virale denominata "Coronavirus" (COVID-19) e che, allo stato attuale, si evidenziano le conseguenze negative legate al diffondersi di tale virus sull'attività economica internazionale e domestica, con inevitabili riflessi sull'andamento del Gruppo.

L'attuale quadro - fortemente condizionato anche dalle connesse misure di restrizione - è caratterizzato da elementi di elevata incertezza, riferiti sia alla situazione generale, che in particolare al mercato delle esposizioni deteriorate. In tale ambito rileva in particolare la possibilità che il rallentamento dell'economia determini un deterioramento della qualità del portafoglio creditizio, con conseguente incremento dell'incidenza dei crediti non performing e necessità di aumentare gli accantonamenti che saranno spesati sul conto economico. Si segnala che il Gruppo ha registrato una riduzione dei ricavi rispetto a quanto conseguito nel corrispondente periodo del 2019, nonostante un miglioramento della performance commerciale nelle ultime fasi del secondo trimestre 2020, grazie all'uscita dal lockdown della maggior parte dei suoi principali mercati, proseguito anche nel terzo trimestre.

A seguito dell'esteso lockdown, il Gruppo ha effettuato rettifiche su crediti addizionali pari ad Euro 741 mln nel 3trim20 (-21,0 per cento trim/trim), di cui Euro 431 mln di rettifiche su crediti specifiche che riflettono il rischio di credito in Italia caratterizzato dall'estensione dei termini delle moratorie sui prestiti (con prestiti alle PMI estesi fino a gennaio dell'anno prossimo) e un iniziale deterioramento creditizio nei paesi CEE legato alle scadenze delle moratorie in essere, e Euro 305 mln di rettifiche su crediti al fine di incrementare il livello di coperture forward-looking per riflettere l'impatto economico di Covid-19 sul portafoglio, ed Euro 4 mln di impatti regolamentari legati all'introduzione di nuovi modelli o aggiornamento di quelli esistenti.

Le rettifiche nette su crediti e su accantonamenti per garanzie e impegni del Gruppo ammontano nei primi nove mesi del 2020 ad Euro 2.938 milioni.

Anche in conseguenza di un contesto economico-finanziario deteriorato dalla crisi indotta da Covid-19, il Gruppo ha registrato nei primi nove mesi del 2020 una perdita netta pari a 1.606 milioni, rispetto all'utile di 4.208 milioni conseguito nei primi nove mesi del 2019.

Si è registrata una riduzione nei ricavi del 7,4 per cento a/a sebbene le migliorate condizioni economiche in tutta l'Europa occidentale hanno determinato nel terzo trimestre una crescita dell'attività della clientela e supportato i ricavi in rialzo del 4,4 per cento trim/trim.

Infine, tenendo in considerazione le stime riviste sul costo del rischio risulta che, in relazione al 2020 e al 2021, gli obiettivi finanziari di Team 23 non possano essere considerati più attuali, pur confermando le priorità strategiche comunicate lo scorso dicembre 2019. Si tenga presente però che, l'attuale quadro di forte incertezza e volatilità, non permette ancora di procedere ad una valutazione finale complessiva degli impatti sugli obiettivi di Piano a medio-lungo termine per determinare se anche questi ultimi siano ancora attuali o come siano impattati, analisi che verranno finalizzate nei prossimi mesi. In particolare, lo scenario attuale risente di un elevato grado d'incertezza il cui esito non è al momento prevedibile e che potrebbe richiedere cambiamenti nelle valutazioni già effettuate, in funzione dell'evoluzione della pandemia, dell'effetto delle misure di soccorso attuate e della modalità di ripresa economica. Tali fattori influenzeranno la redditività del Gruppo e i parametri, quali i tassi di sconto, utilizzati per valutare le attività del Gruppo. In aggiunta, alla luce dell'elevata incertezza del contesto, un aggiornamento del piano strategico Team 23 che rifletta le attuali condizioni sarà presentato al Capital Markets Day che si terrà nel corso del primo semestre 2021. Conseguentemente, le valutazioni inerenti all'avviamento, alle partecipazioni in società collegate e alle imposte differite attive, il cui valore recuperabile dipende dalle proiezioni di flussi di cassa, potranno essere soggetti a cambiamenti al momento non prevedibili e dai quali potrebbero derivare possibili impatti negativi, anche significativi, sulla situazione patrimoniale ed economica della Banca.

Rischi connessi al Piano Strategico 2020 – 2023: In data 3 dicembre 2019, a seguito della finalizzazione del Piano Strategico 2016-2019, UniCredit ha presentato alla comunità finanziaria a Londra il nuovo Piano Strategico 2020-2023 denominato "Team 23" (il "Piano Strategico" o "Piano" o "Team 23"). Il Piano Strategico contiene determinati obiettivi strategici, di capitale e finanziari (gli "Obiettivi di Piano") basati su quattro pilastri. Tali obiettivi strategici riguardano il miglioramento del costo del rischio, la riduzione del rapporto tra crediti deteriorati lordi e totale crediti, mantenimento di un adeguato buffer di capitale per tutto l'arco del Piano nonché obiettivi in termini di utile netto sottostante e di distribuzione del capitale. I quattro pilastri sono: (i) aumento e rafforzamento della base di clienti; (ii) trasformazione e massimizzazione della produttività; (iii) gestione disciplinata del rischio & controlli; (iv) gestione del capitale e del bilancio. La capacità di UniCredit di rispettare gli Obiettivi di Piano dipende da numerose assunzioni e circostanze, alcune delle quali si trovano al di fuori del controllo dell'Emittente, quali ipotesi concernenti lo scenario macroeconomico nel quale il Gruppo opera e l'evoluzione del contesto regolamentare, nonché assunzioni ipotetiche relative agli effetti di azioni specifiche o concernenti eventi futuri su cui l'Emittente può solo parzialmente influire/gestire. Le ipotesi concernenti lo scenario macroeconomico e l'evoluzione del contesto regolamentare, nonché le assunzioni ipotetiche poste a fondamento del Piano sono state formulate precedentemente all'adozione delle misure restrittive collegate alla diffusione del COVID-19 su tutto il territorio nazionale e, pertanto, in un contesto macroeconomico diverso da quello determinatosi dopo l'entrata in vigore dei provvedimenti restrittivi ("lockdown") conseguenti la diffusione della pandemia. I risultati dell'esercizio in corso, e potenzialmente quelli degli anni successivi, potrebbero infatti essere ragionevolmente influenzati dalle dinamiche del COVID-19, non prevedibili alla data di presentazione del Piano Strategico e ancora ad oggi incerte. Tenendo in considerazione le stime riviste sul costo del rischio risulta che, in relazione al 2020 e al 2021, gli obiettivi finanziari di Team 23 non possano essere considerati più attuali, pur confermando le priorità strategiche comunicate lo scorso dicembre 2019. Alla luce dell'elevata incertezza del contesto, un aggiornamento del piano strategico Team 23 che rifletta le attuali condizioni sarà presentato al Capital Markets

Day che si terrà nel corso del primo semestre 2021. Per le sopra esposte ragioni, gli investitori sono invitati a non fondare le proprie scelte di investimento esclusivamente sulle previsioni incluse tra gli Obiettivi di Piano. L'eventuale mancato raggiungimento degli Obiettivi di Piano potrebbe avere effetti negativi, anche significativi, sull'attività di UniCredit, sulla condizione finanziaria o sui risultati operativi.

Rischio di credito e di deterioramento della qualità del credito: L'attività, la solidità economica, patrimoniale e finanziaria e la profittabilità del Gruppo UniCredit dipendono, tra l'altro, dal merito di credito dei propri clienti. Nello svolgimento della propria attività creditizia il Gruppo è esposto al rischio che un inatteso cambiamento del merito creditizio di una controparte possa generare un corrispondente cambiamento del valore dell'associata esposizione creditizia e dare luogo a cancellazione parziale o totale della stessa. A seguito dell'epidemia di COVID-19 non si può escludere che la qualità del credito per quest'anno possa essere influenzata da potenziali impatti non ancora quantificabili. In tale ambito rileva in particolare la possibilità che il rallentamento dell'economia determini un deterioramento della qualità del portafoglio creditizio, con conseguente incremento dell'incidenza dei crediti non performing e necessità di aumentare gli accantonamenti che saranno spesi sul conto economico.

A seguito dell'esteso lockdown, il Gruppo ha effettuato rettifiche su crediti addizionali pari ad Euro 741 mln nel 3trim20 (-21,0 per cento trim/trim), di cui Euro 431 mln di rettifiche su crediti specifiche che riflettono il rischio di credito in Italia caratterizzato dall'estensione dei termini delle moratorie sui prestiti (con prestiti alle PMI estesi fino a gennaio dell'anno prossimo) e un iniziale deterioramento creditizio nei paesi CEE legato alle scadenze delle moratorie in essere, e Euro 305 mln di rettifiche su crediti al fine di incrementare il livello di coperture forward-looking per riflettere l'impatto economico di Covid-19 sul portafoglio, ed Euro 4 mln di impatti regolamentari legati all'introduzione di nuovi modelli o aggiornamento di quelli esistenti.

Le rettifiche nette su crediti e su accantonamenti per garanzie e impegni del Gruppo ammontano nei primi nove mesi del 2020 ad Euro 2.938 milioni.

Nell'ambito dell'attività creditizia tale rischio si sostanzia, tra l'altro, nella possibilità che le proprie controparti contrattuali non adempiano alle proprie obbligazioni di pagamento nonché nella circostanza che le società del Gruppo concedano, sulla base di informazioni incomplete, non veritiere o non corrette, credito che altrimenti non avrebbero concesso o che comunque avrebbero concesso a differenti condizioni.

Anche altre attività bancarie, al di fuori di quelle tradizionali di raccolta ed erogazione, possono esporre il Gruppo a rischi di credito. Il rischio di credito "non tradizionale" può, per esempio, derivare da: (i) sottoscrizione di contratti in derivati; (ii) compravendite di titoli, valute o merci; e (iii) detenzione di titoli di terzi. Le controparti di tali transazioni o gli emittenti di titoli detenuti da entità del Gruppo, potrebbero risultare inadempienti a causa di insolvenza, eventi politici ed economici, mancanza di liquidità, deficienza operativa o per altre ragioni.

Il Gruppo si è dotato di procedure e principi finalizzati al monitoraggio ed alla gestione del rischio di credito a livello di singole controparti e di portafoglio complessivo. Tuttavia, sussiste il rischio che, pur in presenza di attività di monitoraggio e gestione del rischio di credito, l'esposizione creditizia del Gruppo ecceda i livelli di rischio predeterminati ai sensi delle procedure, delle regole e dei principi adottati. L'importanza di ridurre l'incidenza dei crediti deteriorati sul totale dei crediti è stata più volte sottolineata dalle autorità di vigilanza, sia pubblicamente che nell'ambito del dialogo in corso con le banche italiane e, quindi, con il Gruppo UniCredit.

Rischio di liquidità: I principali indicatori utilizzati dal Gruppo UniCredit per la valutazione del profilo di liquidità sono (i) il Liquidity Coverage Ratio (LCR) che rappresenta un indicatore di liquidità a breve termine soggetto ad un requisito minimo regolamentare pari al 100% dal 2018 e che a settembre 2020 era pari al 159%, e (ii) il Net Stable Funding Ratio (NSFR), che rappresenta l'indicatore di liquidità strutturale e che, alla stessa data, è stato superiore al limite interno di 101.3% fissato all'interno del risk appetite framework. Il rischio di liquidità identifica l'eventualità che il Gruppo UniCredit possa trovarsi nella condizione di non riuscire a far fronte agli impegni di pagamento (per cassa o per consegna) attuali e futuri, previsti o imprevisi senza pregiudicare l'operatività quotidiana o la propria condizione finanziaria. L'attività del Gruppo UniCredit, in particolare, è soggetta al rischio di liquidità nelle diverse dimensioni del funding liquidity risk, market liquidity risk, mismatch risk e contingency risk. I rischi più rilevanti a cui il Gruppo è esposto sono: i) un uso eccezionalmente alto delle linee di credito revocabili ed irrevocabili da parte delle imprese; ii) la capacità di rifinanziare il debito istituzionale in scadenza ed i potenziali flussi di cassa o di beni in garanzia in uscita che il Gruppo potrebbe fronteggiare in caso di riduzione del rating delle banche o del debito sovrano delle geografie in cui il Gruppo opera. Inoltre, alcuni rischi possono emergere dai limiti applicati ai prestiti tra banche appartenenti a Paesi diversi e già inaspriti in alcuni Paesi. A causa della crisi dei mercati finanziari, determinata anche dalla ridotta liquidità a disposizione degli operatori del settore, la Banca Centrale Europea ha posto in essere importanti interventi di politica monetaria, come il "Targeted Longer-Term Refinancing Operation" ("TLTRO") introdotto nel 2014 e il TLTRO II introdotto nel 2016. A marzo 2019 la BCE ha annunciato un nuovo programma di rifinanziamento a lungo termine su base trimestrale (TLTRO III) accessibile a partire da settembre 2019 fino a marzo 2021, con una scadenza di ciascuna tranche fissata a 2 anni, recentemente spostata di un ulteriore anno. A marzo 2020 nuove operazioni di rifinanziamento a lungo termine (LTROs) sono state annunciate per fornire prestiti ponte fino alla finestra del TLTRO III a giugno 2020 ed assicurare liquidità e regolari condizioni di mercato monetario. Queste misure sono state integrate con misure temporanee di facilitazione nell'utilizzo delle garanzie. Non è possibile prevedere la durata e l'intensità con cui tali operazioni di sostegno alla liquidità potranno essere riproposte in futuro, con la conseguenza che non è possibile escludere una riduzione, o persino un annullamento di tali supporti. Ciò determinerebbe la necessità per le banche di cercare fonti di provvista alternative, senza escludere la difficoltà di ottenere tali finanziamenti alternativi e il rischio che i relativi costi siano più elevati. La situazione descritta potrebbe quindi incidere negativamente sull'attività, sui risultati operativi e sulla situazione economica e finanziaria dell'Emittente e/o del Gruppo.

Basilea III e Adeguatezza Patrimoniale delle Banche: L'Emittente è tenuto al rispetto degli standard globali di regolamentazione ("Basilea III") sull'adeguatezza patrimoniale e la liquidità delle banche, che impongono, inter alia, requisiti per un capitale più elevato e di migliore qualità, una migliore copertura dei rischi, misure volte a promuovere l'accumulo di capitale che può essere utilizzato in periodi di stress, e l'introduzione di un indice di leva finanziaria che funge da freno al requisito basato sul rischio, nonché due standard globali di liquidità. In materia di normativa prudenziale bancaria, l'Emittente è sottoposto anche alla Direttiva 2014/59/UE del 15 maggio 2014 ("Bank Recovery and Resolution Directive", la "BRRD", recepita in Italia con i D.Lgs. 180 e 181 del 16 novembre 2015) in materia di risanamento e risoluzione della crisi delle banche, nonché alle norme tecniche attinenti e alle linee guida emanate dagli organismi di regolamentazione dell'Unione (i.e. l'Autorità bancaria europea (EBA) e l'Autorità europea degli strumenti finanziari e dei mercati (ESMA)) che prevedono, inter alia, requisiti patrimoniali per gli istituti di credito e meccanismi di risoluzione e risanamento.

Qualora UniCredit non fosse in grado di rispettare i requisiti patrimoniali imposti dalla normativa applicabile, potrebbe essere tenuta a mantenere livelli di capitale più elevati che potrebbero avere un impatto potenziale sui rating e sulle condizioni di finanziamento e che potrebbero limitare le opportunità di crescita di UniCredit.

Sezione 3 – Informazioni fondamentali sui Titoli

Quali sono le principali caratteristiche dei Titoli?

Tipologia di Prodotto, Sottostante e forma dei Titoli

Conversione dei Titoli da parte dell'Emittente: Al verificarsi di uno o più Eventi di Conversione (ad es. l'amministratore del Tasso di Riferimento smette di calcolare e pubblicare il Sottostante in modo permanente o per un periodo di tempo indeterminato e non è disponibile un tasso di riferimento sostitutivo) l'Emittente può convertire i Titoli e rimborsarli alla Data di Pagamento Finale mediante il pagamento dell'Importo di Regolamento. L'"**Importo di Regolamento**" è pari al valore di mercato dei Titoli, maggiorato degli interessi maturati per il periodo che va fino alla Data di Pagamento Finale al tasso di mercato a cui sono negoziate in tale momento le passività dell'Emittente con la stessa durata residua dei Titoli, entro il decimo Giorno Lavorativo successivo al verificarsi dell'Evento di Conversione, come determinato dall'Agente di Calcolo. L'Importo di Regolamento in ogni caso non potrà essere inferiore all'Importo Minimo.

Rettifiche dei Termini e delle Condizioni dei Titoli: Nell'ipotesi di un Evento di Cessazione del Tasso di Riferimento (ad es. diventa illecito per l'Emittente utilizzare il Sottostante) il Sottostante sarà sostituito da un tasso di riferimento sostitutivo economicamente adeguato. Inoltre, l'agente di calcolo può, se necessario, apportare ulteriori rettifiche ai termini e alle condizioni dei Titoli (ad es. il metodo di calcolo o la determinazione dell'Importo Condizionato Aggiuntivo (m)).

Stato dei Titoli: Gli obblighi dell'Emittente derivanti dai Titoli costituiscono obbligazioni dirette, incondizionate, non subordinate e non garantite dell'Emittente, avranno pari priorità nell'ordine dei pagamenti (fatte salve le obbligazioni privilegiate da qualsiasi legge applicabile (anche soggette allo strumento del *bail-in*, come implementato ai sensi della legge italiana)) rispetto a tutte le altre obbligazioni non garantite dell'Emittente e ad ogni altro obbligo presente e futuro, non garantito e non subordinato, dell'Emittente (salvo, quando previsto, le obbligazioni *junior* rispetto alle obbligazioni *senior* (incluse le obbligazioni *senior* non privilegiate e le eventuali ulteriori obbligazioni *junior*, rispetto a obbligazioni *senior*, consentite dalla legge successivamente alla Data di Emissione), ove previste).

Dove saranno negoziati i Titoli?

Ammissione alla negoziazione: Non è stata presentata l'istanza per l'ammissione a negoziazione dei Titoli presso un mercato regolamentato.

Quotazione: Sarà presentata istanza per l'ammissione a quotazione dei Titoli con efficacia dal 7 Maggio 2021, presso i seguenti sistemi multilaterali di negoziazione (MTF): EuroTLX gestito da Borsa Italiana S.p.A.

UniCredit Bank AG (il "**Market Maker**") si impegna a fornire liquidità in conformità alle norme sul *market making* di EuroTLX, dove ci si attende che i Titoli saranno negoziati. Inoltre, il Market Maker si impegna ad applicare, in condizioni normali di mercato, uno spread tra le quotazioni denaro e lettera non superiore all'1%.

Quali sono i principali rischi specifici dei Titoli?

Rischio di Credito dell'Emittente e rischi relativi alle misure di risoluzione che riguardano l'Emittente: I Titoli costituiscono obbligazioni non garantite dell'Emittente nei confronti dei Titolari. Pertanto, chiunque li acquisti è soggetto al merito creditizio dell'Emittente e non ha, in relazione alla

propria posizione nell'ambito dei Titoli, alcun diritto o pretesa nei confronti di qualsiasi altra persona. I Titolari sono sottoposti al rischio di una parziale o totale inadempimento dell'Emittente per gli obblighi che il medesimo è tenuto ad adempiere in tutto o in parte ai sensi dei Titoli, ad esempio in caso di insolvenza. Peggiora è la solvibilità dell'Emittente, maggiore è il rischio di perdita. Qualora il rischio di credito dell'Emittente si realizzi, il Titolare può subire una perdita totale del proprio capitale, anche se i Titoli prevedono un Importo Minimo alla loro scadenza. Inoltre, i Titolari possono essere soggetti a misure di risoluzione nei confronti dell'Emittente qualora il medesimo è in fallimento o a rischio di fallimento. Gli obblighi dell'Emittente ai sensi dei Titoli non sono privilegiati e non sono garantiti, né garantiti da terzi o protetti da alcun sistema di protezione dei depositi o di compensazione.

Rischi correlati a fattori che influenzano il valore di mercato: Il valore di mercato dei Titoli sarà condizionato da una serie di fattori. Questi sono, *inter alia*, il merito creditizio dell'Emittente, i relativi tassi di interesse e di rendimento prevalenti, il mercato per titoli simili, le condizioni economiche generali, politiche e cicliche, la negoziabilità e, se del caso, la durata residua dei Titoli nonché ulteriori fattori relativi al Sottostante che influenzano il valore di mercato. Tanto il valore di mercato quanto gli importi pagabili ai sensi dei Titoli dipendono principalmente dal prezzo del Sottostante.

Rischi correlati all'Importo di Rimborso: I Titoli saranno rimborsati alla loro scadenza all'Importo di Rimborso. L'Importo di Rimborso potrebbe essere inferiore al Prezzo di Emissione o al Prezzo di Acquisto. Ciò significa che il Titolare otterrà un rendimento solo se l'Importo di Rimborso sia superiore allo specifico Prezzo di Acquisto pagato dal Titolare. Il rendimento potenziale dei Titoli è limitato rispetto ad un investimento diretto nel Sottostante. È esclusa la partecipazione ad una performance favorevole del Sottostante oltre l'Importo Massimo.

Rischi derivanti dal mancato pagamento di importi nel corso della durata dei Titoli: Qualsiasi Importo Condizionato Aggiuntivo (m) sarà pagabile solo se si verifica un Evento di Pagamento dell'Importo Condizionato Aggiuntivo in una Data di Osservazione (m). Se un Evento di Pagamento dell'Importo Condizionato Aggiuntivo non si verifica, il Titolare non ha diritto a ricevere il rispettivo Importo Condizionato Aggiuntivo (m). Vi è il rischio che in caso di andamento sfavorevole del Sottostante non si verifichi il pagamento di alcun Importo Condizionato Aggiuntivo (m).

Rischi legati alla disciplina degli indici di riferimento: I Titoli fanno riferimento a un Indice di Riferimento (*Benchmark*) (l'"Indice di Riferimento") come definito ai sensi del Regolamento (UE) 2016/1011 (il "**Regolamento Benchmark**") e pertanto sussiste il rischio che, a partire da una determinata data, l'Indice di Riferimento non possa più essere utilizzato come parametro di riferimento dei Titoli. In tal caso, i Titoli potrebbero essere rimossi dalla quotazione, rettificati, rimborsati prima della scadenza o comunque influenzati. Qualsiasi modifica ad un Indice di Riferimento derivante dal Regolamento Benchmark potrebbe determinare un sostanziale effetto negativo sui costi di rifinanziamento di un Indice di Riferimento o sui costi e rischi di amministrazione o comunque di partecipazione alla definizione di un Indice di Riferimento e di adempimento del Regolamento Benchmark. I potenziali investitori dovrebbero considerare il rischio che eventuali modifiche al relativo Indice di Riferimento potrebbero avere un sostanziale effetto negativo sul valore e sugli importi dovuti ai sensi dei Titoli.

Rischi legati ai tassi di riferimento: I tassi di riferimento possono essere soggetti a fluttuazioni significative a causa di molteplici fattori quali le variazioni dei tassi di interesse di mercato, le misure adottate dalle banche centrali, gli interventi fiscali, nonché a influenze macroeconomiche o politiche. La pubblicazione dei tassi di riferimento può essere interrotta, in particolare a causa di requisiti regolamentari. Modifiche, errori o manipolazioni nel calcolo di un tasso di riferimento possono avere un effetto negativo rilevante per il Titolare.

Rischi legati a potenziali conflitti di interesse: Possono insorgere conflitti di interesse relativi all'Emittente o ai soggetti incaricati dell'offerta che possono determinare decisioni svantaggiose per i Titolari dei Titoli.

Rischio di liquidità: Sussiste un rischio che i Titoli non siano ampiamente distribuiti e che non esista un mercato attivo di negoziazione (il "**Mercato Secondario**") che possa evolversi per i Titoli. L'Emittente può, ma non è obbligato, acquistare i Titoli in qualsiasi momento e a qualsiasi prezzo sul mercato aperto, mediante offerta pubblica di acquisto o contratto privato. I Titoli acquistati in questo modo dall'Emittente possono essere detenuti, rivenduti o cancellati. Un riacquisto dei Titoli da parte dell'Emittente può influire negativamente sulla liquidità dei medesimi. L'Emittente non può assicurare che un Titolare sarà in grado di vendere i propri Titoli ad un prezzo adeguato prima del loro rimborso.
