- (5) The Security Holders are not entitled to accelerate the payments under the Securities, other than in the case of the insolvency or liquidation of the Issuer, under all relevant laws and regulations amended from time to time, which are and will be applicable to it. - (6) There is no negative pledge in respect of the Securities.

§ 5

Substitution of the Issuer

- (1) The Issuer may without the consent of the Security Holders, if no payment of principal or interest on any of the Securities is in default, at any time substitute the Issuer for any Affiliate of the Issuer as principal debtor in respect of all obligations of the Issuer under the Securities (the "**New Issuer**"), provided that
 - (a) the New Issuer assumes all obligations of the Issuer in respect of the Securities;
 - (b) the Issuer and the New Issuer have obtained all authorizations and have satisfied all other conditions as necessary to ensure that the Securities are legal, valid and enforceable obligations of the New Issuer;

 - (d) the New Issuer has agreed to indemnify and hold harmless each Security Holder against any tax, duty or other governmental charge imposed on such Security Holder in respect of such substitution;
 - (e) the Issuer irrevocably and unconditionally guarantees proper payment of the amounts due under these Terms and Conditions; and
 - (f) (i) the proceeds are immediately available to the New Issuer, without limitation (ii) each Security Holder is treated as if the Substitution of the Issuer had not taken place and (iii) the competent supervisory authority or resolution authority has granted its prior consent (if and to the extent required by law).

For purposes of this § 5 (1) "**Affiliate**" means a company controlling, controlled by, or under common control with, the Issuer, provided that the term "controlled" ("*controllate*") shall have the meaning ascribed to it in Section 93 of the Consolidated Law on Financial Intermediation and the terms "controlling" and "common control" shall be interpreted accordingly.

- (2) *Notice:* Any such substitution shall be notified in accordance with § 6 of the General Conditions.

- (2) *Typing and calculation errors, inaccuracies and inconsistencies:* The Issuer may amend these Terms and Conditions without having to obtain the prior consent of the Security Holders, provided that such amendments (i) do not prejudice the rights or interests of the Security Holders and (ii) are aimed at correcting a manifest or obvious error, or at removing inaccuracies or inconsistencies from the text. Any notices to the Security Holders relating to the amendments referred to in the previous sentence shall be made in accordance with Section 6 of these Terms and Conditions.
- (3) *Variation of the Terms and Conditions of the Securities:* If at any time a MREL Disqualification Event occurs, and/or in order to ensure or maintain the effectiveness and enforceability of § 11 of the General Conditions, the Issuer may, without any consent or approval of the Security Holders, at any time vary the Terms and Conditions of the Securities in such a way that the Securities remain or, as appropriate, become, Qualifying Securities (the "**Variation**"). However, the Variation may not itself give rise to any right of the Issuer to redeem the varied Securities. The Issuer shall give not less than 30 nor more than 60 days' prior notice of the Variation

to the Paying Agent and the Securities Holders in accordance with § 6 of the General Conditions (the "**Variation Notice**"). The Variation Notice shall be irrevocable and include details on the extent of the Variation and the date of its coming into effect.

 - (b) are listed on a recognised stock exchange if the Securities were listed immediately prior to such Variation.
- (4) For avoidance of doubt, any Variation pursuant to § 9 (3) of the General Conditions is subject to compliance by the Issuer with any conditions prescribed by the MREL Requirements at the relevant time, including, as relevant, the condition that the Issuer has obtained the prior permission of the Relevant Resolution Authority.

- (2) The exercise of the Bail-in Power by the Relevant Resolution Authority with respect to the Securities shall not constitute an event of default, as applicable, or entail the Security Holders to terminate the Securities and the Terms and Conditions of the Securities shall continue to apply in relation to the redemption amounts payable with respect to the Securities subject to any modification of the amount of distributions or other ongoing payments payable to reflect the reduction of the redemption amount payable, and any further modification of the Terms and Conditions of the Securities that the Relevant Resolution Authority may decide in accordance with applicable laws and regulations relating to the resolution of the Issuer and/or entities of the Group incorporated in the relevant Member State.

"**Bail-in Power**" means any statutory write-down, transfer and/or conversion power existing from time to time under any laws, regulations, rules or requirements, whether relating to the resolution or independent of any resolution action, of credit institutions, investment firms and/or entities of the Group incorporated in

§ 5

Issuer's Conversion Right

The fair market value, as calculated by the Calculation Agent, is calculated based on the redemption profile of the Securities which has to be adjusted taking into consideration the following parameters as of the tenth Banking Day before the conversion becomes effective: the price of the

The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. - (4) *Interest of default*: If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the legal interest rate ("*Saggio degli Interessi legali*"), pursuant to Section 1284 CC, without prejudice to any other mandatory provisions under Italian law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement*: Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on an Observation Date, the respective Observation Date shall be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Observation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.
- (2) *Discretionary valuation*: Should the Market Disruption Event continue for more than 30 consecutive Banking Days, the Calculation Agent shall determine acting in accordance with relevant market practice and in good faith the respective Reference Price required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. Such Reference Price shall be the reasonable price determined in accordance with prevailing market conditions at 10:00 a.m. (Milan local time) on this 31st Banking Day, taking into account the economic position of the Security Holders.

If within these 30 Banking Days traded Derivatives of the Underlying expire or are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. In that case, the expiration date for those Derivatives is the respective Observation Date.

§ 8

Adjustments, Type of Adjustment, Replacement Specification, Notifications

- (1) *Adjustments*: If an Adjustment Event occurs the Calculation Agent is authorised to adjust the Terms and Conditions of these Securities (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment**").

Goal"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 acting in accordance with relevant market practice and in good faith, taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer, in particular if the circumstance that triggered the Adjustment Event has not only an insignificant impact on the economic characteristics of the Securities; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

Within the context of an Adjustment the Calculation Agent proceeds as follows:

- (a) *Adjustment in accordance with the Determining Futures Exchange:* In general, the Calculation Agent will undertake the Adjustment in terms of content and timing in a way that to the greatest extent matches the designated adjustment by the Determining Futures Exchange regarding the Underlying Linked Derivatives. The Calculation Agent is, however, also authorised to make an Adjustment if there is no adjustment made to the Underlying Linked Derivatives by the Determining Futures Exchange. In this case the Calculation Agent will make the Adjustment, if any, in accordance with the rulebook of the Determining Futures Exchange with respect to the Underlying Linked Derivatives.
 - (b) *Deviating Adjustments:* In the following cases in particular the Calculation Agent is authorised to make Adjustments deviating from the adjustments made by the Determining Futures Exchange in order to take into account the Adjustment Goal in an appropriate manner.
 - (i) The adjustment envisaged by the Determining Futures Exchange regarding the Underlying Linked Derivatives is impossible for the Issuer or the Calculation Agent or technically not feasible within reasonable economic efforts; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.
 - (ii) The adjustment envisaged by the Determining Futures Exchange regarding the Underlying Linked Derivatives is unreasonable for Securities Holders, the Calculation Agent or the Issuer (e.g. because the Issuer would have to breach internal trading restrictions in order to hedge its payment obligations under the Securities); whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.
 - (iii) The adjustment envisaged by the Determining Futures Exchange is not suitable to meet the Adjustment Goal; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.
- (2) *Type of Adjustment:* In the context of an Adjustment the Calculation Agent may undertake in particular the following measures in accordance with paragraph (1) above:
- (a) *Adjustment of the Product and Underlying Data:* The Calculation Agent may redefine the Product and Underlying Data based on an adjustment factor (e.g. in case of a capital increase against cash contribution, issue of securities with options or conversion rights in shares, a capital increase from company funds, a distribution of special dividends or other measures undertaken by the company, that issued the Underlying or a third party, that impacts the computed value of the Underlying not only in an insignificant way, based on a change of a legal or economic situation, in particular a change of the fixed assets or equity of the company).
 - (b) *Replacement of the Underlying:* In case of a take-over or a merger or similar measure with respect to the Underlying the Calculation Agent can replace the Underlying by the share of the successor of the issuer of the original Underlying or with another share of – inter alia – comparable liquidity and industry affiliation as the original Underlying (the "**Replacement Underlying**"). Furthermore, until completion of the take-over or merger (excluding), the Calculation Agent may determine that either the shares submitted for sale or submitted for exchange are to be the Replacement Underlying.

In case of a split or a similar measure with respect to the Underlying the Calculation Agent may determine (i) a basket of shares and/or securities or (ii) a basket of shares and/or securities and a cash component to be the Replacement Underlying. The Calculation Agent may exclusively select, in deviation from the adjustment made by the respective Determining Futures Exchange, the share with the highest market capitalisation or another share from the basket of shares determined by the Determining Futures Exchange with – inter alia – comparable liquidity and industry affiliation as the original Underlying to be the Replacement Underlying. In this case the Calculation Agent

will, if necessary, determine an adjustment factor by itself to meet the Adjustment Goal and will undertake an Adjustment according to paragraph 2 (a) above.

If the Calculation Agent designates a Replacement Underlying, from the Adjustment Date on (as defined in paragraph (4) below), every reference to the Underlying in these Terms and Conditions shall be a reference to the Replacement Underlying, unless the context requires otherwise.

- (3) *Replacement Specification:* If a published price of the Underlying as required pursuant to the Terms and Conditions of these Securities is subsequently corrected and the correction (the "**Corrected Value**") will be published by the Relevant Exchange after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify the respective value by using the Corrected Value (the "**Replacement Specification**") and publish it pursuant to § 6 of the General Conditions.
- (4) *Notifications:* All Adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Securities Holder according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.

§ 9

Early redemption at the option of the Issuer

- (1) The Securities may be early redeemed at any time in whole but not in part, at the option of the Issuer, upon the occurrence of the MREL Disqualification Event, but subject to compliance with the then applicable MREL Requirements (including, without limitation, the Issuer having obtained the prior permission of the competent supervisory authority or the resolution authority, in each case to the extent required by provisions of law), upon not more than 60 days' nor less than 30 days' prior notice of such early redemption, at their Optional Redemption Amount, in accordance with the MREL Requirements.

"**MREL Requirements**" means the laws, regulations, requirements, guidelines, rules, standards and policies relating to minimum requirements for own funds and eligible liabilities applicable to the Issuer and/or the Group, from time to time, (including any applicable transitional or grandfathering provisions), including, without limitation to the generality of the foregoing, any delegated or implementing acts (such as regulatory technical standards) adopted by the European Commission and any regulations, requirements, guidelines, rules, standards and policies relating to minimum requirements for own funds and eligible liabilities adopted by the Federal Republic of Germany or the Republic of Italy, a relevant resolution authority or the European Banking Authority from time to time (whether or not such requirements, guidelines or policies are applied generally or specifically to the Issuer and/or the Group), as any of the preceding laws, regulations, requirements, guidelines, rules, standards, policies or interpretations may be amended, supplemented, superseded or replaced from time to time.

"**MREL Disqualification Event**" means that, at any time, all or part of the outstanding nominal amount of Securities is or will be excluded fully or partially from the eligible liabilities available to meet the MREL Requirements provided that: (a) the exclusion of a Series of such Securities from the MREL Requirements due to the remaining maturity of such Securities being less than any period prescribed thereunder, does not constitute a MREL Disqualification Event; (b) the exclusion of all or some of a Series of Securities due to there being insufficient headroom for such Securities within a prescribed exception to the otherwise applicable general requirements for eligible liabilities does not constitute a MREL Disqualification Event; and (c) the exclusion of all or some of a Series of Securities as a result of such Securities being purchased by or on behalf of the Issuer or as a result of a purchase which is funded directly or indirectly by the Issuer, does not constitute a MREL Disqualification Event.

- (2) The Optional Redemption Amount will be paid pursuant to the provisions of § 6 of the Special Conditions.
- (3) Any notice in accordance with this paragraph (3) shall be given by a notice in accordance with § 6 of the General Conditions. It shall be irrevocable, must specify the date fixed for redemption and must set forth a statement that the redemption is made in accordance with this § 9.

What are the key risks that are specific to the Issuer?

Potential investors should be aware that in the case of the occurrence of one of the below mentioned risk factors the Securities may decline in value and that they may sustain a total loss of their investment. The following risks are key risks specific to the Issuer:

Risks associated with the impact of current macroeconomic uncertainties and the effects of the COVID-19 pandemic outbreak and recent geopolitical tensions with Russia: The financial markets and the macroeconomic and political environment of the countries in which UniCredit operates has been impacted by Russia-Ukraine conflict and by the viral pneumonia known as "Coronavirus" ("COVID-19") that could continue to have a negative impact on the performance of the Group. As a matter of fact, the macroeconomic uncertainty has particularly increased as a result of the heightened geopolitical tension between Russian Federation and Ukraine. The Russia-Ukraine crisis has caused a sharp rise in commodities prices and inflationary pressure, further global supply-chain disruption, a tightening of financial conditions, heightened uncertainty, and a sharp drop in consumer confidence. As inflation builds up as a result of the increase in energy price and the supply disruptions, ECB is changing its monetary stance (Deposit Facility rate: -50 bps in June '22, 0 bps in July, 75 bps in September, 150 bps in October) and market is repricing interest rate expectations. The outlook is surrounded by risks, also related to possible gas supply rationing from Russia during the winter at the turn of 2022-23. As a consequence, the expectations regarding the performance of the global economy remain therefore still uncertain in both the short and medium term. In the short term the outlook is characterized by tighter financial conditions, surging energy bills in Europe and reduced economic momentum across the US and Europe

with potentially a mild-recession in most of the countries. The current environment, characterized by highly uncertain elements as above mentioned could generate a worsening of the loan portfolio quality, followed by an increase of the non-performing loans and the necessity to increase the provisions to be charged to the income statement. On 9 December 2021 UniCredit presented to the financial community its new Strategic Plan, which included a set of strategic and financial objectives that considered the underlying scenario and resulted from the assessment performed in the previous months. The macro assumptions underlying the Strategic Plan exclude unexpected materially adverse developments such as the Russia-Ukraine conflict and worsening of the COVID 19 pandemic, situations that UniCredit is monitoring closely (Macro assumptions in the Strategic Plan consider the recent and still existing impacts of COVID with a gradual normalization over the upcoming years. The scenario does not assume that the current COVID situation will develop in a particularly negative way in the upcoming years).

Risks connected with the Strategic Plan 2022 – 2024: On 9th December 2021, UniCredit presented to the financial community in Milan the 2022-2024 Strategic Plan called "UniCredit Unlocked" (the "**Strategic Plan**" or "**Plan**") which contains a number of strategic, capital and financial objectives (the "**Strategic Objectives**"). The Strategic Plan focuses on UniCredit's geographic areas in which the Bank currently operates; with financial performance driven by three interconnecting levers: cost efficiency, optimal capital allocation and net revenue growth. "UniCredit Unlocked" delivers strategic imperatives and financial ambitions based on six pillars. Such strategic imperatives and financial ambitions regard: (i) the growth in its regions and the development of its client franchise, changing its business model and how its people operate; (ii) the delivery of economies of scale from its footprint of banks, transforming the technology leveraging Digital & Data and embedding sustainability in all that UniCredit does; (iii) driving financial performance via three interconnecting levers. The macro assumptions underlying the Strategic Plan exclude unexpected materially adverse developments such as the Russia-Ukraine conflict and worsening of the COVID 19 pandemic, situations that UniCredit is monitoring closely (Macro assumptions in the Strategic Plan consider the recent and still existing impacts of COVID with a gradual normalization over the upcoming years. The scenario does not assume that the current COVID situation will develop in a particularly negative way in the upcoming years). The Plan is based on six pillars: (i) optimise, through the improvement of operational and capital efficiency; (ii) invest, with targeted growth initiatives, including ESG; (iii) grow net revenues; (iv) return; (v) strengthen thanks to revised CET1 ratio target and decrease of Gross NPE ratio; and (vi) distribute consistently with organic capital generation. UniCredit's ability to meet the strategic objectives and all forward-looking statements relies on a number of assumptions, expectations, projections and provisional data concerning future events and is subject to a number of uncertainties and other factors, many of which are outside the control of UniCredit. For all these reasons, investors are cautioned against making their investment decisions based exclusively on the forecast data included in the strategic objectives. Any failure to implement the strategic objective or meet the strategic objectives may have a material adverse effect on UniCredit's business, financial condition or results of operations.

Credit risk and risk of credit quality deterioration: The activity, financial and capital strength and profitability of the UniCredit Group depend, among other things, on the creditworthiness of its customers. In carrying out its credit activities, the Group is exposed to the risk that an unexpected change in the creditworthiness of a counterparty may generate a corresponding change in the value of the associated credit exposure and give rise to the partial or total write-down thereof. The current environment continues to be characterised by highly uncertain elements, with the possibility that the slowdown of the economy, jointly with the termination of the safeguard measures, such as the customer loans moratorium, generates a worsening of the loan portfolio quality, followed by an increase of the non-performing loans and the necessity to increase the provisions to be charged to the income statement. UniCredit's Loan Loss Provisions ("**LLPs**"), excluding Russia, increased Q/Q and decreased by 25.5 per cent Y/Y to Euro 220 million in 3Q22. Therefore, the cost of risk, excluding Russia, increased by 10 bps Q/Q and decreased by 8 bps Y/Y to 20 bps in 3Q22. As at 30 September 2022, Group gross NPE ratio, excluding Russia, was equal to 2.8 per cent, stable compared to 30 June 2022 in which the gross NPE ratio was equal to 2.8%. As at 30 September 2022 Group Net NPE ratio, excluding Russia, stable compared to 30 June 2022 and is equal to 1.4%. UniCredit's LLPs, excluding Russia, in 9M22 amounted to Euro 381 million decreased by 53.9 per cent 9M/9M. Therefore the CoR was equal to 11 bps. The Group has adopted procedures, rules and principles aimed at monitoring and managing credit risk at both individual counterparty and portfolio level. However, there is the risk that, despite these credit risk monitoring and management activities, the Group's credit exposure may exceed predetermined risk's levels pursuant to the procedures, rules and principles it has adopted.

Liquidity Risk: Liquidity risk refers to the possibility that the UniCredit Group may find itself unable to meet its current and future, anticipated and unforeseen cash payment and delivery obligations without impairing its day-to-day operations or financial position. The activity of the UniCredit Group is subject in particular to funding liquidity risk, market liquidity risk, mismatch risk and contingency risk. The most relevant risks that the Group may face are: i) an exceptionally high usage of the committed and uncommitted lines granted to corporate customers; ii) an unusual withdrawal of sight deposits by UniCredit's retail and corporate customers; iii) the decline in the market value of the securities in which UniCredit invests its liquidity buffer; iv) the capacity to roll over the expiring wholesale funding and the potential cash or collateral outflows the Group may suffer in case of rating downgrades of both the banks or the sovereign debt in the geographies in which it operates. In addition to this, some risks may arise from the limitations applied to the cross-border lending among banks. Due to the financial market crisis, followed also by the reduced liquidity available to operators in the sector, the ECB has implemented important interventions in monetary policy, such as the "Targeted Longer-Term Refinancing Operation" ("**TLTRO**") introduced in 2014 and the TLTRO II introduced in 2016. It is not possible to predict the extension of the duration and the amounts with which these liquidity support operations can be repeated in the future, with the result that it is not possible to exclude a reduction or even the cancellation of this support. This would result in the need for banks to seek alternative sources of borrowing, without ruling out the difficulties of obtaining such alternative funding as well as the risk that the related costs could be higher. Such a situation could therefore adversely affect UniCredit's business, operating results and the economic and financial position of UniCredit and/or the Group. The main indicators used by the UniCredit Group to assess its liquidity profile are (i) the Liquidity Coverage Ratio (LCR), which represents an indicator of short-term liquidity subject to a minimum regulatory requirement of 100% from 2018 and which was equal to 165% in September 2022, whereas at 31 December 2021 was equal to 182% (calculated as the average of the 12 latest end of month ratios), and (ii) the Net Stable Funding Ratio (NSFR), which represents the indicator of structural liquidity and which in September 2022 was above the internal limit set at 102%, as at 31 December 2021, within the risk appetite framework.

Basel III and Bank Capital Adequacy: The Issuer shall comply with the revised global regulatory standards ("**Basel III**") on bank capital adequacy and liquidity, which impose requirements for, inter alia, higher and better-quality capital, better risk coverage, measures to promote the build-up of capital that can be drawn down in periods of stress and the introduction of a leverage ratio as a backstop to the risk-based requirement as well as two global liquidity standards. In terms of banking prudential regulations, the Issuer is also subject to the Bank Recovery and Resolution Directive 2014/59/EU of 15 May 2014 ("**BRRD**"), implemented in Italy with the Legislative Decree 180 and 181 of 16 November 2015 as amended by Directive (EU) 2019/879, the "**BRRD II**" (implemented in Italy by the Legislative Decree No. 193 of November 8, 2021), as well as the relevant technical standards and guidelines from EU regulatory bodies (i.e. the European Banking Authority (EBA)), which, inter alia, provide for recovery and resolution mechanisms and Minimum Requirement for Own Funds and Eligible Liabilities (MREL) for credit institutions. Should UniCredit not be able to meet the capital/MREL requirements imposed by the applicable laws and regulations, it may be required to maintain higher levels of capital/eligible liabilities which could potentially impact its credit ratings, and funding conditions and which could limit UniCredit's growth opportunities.

Final Payment Date:	14 March 2028
Initial Observation Date:	13 March 2023

Conversion of the Securities by the Issuer: Upon the occurrence of one or more conversion events (e.g. the price quotation of the Underlying on the respective Relevant Exchange is finally ceased and no Replacement Exchange could be determined) (the "**Conversion Event**") the Issuer may convert the Securities and redeem them on the Final Payment Date by payment of the Settlement Amount. The "**Settlement Amount**" is the market value of the Securities, with accrued interest for the period until the Final Payment Date at the market rate of interest being traded at such time for liabilities of the Issuer with the same remaining term as the Securities within ten Banking Days following the occurrence of the Conversion Event, as determined by the Calculation Agent. The Settlement Amount is in any case not less than the Minimum Amount.

Early redemption at the option of the Issuer: The Securities may be redeemed at any time in whole but not in part, at the option of the Issuer at their Optional Redemption Amount on or after the date specified in a notice published on the Issuer's website on giving notice to the Paying Agent and the Security Holders, if the Issuer determines that all or part of the outstanding nominal amount of Securities is or will be excluded fully or partially from the eligible liabilities available to meet the MREL Requirements (MREL Disqualification Event).

Adjustments to the Terms and Conditions: The Calculation Agent may adjust the Terms and Conditions of the Securities (in particular the relevant Underlying and/or all prices of the Underlying which have been specified by the Calculation Agent) if an adjustment event (e.g. the company that issued the Underlying performs a corporate action) (the "**Adjustment Event**") occurs.

Status of the Securities: The obligations of the Issuer under the Securities constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer, ranking (subject to any obligations preferred by any applicable law (also subject to the bail-in instruments as implemented under Italian

law)) *pari passu* with all other unsecured obligations (other than obligations ranking junior to the senior notes from time to time (including non-preferred senior notes and any further obligations permitted by law to rank junior to the senior notes following the Issue Date), if any) of the Issuer, present and future and, in the case of the senior notes, *pari passu* and rateably without any preference among themselves.

Where will the Securities be traded?

Admission to trading: No application for the Securities to be admitted to trading on a regulated market has been made.

Listing: Application to trading will be made with effect from 21 March 2023 on the following multilateral trading facilities (MTF): EuroTLX managed by Borsa Italiana S.p.A. ("EuroTLX")

UniCredit Bank AG (the "Market Maker") undertakes to provide liquidity in accordance with the market making rules of EuroTLX, where the Securities are expected to be traded. Moreover, the Market Maker undertakes to apply, in normal market conditions, a spread between bid and offer quotes not higher than 1.00%.

What are the key risks that are specific to the Securities?

Credit risk of the Issuer and risks in relation to resolution measures in relation to the Issuer: The Securities constitute unsecured obligations of the Issuer vis-a-vis the Security Holders. Any person who purchases the Securities therefore relies on the creditworthiness of the Issuer and has, in relation to his/her position under the Securities, no rights or claims against any other person. Security Holders are subject to the risk of a partial or total failure of the Issuer to fulfil obligations which the Issuer is liable to perform under the Securities in whole or in part, for example, in the event of the Issuer's insolvency. The worse the creditworthiness of the Issuer is the higher is the risk of a loss. In the case of realization of the credit risk of the Issuer the Security Holder may sustain a total loss of his/her capital, even if the Securities provide for a Minimum Amount at their maturity. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail. The obligations of the Issuer under the Securities are not secured, guaranteed by third parties or protected by any deposit protection or compensation scheme.

Risks related to market value-influencing factors: The market value of the Securities as well as the amounts distributable under the Securities primarily depend on the price of the Underlying. However, the market value of the Securities will be affected by a number of additional factors. These are inter alia the creditworthiness of the Issuer, the relevant prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability and, if applicable, the remaining term of the Securities as well as additional Underlying-related market value-influencing factors.

Risks related to the Redemption Amount: The Securities will be redeemed at their maturity at the Redemption Amount. The Redemption Amount may be less than the purchase price. This means, the Security Holder only achieves a return if the Redemption Amount exceeds the individual purchase price of the Security Holder.

Risks arising from missing ongoing payments: Any Additional Conditional Amount (m) will only be payable if an Additional Conditional Amount Payment Event (m) occurs with respect to an Observation Date (m). If an Additional Conditional Amount Payment Event (m) does not occur, the Security Holder is not entitled to receive the respective Additional Conditional Amount (m). There is the risk, that in case of an unfavourable performance of the Underlying no payment of any Additional Conditional Amount (m) may occur.

Risks related to shares: The Securities are associated with similar risks for the Security Holders as in case of a direct investment in the shares specified as Underlying. The price of a share can fall sharply or it can become worthless, e.g. due to the insolvency of the issuer of the share.

Risks related to potential conflicts of interests: Conflicts of interest in relation to the relevant Issuer or the persons entrusted with the offer may arise, which may result in a decision to the Security Holder's disadvantage.

Liquidity risk: There is a risk that the Securities may not be widely distributed and no active trading market may exist and may develop for the Securities. The Issuer may, but is not obliged to, purchase Securities at any time and at any price in the open market, by tender offer or private agreement. Any Securities purchased in this way by the Issuer may be held, resold or cancelled. A repurchase of Securities by the Issuer may adversely affect the liquidity of the Securities. The Issuer cannot therefore assure that a Security Holder will be able to sell his Securities at an adequate price prior to their redemption.

(1) Sulla base della comunicazione ricevuta dalla BCE in merito al "Supervisory Review and Evaluation Process (SREP)" 2021, che ha confermato per UniCredit un Requisito di Capitale di Secondo Pilastro (P2R) pari a 175 punti base, e del più aggiornato requisito relativo alla riserva di capitale anticiclica (Countercyclical Capital Buffer).

Quali sono i principali rischi specifici dell'Emittente?

I potenziali investitori devono essere consapevoli che, qualora si verifichi uno dei seguenti fattori di rischio, il valore degli Strumenti Finanziari potrebbe ridursi con la conseguente perdita totale del capitale investito. I seguenti rischi sono i principali rischi specifici dell'Emittente:

Rischi connessi all'impatto delle attuali incertezze del contesto macroeconomico e alle conseguenze derivanti dalla diffusione della pandemia da COVID-19 e le recenti tensioni geopolitiche con la Russia: I mercati finanziari e il contesto macroeconomico e politico dei Paesi in cui UniCredit opera sono stati influenzati dal conflitto tra la Russia e l'Ucraina e dalla forma di polmonite virale denominata "Coronavirus" ("COVID-19") che continuano ad avere riflessi negativi sull'andamento del Gruppo. Di fatto, l'incertezza macroeconomica è particolarmente aumentata a causa dell'acuirsi

delle tensioni geopolitiche tra la Federazione Russa e l'Ucraina. La crisi tra Russia e Ucraina ha causato un forte aumento dei prezzi delle materie prime e delle pressioni inflazionistiche, un'ulteriore interruzione della catena di approvvigionamento globale, un inasprimento delle condizioni finanziarie, un aumento dell'incertezza e un forte calo della fiducia dei consumatori. Con l'aumento dell'inflazione dovuto all'incremento dei prezzi dell'energia e alle interruzioni delle forniture, la BCE sta modificando il proprio orientamento monetario (*Deposit Facility Rate*: -50 bps a giugno 2022, 0 bps a luglio, 75 bps a settembre, 150 bps a ottobre) e il mercato sta rivalutando le aspettative sui tassi di interesse. Le prospettive sono circondate da rischi, legati anche ad una possibile razionalizzazione delle forniture di gas dalla Russia durante l'inverno a cavallo del 2022-23. Di conseguenza, le aspettative sull'andamento dell'economia globale rimangono pertanto ancora incerte sia nel breve che nel medio termine. Nel breve termine le prospettive sono caratterizzate da un inasprimento delle condizioni finanziarie, dall'aumento delle bollette energetiche in Europa e dalla riduzione dello slancio economico negli Stati Uniti e in Europa, con una potenziale lieve recessione nella maggior parte dei paesi. Il quadro attuale, caratterizzato da elementi di elevata incertezza come sopra menzionati potrebbe determinare un deterioramento della qualità del portafoglio creditizio, con conseguente incremento dell'incidenza dei crediti *non performing* e la necessità di aumentare le rettifiche di valore da iscriverne a conto economico. Il 9 dicembre 2021 UniCredit ha presentato alla comunità finanziaria il suo nuovo Piano Strategico, che ha incluso una serie di obiettivi strategici e finanziari che hanno preso in considerazione lo scenario sottostante e hanno rappresentato i risultati delle valutazioni effettuate nei mesi precedenti. Gli assunti macroeconomici sottostanti il Piano Strategico non considerano sviluppi particolarmente negativi come il peggioramento della pandemia da COVID-19 e il conflitto Russia-Ucraina, situazioni che UniCredit monitora con grande attenzione (Gli assunti macroeconomici contenuti nel Piano Strategico considerano i recenti e tuttora presenti impatti del COVID in progressiva normalizzazione nel corso dei prossimi anni. Lo scenario non assume che la situazione corrente del COVID si sviluppi nei prossimi anni in maniera particolarmente negativa).

Rischi connessi al Piano Strategico 2022 – 2024: In data 9 dicembre 2021, UniCredit ha presentato alla comunità finanziaria a Milano il Piano Strategico 2022-2024 denominato "UniCredit Unlocked" (il "**Piano Strategico**" o "**Piano**") che contiene una serie di obiettivi strategici, patrimoniali e finanziari (gli "**Obiettivi Strategici**"). Il Piano Strategico ha ad oggetto le aree geografiche di UniCredit in cui la Banca al momento opera; con performance finanziaria guidata da tre leve interconnesse: efficienza dei costi, ottima allocazione del capitale e aumenti dei ricavi netti. "UniCredit Unlocked" persegue imperativi strategici e obiettivi finanziari basati su sei pilastri. Tali imperativi strategici e obiettivi finanziari riguardano: (i) la crescita nelle proprie aree geografiche e lo sviluppo della rete di clienti, trasformando il modello di business e il modo in cui i suoi dipendenti operano; (ii) il conseguimento di economie di scala dalla propria rete di banche, attraverso una trasformazione tecnologica incentrata su Digital & Data e integrando la sostenibilità in tutte le azioni di UniCredit; (iii) la guida della performance finanziaria tramite tre leve interconnesse. Gli assunti macroeconomici non considerano sviluppi particolarmente negativi come il peggioramento della pandemia da COVID-19, una situazione che UniCredit monitora con grande attenzione (Gli assunti macroeconomici contenuti nel Piano Strategico considerano i recenti e tuttora presenti impatti del COVID in progressiva normalizzazione nel corso dei prossimi anni. Lo scenario non assume che la situazione corrente del COVID si sviluppi nei prossimi anni in maniera particolarmente negativa). Il Piano è basato su sei pilastri: (i) l'ottimizzazione, attraverso il miglioramento dell'efficienza operativa e del capitale; (ii) gli investimenti, con iniziative mirate, anche in ambito ESG; (iii) la crescita dei ricavi netti; (iv) il rendimento; (v) il rafforzamento grazie alla revisione del CET1 ratio target e del miglioramento del rapporto tra esposizioni deteriorate lorde e totale dei crediti lordi; e (vi) la distribuzione in linea con la generazione organica di capitale. La capacità di UniCredit di raggiungere gli obiettivi strategici e tutte le dichiarazioni previsionali si basano su una serie di ipotesi, aspettative, proiezioni e dati provvisori riguardanti eventi futuri e sono soggette a una serie di incertezze e altri fattori, molti dei quali sono al di fuori del controllo di UniCredit. Per le sopra esposte ragioni, gli investitori sono invitati a non fondare le proprie scelte di investimento esclusivamente sulle previsioni incluse tra gli obiettivi strategici. L'eventuale mancato raggiungimento degli obiettivi strategici potrebbe avere effetti negativi, anche significativi, sull'attività di UniCredit, sulla condizione finanziaria o sui risultati operativi.

Rischio di credito e di deterioramento della qualità del credito: L'attività, la solidità patrimoniale e finanziaria e la profittabilità del Gruppo UniCredit dipendono, tra l'altro, dal merito di credito dei propri clienti. Nello svolgimento della propria attività creditizia il Gruppo è esposto al rischio che un inatteso cambiamento del merito creditizio di una controparte possa generare un corrispondente cambiamento del valore dell'associata esposizione creditizia e dare luogo a cancellazione parziale o totale della stessa. Il quadro attuale continua ad essere caratterizzato da elementi di elevata incertezza, con la possibilità che il rallentamento dell'economia, congiuntamente alla conclusione di misure di salvaguardia, quali le moratorie sui crediti, determinino un deterioramento della qualità del portafoglio creditizio, con conseguente incremento dei crediti *non performing* e la necessità di aumentare le rettifiche di valore da iscriverne a conto economico. Le rettifiche su crediti di UniCredit, escludendo la Russia, sono aumentate rispetto al trimestre precedente e sono diminuite del 25,5% rispetto all'anno precedente, attestandosi a Euro 220 milioni nel terzo trimestre 2022. Pertanto, il costo del rischio, escludendo la Russia, è aumentato di 10 punti base trim/trim e diminuito di 8 punti base a/a, attestandosi a 20 punti base nel terzo trimestre 2022. Al 30 settembre 2022, l'NPE ratio lordo di Gruppo, escludendo la Russia, era pari al 2,8%, stabile rispetto al 30 giugno 2022 quando era pari al 2,8%. Al 30 settembre 2022 l'NPE ratio netto di Gruppo, escludendo la Russia, è stabile rispetto al 30 giugno 2022 ed è pari all'1,4%. Le rettifiche su crediti di UniCredit, escludendo la Russia, nei primi nove mesi sono state pari ad Euro 381 milioni e sono diminuite del 53,9% 9mesi/9mesi. Pertanto, il costo del rischio è stato pari ad 11 punti base. Il Gruppo si è dotato di procedure e principi finalizzati al monitoraggio ed alla gestione del rischio di credito a livello di singole controparti e di portafoglio complessivo. Tuttavia, sussiste il rischio che, pur in presenza di attività di monitoraggio e gestione del rischio di credito, l'esposizione creditizia del Gruppo ecceda i livelli di rischio predeterminati ai sensi delle procedure, delle regole e dei principi adottati.

Rischio di liquidità: Il rischio di liquidità identifica l'eventualità che il Gruppo UniCredit possa trovarsi nella condizione di non riuscire a far fronte agli impegni di pagamento (per cassa o per consegna) attuali e futuri, previsti o imprevisi senza pregiudicare l'operatività quotidiana o la propria condizione finanziaria. L'attività del Gruppo UniCredit è soggetta al rischio di liquidità in particolare nelle sue forme di funding liquidity risk, market liquidity risk, mismatch risk e contingency risk. I rischi più rilevanti a cui il Gruppo è esposto sono: i) un uso eccezionalmente alto delle linee di credito revocabili ed irrevocabili da parte delle imprese; ii) un insolito ritiro di depositi a vista da parte dei clienti UniCredit, siano essi persone fisiche o imprese; iii) un decremento del valore di mercato dei titoli in cui UniCredit investe il proprio *liquidity buffer*; iv) la capacità di rifinanziare il debito verso la clientela istituzionale in scadenza e le potenziali uscite di cassa o di garanzie che il gruppo dovrebbe fronteggiare in caso di declassamento delle banche o del debito sovrano nei Paesi in cui il Gruppo opera. Inoltre, alcuni rischi possono emergere anche dai limiti applicati ai prestiti tra banche appartenenti a Paesi diversi. A causa della crisi dei mercati finanziari, determinata anche dalla ridotta liquidità a disposizione degli operatori del settore, la Banca Centrale Europea ha posto in essere importanti interventi di politica monetaria, come il "Targeted Longer-Term Refinancing Operation" ("**TLTRO**") introdotto nel 2014 e il TLTRO II introdotto nel 2016. Non è possibile prevedere l'estensione della durata e dell'ammontare con cui tali operazioni di sostegno alla liquidità potranno essere riproposte in futuro, e di conseguenza non è possibile escludere una riduzione, o persino un annullamento di tali supporti. Ciò determinerebbe la necessità per le banche di cercare fonti di provvista alternative, non sempre disponibili o disponibili a costi più elevati. La situazione descritta potrebbe quindi incidere negativamente sull'attività, sui risultati operativi e sulla situazione economica e finanziaria dell'Emittente e/o del Gruppo. I principali indicatori utilizzati dal Gruppo UniCredit per la valutazione del profilo di liquidità sono (i) il *Liquidity Coverage Ratio* (LCR) che rappresenta un indicatore di liquidità a breve termine soggetto ad un requisito minimo regolamentare pari al 100% dal 2018 e che a settembre 2022 era pari a 165%, mentre al 31 dicembre 2021 era pari a 182% (calcolato come media delle ultime 12 osservazioni mensili del ratio), e (ii) il *Net Stable Funding Ratio* (NSFR), che rappresenta l'indicatore di liquidità strutturale e che, a settembre 2022, è stato superiore al limite interno di 102%, come al 31 dicembre 2021, fissato all'interno del risk appetite framework.

Basilea III e Adeguatezza Patrimoniale delle Banche: L'Emittente è tenuto al rispetto degli aggiornati standard globali di regolamentazione ("**Basilea III**") sull'adeguatezza patrimoniale e la liquidità delle banche, che impongono, inter alia, requisiti per un capitale più elevato e di migliore qualità, una

migliore copertura dei rischi, misure volte a promuovere l'accumulo di capitale che può essere utilizzato in periodi di stress, e l'introduzione di un indice di leva finanziaria che funge da rete di protezione ai requisiti basati sui parametri di rischio, nonché due standard globali di liquidità. In materia di normativa prudenziale bancaria, l'Emittente è sottoposto anche alla Direttiva "Bank Recovery and Resolution Directive" 2014/59/UE del 15 maggio 2014 ("BRRD"), recepita in Italia con i D.Lgs. 180 e 181 del 16 novembre 2015 - come modificata dalla Direttiva (UE) 2019/879, la "BRRD II" (recepita in Italia dal D.Lgs. 8 novembre 2021, n. 193), nonché alle norme tecniche attinenti e alle linee guida emanate dagli organismi di regolamentazione dell'Unione (i.e. l'Autorità bancaria europea (EBA)) che prevedono, inter alia, meccanismi di risanamento e di risoluzione delle crisi e requisiti minimi di fondi propri e passività ammissibili (MREL) per gli enti creditizi. Qualora UniCredit non fosse in grado di rispettare i requisiti patrimoniali/MREL imposti dalla normativa applicabile, potrebbe essere tenuta a mantenere livelli di capitale più elevati/passività ammissibili che potrebbero avere un impatto potenziale sui rating e sulle condizioni di finanziamento e che potrebbero limitare le opportunità di crescita di UniCredit.

Conversione dei Titoli da parte dell'Emittente: Al verificarsi di uno o più eventi di conversione (ad es. se la quotazione del prezzo del Sottostante sul rispettivo Relativo Mercato è definitivamente cessata e non è stato possibile determinare una Borsa Sostitutiva (*Replacement Exchange*)) ("Evento di Conversione") l'Emittente può convertire i Titoli e rimborsarli alla Data di Pagamento Finale mediante il pagamento dell'Importo di Regolamento. L'"Importo di Regolamento" è pari al valore di mercato dei Titoli, maggiorato degli interessi maturati per il periodo che va fino alla Data di Pagamento Finale al tasso di mercato a cui sono negoziate in tale momento le passività dell'Emittente con la stessa durata residua dei Titoli, entro il decimo Giorno Lavorativo successivo al verificarsi dell'Evento di Conversione, come determinato dall'Agente di Calcolo. L'Importo di Regolamento in ogni caso non potrà essere inferiore all'Importo Minimo.

Rimborso Anticipato a discrezione dell'Emittente: I Titoli possono essere rimborsati in qualsiasi momento in tutto ma non in parte, a discrezione dell'Emittente al loro Importo di Rimborso Opzionale alla data specificata in un avviso pubblicato sul sito dell'Emittente, previa comunicazione all'Agente di Pagamento e ai Titolari dei Titoli, se l'Emittente determina che tutto o parte del valore nominale in circolazione dei Titoli è o sarà escluso in tutto o in parte dalle passività ammissibili disponibili per soddisfare i Requisiti MREL (Evento di Inammissibilità MREL).

Rettifiche dei Termini e delle Condizioni dei Titoli: L'Agente di Calcolo potrà rettificare i Termini e le Condizioni dei Titoli (in particolare il relativo Sottostante e/o tutti i prezzi del Sottostante specificati dall'Agente di Calcolo) qualora si verifichi un evento di rettifica (ad es. la società che ha emesso il Sottostante compie un'azione societaria) ("Evento di Rettifica").

Stato dei Titoli: Gli obblighi dell'Emittente derivanti dai Titoli costituiscono obbligazioni dirette, incondizionate, non subordinate e non garantite dell'Emittente, avranno pari priorità nell'ordine dei pagamenti (fatte salve le obbligazioni privilegiate da qualsiasi legge applicabile (anche soggette allo strumento del bail-in, come implementato ai sensi della legge italiana)) rispetto a tutte le altre obbligazioni non garantite dell'Emittente e ad ogni altro obbligo presente e futuro, non garantito e non subordinato, dell'Emittente (salvo, quando previsto, le obbligazioni junior rispetto alle obbligazioni senior (incluse le obbligazioni senior non privilegiate e le eventuali ulteriori obbligazioni junior, rispetto a obbligazioni senior, consentite dalla legge successivamente alla Data di Emissione), ove previste).

Dove saranno negoziati i Titoli?

Ammissione alla negoziazione: Non è stata presentata l'istanza per l'ammissione a negoziazione dei Titoli presso un mercato regolamentato.

Quotazione: Sarà presentata istanza per l'ammissione a quotazione dei Titoli con efficacia dal 21/03/2023, presso i seguenti sistemi multilaterali di negoziazione (MTF): EuroTLX gestito da Borsa Italiana S.p.A. ("EuroTLX")

UniCredit Bank AG (il "Market Maker") si impegna a fornire liquidità in conformità alle norme sul *market making* di EuroTLX, dove ci si attende che i Titoli saranno negoziati. Inoltre, il Market Maker si impegna ad applicare, in condizioni normali di mercato, uno spread tra le quotazioni denaro e lettera non superiore all'1%.

Quali sono i principali rischi specifici dei Titoli?

Rischio di Credito dell'Emittente e rischi relativi alle misure di risoluzione che riguardano l'Emittente: I Titoli costituiscono obbligazioni non garantite dell'Emittente nei confronti dei Titolari. Pertanto, chiunque li acquisti è soggetto al merito creditizio dell'Emittente e non ha, in relazione alla propria posizione nell'ambito dei Titoli, alcun diritto o pretesa nei confronti di qualsiasi altra persona. I Titolari sono sottoposti al rischio di una parziale o totale inadempienza dell'Emittente per gli obblighi che il medesimo è tenuto ad adempiere in tutto o in parte ai sensi dei Titoli, ad esempio in caso di insolvenza. Peggiora la solvibilità dell'Emittente, maggiore è il rischio di perdita. Qualora il rischio di credito dell'Emittente si realizzi, il Titolare può subire una perdita totale del proprio capitale, anche se i Titoli prevedono un Importo Minimo alla loro scadenza. Inoltre, i Titolari possono essere soggetti a misure di risoluzione nei confronti dell'Emittente qualora il medesimo è in fallimento o a rischio di fallimento. Gli obblighi dell'Emittente ai sensi dei Titoli non sono garantiti, garantiti da terzi o protetti da un sistema di protezione dei depositi o di compensazione.

Rischi correlati a fattori che influenzano il valore di mercato: Tanto il valore di mercato quanto gli importi pagabili ai sensi dei Titoli dipendono principalmente dal prezzo del Sottostante. Peraltro, il valore di mercato dei Titoli sarà condizionato da una serie di ulteriori fattori. Questi sono, inter alia, il merito creditizio dell'Emittente, i relativi tassi di interesse e di rendimento prevalenti, il mercato per titoli simili, le condizioni economiche generali, politiche e cicliche, la negoziabilità e, se del caso, la durata residua dei Titoli nonché ulteriori fattori relativi al Sottostante che influenzano il valore di mercato.

Rischi correlati all'Importo di Rimborso: I Titoli saranno rimborsati alla loro scadenza all'Importo di Rimborso. L'Importo di Rimborso potrebbe essere inferiore al prezzo di acquisto. Ciò significa che il Titolare otterrà un rendimento solo se l'Importo di Rimborso sia superiore allo specifico prezzo di acquisto pagato dal Titolare.

Rischi derivanti dal mancato pagamento di importi nel corso della durata dei Titoli: Qualsiasi Importo Condizionato Aggiuntivo (m) sarà pagabile solo se si verifica un Evento di Pagamento dell'Importo Condizionato Aggiuntivo (m) in una Data di Osservazione (m). Se un Evento di Pagamento dell'Importo Condizionato Aggiuntivo (m) non si verifica, il Titolare non ha diritto a ricevere il rispettivo Importo Condizionato Aggiuntivo (m). Vi è il rischio che in caso di andamento sfavorevole del Sottostante non si verifichi il pagamento di alcun Importo Condizionato Aggiuntivo (m).

Rischi connessi ad azioni: I Titoli sono associati a rischi per i Portatori dei Titoli simili a quelli di un investimento diretto nelle azioni specificate come Sottostante. Il prezzo di un'azione può diminuire notevolmente o può diventare di nessun valore, ad esempio a causa dell'insolvenza dell'emittente dell'azione.

Rischi legati a potenziali conflitti di interesse: Possono insorgere conflitti di interesse relativi all'Emittente o ai soggetti incaricati dell'offerta che possono determinare decisioni svantaggiose per i Titolari dei Titoli.

Rischio di liquidità: Sussiste un rischio che i Titoli non siano ampiamente distribuiti e che non esista un mercato attivo di negoziazione che possa evolversi per i Titoli. L'Emittente può, ma non è obbligato, acquistare i Titoli in qualsiasi momento e a qualsiasi prezzo sul mercato aperto, mediante offerta pubblica di acquisto o contratto privato. I Titoli acquistati in questo modo dall'Emittente possono essere detenuti, rivenduti o cancellati. Un riacquisto dei Titoli da parte dell'Emittente può influire negativamente sulla liquidità dei medesimi. L'Emittente non può assicurare che un Titolare sarà in grado di vendere i propri Titoli ad un prezzo adeguato prima del loro rimborso.
