However, the Variation may not itself give rise to any right of the Issuer to redeem the varied Securities. The Issuer shall give not less than 30 nor more than 60 days' prior notice of the Variation to the Paying Agent and the Securities Holders in accordance with § 6 of the General Conditions (the "**Variation Notice**"). or other ongoing payments payable to reflect the reduction of the redemption amount payable, and any further modification of the Terms and Conditions of the Securities that the Relevant Resolution Authority may decide in accordance with applicable laws and regulations relating to the resolution of the Issuer and/or entities of the Group incorporated in the relevant Member State.

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on an Observation Date, the respective Observation Date shall be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Observation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.
- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 30 consecutive Banking Days, the Calculation Agent shall determine acting in accordance with relevant market practice and in good faith the respective Reference Price required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. Such Reference Price shall be the reasonable price determined in accordance with prevailing market conditions at 10:00 a.m. (Milan local time) on this 31st Banking Day, taking into account the economic position of the Security Holders.

If within these 30 Banking Days traded Derivatives of the Underlying expire or are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the three traded Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. In that case, the expiration date for those Derivatives is the respective Observation Date.

§ 8

Adjustments, Type of Adjustment, New Index Sponsor and New Index Calculation Agent, Replacement Specification, Notifications

- (1) *Adjustments:* If an Adjustment Event occurs the Calculation Agent is authorised to adjust the Terms and Conditions of these Securities (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 acting in accordance with relevant market practice and in good faith, taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer, in particular if the circumstance that triggered the Adjustment Event has not only an insignificant impact on the economic characteristics of the Securities; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.
- (2) *Type of Adjustment:* In the context of an Adjustment the Calculation Agent may undertake in particular the following measure in accordance with paragraph (1) above:

Replacement of the Underlying: The Calculation Agent may replace the Underlying by a Replacement Underlying and if necessary redefine the Product and Underlying Data. As a "**Replacement Underlying**" another index can be considered which is comparable to the original index with respect to the represented constituents, the consideration of returns and distributions of the constituents included in the index (e.g. dividends) and, if applicable, fees and costs included in the index. If the Calculation Agent designates a Replacement Underlying, from the Adjustment Date on (as defined in paragraph (5) below), every reference to the Underlying in these Terms and Conditions shall be a reference to the Replacement Underlying, unless the context requires otherwise.
- (3) *New Index Sponsor and New Index Calculation Agent:* If the Underlying is no longer determined by the Index Sponsor but rather by another person, company or institution (the "**New Index Sponsor**"), then all calculations or, respectively, specifications described in these Terms and Conditions shall occur on the basis of the Underlying as determined by the New Index Sponsor. In this case, any reference to the replaced Index Sponsor in these Terms and Conditions shall be deemed to refer to the New Index Sponsor.

If the Underlying is no longer calculated by the Index Calculation Agent but rather by another person, company or institution (the "**New Index Calculation Agent**"), then all calculations or, respectively, specifications described in these Terms and Conditions shall occur on the basis of the Underlying as calculated by the New Index Calculation Agent. In this case, any reference to the replaced Index Calculation Agent in the Terms and Conditions shall be deemed to refer to the New Index Calculation Agent.
- (4) *Replacement Specification:* If a published price of the Underlying as required pursuant to the Terms and Conditions of these Securities is subsequently corrected and the correction (the "**Corrected Value**") will be published by the Index Sponsor or, respectively, Index Calculation Agent after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify the respective value by using the Corrected Value (the "**Replacement Specification**") and publish it pursuant to § 6 of the General Conditions.
- (5) *Notifications:* All Adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Securities Holder according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.

What are the key risks that are specific to the Issuer?

Potential investors should be aware that in the case of the occurrence of one of the below mentioned risk factors the Securities may decline in value and that they may sustain a total loss of their investment. The following risks are key risks specific to the Issuer:

Risks associated with the impact of current macroeconomic uncertainties and the effects of the COVID-19 pandemic outbreak and recent geopolitical tensions with Russia: The financial markets and the macroeconomic and political environment of the countries in which UniCredit operates were impacted by the viral pneumonia known as "Coronavirus" ("**COVID-19**") outbreak and this has had and could continue to have a negative impact on the performance of the Group. The valuation of certain assets has become complex and uncertain as a result of the lockdown measures and other restrictive measures put in place by governments for the containment of COVID 19 pandemic, even though progressively lifted. Moreover, macroeconomic uncertainty increased as a result of the heightened geopolitical tension between Russian Federation and Ukraine. The Russia-Ukraine crisis has caused a sharp rise in commodities prices and inflationary pressure, further global supply-chain disruption, a tightening of financial conditions, heightened uncertainty, and a sharp drop in consumer confidence. As inflation builds up as a result of the increase in energy price and the supply disruptions, ECB is changing its monetary stance and market is repricing interest rate expectations. The outlook is surrounded by risks, also related to a cessation of gas supply from Russia. As a consequence, the expectations regarding the performance of the global economy remain therefore still uncertain in both the short and medium term. The macroeconomic context in which the Group functioned in 2021 was characterized by the encouraging signs of recovery compared with the prior year, supported by the governmental measures sustaining the economy, by vaccination campaigns and by the progressive slowing-down of the lockdown measures. The current environment continues to be characterized by highly uncertain elements, such as geopolitical tensions with Russia, with the possibility that the slowdown of the economy could generate a worsening of the loan portfolio quality, followed by an increase of the non-performing loans and the necessity to increase the provisions to be charged to the income statement. On 9 December 2021 UniCredit presented to the financial community its new Strategic Plan, which included a set of strategic and financial objectives that considered the underlying scenario and resulted from the assessment performed in the previous months. The macro assumptions underlying the Strategic Plan exclude (macro assumptions consider the recent and still existing impacts of COVID with a gradual normalisation over the upcoming years. The scenario does not assume that the current COVID situation will develop in a particularly negative way in the upcoming years) unexpected materially adverse developments such as the worsening of the COVID-19 pandemic and Russia-Ukraine conflict, situations that UniCredit is monitoring closely. The evaluations processes, such as Deferred Tax Assets, whose recoverable amount depends on cash flows projections, might be subject to a change not foreseeable at the moment and from which could derive possible negative effects, including significant ones, on the bank's financial and economic situation.

Risks connected with the Strategic Plan 2022 – 2024: On 9th December 2021, UniCredit presented to the financial community in Milan the 2022-2024 Strategic Plan called "UniCredit Unlocked" (the "**Strategic Plan**" or "**Plan**") which contains a number of strategic, capital and financial objectives (the "**Strategic Objectives**"). "UniCredit Unlocked" delivers strategic imperatives and financial ambitions based on six pillars. Such strategic imperatives and

financial ambitions regard: (i) the growth in its regions and the development of its client franchise, changing its business model and how its people operate; (ii) the delivery of economies of scale from its footprint of banks, transforming the technology leveraging Digital & Data and embedding sustainability in all that UniCredit does; (iii) driving financial performance via three interconnecting levers. UniCredit's ability to meet the strategic objectives and all forward-looking statements relies on a number of assumptions, expectations, projections and provisional data concerning future events and is subject to a number of uncertainties and other factors, many of which are outside the control of UniCredit. Macro assumptions exclude (macro assumptions consider the recent and still existing impacts of COVID with a gradual normalisation over the upcoming years. The scenario does not assume that the current COVID situation will develop in a particularly negative way in the upcoming years) unexpected materially adverse developments such as the worsening of the COVID-19 pandemic, a situation that UniCredit is monitoring closely. The six pillars are: (i) optimise, through the improvement of operational and capital efficiency; (ii) invest, with targeted growth initiatives, including ESG; (iii) grow net revenues; (iv) return; (v) strengthen thanks to revised CET1 ratio target and decrease of Gross NPE ratio; and (vi) distribute consistently with organic capital generation. For all these reasons, investors are cautioned against making their investment decisions based exclusively on the forecast data included in the strategic objectives. Any failure to implement the strategic objective or meet the strategic objectives may have a material adverse effect on UniCredit's business, financial condition or results of operations.

Credit risk and risk of credit quality deterioration: The activity, financial and capital strength and profitability of the UniCredit Group depend, among other things, on the creditworthiness of its customers. In carrying out its credit activities, the Group is exposed to the risk that an unexpected change in the creditworthiness of a counterparty may generate a corresponding change in the value of the associated credit exposure and give rise to the partial or total write-down thereof. The current environment continues to be characterised by highly uncertain elements, with the possibility that the slowdown of the economy, jointly with the termination of the safeguard measures, such as the customer loans moratorium, generates a worsening of the loan portfolio quality, followed by an increase of the non-performing loans and the necessity to increase the provisions to be charged in the income statement. UniCredit's Loan Loss Provisions ("LLPs"), excluding Russia, increased Q/Q and decreased by 71.7 per cent Y/Y to Euro 108 million in 2Q22. Therefore, the cost of risk, excluding Russia, increased by 5 bps Q/Q and decreased by 26 bps Y/Y to 10 bps in 2Q22. As at 30 June 2022, Group gross NPE ratio, excluding Russia, was equal to 2.8 per cent, decreasing compared to 31 March 2022 in which the gross NPE ratio was equal to 3.6%. As at 30 June 2022 Group Net NPE ratio, excluding Russia, decreasing compared to 31 March 2022 and is equal to 1.5%. UniCredit's LLPs, excluding Russia, in 1H22 amounted to Euro 161 million decreased by 69.7 per cent H/H. Therefore the CoR was equal to 7 bps. In the context of credit activities, this risk involves, among other things, the possibility that the Group's contractual counterparties may not fulfil their payment obligations, as well as the possibility that Group companies may, based on incomplete, untrue or incorrect information, grant credit that otherwise would not have been granted or that would have been granted under different conditions. Other banking activities, besides the traditional lending and deposit activities, can also expose the Group to credit risks. "Non-traditional" credit risk can, for example, arise from: (i) entering derivative contracts; (ii) buying and selling securities currencies or goods; and (iii) holding third-party securities. The counterparties of said transactions or the issuers of securities held by Group entities could fail to comply due to insolvency, political or economic events, a lack of liquidity, operating deficiencies, or other reasons. The Group has adopted procedures, rules and principles aimed at monitoring and managing credit risk at both individual counterparty and portfolio level. However, there is the risk that, despite these credit risk monitoring and management activities, the Group's credit exposure may exceed predetermined risk's levels pursuant to the procedures, rules and principles it has adopted.

Liquidity Risk: The main indicators used by the UniCredit Group to assess its liquidity profile are (i) the Liquidity Coverage Ratio (LCR), which represents an indicator of short-term liquidity subject to a minimum regulatory requirement of 100% from 2018 and which was equal to 171% in June 2022, whereas at 31 December 2021 was equal to 182% (calculated as the average of the 12 latest end of month ratios), and (ii) the Net Stable Funding Ratio (NSFR), which represents the indicator of structural liquidity and which in June 2022 was above the internal limit set at 102%, as at 31 December 2021, within the risk appetite framework. Liquidity risk refers to the possibility that the UniCredit Group may find itself unable to meet its current and future, anticipated and unforeseen cash payment and delivery obligations without impairing its day-to-day operations or financial position. The activity of the UniCredit Group is subject in particular to funding liquidity risk, market liquidity risk, mismatch risk and contingency risk. The most relevant risks that the Group may face are: i) an exceptionally high usage of the committed and uncommitted lines granted to corporate customers; ii) an unusual withdrawal of sight deposits by UniCredit's retail and corporate customers; iii) the decline in the market value of the securities in which UniCredit invests its liquidity buffer; iv) the capacity to roll over the expiring wholesale funding and the potential cash or collateral outflows the Group may suffer in case of rating downgrades of both the banks or the sovereign debt in the geographies in which it operates. In addition to this, some risks may arise from the limitations applied to the cross-border lending among banks. Due to the financial market crisis, followed also by the reduced liquidity available to operators in the sector, the ECB has implemented important interventions in monetary policy, such as the "Targeted Longer-Term Refinancing Operation" ("TLTRO") introduced in 2014 and the TLTRO II introduced in 2016. It is not possible to predict the extension of the duration and the amounts with which these liquidity support operations can be repeated in the future, with the result that it is not possible to exclude a reduction or even the cancellation of this support. This would result in the need for banks to seek alternative sources of borrowing, without ruling out the difficulties of obtaining such alternative funding as well as the risk that the related costs could be higher. Such a situation could therefore adversely affect UniCredit's business, operating results and the economic and financial position of UniCredit and/or the Group.

Basel III and Bank Capital Adequacy: The Issuer shall comply with the revised global regulatory standards ("Basel III") on bank capital adequacy and liquidity, which impose requirements for, inter alia, higher and better-quality capital, better risk coverage, measures to promote the build-up of capital that can be drawn down in periods of stress and the introduction of a leverage ratio as a backstop to the risk-based requirement as well as two global liquidity standards. In terms of banking prudential regulations, the Issuer is also subject to the Bank Recovery and Resolution Directive 2014/59/EU of 15 May 2014 ("BRRD"), implemented in Italy with the Legislative Decree. 180 and 181 of 16 November 2015 as amended by Directive (EU) 2019/879, the "BRRD II" (implemented in Italy by the Legislative Decree No. 193 of November 8, 2021), as well as the relevant technical standards and guidelines from EU regulatory bodies (i.e. the European Banking Authority (EBA)), which, inter alia, provide for recovery and resolution mechanisms and Minimum Requirement for Own Funds and Eligible Liabilities (MREL) for credit institutions. Should UniCredit not be able to meet the capital/MREL requirements imposed by the applicable laws and regulations, it may be required to maintain higher levels of capital/eligible liabilities which could potentially impact its credit ratings, and funding conditions and which could limit UniCredit's growth opportunities.

Section 3 – Key information on the Securities

What are the main features of the Securities?

Product Type, Underlying and form of the Securities

Product Type: Garant Performance Securities with Cap

Underlying: EURO STOXX 50® (Price) Index (EUR) (ISIN: EU0009658145 / Reference Price: Closing price)

The Securities are governed by Italian law. The Securities are debt instruments in dematerialized registered form pursuant to the Italian Consolidated Law on Financial Intermediation (*Testo Unico della Finanza*). The Securities will be represented by book entry and registered in the books of the Clearing System. The transfer of the Securities operates by registration on the relevant accounts opened in the Clearing System. The international securities identification number (ISIN) of the Securities is set out in Section 1.

Issuance and Nominal Amount

The Securities will be issued on 9 November 2022 in Euro (EUR) (the "**Specified Currency**"), with a Nominal Amount of EUR 1,000.00 per Security (the "**Nominal Amount**").

General

The value of the Securities during their term depends mainly on the price of the Underlying. In principle, the value of the Securities rises if the price of the Underlying rises and falls if the price of the Underlying falls.

Interest

The Securities do not bear interest.

Redemption

Provided that no Conversion Event has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following an automatic exercise.

At the Final Payment Date the Redemption Amount is equal to the Nominal Amount multiplied by the total of (i) the Floor Level and (ii) the Performance of the Underlying multiplied by the Final Participation Factor. The Redemption Amount will not be lower than the Minimum Amount and not higher than the Maximum Amount.

Additional definitions and product terms

Performance of the Underlying means the difference of (i) the quotient of R (final) as the numerator and R (initial) as the denominator and (ii) the Final Strike Level.

R (final) means the Reference Price on the Final Observation Date.

R (initial) means the Reference Price on the Initial Observation Date.

Final Observation Date:	2 November 2026
Final Participation Factor:	100%
Final Payment Date:	9 November 2026
Final Strike Level:	100%
Floor Level:	100%
Initial Observation Date:	9 November 2022
Maximum Amount:	EUR 1,550.00
Minimum Amount:	EUR 1,000.00

Conversion of the Securities by the Issuer: Upon the occurrence of one or more conversion events (e.g. an Index Replacement Event (e.g. the calculation of the Underlying is discontinued) occurs and no suitable Replacement Underlying is available or can be determined) (the "**Conversion Event**") the Issuer may convert the Securities and redeem them on the Final Payment Date by payment of the Settlement Amount. The "**Settlement Amount**" is the market value of the Securities, with accrued interest for the period until the Final Payment Date at the market rate of interest being traded at such time for liabilities of the Issuer with the same remaining term as the Securities within ten Banking Days following the occurrence of the Conversion Event, as determined by the Calculation Agent. The Settlement Amount is in any case not less than the Minimum Amount.

Adjustments to the Terms and Conditions: The Calculation Agent may adjust the Terms and Conditions of the Securities (in particular the relevant Underlying and/or all prices of the Underlying which have been specified by the Calculation Agent) if an adjustment event (e.g. a change to the relevant Index Concept (for example, a change in the composition of the Index not previously anticipated)) (the "**Adjustment Event**") occurs.

Status of the Securities: The obligations of the Issuer under the Securities constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer, ranking (subject to any obligations preferred by any applicable law (also subject to the bail-in instruments as implemented under Italian law)) *pari passu* with all other unsecured obligations (other than obligations ranking junior to the senior notes from time to time (including non-preferred senior notes and any further obligations permitted by law to rank junior to the senior notes following the Issue Date), if any) of the Issuer, present and future and, in the case of the senior notes, *pari passu* and rateably without any preference among themselves.

Where will the Securities be traded?

Admission to trading: No application for the Securities to be admitted to trading on a regulated market has been made.

Listing: Application to trading will be made with effect from 16 November 2022 on the following multilateral trading facilities (MTF): SeDeX managed by Borsa Italiana S.p.A. ("**SeDeX**")

UniCredit Bank AG (the "**Market Maker**") undertakes to provide liquidity in accordance with the market making rules of SeDeX, where the Securities are expected to be traded. Moreover, the Market Maker undertakes to apply, in normal market conditions, a spread between bid and offer quotes not higher than 1.00%.

What are the key risks that are specific to the Securities?

Credit risk of the Issuer and risks in relation to resolution measures in relation to the Issuer: The Securities constitute unsecured obligations of the Issuer vis-a-vis the Security Holders. Any person who purchases the Securities therefore relies on the creditworthiness of the Issuer and has, in relation to his/her position under the Securities, no rights or claims against any other person. Security Holders are subject to the risk of a partial or total failure of the Issuer to fulfil obligations which the Issuer is liable to perform under the Securities in whole or in part, for example, in the event of the Issuer's insolvency. The worse the creditworthiness of the Issuer is the higher is the risk of a loss. In the case of realization of the credit risk of the Issuer the Security Holder may sustain a total loss of his/her capital, even if the Securities provide for a Minimum Amount at their maturity. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail. The obligations of the Issuer under the Securities are not secured, guaranteed by third parties or protected by any deposit protection or compensation scheme.

Risks related to market value-influencing factors: The market value of the Securities as well as the amounts distributable under the Securities primarily depend on the price of the Underlying. However, the market value of the Securities will be affected by a number of additional factors. These are inter alia the creditworthiness of the Issuer, the relevant prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability and, if applicable, the remaining term of the Securities as well as additional Underlying-related market value-influencing factors.

Risks related to the Redemption Amount: The Securities will be redeemed at their maturity at the Redemption Amount. The Redemption Amount may be less than the purchase price. This means, the Security Holder only achieves a return if the Redemption Amount exceeds the individual purchase price of the Security Holder. A participation in a favourable performance of the Underlying beyond the Maximum Amount is excluded.

Risks arising from missing ongoing payments: The Securities, do not bear interest or grant any other conditional or unconditional rights for ongoing payments which could compensate possible losses of principal.

Risks related to the regulation of benchmarks: The Securities make reference to a Benchmark (the "**Benchmark**") within the meaning of Regulation (EU) 2016/1011 (the "**Benchmark Regulation**") and therefore there is a risk that the Benchmark may not be used as reference value of the Securities from a certain point in time. In such event, the Securities could be de-listed, adjusted, converted or otherwise impacted. Any changes to a Benchmark as a result of the Benchmark Regulation could have a material adverse effect on the costs of refinancing a Benchmark or the costs and risks of administering

or otherwise participating in the setting of a Benchmark and complying with the Benchmark Regulation. Potential investors should be aware that they face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value of and the amount payable under the Securities.

Risks related to indices: The performance of Securities linked to indices depends on the performance of the respective index. Changes in the price of the components of the index and changes to the composition of the index or other factors may have an adverse effect on the performance of the index.

Risks related to potential conflicts of interests: Conflicts of interest in relation to the relevant Issuer or the persons entrusted with the offer may arise, which may result in a decision to the Security Holder's disadvantage.

Liquidity risk: There is a risk that the Securities may not be widely distributed and no active trading market may exist and may develop for the Securities. The Issuer may, but is not obliged to, purchase Securities at any time and at any price in the open market, by tender offer or private agreement. Any Securities purchased in this way by the Issuer may be held, resold or cancelled. A repurchase of Securities by the Issuer may adversely affect the liquidity of the Securities. The Issuer cannot therefore assure that a Security Holder will be able to sell his Securities at an adequate price prior to their redemption.

Quali sono i principali rischi specifici dell'Emittente?

I potenziali investitori devono essere consapevoli che, qualora si verifichi uno dei seguenti fattori di rischio, il valore degli Strumenti Finanziari potrebbe ridursi con la conseguente perdita totale del capitale investito. I seguenti rischi sono i principali rischi specifici dell'Emittente:

Rischi connessi all'impatto delle attuali incertezze del contesto macroeconomico e alle conseguenze derivanti dalla diffusione della pandemia da COVID-19 e le recenti tensione geopolitiche con la Russia: I mercati finanziari e il contesto macroeconomico e politico dei Paesi in cui UniCredit opera sono influenzati dalla diffusione della forma di polmonite virale denominata "Coronavirus" ("COVID-19") e ciò ha avuto e continua ad avere riflessi negativi sull'andamento del Gruppo. La valutazione di alcune attività è divenuta complessa e incerta per effetto delle misure di contenimento e altre misure di restrizione attuate da parte dei Governi per il contenimento della pandemia da COVID-19, anche se progressivamente revocate. Inoltre, l'incertezza macroeconomica è aumentata a causa dell'acuirsi delle tensioni geopolitiche tra la Federazione Russa e l'Ucraina. La crisi tra Russia e Ucraina ha causato un forte aumento dei prezzi delle materie prime e delle pressioni inflazionistiche, un'ulteriore interruzione della catena di approvvigionamento globale, un inasprimento delle condizioni finanziarie, un aumento dell'incertezza e un forte calo della fiducia dei consumatori. Con l'aumento dell'inflazione dovuto all'incremento dei prezzi dell'energia e alle interruzioni delle forniture, la BCE sta modificando il proprio orientamento monetario e il mercato sta rivalutando le aspettative sui tassi di interesse. Le prospettive sono circondate da rischi, legati anche all'interruzione delle forniture di gas dalla Russia. Di conseguenza, le aspettative sull'andamento dell'economia globale rimangono pertanto ancora incerte sia nel breve che nel medio termine. Il contesto macroeconomico in cui il Gruppo ha operato nel 2021 è stato caratterizzato dagli incoraggianti segnali di ripresa rispetto all'anno precedente, supportati dalle misure governative di sostegno all'economia, dalle campagne di vaccinazione e dal progressivo allentamento delle misure di contenimento. Il quadro attuale continua ad essere caratterizzato da elementi di elevata incertezza, come le tensioni geopolitiche con la Russia, con la possibilità che il rallentamento dell'economia determini un deterioramento della qualità del portafoglio creditizio, con conseguente incremento dell'incidenza dei crediti non performing e la necessità di aumentare le rettifiche di valore da iscrivere a conto economico. Il 9 dicembre 2021 UniCredit ha presentato alla comunità finanziaria il suo nuovo Piano Strategico, che ha incluso una serie di obiettivi strategici e finanziari che hanno preso in considerazione lo scenario sottostante e hanno rappresentato i risultati delle valutazioni effettuate nei mesi precedenti. Gli assunti macroeconomici sottostanti il Piano Strategico non considerano (gli assunti macroeconomici considerano i recenti e tuttora presenti impatti del COVID in progressiva normalizzazione nel corso dei prossimi anni. Lo scenario non assume che la situazione corrente del COVID si sviluppi nei prossimi anni in maniera particolarmente negativa) sviluppi particolarmente negativi come il peggioramento della pandemia da COVID-19 e il conflitto Russia-Ucraina, situazioni

che UniCredit monitora con grande attenzione. I processi di valutazione, come quelli sulle le imposte differite attive, il cui valore recuperabile dipende dalle proiezioni di flussi di cassa, potranno essere soggetti a cambiamenti al momento non prevedibili e dai quali potrebbero derivare possibili impatti negativi, anche significativi, sulla situazione patrimoniale ed economica della Banca.

Rischi connessi al Piano Strategico 2022 – 2024: In data 9 dicembre 2021, UniCredit ha presentato alla comunità finanziaria a Milano il Piano Strategico 2022-2024 denominato "UniCredit Unlocked" (il "**Piano Strategico**" o "**Piano**") che contiene una serie di obiettivi strategici, patrimoniali e finanziari (gli "**Obiettivi Strategici**"). "UniCredit Unlocked" persegue imperativi strategici e obiettivi finanziari basati su sei pilastri. Tali imperativi strategici e obiettivi finanziari riguardano: (i) la crescita nelle proprie aree geografiche e lo sviluppo della rete di clienti, trasformando il modello di business e il modo in cui i suoi dipendenti operano; (ii) il conseguimento di economie di scala dalla propria rete di banche, attraverso una trasformazione tecnologica incentrata su Digital & Data e integrando la sostenibilità in tutte le azioni di UniCredit; (iii) la guida della performance finanziaria tramite tre leve interconnesse. La capacità di UniCredit di raggiungere gli obiettivi strategici e tutte le dichiarazioni previsionali si basano su una serie di ipotesi, aspettative, proiezioni e dati provvisori riguardanti eventi futuri e sono soggette a una serie di incertezze e altri fattori, molti dei quali sono al di fuori del controllo di UniCredit. Gli assunti macroeconomici non considerano (gli assunti macroeconomici considerano i recenti e tuttora presenti impatti del COVID in progressiva normalizzazione nel corso dei prossimi anni. Lo scenario non assume che la situazione corrente del COVID si sviluppi nei prossimi anni in maniera particolarmente negativa) sviluppi particolarmente negativi come il peggioramento della pandemia da COVID-19, una situazione che UniCredit monitora con grande attenzione. I sei pilastri sono: (i) l'ottimizzazione, attraverso il miglioramento dell'efficienza operativa e del capitale; (ii) gli investimenti, con iniziative mirate, anche in ambito ESG; (iii) la crescita dei ricavi netti; (iv) il rendimento; (v) il rafforzamento grazie alla revisione del CET1 ratio target e del miglioramento del rapporto tra esposizioni deteriorate lorde e totale dei crediti lordi; e (vi) la distribuzione in linea con la generazione organica di capitale. Per le sopra esposte ragioni, gli investitori sono invitati a non fondare le proprie scelte di investimento esclusivamente sulle previsioni incluse tra gli obiettivi strategici. L'eventuale mancato raggiungimento degli obiettivi strategici potrebbe avere effetti negativi, anche significativi, sull'attività di UniCredit, sulla condizione finanziaria o sui risultati operativi.

Rischio di credito e di deterioramento della qualità del credito: L'attività, la solidità patrimoniale e finanziaria e la profittabilità del Gruppo UniCredit dipendono, tra l'altro, dal merito di credito dei propri clienti. Nello svolgimento della propria attività creditizia il Gruppo è esposto al rischio che un inatteso cambiamento del merito creditizio di una controparte possa generare un corrispondente cambiamento del valore dell'associata esposizione creditizia e dare luogo a cancellazione parziale o totale della stessa. Il quadro attuale continua ad essere caratterizzato da elementi di elevata incertezza, con la possibilità che il rallentamento dell'economia, congiuntamente alla conclusione di misure di salvaguardia, quali le moratorie sui crediti, determinino un deterioramento della qualità del portafoglio creditizio, con conseguente incremento dei crediti non performing e la necessità di aumentare le rettifiche di valore da iscrivere a conto economico. Le rettifiche sui crediti di UniCredit, escludendo la Russia, sono aumentate rispetto al trimestre precedente e sono diminuite del 71,7% rispetto all'anno precedente, attestandosi a Euro 108 milioni nel secondo trimestre 2022. Pertanto, il costo del rischio, escludendo la Russia, è aumentato di 5 punti base trim/trim e diminuito di 26 punti base a/a, attestandosi a 10 punti base nel secondo trimestre 2022. Al 30 giugno 2022, l'NPE ratio lordo di Gruppo, escludendo la Russia, era pari al 2,8%, in diminuzione rispetto al 31 marzo 2022 quando era pari al 3,6%. Al 30 giugno 2022 l'NPE ratio netto di Gruppo, escludendo la Russia, è in diminuzione rispetto al 31 marzo 2022 ed è pari all'1,5%. Le rettifiche sui crediti di UniCredit, escludendo la Russia, nel primo semestre sono state pari ad Euro 161 milioni e sono diminuite del 69,7% rispetto all'anno precedente. Pertanto, il costo del rischio è stato pari a 7 punti base. Nell'ambito dell'attività creditizia tale rischio si sostanzia, tra l'altro, nella possibilità che le proprie controparti contrattuali non adempiano alle proprie obbligazioni di pagamento nonché nella circostanza che le società del Gruppo concedano, sulla base di informazioni incomplete, non veritiere o non corrette, credito che altrimenti non avrebbero concesso o che comunque avrebbero concesso a differenti condizioni. Anche altre attività bancarie, al di fuori di quelle tradizionali di raccolta ed erogazione, possono esporre il Gruppo a rischi di credito. Il rischio di credito "non tradizionale" può, per esempio, derivare da: (i) sottoscrizione di contratti in derivati; (ii) compravendite di titoli, valute o merci; e (iii) detenzione di titoli di terzi. Le controparti di tali transazioni o gli emittenti di titoli detenuti da entità del Gruppo, potrebbero risultare inadempienti a causa di insolvenza, eventi politici ed economici, mancanza di liquidità, deficienza operativa o per altre ragioni. Il Gruppo si è dotato di procedure e principi finalizzati al monitoraggio ed alla gestione del rischio di credito a livello di singole controparti e di portafoglio complessivo. Tuttavia, sussiste il rischio che, pur in presenza di attività di monitoraggio e gestione del rischio di credito, l'esposizione creditizia del Gruppo ecceda i livelli di rischio predeterminati ai sensi delle procedure, delle regole e dei principi adottati.

Rischio di liquidità: I principali indicatori utilizzati dal Gruppo UniCredit per la valutazione del profilo di liquidità sono (i) il *Liquidity Coverage Ratio* (LCR) che rappresenta un indicatore di liquidità a breve termine soggetto ad un requisito minimo regolamentare pari al 100% dal 2018 e che a giugno 2022 era pari a 171%, mentre al 31 dicembre 2021 era pari a 182% (calcolato come media delle ultime 12 osservazioni mensili del ratio), e (ii) il *Net Stable Funding Ratio* (NSFR), che rappresenta l'indicatore di liquidità strutturale e che, a giugno 2022, è stato superiore al limite interno di 102%, come al 31 dicembre 2021, fissato all'interno del risk appetite framework. Il rischio di liquidità identifica l'eventualità che il Gruppo UniCredit possa trovarsi nella condizione di non riuscire a far fronte agli impegni di pagamento (per cassa o per consegna) attuali e futuri, previsti o imprevisi senza pregiudicare l'operatività quotidiana o la propria condizione finanziaria. L'attività del Gruppo UniCredit è soggetta al rischio di liquidità in particolare nelle sue forme di funding liquidity risk, market liquidity risk, mismatch risk e contingency risk. I rischi più rilevanti a cui il Gruppo è esposto sono: i) un uso eccezionalmente alto delle linee di credito revocabili ed irrevocabili da parte delle imprese; ii) un insolito ritiro di depositi a vista da parte dei clienti UniCredit, siano essi persone fisiche o imprese; iii) un decremento del valore di mercato dei titoli in cui UniCredit investe il proprio *liquidity buffer*; iv) la capacità di rifinanziare il debito verso la clientela istituzionale in scadenza e le potenziali uscite di cassa o di garanzie che il gruppo dovrebbe fronteggiare in caso di declassamento delle banche o del debito sovrano nei Paesi in cui il Gruppo opera. Inoltre, alcuni rischi possono emergere anche dai limiti applicati ai prestiti tra banche appartenenti a Paesi diversi. A causa della crisi dei mercati finanziari, determinata anche dalla ridotta liquidità a disposizione degli operatori del settore, la Banca Centrale Europea ha posto in essere importanti interventi di politica monetaria, come il "Targeted Longer-Term Refinancing Operation" ("**TLTRO**") introdotto nel 2014 e il TLTRO II introdotto nel 2016. Non è possibile prevedere l'estensione della durata e dell'ammontare con cui tali operazioni di sostegno alla liquidità potranno essere riproposte in futuro, e di conseguenza non è possibile escludere una riduzione, o persino un annullamento di tali supporti. Ciò determinerebbe la necessità per le banche di cercare fonti di provvista alternative, non sempre disponibili o disponibili a costi più elevati. La situazione descritta potrebbe quindi incidere negativamente sull'attività, sui risultati operativi e sulla situazione economica e finanziaria dell'Emittente e/o del Gruppo.

Basilea III e Adeguatazza Patrimoniale delle Banche: L'Emittente è tenuto al rispetto degli aggiornati standard globali di regolamentazione ("**Basilea III**") sull'adeguatezza patrimoniale e la liquidità delle banche, che impongono, inter alia, requisiti per un capitale più elevato e di migliore qualità, una migliore copertura dei rischi, misure volte a promuovere l'accumulo di capitale che può essere utilizzato in periodi di stress, e l'introduzione di un indice di leva finanziaria che funge da rete di protezione ai requisiti basati sui parametri di rischio, nonché due standard globali di liquidità. In materia di normativa prudenziale bancaria, l'Emittente è sottoposto anche alla Direttiva "Bank Recovery and Resolution Directive" 2014/59/UE del 15 maggio 2014 ("**BRRD**"), recepita in Italia con i D.Lgs. 180 e 181 del 16 novembre 2015 - come modificata dalla Direttiva (UE) 2019/879, la "**BRRD II**" (recepita in Italia dal D.Lgs. 8 novembre 2021, n. 193), nonché alle norme tecniche attinenti e alle linee guida emanate dagli organismi di regolamentazione dell'Unione (i.e. l'Autorità bancaria europea (EBA)) che prevedono, inter alia, meccanismi di risanamento e di risoluzione delle crisi e requisiti minimi di fondi propri e passività ammissibili (MREL) per gli enti creditizi. Qualora UniCredit non fosse in grado di rispettare i requisiti patrimoniali/MREL imposti dalla normativa applicabile, potrebbe essere tenuta a mantenere livelli di capitale più elevati/passività ammissibili che potrebbero avere un impatto potenziale sui rating e sulle condizioni di finanziamento e che potrebbero limitare le opportunità di crescita di UniCredit.

Sezione 3 – Informazioni fondamentali sui Titoli

Quali sono le principali caratteristiche dei Titoli?

Il valore dei Titoli durante la loro vita dipende principalmente dal prezzo del Sottostante. In linea di principio, il valore dei Titoli sale se il prezzo del Sottostante sale e scende se il prezzo del Sottostante scende.

Interessi

I Titoli non maturano interessi.

Rimborso

A condizione che nessun Evento di Conversione si sia verificato, i Titoli verranno rimborsati alla Data di Pagamento Finale con il pagamento dell'Importo di Rimborso a seguito di un esercizio automatico.

Alla Data di Pagamento Finale, l'Importo di Rimborso sarà pari al Valore Nominale moltiplicato per la somma tra (i) il Livello Floor e (ii) il risultato della moltiplicazione della Performance del Sottostante per il Fattore di Partecipazione Finale. Conversione dei Titoli da parte dell'Emittente: Al verificarsi di uno o più eventi di conversione (ad esempio, si verifica un Evento di Sostituzione dell'Indice (*Index Replacement Event*) (ad esempio, il calcolo del Sottostante è interrotto) e non è disponibile o può essere determinato un Sottostante Sostitutivo (*Replacement Underlying*) adatto) (l'**"Evento di Conversione"**) l'Emittente può convertire i Titoli e rimborsarli alla Data di Pagamento Finale mediante il pagamento dell'Importo di Regolamento. L'**"Importo di Regolamento"** è pari al valore di mercato dei Titoli, maggiorato degli interessi maturati per il periodo che va fino alla Data di Pagamento Finale al tasso di mercato a cui sono negoziate in tale momento le passività dell'Emittente con la stessa durata residua dei Titoli, entro il decimo Giorno Lavorativo successivo al verificarsi dell'Evento di Conversione, come determinato dall'Agente di Calcolo. L'Importo di Regolamento in ogni caso non potrà essere inferiore all'Importo Minimo.

Rettifiche dei Termini e delle Condizioni dei Titoli: L'Agente di Calcolo potrà rettificare i Termini e le Condizioni dei Titoli (in particolare il relativo Sottostante e/o tutti i prezzi del Sottostante specificati dall'Agente di Calcolo) qualora si verifichi un evento di rettifica (ad es. una modifica nel relativo Concetto di Indice (ad esempio, una modifica nella composizione dell'Indice non precedentemente anticipata)) (l'**"Evento di Rettifica"**).

Stato dei Titoli: Gli obblighi dell'Emittente derivanti dai Titoli costituiscono obbligazioni dirette, incondizionate, non subordinate e non garantite dell'Emittente, avranno pari priorità nell'ordine dei pagamenti (fatte salve le obbligazioni privilegiate da qualsiasi legge applicabile (anche soggette allo strumento del bail-in, come implementato ai sensi della legge italiana)) rispetto a tutte le altre obbligazioni non garantite dell'Emittente e ad ogni altro obbligo presente e futuro, non garantito e non subordinato, dell'Emittente (salvo, quando previsto, le obbligazioni junior rispetto alle obbligazioni senior (incluse le obbligazioni senior non privilegiate e le eventuali ulteriori obbligazioni junior, rispetto a obbligazioni senior, consentite dalla legge successivamente alla Data di Emissione), ove previste).

Dove saranno negoziati i Titoli?

Ammissione alla negoziazione: Non è stata presentata l'istanza per l'ammissione a negoziazione dei Titoli presso un mercato regolamentato.

Quotazione: Sarà presentata istanza per l'ammissione a quotazione dei Titoli con efficacia dal 16/11/2022, presso i seguenti sistemi multilaterali di negoziazione (MTF): SeDeX gestito da Borsa Italiana S.p.A. ("**SeDeX**")

UniCredit Bank AG (il "**Market Maker**") si impegna a fornire liquidità in conformità alle norme sul *market making* di SeDeX, dove ci si attende che i Titoli saranno negoziati. Inoltre, il Market Maker si impegna ad applicare, in condizioni normali di mercato, uno spread tra le quotazioni denaro e lettera non superiore all'1%.

Quali sono i principali rischi specifici dei Titoli?

Rischio di Credito dell'Emittente e rischi relativi alle misure di risoluzione che riguardano l'Emittente: I Titoli costituiscono obbligazioni non garantite dell'Emittente nei confronti dei Titolari. Pertanto, chiunque li acquisti è soggetto al merito creditizio dell'Emittente e non ha, in relazione alla propria posizione nell'ambito dei Titoli, alcun diritto o pretesa nei confronti di qualsiasi altra persona. I Titolari sono sottoposti al rischio di una parziale o totale inadempienza dell'Emittente per gli obblighi che il medesimo è tenuto ad adempiere in tutto o in parte ai sensi dei Titoli, ad esempio in caso di insolvenza. Peggiora la solvibilità dell'Emittente, maggiore è il rischio di perdita. Qualora il rischio di credito dell'Emittente si realizzi, il Titolare può subire una perdita totale del proprio capitale, anche se i Titoli prevedono un Importo Minimo alla loro scadenza. Inoltre, i Titolari possono essere soggetti a misure di risoluzione nei confronti dell'Emittente qualora il medesimo è in fallimento o a rischio di fallimento. Gli obblighi dell'Emittente ai sensi dei Titoli non sono garantiti, garantiti da terzi o protetti da un sistema di protezione dei depositi o di compensazione.

Rischi correlati a fattori che influenzano il valore di mercato: Tanto il valore di mercato quanto gli importi pagabili ai sensi dei Titoli dipendono

principalmente dal prezzo del Sottostante. Peraltro, il valore di mercato dei Titoli sarà condizionato da una serie di ulteriori fattori. Questi sono, inter alia, il merito creditizio dell'Emittente, i relativi tassi di interesse e di rendimento prevalenti, il mercato per titoli simili, le condizioni economiche generali, politiche e cicliche, la negoziabilità e, se del caso, la durata residua dei Titoli nonché ulteriori fattori relativi al Sottostante che influenzano il valore di mercato.

Rischi correlati all'importo di Rimborso: I Titoli saranno rimborsati alla loro scadenza all'Importo di Rimborso. L'Importo di Rimborso potrebbe essere inferiore al prezzo di acquisto. Ciò significa che il Titolare otterrà un rendimento solo se l'Importo di Rimborso sia superiore allo specifico prezzo di acquisto pagato dal Titolare. È esclusa la partecipazione ad una performance favorevole del Sottostante oltre l'Importo Massimo.

Rischi derivanti dal mancato pagamento di importi nel corso della durata dei Titoli: I Titoli non sono soggetti a interessi e non garantiscono diritti - condizionati o non condizionati - per il pagamento degli importi nel corso della durata dei Titoli che possano compensare eventuali perdite di capitale.

Rischi legati alla disciplina degli indici di riferimento: I Titoli fanno riferimento a un Indice di Riferimento (*Benchmark*) ("Indice di Riferimento") come definito ai sensi del Regolamento (UE) 2016/1011 (il "**Regolamento Benchmark**") e pertanto sussiste il rischio che, a partire da una determinata data, l'Indice di Riferimento non possa più essere utilizzato come parametro di riferimento dei Titoli. In tal caso, i Titoli potrebbero essere rimossi dalla quotazione, rettificati, convertiti o comunque influenzati. Qualsiasi modifica ad un Indice di Riferimento derivante dal Regolamento Benchmark potrebbe determinare un sostanziale effetto negativo sui costi di rifinanziamento di un Indice di Riferimento o sui costi e rischi di amministrazione o comunque di partecipazione alla definizione di un Indice di Riferimento e di adempimento del Regolamento Benchmark. I potenziali investitori dovrebbero considerare il rischio che eventuali modifiche al relativo Indice di Riferimento potrebbero avere un sostanziale effetto negativo sul valore e sugli importi dovuti ai sensi dei Titoli.

Rischi legati agli indici: La performance dei Titoli legati ad indici è correlata alla performance dei rispettivi indici. Variazioni nel prezzo dei componenti dell'indice e variazioni nella composizione dell'indice, o altri fattori, possono incidere negativamente sulla performance dell'indice.

Rischi legati a potenziali conflitti di interesse: Possono insorgere conflitti di interesse relativi all'Emittente o ai soggetti incaricati dell'offerta che possono determinare decisioni svantaggiose per i Titolari dei Titoli.

Rischio di liquidità: Sussiste un rischio che i Titoli non siano ampiamente distribuiti e che non esista un mercato attivo di negoziazione che possa evolversi per i Titoli. L'Emittente può, ma non è obbligato, acquistare i Titoli in qualsiasi momento e a qualsiasi prezzo sul mercato aperto, mediante offerta pubblica di acquisto o contratto privato. I Titoli acquistati in questo modo dall'Emittente possono essere detenuti, rivenduti o cancellati. Un riacquisto dei Titoli da parte dell'Emittente può influire negativamente sulla liquidità dei medesimi. L'Emittente non può assicurare che un Titolare sarà in grado di vendere i propri Titoli ad un prezzo adeguato prima del loro rimborso.
