Any adjustment will be performed taking into consideration any adjustments made by the Determining Futures Exchange; to the there traded Derivatives linked to the respective Basket Component;, and the remaining term of the Securities as well as the latest available price of the respective Basket Component;. If the Calculation Agent determines that, pursuant to the rules of the respective Determining Futures Exchange;, no adjustments were made to the Derivatives linked to the respective Basket Component;, the Terms and Conditions of these Securities regularly remain unchanged. - (b) replace the respective Basket Component in whole or in part by an economically equal Basket Component, determined acting in accordance with relevant market practice and in good faith (if applicable by adjusting the weighting of the Basket Components then present in the Basket) (the "**Successor Basket Component**"). In such case, the Successor Basket Component will be deemed to be the Basket Component and each reference in these Terms and Conditions to the Basket Component will be deemed to refer to the Successor Basket Component.

What are the key risks that are specific to the Issuer?

Potential investors should be aware that in the case of the occurrence of one of the below mentioned risk factors the Securities may decline in value and that they may sustain a total loss of their investment.

The following risks are key risks specific to the Issuer:

Risks associated with the impact of current macroeconomic uncertainties and the effects of the COVID-19 pandemic outbreak:

The UniCredit Group's performance is affected by the financial markets and the macroeconomic and political environment of the countries in which it operates. Expectations regarding the performance of the global economy remain uncertain in both the short term and medium term. Therefore, there is a risk that changes in the macroeconomic environment may have adverse effects on the financial and economic situation as well as on the creditworthiness of the Issuer and/or the Group. It should be noted that the national and international macroeconomic environment is subject to the risks arising from the outbreak of the viral pneumonia known as "Coronavirus" (COVID-19) and that, currently, the negative effects of this virus on international and domestic economic activities are evident, thus having an inevitable impact on the performance of the Group.

From the main effects of COVID-19 observed impacting on UniCredit performance in 2020, important to be noticed are the following: (i) negative impacts on the retail loans demand and on the corporate loans interest rates, even following the facilitation of loans with state guarantees, with resulting decrease on the interest margin; about the customer loans moratorium, they didn't significantly affect the interest margin; (ii) decreases of the commissions, in all service areas; (iii) additional costs, specifically for devices and equipment needed for the employee's protection and for a massive transfer to a remote way of working (smart working); (iv) worsening of the cost of risk because of higher provisions on loans. The current environment continues to be characterised by highly uncertain elements, with the possibility that the slowdown of the economy, jointly with the termination of the safeguard measures, such as the customer loans moratorium, generate a worsening of the loan portfolio quality, followed by an increase of the non-performing loans and the necessity to increase the provisions to be charged to the income statement.

It should be noted that the Group registered a decrease in revenues compared to the corresponding period of 2019, reflecting the extended COVID-19 related restrictions present in all geographies, down 9.0% Y/Y, to Euro 17.1 billion in FY20 with a decrease in all revenue line items. In 1Q21 the Group delivered revenues of Euro 4.7 billion, up 10.6 per cent Q/Q and up 7.1 per cent Y/Y.

The Group realized Loan Loss Provisions (LLPs) totaled Euro 4,996 million in Financial Year 2020 (FY20) (+47.7 per cent FY/FY) of which Euro 2,220 million were specific LLPs, and Euro 2,203 million were overlays on LLP increasing the forward-looking coverage to reflect COVID-19 economic impact on the portfolio, and Euro 572 million on regulatory impacts stemming from the introduction of new models or updating of the existing ones and from the quantification of the evaluative effects correlated to the new European rules on to the classification of the default clients (new Definition of Default).

In 1Q21, the Group realized Loan Loss Provisions totaled Euro 167 million (-86,7 per cent Y/Y) of which Euro 204 million were specific LLPs, and - Euro 37 million were write-backs overlays on loans updating the forward-looking coverage to reflect COVID-19 economic impact on the portfolio.

The Group stated in 2020 a net loss of Euro 2,785 million, compared with the Euro 3,373 million of net profit achieved in 2019, mainly driven by Yapi deconsolidation, integration costs in Italy and CIB goodwill impairment, in addition to the financial-economic context deteriorated by the COVID-19 crisis. The Group delivered underlying net profit of Euro 1.264 billion for FY20, decreasing compared to the underlying net profit of Euro 4.675 billion delivered for FY19 and in 1Q21 the Group delivered an underlying net profit of Euro 0.9 billion thanks to a rebound in revenues, despite the ongoing impact of lockdowns on client activity in the quarter, as well as to a lower cost of risk.

Finally, taking into account the deteriorated conditions of the macroeconomic context and the following adjustments to the revised estimates of the cost of risk, it results that the financial objectives of Team 23 for 2021 are no longer considered relevant, although the strategic priorities communicated last December 2019 have been confirmed. It should be noted that, due to the current framework of high uncertainty and volatility, it is not currently possible to make an overall final assessment of the impacts on the medium/long-term Plan objectives in order to determine whether they are still relevant or how they are impacted, analyses that will be finalised over the next months. In particular, the current scenario is affected by a high degree of uncertainty whose outcome is not foreseeable at the moment and may require updates in evaluations already performed, in light of the evolution of the pandemic, on the effect of relief measures put in place and the shape of economic recovery.

These factors will affect the Group profitability and the parameters, such as discount rates, used for evaluating Group's assets. Furthermore, considering the high uncertainty of current context, an update in the strategic plan Team 23 that reflects current conditions will be presented during the second half 2021. As a result, the evaluation made for Investments in associates and Deferred Tax Assets, whose recoverable amount depends on cash flows projections, might be subject to a change not foreseeable at the moment and from which could derive possible negative effects, including significant ones, on the bank's financial and economic situation.

Risks connected with the Strategic Plan 2020 – 2023:

On 3 December 2019, following the completion of the 2016-2019 Strategic Plan, UniCredit presented to the financial community in London the 2020-2023 Strategic Plan called "Team 23" (the Strategic Plan or Plan or Team 23). The Strategic Plan contains determined strategic, capital and financial objectives (collectively, the Strategic Objectives) based on four pillars. Such Strategic Objectives focus on improving the cost of risk, reducing the gross NPE ratio, maintaining an appropriate capital buffer throughout the Plan as well as objectives in terms of underlying net profit and capital distribution. The four pillars are: (i) growth and strengthen client franchise; (ii) transform and maximise productivity; (iii) disciplined risk management & controls; and (iv) capital and balance sheet management. UniCredit's ability to meet the Strategic Objectives depends on a number of assumptions and circumstances, some of which are outside UniCredit's control, including those relating to developments in the macroeconomic environment in which our Group operates, developments in applicable laws and regulations and assumptions related to the effects of specific actions or future events which we can partially forecast/manage. The assumptions concerning the macroeconomic scenario and the development of the regulatory framework, as well as the hypothetical assumptions on which the Plan is based, were made prior to the adoption of the restrictive provisions related to the spread of COVID-19 throughout the countries and, therefore, in a macroeconomic environment different from that one determined next to the entry into force of the restrictive provisions ("lockdown") resulting from the pandemic. Indeed, whilst the 2020 financial results have been influenced by the pandemic, the financial results for this year and potentially subsequent years could be reasonably influenced by the dynamics of the COVID-19, which were not foreseeable at the date of the Strategic Plan presentation and which are still uncertain. Taking into account the revised estimates of the cost of risk, it results that the financial objectives of Team 23 for 2021 are no longer considered relevant, although the strategic priorities communicated last December 2019 have been confirmed. Given the high uncertainty of the environment, an update of Team 23 strategic plan will be run and presented to the markets in the Capital Markets Day in the second half of 2021 (the review of the Strategic Plan initiated following arrival of new Chief Executive Officer and Board of Directors).

For all these reasons, investors are cautioned against making their investment decisions based exclusively on the forecast data included in the Strategic Objectives. Any failure to implement the Strategic Objectives or meet the Strategic Objectives may have a material adverse effect on UniCredit's business, financial condition or results of operations.

Credit risk and risk of credit quality deterioration:

The activity, financial and capital strength and profitability of the UniCredit Group depend, among other things, on the creditworthiness of its customers. In carrying out its credit activities, the Group is exposed to the risk that an unexpected change in the creditworthiness of a counterparty may generate a corresponding change in the value of the associated credit exposure and give rise to the partial or total write-down thereof. Following the COVID-19 outbreak it cannot be excluded that, credit quality for this year could be influenced with potential impacts not yet quantifiable. From the main effects of COVID-19 observed impacting on UniCredit risk profile in 2020, it is important to notice the worsening of the cost of risk because of higher provisions on loans. The current environment continues to be characterised by highly uncertain elements, with the possibility that the slowdown of the economy, jointly with the termination of the safeguard measures, such as the customer loans moratorium, generate a worsening of the loan portfolio quality, followed by an increase of the non-performing loans and the necessity to increase the provisions to be charged to the income statement.

The Group realized LLPs totaled Euro 4,996 million in FY20 (+47.7 per cent FY/FY) of which Euro 2,220 million were specific LLPs, and Euro 2,203 million were overlays on LLP increasing the forward-looking coverage to reflect COVID-19 economic impact on the portfolio, and Euro 572 million on regulatory impacts stemming from the introduction of new models or updating of the existing ones and from the quantification of the evaluative effects correlated to the new European rules on to the classification of the default clients (new Definition of Default).

In 1Q21, the Group realized Loan Loss Provisions totaled Euro 167 million (-86.7 per cent Y/Y) of which Euro 204 million were specific LLPs, and - Euro 37 million were write-backs overlays on loans updating the forward-looking coverage to reflect COVID-19 economic impact on the portfolio.

In the context of credit activities, this risk involves, among other things, the possibility that the Group's contractual counterparties may not fulfil their payment obligations, as well as the possibility that Group companies may, based on incomplete, untrue or incorrect information, grant credit that otherwise would not have been granted or that would have been granted under different conditions.

Other banking activities, besides the traditional lending and deposit activities, can also expose the Group to credit risks. "Non-traditional" credit risk can, for example, arise from: (i) entering derivative contracts; (ii) buying and selling securities currencies or goods; and (iii) holding third-party securities. The counterparties of said transactions or the issuers of securities held by Group entities could fail to comply due to insolvency, political or economic events, a lack of liquidity, operating deficiencies, or other reasons.

The Group has adopted procedures, rules and principles aimed at monitoring and managing credit risk at both individual counterparty and portfolio level. However, there is the risk that, despite these credit risk monitoring and management activities, the Group's credit exposure may exceed predetermined risk's levels pursuant to the procedures, rules and principles it has adopted. The importance of reducing the ratio of non-performing loans to total loans has been stressed on several occasions by the supervisory authorities, both publicly and within the ongoing dialogue with the Italian banks and, therefore, with the UniCredit Group.

Liquidity Risk:

The main indicators used by the UniCredit Group to assess its liquidity profile are (i) the Liquidity Coverage Ratio (LCR), which represents an indicator of short-term liquidity subject to a minimum regulatory requirement of 100% from 2018 and which was equal to 180% in March 2021, whereas at 31 December 2020 was equal to 171% (calculated as the average of the 12 latest end of month ratios), and (ii) the Net Stable Funding Ratio (NSFR), which represents the indicator of structural liquidity and which in March 2021 was above the internal limit set at 102.5%, whereas at 31 December 2020 was above the internal limit set at 101.3% within the risk appetite framework. Liquidity risk refers to the possibility that the UniCredit Group may find itself unable to meet its current and future, anticipated and unforeseen cash payment and delivery obligations without impairing its day-to-day operations or financial position. The activity of the UniCredit Group is subject in particular to funding liquidity risk, market liquidity risk, mismatch risk and contingency risk. The most relevant risks that the Group may face are: i) an exceptionally high usage of the committed and uncommitted lines granted to corporate customers; ii) the capacity to roll over the expiring wholesale funding and the potential cash or collateral outflows the Group may suffer in case of rating downgrades of both the banks or the sovereign debt in the geographies in which it operates. In addition to this, some risks may arise from the limitations applied to the cross-border lending among banks, which have been increased in some countries. Due to the financial market crisis, followed also by the reduced liquidity available to operators in the sector, the ECB has implemented important interventions in monetary policy, such as the "Targeted Longer-Term Refinancing Operation" (TLTRO) introduced in 2014 and the TLTRO II introduced in 2016. In March 2019, the ECB announced a new series of quarterly targeted longer-term refinancing operations (TLTRO-III) to be launched in September 2019 to March 2021, each with a maturity of two years, recently shifted by an additional year. In March 2020 new long-term refinancing operations (LTROs) were announced to provide a bridge until the TLTRO III window in June 2020 and ensure liquidity and regular money market conditions. These measures were integrated with temporary collateral easing measures.

It is not possible to predict the duration and the amounts with which these liquidity support operations can be repeated in the future, with the result that it is not possible to exclude a reduction or even the cancellation of this support. This would result in the need for banks to seek alternative sources of borrowing, without ruling out the difficulties of obtaining such alternative funding as well as the risk that the related costs could be higher. Such a situation could therefore adversely affect UniCredit's business, operating results and the economic and financial position of UniCredit and/or the Group.

Basel III and Bank Capital Adequacy: Basel III and Bank Capital Adequacy:

The Issuer shall comply with the revised global regulatory standards (Basel III) on bank capital adequacy and liquidity, which impose requirements for, inter alia, higher and better-quality capital, better risk coverage, measures to promote the build-up of capital that can be drawn down in periods of stress and the introduction of a leverage ratio as a backstop to the risk-based requirement as well as two global liquidity standards. In terms of banking prudential regulations, the Issuer is also subject to the Bank Recovery and Resolution Directive 2014/59/EU of 15 May 2014 (BRRD, implemented in Italy with the Legislative Decree. 180 and 181 of 16 November 2015) on the recovery and resolution of credit institutions, as well as the relevant technical standards and guidelines from EU regulatory bodies (i.e. the European Banking Authority (EBA)), which, inter alia, provide for capital requirements for credit institutions, recovery and resolution mechanisms.

Should UniCredit not be able to meet the capital requirements imposed by the applicable laws and regulations, it may be required to maintain higher levels of capital which could potentially impact its credit ratings, and funding conditions and which could limit UniCredit's growth opportunities.

" **$K_i(\text{initial})$** " means the Reference Price_i on the Initial Observation Date.

" **$K_i(m)$** " means the Reference Price of the Basket Component_i on the respective Observation Date (m).

Conversion of the Securities by the Issuer: Upon the occurrence of one or more Conversion Events (e.g. the quotation of the Basket Component_i at the respective Relevant Exchange_i is finally ceased and no Substitute Exchange_i could be determined) the Issuer may convert the Securities and redeem them on the Final Payment Date by payment of the Settlement Amount. The "**Settlement Amount**" is the market value of the Securities, with accrued interest for the period until the Final Payment Date at the market rate of interest being traded at such time for liabilities of the Issuer with the same remaining term as the Securities within ten Banking Days following the occurrence of the Conversion Event, as determined by the Calculation Agent. The Settlement Amount is in any case not less than the Minimum Amount.

Status of the Securities: The obligations of the Issuer under the Securities constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer, ranking (subject to any obligations preferred by any applicable law (also subject to the bail-in instruments as implemented under Italian law)) *pari passu* with all other unsecured obligations (other than obligations ranking junior to the senior notes from time to time (including non-preferred senior notes and any further obligations permitted by law to rank junior to the senior notes following the Issue Date), if any) of the Issuer, present and future and, in the case of the senior notes, *pari passu* and rateably without any preference among themselves.

Where will the Securities be traded?

Admission to trading: No application for the Securities to be admitted to trading on a regulated market has been made.

Listing: Application to trading will be made with effect from 7 October 2021 on the following multilateral trading facilities (MTF): EuroTLX managed by Borsa Italiana S.p.A.

UniCredit Bank AG (the "Market Maker") undertakes to provide liquidity in accordance with the market making rules of EuroTLX, where the Securities are expected to be traded. Moreover, the Market Maker undertakes to apply, in normal market conditions, a spread between bid and offer quotes not higher than 1.00%.

What are the key risks that are specific to the Securities?

Credit risk of the Issuer and risks in relation to resolution measures in relation to the Issuer: The Securities constitute unsecured obligations of the Issuer vis-a-vis the Security Holders. Any person who purchases the Securities therefore relies on the creditworthiness of the Issuer and has, in relation to his/her position under the Securities, no rights or claims against any other person. Security Holders are subject to the risk of a partial or total failure of the Issuer to fulfil obligations which the Issuer is liable to perform under the Securities in whole or in part, for example, in the event of the Issuer's insolvency. The worse the creditworthiness of the Issuer is the higher is the risk of a loss. In the case of realization of the credit risk of the Issuer the Security Holder may sustain a total loss of his/her capital, even if the Securities provide for a Minimum Amount at their maturity. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail. The obligations of the Issuer under the Securities are non-preferred and neither secured nor guaranteed by third parties or protected by any deposit protection or compensation scheme.

Risks related to market value-influencing factors: The market value of the Securities will be affected by a number of factors. These are *inter alia* the creditworthiness of the Issuer, the relevant prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability and, if applicable, the remaining term of the Securities as well as additional Underlying-related market value-influencing factors. The market value of the Securities as well as the amounts distributable under the Securities primarily depend on the price of the Underlying.

Risks related to the Redemption Amount: The Securities will be redeemed at their maturity at the Redemption Amount. The Redemption Amount may be less than the Issue Price or the Purchase Price. This means, the Security Holder only achieves a return if the Redemption Amount, exceeds the individual Purchase Price of the Security Holder. Potential return from the Securities is limited in contrast to a direct investment in the Underlying. A participation in a favourable performance of the Underlying beyond the Maximum Amount is excluded.

Risks arising from missing ongoing payments: The Securities, do not bear interest or grant any other conditional or unconditional rights for ongoing payments which could compensate possible losses of principal.

Risks related to the regulation of benchmarks: The Securities make reference to a Benchmark (the "Benchmark") within the meaning of Regulation (EU) 2016/1011 (the "Benchmark Regulation") and therefore there is a risk that the Benchmark may not be used as reference value of the Securities from a certain point in time. In such event, the Securities could be de-listed, adjusted, redeemed prior to maturity or otherwise impacted. Any changes to a Benchmark as a result of the Benchmark Regulation could have a material adverse effect on the costs of refinancing a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with the Benchmark Regulation. Potential investors should be aware that they face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value of and the amount payable under the Securities.

Risks related to indices: The performance of Securities linked to shares (the "Share-linked Securities") depends on the performance of the respective share. An investment in Share-linked Securities may bear similar risks to a direct investment in the respective shares.

Risks related to potential conflicts of interests: Conflicts of interest in relation to the relevant Issuer or the persons entrusted with the offer may arise, which may result in a decision to the Security Holder's disadvantage.

Liquidity risk: There is a risk that the Securities may not be widely distributed and no active trading market (the "Secondary Market") may exist and may develop for the Securities. The Issuer may, but is not obliged to, purchase Securities at any time and at any price in the open market, by tender offer or private agreement. Any Securities purchased in this way by the Issuer may be held, resold or cancelled. A repurchase of Securities by the Issuer may adversely affect the liquidity of the Securities. The Issuer cannot therefore assure that a Security Holder will be able to sell his Securities at an adequate price prior to their redemption.

Quali sono i principali rischi specifici dell'Emittente?

I potenziali investitori devono essere consapevoli che, qualora si verifichi uno dei seguenti fattori di rischio, il valore degli Strumenti Finanziari potrebbe ridursi con la conseguente perdita totale del capitale investito.

I seguenti rischi sono i principali rischi specifici dell'Emittente:

Rischi connessi all'impatto delle attuali incertezze del contesto macroeconomico e alle conseguenze derivanti dalla diffusione della pandemia da COVID-19:

L'andamento del Gruppo UniCredit è influenzato dai mercati finanziari e dal contesto macroeconomico e politico dei Paesi in cui opera. Le aspettative sull'andamento dell'economia globale rimangono molto incerte sia nel breve che nel medio termine. Pertanto, sussiste il rischio che l'evoluzione del contesto macroeconomico possa produrre effetti negativi sulla situazione patrimoniale, economica e finanziaria, nonché sul merito di credito dell'Emittente e/o del Gruppo. Si segnala che sullo scenario macroeconomico nazionale ed internazionale incidono i rischi derivanti dalla diffusione della forma di polmonite virale denominata "Coronavirus" (COVID-19) e che, allo stato attuale, sono evidenti le conseguenze negative legate al diffondersi di tale virus sull'attività economica internazionale e domestica, con inevitabili riflessi sull'andamento del Gruppo.

Tra i principali effetti da Covid-19 rilevati sulla performance di UniCredit nel 2020, si segnalano in particolare: (i) impatti negativi sulla domanda di credito retail e sui tassi di impiego dei clienti corporate, anche a seguito dell'erogazione di prestiti con garanzia statale, con conseguenti ricadute negative sul margine di interesse; (ii) cali delle commissioni, in tutte le aree di servizio; (iii) costi aggiuntivi, nello specifico per dispositivi e adeguamenti finalizzati alla protezione di dipendenti e clienti e per l'adeguamento ad una modalità massiva di lavoro da remoto; (iv) peggioramento del costo del rischio in relazione a maggiori rettifiche su crediti. Il quadro attuale continua ad essere caratterizzato da elementi di elevata incertezza, con la possibilità che il rallentamento dell'economia, congiuntamente alla conclusione di misure di salvaguardia, quali le moratorie sui crediti, determinino un deterioramento della qualità del portafoglio creditizio, con conseguente incremento dell'incidenza dei crediti non performing e la necessità di aumentare gli accantonamenti da riconoscere a conto economico.

Si segnala che il Gruppo ha registrato una riduzione dei ricavi rispetto a quanto conseguito nel corrispondente periodo del 2019, rispecchiando le diffuse restrizioni correlate al Covid-19 presenti in tutte le geografie, del 9,0 per cento a/a a Euro 17,1 mld nel FY20 con una flessione in tutte le voci di ricavo. Nel primo trimestre 2021 il Gruppo ha registrato ricavi per Euro 4,7 miliardi, in rialzo del 10,6 per cento trim/trim e del 7,1 per cento a/a.

Il Gruppo ha effettuato rettifiche su crediti pari ad Euro 4.996 mln nell'anno finanziario 2020 (FY20) (+47,7 per cento FY/FY), di cui Euro 2.220 mln di rettifiche su crediti specifiche, e Euro 2.203 mln di rettifiche su crediti al fine di incrementare il livello di coperture forward-looking per riflettere l'impatto economico di Covid-19 sul portafoglio, ed Euro 572 mln di impatti regolamentari derivanti dall'introduzione di nuovi modelli o aggiornamento di quelli esistenti nonché quelli dovuti alla quantificazione degli effetti valutativi correlati alle nuove regole europee in tema di classificazione della clientela inadempiente (new Definition of Default).

Nel1trim21, il Gruppo ha effettuato rettifiche su crediti pari ad Euro 167 mln (-86,7 per cento a/a), di cui Euro 204 mln di rettifiche su crediti specifiche, e -Euro 37 mln di riprese di valore su crediti, effettuate al fine di aggiornare il livello di coperture forward-looking per riflettere l'impatto economico di Covid-19 sul portafoglio.

Il Gruppo ha registrato nel 2020 una perdita netta pari a 2.785 milioni, rispetto all'utile di 3.373 milioni conseguito nel 2019, principalmente derivante dal deconsolidamento di Yapi, dai costi di integrazione in Italia e dalla svalutazione dell'avviamento, oltre che per effetto del contesto economico finanziario deteriorato dalla crisi da Covid 19. Il Gruppo ha conseguito nel FY20 un utile netto sottostante di Euro 1,264 miliardi, in calo rispetto all'utile sottostante di Euro 4,675 miliardi registrato sul FY 2019 e nel 1 trim21 un utile netto sottostante di Euro 0,9 miliardi grazie alla crescita dei ricavi, ottenuta nonostante il perdurante impatto dei lockdown sull'attività della clientela nel trimestre, e al ridotto costo del rischio.

Infine, tenendo in considerazione le deteriorate condizioni del contesto macroeconomico e le conseguenti revisioni delle stime riviste sul costo del rischio, risulta che, in relazione al 2021, gli obiettivi finanziari di Team 23 non possano essere considerati più attuali, pur confermando le priorità strategiche comunicate lo scorso dicembre 2019. Si tenga presente però che, l'attuale quadro di forte incertezza e volatilità, non permette ancora di procedere ad una valutazione finale complessiva degli impatti sugli obiettivi di Piano a medio-lungo termine per determinare se anche questi ultimi siano ancora attuali o come siano impattati, analisi che verranno finalizzate nei prossimi mesi. In particolare, lo scenario attuale risente di un elevato grado d'incertezza il cui esito non è al momento prevedibile e che potrebbe richiedere l'aggiornamento delle valutazioni già effettuate, in funzione dell'evoluzione della pandemia, dell'effetto delle misure di soccorso attuate e della modalità di ripresa economica.

Tali fattori influenzeranno la redditività del Gruppo e i parametri, quali i tassi di sconto, utilizzati per valutare le attività del Gruppo. In aggiunta, alla luce dell'elevata incertezza del contesto, un aggiornamento del piano strategico Team 23 che rifletta le attuali condizioni sarà presentato al Capital Markets Day che si terrà nel secondo semestre del 2021. Conseguentemente, le valutazioni inerenti le partecipazioni in società collegate e le imposte differite attive, il cui valore recuperabile dipende dalle proiezioni di flussi di cassa, potranno essere soggetti a cambiamenti al momento non prevedibili e dai quali potrebbero derivare possibili impatti negativi, anche significativi, sulla situazione patrimoniale ed economica della Banca.

Rischi connessi al Piano Strategico 2020 – 2023:

In data 3 dicembre 2019, a seguito della finalizzazione del Piano Strategico 2016-2019, UniCredit ha presentato alla comunità finanziaria a Londra il Piano Strategico 2020-2023 denominato "Team 23" (il "Piano Strategico" o "Piano" o "Team 23"). Il Piano Strategico contiene determinati obiettivi strategici, di capitale e finanziari (collettivamente, gli "Obiettivi di Piano") basati su quattro pilastri. Tali obiettivi strategici riguardano il miglioramento del costo del rischio, la riduzione del rapporto tra crediti deteriorati lordi e totale crediti, mantenimento di un adeguato buffer di capitale per tutto l'arco del Piano nonché obiettivi in termini di utile netto sottostante e di distribuzione del capitale. I quattro pilastri sono: (i) aumento e rafforzamento

della base di clienti; (ii) trasformazione e massimizzazione della produttività; (iii) gestione disciplinata del rischio & controlli; (iv) gestione del capitale e del bilancio. La capacità di UniCredit di rispettare gli Obiettivi di Piano dipende da numerose assunzioni e circostanze, alcune delle quali si trovano al di fuori del controllo dell'Emittente, quali ipotesi concernenti lo scenario macroeconomico nel quale il Gruppo opera e l'evoluzione del contesto regolamentare, nonché assunzioni ipotetiche relative agli effetti di azioni specifiche o concernenti eventi futuri su cui l'Emittente può solo parzialmente influire. Le ipotesi concernenti lo scenario macroeconomico e l'evoluzione del contesto regolamentare, nonché le assunzioni ipotetiche poste a fondamento del Piano sono state formulate precedentemente all'adozione delle misure restrittive collegate alla diffusione del COVID-19 su tutto il territorio nazionale e, pertanto, in un contesto macroeconomico diverso da quello determinatosi dopo l'entrata in vigore dei provvedimenti restrittivi ("lockdown") conseguenti la diffusione della pandemia. Mentre i risultati dell'esercizio 2020 sono già stati influenzati dalle dinamiche della pandemia, i risultati dell'esercizio in corso, e potenzialmente quelli degli anni successivi, potrebbero infatti essere ragionevolmente influenzati dalle dinamiche del COVID-19, non prevedibili alla data di presentazione del Piano Strategico e ancora ad oggi incerte. Tenendo in considerazione le stime riviste sul costo del rischio risulta che, in relazione al 2021, gli obiettivi finanziari di Team 23 non possano essere considerati più attuali, pur confermando le priorità strategiche comunicate lo scorso dicembre 2019. Alla luce dell'elevata incertezza del contesto, un aggiornamento del piano strategico Team 23 che rifletta le attuali condizioni sarà presentato al Capital Markets Day, che si terrà nel secondo semestre del 2021 (la revisione del Piano Strategico è stata avviata successivamente all'insediamento del nuovo Amministratore Delegato e del nuovo Consiglio di Amministrazione).

Per le sopra esposte ragioni, gli investitori sono invitati a non fondare le proprie scelte di investimento esclusivamente sulle previsioni incluse tra gli Obiettivi di Piano. L'eventuale mancato raggiungimento degli Obiettivi di Piano potrebbe avere effetti negativi, anche significativi, sull'attività di UniCredit, sulla condizione finanziaria o sui risultati operativi.

Rischio di credito e di deterioramento della qualità del credito:

L'attività, la solidità economica, patrimoniale e finanziaria e la profittabilità del Gruppo UniCredit dipendono, tra l'altro, dal merito di credito dei propri clienti. Nello svolgimento della propria attività creditizia il Gruppo è esposto al rischio che un inatteso cambiamento del merito creditizio di una controparte possa generare un corrispondente cambiamento del valore dell'associata esposizione creditizia e dare luogo a cancellazione parziale o totale della stessa. A seguito dell'epidemia di COVID-19 non si può escludere che la qualità del credito per quest'anno possa essere influenzata da potenziali impatti non ancora quantificabili. Tra i principali effetti da Covid-19 rilevati sul profilo di rischio di UniCredit nel 2020, si segnala in particolare il peggioramento del costo del rischio in relazione a maggiori rettifiche su crediti. Il quadro attuale continua ad essere caratterizzato da elementi di elevata incertezza, con la possibilità che il rallentamento dell'economia, congiuntamente alla conclusione di misure di salvaguardia, quali le moratorie sui crediti, determinino un deterioramento della qualità del portafoglio creditizio, con conseguente incremento dell'incidenza dei crediti non performing e la necessità di aumentare gli accantonamenti da riconoscere a conto economico.

Il Gruppo ha effettuato rettifiche su crediti pari ad Euro 4.996 mln nel FY20 (+47,7 per cento FY/FY), di cui Euro 2.220 mln di rettifiche su crediti specifiche, e Euro 2.203 mln di rettifiche su crediti al fine di incrementare il livello di coperture forward-looking per riflettere l'impatto economico di Covid-19 sul portafoglio, ed Euro 572 mln di impatti regolamentari derivanti dall'introduzione di nuovi modelli o aggiornamento di quelli esistenti nonché quelli dovuti alla quantificazione degli effetti valutativi correlati alle nuove regole europee in tema di classificazione della clientela inadempiente (new Definition of Default).

Nel 1trim21, il Gruppo ha effettuato rettifiche su crediti pari ad Euro 167 mln (-86,7 per cento a/a), di cui Euro 204 mln di rettifiche su crediti specifiche e -Euro 37 mln di riprese di valore su crediti, effettuate al fine di aggiornare il livello di coperture forward-looking per riflettere l'impatto economico di Covid-19 sul portafoglio.

Nell'ambito dell'attività creditizia tale rischio si sostanzia, tra l'altro, nella possibilità che le proprie controparti contrattuali non adempiano alle proprie obbligazioni di pagamento nonché nella circostanza che le società del Gruppo concedano, sulla base di informazioni incomplete, non veritiere o non corrette, credito che altrimenti non avrebbero concesso o che comunque avrebbero concesso a differenti condizioni.

Anche altre attività bancarie, al di fuori di quelle tradizionali di raccolta ed erogazione, possono esporre il Gruppo a rischi di credito. Il rischio di credito "non tradizionale" può, per esempio, derivare da: (i) sottoscrizione di contratti in derivati; (ii) compravendite di titoli, valute o merci; e (iii) detenzione di titoli di terzi. Le controparti di tali transazioni o gli emittenti di titoli detenuti da entità del Gruppo, potrebbero risultare inadempienti a causa di insolvenza, eventi politici ed economici, mancanza di liquidità, deficienza operativa o per altre ragioni.

Il Gruppo si è dotato di procedure e principi finalizzati al monitoraggio ed alla gestione del rischio di credito a livello di singole controparti e di portafoglio complessivo. Tuttavia, sussiste il rischio che, pur in presenza di attività di monitoraggio e gestione del rischio di credito, l'esposizione creditizia del Gruppo ecceda i livelli di rischio predeterminati ai sensi delle procedure, delle regole e dei principi adottati. L'importanza di ridurre l'incidenza dei crediti deteriorati sul totale dei crediti è stata più volte sottolineata dalle autorità di vigilanza, sia pubblicamente che nell'ambito del dialogo in corso con le banche italiane e, quindi, con il Gruppo UniCredit.

Rischio di liquidità:

I principali indicatori utilizzati dal Gruppo UniCredit per la valutazione del profilo di liquidità sono (i) il Liquidity Coverage Ratio (LCR) che rappresenta un indicatore di liquidità a breve termine soggetto ad un requisito minimo regolamentare pari al 100% dal 2018 e che a marzo 2021 era pari al 180%, mentre al 31 dicembre 2020 era pari al 171% (calcolato come media delle ultime 12 osservazioni mensili del ratio), e (ii) il Net Stable Funding Ratio (NSFR), che rappresenta l'indicatore di liquidità strutturale e che, al 31 marzo 2021, è stato superiore al limite interno di 102,5%, mentre al 31 dicembre 2020 è stato superiore al limite interno di 101,3%, fissato all'interno del risk appetite framework. Il rischio di liquidità identifica l'eventualità che il Gruppo UniCredit possa trovarsi nella condizione di non riuscire a far fronte agli impegni di pagamento (per cassa o per consegna) attuali e futuri, previsti o imprevisi senza pregiudicare l'operatività quotidiana o la propria condizione finanziaria. L'attività del Gruppo UniCredit, in particolare, è soggetta al rischio di liquidità nelle diverse dimensioni del funding liquidity risk, market liquidity risk, mismatch risk e contingency risk. I rischi più rilevanti a cui il Gruppo è esposto sono: i) un uso eccezionalmente alto delle linee di credito revocabili ed irrevocabili da parte delle imprese; ii) la capacità di rifinanziare il debito istituzionale in scadenza ed i potenziali flussi di cassa o di beni in garanzia in uscita che il Gruppo potrebbe fronteggiare in caso di riduzione del rating delle banche o del debito sovrano delle geografie in cui il Gruppo opera. Inoltre, alcuni rischi possono emergere dai limiti applicati ai prestiti tra banche appartenenti a Paesi diversi e già inaspriti in alcuni Paesi. A causa della crisi dei mercati finanziari, determinata anche dalla ridotta liquidità a disposizione degli operatori del settore, la Banca Centrale Europea ha posto in essere importanti interventi di politica monetaria, come il "Targeted Longer-Term Refinancing Operation" (TLTRO) introdotto nel 2014 e il TLTRO II introdotto nel 2016. A marzo 2019 la BCE ha annunciato un nuovo programma di rifinanziamento a lungo termine su base trimestrale (TLTRO III) accessibile a partire da settembre 2019 fino a marzo 2021, con una scadenza di ciascuna tranche fissata a 2 anni, recentemente spostata di un ulteriore anno. A marzo 2020 nuove operazioni di rifinanziamento a lungo termine (LTROs) sono state annunciate per fornire prestiti ponte fino alla finestra del TLTRO III a giugno 2020 ed assicurare liquidità e regolari condizioni di mercato monetario. Queste misure sono state integrate con misure temporanee di facilitazione nell'utilizzo delle garanzie.

Non è possibile prevedere la durata e l'intensità con cui tali operazioni di sostegno alla liquidità potranno essere riproposte in futuro, con la conseguenza che non è possibile escludere una riduzione, o persino un annullamento di tali supporti. Ciò determinerebbe la necessità per le banche di cercare fonti di provvista alternative, non sempre disponibili o disponibili a costi più elevati. La situazione descritta potrebbe quindi incidere negativamente sull'attività, sui risultati operativi e sulla situazione economica e finanziaria dell'Emittente e/o del Gruppo.

Basilea III e Adeguatezza Patrimoniale delle Banche:

L'Emittente è tenuto al rispetto degli standard globali di regolamentazione (Basilea III) sull'adeguatezza patrimoniale e la liquidità delle banche, che impongono, inter alia, requisiti per un capitale più elevato e di migliore qualità, una migliore copertura dei rischi, misure volte a promuovere l'accumulo di capitale che può essere utilizzato in periodi di stress, e l'introduzione di un indice di leva finanziaria che funge da freno al requisito basato sul rischio, nonché due standard globali di liquidità. In materia di normativa prudenziale bancaria, l'Emittente è sottoposto anche alla Direttiva 2014/59/UE del 15 maggio 2014 (BRRD, recepita in Italia con i D.Lgs. 180 e 181 del 16 novembre 2015) in materia di risanamento e risoluzione della crisi delle banche, nonché alle norme tecniche attinenti e alle linee guida emanate dagli organismi di regolamentazione dell'Unione (i.e. l'Autorità bancaria europea (EBA)) che prevedono, inter alia, requisiti patrimoniali per gli istituti di credito e meccanismi di risoluzione e risanamento.

Qualora UniCredit non fosse in grado di rispettare i requisiti patrimoniali imposti dalla normativa applicabile, potrebbe essere tenuta a mantenere livelli di capitale più elevati che potrebbero avere un impatto potenziale sui rating e sulle condizioni di finanziamento e che potrebbero limitare le opportunità di crescita di UniCredit.

Inoltre, il Market Maker si impegna ad applicare, in condizioni normali di mercato, uno spread tra le quotazioni denaro e lettera non superiore all'1%.

Quali sono i principali rischi specifici dei Titoli?

Rischio di Credito dell'Emittente e rischi relativi alle misure di risoluzione che riguardano l'Emittente: Gli Strumenti Finanziari costituiscono obbligazioni non garantite dell'Emittente nei confronti dei Titolari. Pertanto, chiunque li acquisti è soggetto al merito creditizio dell'Emittente e non ha, in relazione alla propria posizione nell'ambito degli Strumenti Finanziari, alcun diritto o pretesa nei confronti di qualsiasi altra persona. I Titolari sono sottoposti al rischio di una parziale o totale inadempienza dell'Emittente per gli obblighi che il medesimo è tenuto ad adempiere in tutto o in parte ai sensi degli Strumenti Finanziari, ad esempio in caso di insolvenza. Peggiora è la solvibilità dell'Emittente, maggiore è il rischio di perdita. Qualora il rischio di credito dell'Emittente si realizzi, il Titolare può subire una perdita totale del proprio capitale, anche se i Titoli prevedono un Importo Minimo alla loro scadenza. Inoltre, i Titolari possono essere soggetti a misure di risoluzione nei confronti dell'Emittente qualora il medesimo è in fallimento o a rischio di fallimento. Gli obblighi dell'Emittente ai sensi dei Titoli non sono privilegiati e non sono garantiti, né garantiti da terzi o protetti da alcun sistema di protezione dei depositi o di compensazione.

Rischi correlati a fattori che influenzano il valore di mercato: Il valore di mercato degli Strumenti Finanziari sarà condizionato da una serie di fattori. Questi sono, *inter alia*, il merito creditizio dell'Emittente, i relativi tassi di interesse e di rendimento prevalenti, il mercato per strumenti finanziari simili, le condizioni economiche generali, politiche e cicliche, la negoziabilità e, se del caso, la durata residua degli Strumenti Finanziari nonché ulteriori fattori relativi al Sottostante che influenzano il valore di mercato. Tanto il valore di mercato quanto gli importi pagabili ai sensi degli Strumenti Finanziari dipendono principalmente dal prezzo del Sottostante.

Rischi correlati all'Importo di Rimborso: I Titoli saranno rimborsati alla loro scadenza all'Importo di Rimborso. L'Importo di Rimborso potrebbe essere inferiore al Prezzo di Emissione o al Prezzo di Acquisto. Ciò significa che il Titolare otterrà un rendimento solo se l'Importo di Rimborso sia superiore allo specifico Prezzo di Acquisto pagato dal Titolare. Il rendimento potenziale dei Titoli è limitato rispetto ad un investimento diretto nel Sottostante. È esclusa la partecipazione ad una performance favorevole del Sottostante oltre l'Importo Massimo.

Rischi derivanti dal mancato pagamento di importi nel corso della durata degli Strumenti Finanziari: Gli Strumenti Finanziari non comportano interessi né concedono altri diritti condizionati o incondizionati per pagamenti continui che potrebbero compensare possibili perdite di capitale.

Rischi legati alla disciplina degli indici di riferimento: Gli Strumenti Finanziari fanno riferimento a un Indice di Riferimento (*Benchmark*) (l'"**Indice di Riferimento**") come definito ai sensi del Regolamento (UE) 2016/1011 (il "**Regolamento Benchmark**") e pertanto sussiste il rischio che, a partire da una determinata data, l'Indice di Riferimento non possa più essere utilizzato come parametro di riferimento degli Strumenti Finanziari. In tal caso, gli Strumenti Finanziari potrebbero essere rimossi dalla quotazione, rettificati, rimborsati prima della scadenza o comunque influenzati. Qualsiasi modifica ad un Indice di Riferimento derivante dal Regolamento Benchmark potrebbe determinare un sostanziale effetto negativo sui costi di rifinanziamento di un Indice di Riferimento o sui costi e rischi di amministrazione o comunque di partecipazione alla definizione di un Indice di Riferimento e di adempimento del Regolamento Benchmark. I potenziali investitori dovrebbero considerare il rischio che eventuali modifiche al relativo Indice di Riferimento potrebbero avere un sostanziale effetto negativo sul valore e sugli importi dovuti ai sensi degli Strumenti Finanziari.

Rischi legati alle azioni: La performance degli Strumenti Finanziari legati ad azioni (gli "**Strumenti Finanziari legati ad Azioni**") è correlata alla performance delle rispettive azioni. Un investimento in Strumenti Finanziari legati ad Azioni può comportare rischi simili a quelli di un investimento diretto nei Componenti delle azioni.

Rischi legati a potenziali conflitti di interesse: Possono insorgere conflitti di interesse relativi all'Emittente o ai soggetti incaricati dell'offerta che possono determinare decisioni svantaggiose per i Titolari dei Titoli.

Rischio di liquidità: Sussiste un rischio che gli Strumenti Finanziari non siano ampiamente distribuiti e che non esista un mercato attivo di negoziazione (il "**Mercato Secondario**") che possa evolversi per gli Strumenti Finanziari. L'Emittente può, ma non è obbligato, acquistare gli Strumenti Finanziari in qualsiasi momento e a qualsiasi prezzo sul mercato aperto, mediante offerta pubblica di acquisto o contratto privato. Gli Strumenti Finanziari acquistati in questo modo dall'Emittente possono essere detenuti, rivenduti o cancellati. Un riacquisto degli Strumenti Finanziari da parte dell'Emittente può influire negativamente sulla liquidità dei medesimi. L'Emittente non può assicurare che un Titolare sarà in grado di vendere i propri Strumenti Finanziari ad un prezzo adeguato prima del loro rimborso.
