"Ratio" means the Ratio, which shall be specified by the Calculation Agent as follows:

- (i) On the Initial Observation Date, the Ratio is equal to the Ratio (initial).
- (ii) If a Knock-in Event has occurred, the Ratio will be calculated as the sum of the respective Ratios (b) as specified on each Knock-in Date (b) to the Initial Ratio.

If no Knock-in Event has occurred, the Ratio is equal to the Ratio (initial).

"Ratio (b)" means, with respect to each Knock-in Event, the respective Ratio (b), which shall be calculated as follows:

$$\text{Ratio (b)} = \text{Calculation Amount} \times \text{Knock-in Participation Factor} / R (b)$$

The Ratio shall be rounded up or down to four decimals, with 0.00005 being rounded upwards.

"Ratio (initial)" means the Ratio (initial), as determined by the Calculation Agent in accordance with the following formula:

$$\text{Ratio (initial)} = \frac{\text{Initial Investment Amount}}{R (initial)}$$

"Redemption Amount" means the Redemption Amount as calculated or, respectively, specified by the Calculation Agent pursuant to § 4 of the Special Conditions.

"Reference Price" means the Reference Price of the Underlying as specified in § 1 of the Product and Underlying Data.

"Relevant Cash Amount (b)" means the Relevant Cash Amount (b) (with b = 1, ..., n), as specified in § 1 of the Product and Underlying Data.

"Relevant Cash Amount (final)" means the Relevant Cash Amount (b) as of the Knock-in Date (b), that has most recently occurred, remaining on the Last Day of the Knock-in Observation Period. If no Knock-in Event has occurred, the Relevant Cash Amount (final) corresponds to the Relevant Cash Amount (initial).

"Relevant Cash Amount (initial)" means the Relevant Cash Amount (initial), as specified in § 1 of the Product and Underlying Data.

"Relevant Exchange" means the exchange, on which the components of the Underlying are traded; such exchange shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith in accordance with their liquidity.

In the case of a material change in the market conditions at the Relevant Exchange, such as a final discontinuation of the quotation of the components of the Underlying at the Relevant Exchange and the quotation at a different stock exchange or a considerably restricted liquidity, the Relevant Exchange shall be substituted as the Relevant Exchange by another exchange that offers satisfactorily liquid trading in the Underlying or, respectively, its components (the **"Replacement Exchange"**); such exchange shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith. In the event of such substitution, any reference to the Relevant Exchange in these Terms and Conditions shall be deemed to refer to the Replacement Exchange.

§ 2

Interest

(1) *Interest:* Subject to the occurrence of a Final Knock-in Event, the Securities shall bear interest on the Relevant Cash Amount per Security from the Interest Commencement Date to the Interest End Date for each Interest Period at the Interest Rate.

(2) *Interest Rate:* **"Interest Rate"** means the Interest Rate as specified in § 1 of the Product and Underlying Data.

(3) *Interest Amount:* The respective **"Interest Amount"** will be calculated by the Calculation Agent for each Interest Period, by multiplying the product of the Interest Rate and the Relevant Cash Amount with the Day Count Fraction.

The respective Interest Amount shall be due for payment in the Specified Currency on the respective Interest Payment Date pursuant to the provisions in § 6 of the Special Conditions.

(4) *Relevant Cash Amount:* The **"Relevant Cash Amount"** will be determined as follows:

(i) *Initial Relevant Cash Amount:* As of the Interest Commencement Date, the Relevant Cash Amount corresponds to the Relevant Cash Amount (initial). Unless a Knock-in Event occurs, the Relevant Cash Amount corresponds to the Relevant Cash Amount (initial) unchanged until the Final Interest Payment Date.

(ii) *Reduction of the Relevant Cash Amount after the occurrence of a Knock-in Event:* On every Knock-in Date (b) the Relevant Cash Amount will be reduced. If multiple Knock-in Events occur during an Interest Period, the then valid Relevant Cash Amount changes multiple times during this Interest Period.

As of the first Calculation Date after the Knock-in Date (b) (with b = 1) the Relevant Cash Amount corresponds to the Relevant Cash Amount (b) (with b = 1) until the next Knock-in Date (b) (with b = 2). As of the first Calculation Date after the Knock-in Date (b) (with b = 2) the Relevant Cash Amount will be reduced to the Relevant Cash Amount (b) (with b = 2). This procedure will be repeated on each subsequent Knock-in Date (b) (with b = 3, ..., n).

If on a Knock-in Observation Date multiple Knock-in Events occur in relation to the respective Knock-in Barriers (b), the Relevant Cash Amount will be reduced on the subsequent Calculation Date to the Relevant Cash Amount (b), which corresponds to the Knock-in Barrier (b) in relation to which a Knock-in event has most recently occurred.

(iii) *Early Cessation of Interest Payment:* If a Final Knock-in Event occurs, interest payment under the Securities ends as of the relevant Knock-in Date (b) (the **"Final Knock-in Date"**). Any accrued interest from the preceding Interest Calculation Date to the Final Knock-in Date shall be paid on the Interest Payment Date with respect to the then current Interest Period.

(5) *Day Count Fraction:* **"Day Count Fraction"** is with respect to the calculation of the Interest Amount for an Interest Period:

the actual number of days in the Interest Period divided by 365 (or, if a portion of that Interest Period falls in a leap year, the sum of (A) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (B) the actual number of days in that portion of the Interest Period not falling in the leap year divided by 365).

§ 3

Redemption

Redemption: The Securities shall be redeemed by payment of the Redemption Amount.

Payment of the Redemption Amount shall be made on the Final Payment Date pursuant to the provisions of § 6 of the Special Conditions.

§ 4

Redemption Amount

Redemption Amount: The Redemption Amount corresponds to an amount in the Specified Currency calculated or specified by the Calculation Agent as follows:

$$\text{Relevant Cash Amount (final)} + R \text{ (final)} \times \text{Ratio}$$

§ 5

Issuer's Extraordinary Call Right

Issuer's extraordinary call right: Upon the occurrence of a Call Event the Issuer may call the Securities extraordinarily by giving notice pursuant to § 6 of the General Conditions and redeem the Securities at their Cancellation Amount. Such call shall become effective at the time indicated in the notice.

The "**Cancellation Amount**" shall be the fair market value of the Securities as of the tenth Banking Day before the extraordinary call becomes effective, determined by the Calculation Agent acting in accordance with relevant market practice and in good faith under then prevailing circumstances.

The determination of the fair market value is based on the economic equivalent of the Issuer's payment obligations to the Security Holders consistent with the provisions for the redemption profile, interest or other additional amounts of the Securities that would otherwise be due after the day on which the extraordinary call becomes effective and which is adjusted for taking into consideration the following parameters as of the tenth Banking Day before the extraordinary call becomes effective: the price of the Underlying, the remaining time to maturity, the estimated volatility, the expected dividends (if applicable), the current market interest rate as well as the interest spread associated with the credit default risk of the Issuer and any other relevant market parameter that can influence the value of the Securities.

The Cancellation Amount will be paid within five Banking Days following the date as of which the extraordinary call becomes effective, or at the date specified in the above mentioned notice, as the case may be, pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards.
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the legal interest rate ("*Saggio degli Interessi legali*"), pursuant to Section 1284 CC, without prejudice to any other mandatory provisions under Italian law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on an Observation Date, the respective Observation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Observation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days, the Calculation Agent shall determine acting in accordance with relevant market practice and in good faith the respective Reference Price required for the calculations or, respectively, specifications described in these Terms and Conditions. Such Reference Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Milan local time) on this 9th Banking Day, taking into account the financial position of the Security Holders.

If within these 8 Banking Days traded Derivatives of the Underlying expire and are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in these Terms and Conditions. In that case, the expiration date for those Derivatives is the respective Observation Date.

§ 8

Adjustments, Type of Adjustment, New Index Sponsor and New Index Calculation Agent, Replacement Specification, Notifications

- (1) *Adjustments:* If an Adjustment Event occurs the Calculation Agent is authorised to adjust these Terms and Conditions (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 acting in accordance with relevant market practice and in good faith, taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

- (2) *Type of Adjustment:* In the context of an Adjustment the Calculation Agent may undertake in particular the following measure in accordance with paragraph (1) above:

Replacement of the Underlying: In the case of an Index Replacement Event, the Calculation Agent may replace the Underlying with a Replacement Underlying and if necessary redefine the Adjustable Product Data. As a "**Replacement Underlying**" another index can be considered which is comparable to the original index with respect to the represented constituents, the consideration of returns and distributions of the constituents included in the index (e.g. dividends) and, if applicable, fees and costs included in the index. If the Calculation Agent designates a Replacement Underlying, from the Adjustment Date on (as defined in paragraph (5) below, every reference to Underlying in these Terms and Conditions shall be a reference to the Replacement Underlying, unless the context requires otherwise.

- (3) *New Index Sponsor and New Index Calculation Agent:* If the Underlying is no longer determined by the Index Sponsor but rather by another person, company or institution (the "**New Index Sponsor**"), then all calculations or, respectively, specifications described in these Terms and Conditions shall occur on the basis of the Underlying as determined by the New Index Sponsor. In this case, any reference to the replaced Index Sponsor in these Terms and Conditions shall be deemed to refer to the New Index Sponsor.

If the Underlying is no longer calculated by the Index Calculation Agent but rather by another person, company or institution (the "**New Index Calculation Agent**"), then all calculations or, respectively, specifications described in these Terms and Conditions shall occur on the basis of the Underlying as calculated by the New Index Calculation Agent. In this case, any reference to the replaced Index Calculation Agent in the Terms and Conditions shall be deemed to refer to the New Index Calculation Agent.

- (4) *Replacement Specification:* If a published price of the Underlying as required pursuant to these Terms and Conditions is subsequently corrected and the correction (the "**Corrected Value**") will be published by the Index Sponsor or Index Calculation Agent, as the case may be, after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish pursuant to § 6 of the General Conditions the relevant value by using the Corrected Value (the "**Replacement Specification**").
- (5) *Notifications:* All Adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Securities Holder according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.

What are the key risks that are specific to the Issuer?

Potential investors should be aware that in the case of the occurrence of one of the below mentioned risk factors the Securities may decline in value and that they may sustain a total loss of their investment. The following risks are key risks specific to the Issuer:

Risks associated with the impact of current macroeconomic uncertainties and the effects of the geopolitical tensions: The market environment in which UniCredit operates continues to be affected by high levels of uncertainty for both the short and the medium-term outlook. The economic consequences stemming from the geopolitical tensions, not only in Russia, pushed up inflationary pressures and could continue to unfold increasing uncertainty for the euro area economy, with potential impact on the performance of the Group. The Russia-Ukraine crisis caused a sharp rise in commodities prices, further global supply-chain disruption, a tightening of financial conditions, heightened uncertainty, and a sharp drop in consumer confidence. As inflation builds up due to the increase in energy price and the supply disruptions, ECB changed its monetary stance (Deposit Facility rate: -50 bps in June 2022, 0 bps in July, 75 bps in September, 150 bps in October, 200 bps in December, 250 bps in February 2023, 300 bps in March, 325 bps in May, 350 bps in June, 375 bps in July, 400 bps in September) and market is repricing interest rate expectations. The outlook is still surrounded by risks, further tensions on commodity prices cannot be excluded and an upsurge in the ongoing Russia-Ukraine conflict cannot be ignored. Therefore, the expectations regarding the performance of the global economy remains still uncertain in both the short and medium term. The current environment, characterized by highly uncertain elements as above mentioned could generate a worsening of the loan portfolio quality, followed by an increase of the non-performing loans and the necessity to increase the provisions to be charged to the income statement. On 9 December 2021 UniCredit presented to the financial community the 2022-2024 Strategic Plan, which included a set of strategic and financial objectives that considered the underlying scenario and resulted from the assessment performed at that time. The macro assumptions underlying the Strategic Plan excluded unexpected materially adverse developments such as the Russia-Ukraine conflict and worsening/resurge of the COVID-19 pandemic, situations that UniCredit has been monitoring closely (From Strategic Plan presentation: Macro assumptions in the Strategic Plan consider the recent and existing impacts of COVID-19 at the time of the Plan presentation with a gradual normalization over the subsequent years. The scenario did not assume that the COVID-19 situation at that time would develop in a particularly negative way in the subsequent years).

Risks connected with the Strategic Plan 2022 – 2024: On 9 December 2021, UniCredit presented to the financial community in Milan the 2022-2024 Strategic Plan called "UniCredit Unlocked" (the "Strategic Plan" or "Plan") which contains a number of strategic, capital and financial objectives (the "Strategic Objectives"). The Strategic Plan focuses on UniCredit's geographic areas in which the Bank currently operates; with financial performance driven by three interconnected levers: cost efficiency, optimal capital allocation and net revenue growth. "UniCredit Unlocked" delivers strategic imperatives and financial ambitions based on six pillars. Such strategic imperatives and financial ambitions regard: (i) the growth in its regions and the development of its client franchise, changing its business model and how its people operate; (ii) the delivery of economies of scale from its footprint of

banks, transforming the technology, leveraging Digital & Data and embedding sustainability in all that UniCredit does; (iii) driving financial performance via three interconnected levers. The macro assumptions underlying the Strategic Plan disclosed in December 2021 excluded unexpected materially adverse developments such as the Russia-Ukraine conflict and worsening/resurge of the COVID-19 pandemic, situations that UniCredit has been monitoring closely (From Strategic Plan presentation: Macro assumptions in the Strategic Plan consider the recent and existing impacts of COVID-19 at the time of the Plan presentation with a gradual normalization over the subsequent years. The scenario did not assume that the COVID-19 situation at that time would develop in a particularly negative way in the subsequent years). The Plan is based on six pillars: (i) optimise, through the improvement of operational and capital efficiency; (ii) invest, with targeted growth initiatives, including ESG; (iii) grow net revenues; (iv) increase return; (v) strengthen solidity thanks to revised CET1 ratio target and decrease of Gross NPE ratio; and (vi) distribute consistently with organic capital generation. UniCredit's ability to meet the Strategic Objectives and all forward-looking statements relies on a number of assumptions, expectations, projections and provisional data concerning future events and is hence subject to a number of uncertainties and additional factors, many of which are outside the control of UniCredit. For all these reasons, investors are cautioned against making their investment decisions based exclusively on the forecast data included in the Strategic Objectives. Any failure to implement the Strategic Objective or meet the Strategic Objectives may have a material adverse effect on UniCredit's business, financial condition or results of operations.

Credit risk and risk of credit quality deterioration: The activity, financial and capital strength and profitability of the UniCredit Group depend, among other things, on the creditworthiness of its customers. In carrying out its credit activities, the Group is exposed to the risk that an unexpected change in the creditworthiness of a counterparty may generate a corresponding change in the value of the associated credit exposure and give rise to the partial or total write-down thereof. The current environment continues to be characterised by highly uncertain elements, with the possibility that the slowdown of the economy, jointly with the termination of the safeguard measures, such as the customer loans moratorium, generates a worsening of the loan portfolio quality, followed by an increase of the non-performing loans and the necessity to increase the provisions to be charged to the income statement. UniCredit's Loan Loss Provisions ("LLPs") increased Q/Q and increased Y/Y by 60.1 per cent to Euro 135 million in 3Q23. Therefore, the cost of risk increased by 10 bps Q/Q and increased by 5 bps Y/Y to 12 bps in 3Q23. The Group kept the amount of overlays on performing exposures flat Q/Q at Euro 1.75 billion, which substantially reinforces the Group's capacity to withstand macroeconomic shocks. As at 30 September 2023, Group gross NPEs were down by 13.1 per cent Y/Y and by 1.1 per cent Q/Q to Euro 12.0 billion in 3Q23 (while as at 30 June 2023 they were equal to Euro 12.1 billion) with gross NPE ratio of 2.7 per cent. (-0.2 p.p. Y/Y, +0.1 Q/Q). As at 30 September 2023, Group Net NPEs stood at Euro 6.2 billion decreased compared to 30 June 2023 which attested at Euro 6.3 billion (Group Net NPE ratio stable compared to 30 June 2023 and is equal to 1.4 per cent.). UniCredit's LLPs in 9M23 amounted to Euro 249 million decreased by 81.8 per cent 9M/9M. Therefore the CoR was equal to 7 bps. The Group has adopted procedures, rules and principles aimed at monitoring and managing credit risk at both individual counterparty and portfolio level. However, there is the risk that, despite these credit risk monitoring and management activities, the Group's credit exposure may exceed predetermined risk's levels pursuant to the procedures, rules and principles it has adopted.

Liquidity Risk: Liquidity risk refers to the possibility that the UniCredit Group may find itself unable to meet its current and future, anticipated and unforeseen cash payment and delivery obligations without impairing its day-to-day operations or financial position. The activity of the UniCredit Group is subject in particular to funding liquidity risk, market liquidity risk and contingency risk. The most relevant risks that the Group may face are: i) an exceptionally high usage of the committed and uncommitted lines granted to corporate customers; ii) an unusual withdrawal of sight and term deposits by UniCredit's retail and corporate customers; iii) the decline in the market value of the securities in which UniCredit invests its liquidity buffer; iv) the capacity to roll over the expiring wholesale funding and the potential cash or collateral outflows the Group may suffer in case of rating downgrades of both the banks or the sovereign debt in the geographies in which it operates. In addition to this, some risks may arise from the limitations applied to the cross-border lending among banks. Due to the financial market crisis, followed also by the reduced liquidity available to operators in the sector, the ECB has implemented important interventions in monetary policy, such as the "Targeted Longer-Term Refinancing Operation" ("TLTRO") introduced in 2014 and the TLTRO II introduced in 2016. These liquidity support operations are approaching their maturity. This would result in the need for banks to seek alternative sources of borrowing, without ruling out the difficulties of obtaining such alternative funding as well as the risk that the related costs could be higher. Such a situation could therefore adversely affect UniCredit's business, operating results and the economic and financial position of UniCredit and/or the Group. The main indicators used by the UniCredit Group to assess its liquidity profile are (i) the Liquidity Coverage Ratio (LCR), which represents an indicator of short-term liquidity subject to a minimum regulatory requirement of 100 per cent from 2018 and which was equal to 157 per cent in September 2023, whereas at 30 June 2023 was equal to 160 per cent (calculated as the average of the 12 latest end of month ratios), and (ii) the Net Stable Funding Ratio (NSFR), which represents the indicator of structural liquidity and which in September 2023 was above the internal limit set at 102.3 per cent within the risk appetite framework.

Basel III and Bank Capital Adequacy: The Issuer shall comply with the revised global regulatory standards ("Basel III") on bank capital adequacy and liquidity, which impose requirements for, inter alia, higher and better-quality capital, better risk coverage, measures to promote the build-up of capital that can be drawn down in periods of stress and the introduction of a leverage ratio as a backstop to the risk-based requirement as well as two global liquidity standards. In terms of banking prudential regulations, the Issuer is also subject to the Bank Recovery and Resolution Directive 2014/59/EU of 15 May 2014 ("BRRD"), implemented in Italy with the Legislative Decree. 180 and 181 of 16 November 2015 as amended by Directive (EU) 2019/879, the "BRRD II" (implemented in Italy by the Legislative Decree No. 193 of November 8, 2021), as well as the relevant technical standards and guidelines from EU regulatory bodies (i.e. the European Banking Authority (EBA)), which, inter alia, provide for recovery and resolution mechanisms and Minimum Requirement for Own Funds and Eligible Liabilities (MREL) for credit institutions. Should UniCredit not be able to meet the capital/MREL requirements imposed by the applicable laws and regulations, it may be required to maintain higher levels of capital/eligible liabilities which could potentially impact its credit ratings, and funding conditions and which could limit UniCredit's growth opportunities.

Section 3 – Key information on the Securities

What are the main features of the Securities?

Product Type, Underlying and form of the Securities

Product Type: Knock-in Step-in Tracker Securities (with Cash Settlement)

Underlying: FTSE MIB Index (ISIN: GB00BNNLHW18 / Reference Price: Closing price)

The Securities are governed by Italian law. The Securities are debt instruments in dematerialized registered form pursuant to the Italian Consolidated Law on Financial Intermediation (*Testo Unico della Finanza*). The Securities will be represented by book entry and registered in the books of the Clearing System. The transfer of the Securities operates by registration on the relevant accounts opened in the Clearing System. The international securities identification number (ISIN) of the Securities is set out in Section 1.

Issuance and Term

The Securities will be issued on 30 April 2024 in Euro (EUR) (the "**Specified Currency**") as up to 30,000 Certificates. The Securities have a defined term.

General

Subject to the effect of other price influencing factors (such as expected volatility, interest rate, dividend yield), the market value of the Securities during their term depends decisively on the performance of the Underlying. If the price of the Underlying rises, the market value of the Securities regularly rises. On the other hand, if the price of the Underlying falls, the market value of the Securities regularly falls.

Interest

Subject to an early end of interest payment (see below), the Securities pay interest for each Interest Period. The relevant Interest Amount depends on the Relevant Cash Amount. The relevant Interest Amount will be paid on the relevant Interest Payment Dates.

The Interest Amount will be calculated as follows:

The Relevant Cash Amount will be multiplied by the applicable Interest Rate and the Day Count Fraction.

The value of the Relevant Cash Amount is floating. As at the Interest Commencement Date, the Relevant Cash Amount corresponds to the Relevant Cash Amount (initial). Upon the occurrence of a Knock-in Event, the Relevant Cash Amount will be reduced as follows:

As of the first Calculation Date after the Knock-in Date (b) (with $b = 1$), the Relevant Cash Amount corresponds to the Relevant Cash Amount (b) (with $b = 1$), until the next Knock-in Date (b) (with $b = 2$). As of the first Calculation Date after the Knock-in Date (b) (with $b = 2$) the Relevant Cash Amount will be reduced to the Relevant Cash Amount (b) (with $b = 2$). This procedure will be repeated on each subsequent Knock-in Date (b) (with $b = 3, \dots, n$). Multiple Knock-in Events may occur on one single Knock-in Observation Date. In this case, the Relevant Cash Amount will be reduced as at the immediately subsequent Calculation Date to the Relevant Cash Amount (b), which corresponds to the Knock-in Barrier (b), in relation to which the last Knock-in Event has occurred.

The index (b) denotes the sequential number of the potential Knock-in Event since the Securities were issued.

If no Knock-in Event occurs, the Relevant Cash Amount remains unchanged for all Interest Periods.

If a Final Knock-in Event occurs, the Securities will stop paying interest, as of the corresponding Knock-in Date (b).

Interest Rate:	7.50% p.a.
Interest Commencement Date:	30 April 2024
Interest Payment Dates:	30 April 2025 (1); 30 April 2025 (2); 30 April 2026 (3); 29 October 2027 (4)
Day Count Fraction:	Actual/Actual (unadjusted)

Redemption

Redemption as at the Final Payment Date

The Securities will be redeemed by payment of the Redemption Amount, which is calculated by multiplying the Final Reference Price by the Ratio. The Relevant Cash Amount (final) will be added to the result.

The Relevant Cash Amount (final) corresponds to the remaining Relevant Cash Amount (b) as of the Knock-in Date (b), that has most recently occurred. If no Knock-in Event has occurred, the Relevant Cash Amount (final) corresponds to the Relevant Cash Amount (initial).

Determination of the Ratio

The Ratio depends on the occurrence of a Knock-in Event.

On the Initial Observation Date, the Ratio corresponds to the Ratio (initial).

As long as no Knock-in Event has occurred, the Ratio corresponds at any time to the Ratio (initial).

Upon the occurrence of the Knock-in Event, the Ratio will be adjusted. The sum of the Ratios (b) as determined on each Knock-in Date (b) will be added to the Initial Ratio.

The Initial Ratio will be calculated by multiplying the Calculation Amount with a quotient. The quotient will be calculated by dividing the Initial Participation Factor by the Initial Reference Price.

The Ratio (b) will be calculated by multiplying the Calculation Amount by a quotient. The quotient will be calculated by dividing the Knock-in Participation Factor by R (b).

Ratio (initial) means the Initial Investment Amount divided by R (initial)

As a result, the Ratio after the occurrence of a Knock-in Event corresponds to the sum of the Initial Ratio and the Ratio (b).

Additional definitions and product terms

A Final Knock-in Event occurs, if in relation to all Knock-in Barriers (b) a Knock-in Event has occurred.

A Knock-in Event occurs, if the Reference Price of the Underlying is equal to or lower than the relevant Knock-in Barrier (b) on a Knock-in Observation Date.

Knock-in Observation Date means each Calculation Date between 1 May 2024 (including) and 22 October 2027 (including).

Knock-in Date (b) means, in relation to the relevant Knock-in Barrier (b), each Calculation Date, on which a Knock-in Event has actually occurred.

Knock-in Barrier (b) means the respective Knock-in Level (b) x R (initial).

R (b) means the Reference Price of the Underlying on the respective Knock-in Date (b).

R (final) means the Reference Price of the Underlying on the Final Observation Date.

R (initial) means the Reference Price of the Underlying on the Initial Observation Date.

The Relevant Cash Amount (final) corresponds to the remaining Relevant Cash Amount (b) as of the Knock-in Date (b) that has most recently occurred. If no Knock-in Event has occurred, the Relevant Cash Amount (final) corresponds to the Relevant Cash Amount (initial).

Calculation Amount:	EUR 1,000.00
Final Observation Date:	22 October 2027
Final Payment Date:	29 October 2027
Initial Investment Amount:	EUR 200.00
Initial Observation Date:	30 April 2024
Initial Participation Factor:	20%
Knock-in Level (b):	95% (1); 90% (2); 85% (3); 80% (4)
Knock-in Participation Factor:	20%
Relevant Cash Amount (initial):	EUR 800.00

Relevant Cash Amount (b): EUR 600.00 (1); EUR 400.00 (2); EUR 200.00 (3); EUR 0.00 (4)

Extraordinary termination right: Upon the occurrence of one or more call events (for example, an Index Replacement Event (for example the calculation or publication of the Underlying is indefinitely or permanently discontinued) has occurred and no suitable Replacement Underlying is available or can be determined) (the "Call Event"), the Issuer may call the Securities extraordinarily and redeem the Securities at their Cancellation Amount. The "Cancellation Amount" is their fair market value.

Adjustments to the Terms and Conditions: The Calculation Agent may adjust the Terms and Conditions of the Securities (in particular the Underlying and/or all prices of the Underlying which have been specified by the Calculation Agent) if an adjustment event (for example, a certain change to the relevant index concept) (the "Adjustment Event") occurs.

Status of the Securities: The obligations of the Issuer under the Securities constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer, ranking (subject to any obligations preferred by any applicable law (also subject to the bail-in instruments as implemented under Italian law)) *pari passu* with all other unsecured obligations (other than obligations ranking junior to the senior notes from time to time (including non-preferred senior notes and any further obligations permitted by law to rank junior to the senior notes following the Issue Date), if any) of the Issuer, present and future and, in the case of the senior notes, *pari passu* and rateably without any preference among themselves.

Where will the Securities be traded?

Admission to trading: No application for the Securities to be admitted to trading on a regulated market has been made.

Listing: Application to trading will be made with effect from 8 May 2024 on the following multilateral trading facilities (MTF): EuroTLX managed by Borsa Italiana S.p.A. ("EuroTLX")

UniCredit Bank GmbH (the "Market Maker") undertakes to provide liquidity in accordance with the market making rules of EuroTLX, where the Securities are expected to be traded. Moreover, the Market Maker undertakes to apply, in normal market conditions, a spread between bid and offer quotes not higher than 1.00%.

What are the key risks that are specific to the Securities?

Credit risk of the Issuer and risks in relation to resolution measures in relation to the Issuer: The Securities constitute unsecured obligations of the Issuer vis-a-vis the Security Holders. Any person who purchases the Securities therefore relies on the creditworthiness of the Issuer and has, in relation to his/her position under the Securities, no rights or claims against any other person. Security Holders are subject to the risk of a partial or total failure of the Issuer to fulfil obligations which the Issuer is liable to perform under the Securities in whole or in part, for example, in the event of the Issuer's insolvency. The worse the creditworthiness of the Issuer is the higher is the risk of a loss. In the case of realization of the credit risk of the Issuer the Security Holder may sustain a total loss of his/her capital, even if the Securities provide for a Minimum Amount at their maturity. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail. The obligations of the Issuer under the Securities are not secured, guaranteed by third parties or protected by any deposit protection or compensation scheme.

Risks related to market value-influencing factors: The market value of the Securities will be affected by a number of factors. These are inter alia the creditworthiness of the Issuer, the relevant prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability and, if applicable, the remaining term of the Securities as well as additional Underlying-related market value-influencing factors. The market value of the Securities as well as the amounts distributable under the Securities primarily depend on the price of the Underlying.

Risks related to the Redemption Amount: The Redemption Amount may be less than the Issue Price or the purchase price or even be zero. This means, the Security Holder only achieves a return if the Redemption Amount exceeds the individual purchase price of the Security Holder. Potential return from the Securities is limited in contrast to a direct investment in the Underlying. **A total loss is possible.**

Risks arising from missing ongoing payments: The Securities, do not bear interest or grant any other conditional or unconditional rights for ongoing payments which could compensate possible losses of principal.

Risks related to indices: The performance of Securities linked to indices depends on the performance of the respective index. Changes in the price of the components of the index and changes to the composition of the index or other factors may have an adverse effect on the performance of the index. There is a risk that the index may not be used as reference value of the Securities from a certain point in time. In such event, the Securities could be delisted, adjusted, redeemed prior to maturity or otherwise impacted.

Risks related to potential conflicts of interests: Conflicts of interest in relation to the relevant Issuer or the persons entrusted with the offer may arise, which may result in a decision to the Security Holder's disadvantage.

Liquidity risk: There is a risk that the Securities may not be widely distributed and no active trading market may exist and may develop for the Securities. The Issuer may, but is not obliged to, purchase Securities at any time and at any price in the open market, by tender offer or private agreement. Any Securities purchased in this way by the Issuer may be held, resold or cancelled. A repurchase of Securities by the Issuer may adversely affect the liquidity of the Securities. The Issuer cannot therefore assure that a Security Holder will be able to sell his Securities at an adequate price prior to their redemption.

Quali sono i principali rischi specifici dell'Emittente?

I potenziali investitori devono essere consapevoli che, qualora si verifichi uno dei seguenti fattori di rischio, il valore degli Strumenti Finanziari potrebbe ridursi con la conseguente perdita totale del capitale investito. I seguenti rischi sono i principali rischi specifici dell'Emittente:

Rischi connessi all’impatto delle attuali incertezze del contesto macroeconomico e alle conseguenze derivanti dalle tensioni geopolitiche: Il contesto di mercato in cui UniCredit opera continua a essere influenzato da elevati livelli di incertezza sia sulle previsioni a breve che a medio termine. Le conseguenze economiche derivanti dalle tensioni geopolitiche, non solo in Russia, hanno provocato un aumento delle pressioni inflazionistiche e possono continuare a generare crescente incertezza per l’economia dell’area euro, con possibili ripercussioni sull’andamento del Gruppo. La crisi tra Russia e Ucraina ha causato un forte aumento dei prezzi delle materie prime, un’ulteriore interruzione della catena di approvvigionamento globale, un inasprimento delle condizioni finanziarie, un aumento dell’incertezza e un forte calo della fiducia dei consumatori. Con l’aumento dell’inflazione dovuto all’incremento dei prezzi dell’energia e alle interruzioni delle forniture, la BCE ha modificato il proprio orientamento monetario (*Deposit Facility Rate*: - 50 pb a giugno 2022, 0 pb a luglio, 75 pb a settembre, 150 pb a ottobre, 200 pb a dicembre, 250 pb a febbraio 2023, 300 pb a marzo, 325 pb a maggio, 350 pb a giugno, 375 pb a luglio, 400 pb a settembre) e il mercato sta rivalutando le aspettative sui tassi di interesse. Le prospettive sono ancora circondate da rischi, non si possono escludere ulteriori tensioni in relazione ai prezzi delle materie prime e non si può ignorare una recrudescenza del conflitto in corso tra Russia e Ucraina. Pertanto, le aspettative sull’andamento dell’economia globale rimangono ancora incerte sia nel breve che nel medio termine. Il quadro attuale, caratterizzato da elementi di elevata incertezza come sopra menzionati potrebbe determinare un deterioramento della qualità del portafoglio creditizio, con conseguente incremento dell’incidenza dei crediti *non performing* e la necessità di aumentare le rettifiche di valore da iscrivere a conto economico. Il 9 dicembre 2021 UniCredit ha presentato alla comunità finanziaria il Piano Strategico 2022-2024, che ha incluso una serie di obiettivi strategici e finanziari che hanno preso in considerazione lo scenario sottostante e hanno rappresentato i risultati delle valutazioni effettuate alla data. Gli assunti macroeconomici sottostanti il Piano Strategico non consideravano sviluppi particolarmente negativi come il peggioramento/ritorno della pandemia da COVID-19 e il conflitto Russia-Ucraina, situazioni che UniCredit ha monitorato con grande attenzione (dalla presentazione del Piano Strategico: gli assunti macroeconomici contenuti nel Piano Strategico considerano i recenti e i presenti impatti del COVID-19 al

momento della presentazione del Piano, in progressiva normalizzazione nel corso dei successivi anni. Lo scenario non ha assunto che la situazione del COVID-19 in quel momento si sviluppasse nei successivi anni in maniera particolarmente negativa).

Rischi connessi al Piano Strategico 2022 – 2024: In data 9 dicembre 2021, UniCredit ha presentato alla comunità finanziaria a Milano il Piano Strategico 2022-2024 denominato "UniCredit Unlocked" (il "Piano Strategico" o "Piano") che contiene una serie di obiettivi strategici, patrimoniali e finanziari (gli "Obiettivi Strategici"). Il Piano Strategico ha ad oggetto le aree geografiche di UniCredit in cui la Banca al momento opera, con performance finanziaria guidata da tre leve interconnesse: efficienza dei costi, ottima allocazione del capitale e aumenti dei ricavi netti. "UniCredit Unlocked" persegue imperativi strategici e obiettivi finanziari basati su sei pilastri. Tali imperativi strategici e obiettivi finanziari riguardano: (i) la crescita nelle proprie aree geografiche e lo sviluppo della rete di clienti, trasformando il modello di business e il modo in cui i suoi dipendenti operano; (ii) il conseguimento di economie di scala dalla propria rete di banche, attraverso una trasformazione tecnologica, incentrata su Digital & Data e integrando la sostenibilità in tutte le azioni di UniCredit; (iii) la guida della performance finanziaria tramite tre leve interconnesse. Gli assunti macroeconomici sottesi al Piano Strategico comunicato a Dicembre 2021 non consideravano sviluppi particolarmente negativi come il conflitto Russia-Ucraina e il peggioramento/ritorno della pandemia da COVID-19, situazioni che UniCredit ha monitorato con grande attenzione (dalla presentazione del Piano Strategico: gli assunti macroeconomici contenuti nel Piano Strategico considerano i recenti e i presenti impatti del COVID-19 al momento della presentazione del Piano, in progressiva normalizzazione nel corso dei successivi anni. Lo scenario non ha assunto che la situazione del COVID-19 in quel momento si sviluppasse nei successivi anni in maniera particolarmente negativa). Il Piano è basato su sei pilastri: (i) l'ottimizzazione, attraverso il miglioramento dell'efficienza operativa e del capitale; (ii) gli investimenti, con iniziative mirate, anche in ambito ESG; (iii) la crescita dei ricavi netti; (iv) aumento del rendimento; (v) il rafforzamento della solidità grazie alla revisione del target del coefficiente patrimoniale CET1 e del miglioramento del rapporto tra esposizioni deteriorate lorde e totale dei crediti lordi; e (vi) la distribuzione in linea con la generazione organica di capitale. La capacità di UniCredit di raggiungere gli Obiettivi Strategici e tutte le dichiarazioni previsionali si basano su una serie di ipotesi, aspettative, proiezioni e dati provvisori riguardanti eventi futuri e sono pertanto soggette a una serie di incertezze e ulteriori fattori, molti dei quali sono al di fuori del controllo di UniCredit. Per le sopra esposte ragioni, gli investitori sono invitati a non fondare le proprie scelte di investimento esclusivamente sulle previsioni incluse tra gli Obiettivi Strategici. L'eventuale mancato raggiungimento degli Obiettivi Strategici potrebbe avere effetti negativi, anche significativi, sull'attività di UniCredit, sulla condizione finanziaria o sui risultati operativi.

Rischio di credito e di deterioramento della qualità del credito: L'attività, la solidità patrimoniale e finanziaria e la profittabilità del Gruppo UniCredit dipendono, tra l'altro, dal merito di credito dei propri clienti. Nello svolgimento della propria attività creditizia il Gruppo è esposto al rischio che un inatteso cambiamento del merito creditizio di una controparte possa generare un corrispondente cambiamento del valore dell'associata esposizione creditizia e dare luogo a cancellazione parziale o totale della stessa. Il quadro attuale continua ad essere caratterizzato da elementi di elevata incertezza, con la possibilità che il rallentamento dell'economia, congiuntamente alla conclusione di misure di salvaguardia, quali le moratorie sui crediti, determinino un deterioramento della qualità del portafoglio creditizio, con conseguente incremento dei crediti *non performing* e la necessità di aumentare le rettifiche di valore da iscriverne a conto economico. Le rettifiche su crediti di UniCredit ("LLPs") sono aumentate trim/trim e aumentate del 60,1 per cento a/a, attestandosi a Euro 135 milioni nel 3trim2023. Pertanto, il costo del rischio è aumentato di 10 punti base trim/trim ed è aumentato di 5 punti base a/a, attestandosi a 12 punti base nel 3trim2023. Il Gruppo ha mantenuto invariati trim/trim gli overlay sulle esposizioni performing, pari a Euro 1,75 miliardi, che rafforzano notevolmente la capacità del Gruppo di far fronte agli shock macroeconomici. Al 30 settembre 2023, l'NPE lordo di Gruppo era in calo del 13,1 per cento a/a e del 1,1 per cento trim/trim attestandosi a Euro 12,0 miliardi nel 3trim2023 (mentre al 30 giugno 2023 era pari a Euro 12,1 miliardi) con l'NPE ratio lordo pari al 2,7 per cento (-0,2 p.p. a/a, +0,1 trim/trim). Al 30 settembre 2023, l'NPE netto di Gruppo si è attestato a Euro 6,2 miliardi, in diminuzione rispetto al 30 giugno 2023, quando si attestava a Euro 6,3 miliardi (NPE ratio netto di Gruppo stabile rispetto al 30 giugno 2023 ed è pari all'1,4 per cento). Le rettifiche su crediti di UniCredit nei 9mesi23 si attestavano a Euro 249 milioni, in diminuzione del 81,8 per cento 9mesi/9mesi. Di conseguenza, il CoR si attestava a 7 pb. Il Gruppo si è dotato di procedure e principi finalizzati al monitoraggio ed alla gestione del rischio di credito a livello di singole controparti e di portafoglio complessivo. Tuttavia, sussiste il rischio che, pur in presenza di attività di monitoraggio e gestione del rischio di credito, l'esposizione creditizia del Gruppo ecceda i livelli di rischio predeterminati ai sensi delle procedure, delle regole e dei principi adottati.

Rischio di liquidità: Il rischio di liquidità identifica l'eventualità che il Gruppo UniCredit possa trovarsi nella condizione di non riuscire a far fronte agli impegni di pagamento (per cassa o per consegna) attuali e futuri, previsti o imprevisi senza pregiudicare l'operatività quotidiana o la propria condizione finanziaria. L'attività del Gruppo UniCredit è soggetta in particolare al rischio di liquidità nelle sue forme di funding liquidity risk, market liquidity risk, mismatch risk e contingency risk. I rischi più rilevanti a cui il Gruppo è esposto sono: i) un uso eccezionalmente alto delle linee di credito revocabili ed irrevocabili da parte delle imprese; ii) un insolito ritiro di depositi a vista e vincolati da parte dei clienti UniCredit, siano essi persone fisiche o imprese; iii) un decremento del valore di mercato dei titoli in cui UniCredit investe il proprio *liquidity buffer*; iv) la capacità di rifinanziare il debito verso la clientela istituzionale in scadenza e le potenziali uscite di cassa o di garanzie che il gruppo dovrebbe fronteggiare in caso di declassamento delle banche o del debito sovrano nei Paesi in cui il Gruppo opera. Inoltre, alcuni rischi possono emergere anche dai limiti applicati ai prestiti tra banche appartenenti a Paesi diversi. A causa della crisi dei mercati finanziari, determinata anche dalla ridotta liquidità a disposizione degli operatori del settore, la BCE ha posto in essere importanti interventi di politica monetaria, come il programma di "Operazioni Mirate di Rifinanziamento a più Lungo Termine" ("Targeted Longer-Term Refinancing Operation" o "TLTRO") introdotto nel 2014 e il TLTRO II introdotto nel 2016. Tali operazioni di sostegno stanno raggiungendo la loro scadenza. Ciò determinerebbe la necessità per le banche di cercare fonti di provvista alternative, non sempre disponibili o disponibili a costi più elevati. La situazione descritta potrebbe quindi incidere negativamente sull'attività di UniCredit, sui risultati operativi e sulla situazione economica e finanziaria dell'Emittente e/o del Gruppo. I principali indicatori utilizzati dal Gruppo UniCredit per la valutazione del profilo di liquidità sono (i) il *Liquidity Coverage Ratio* (LCR) che rappresenta un indicatore di liquidità a breve termine soggetto ad un requisito minimo regolamentare pari al 100 per cento dal 2018 e che a settembre 2023 era pari a 160 per cento, mentre al 30 giugno 2023 era pari a 160 per cento (calcolato come media delle ultime 12 osservazioni mensili dell'indicatore), e (ii) il *Net Stable Funding Ratio* (NSFR), che rappresenta l'indicatore di liquidità strutturale e che, a settembre 2023, è stato superiore al limite interno di 102,3 per cento fissato all'interno del risk appetite framework.

Basilea III e Adeguatezza Patrimoniale delle Banche: L'Emittente è tenuto al rispetto degli aggiornati standard globali di regolamentazione ("Basilea III") sull'adeguatezza patrimoniale e la liquidità delle banche, che impongono, inter alia, requisiti per un capitale più elevato e di migliore qualità, una migliore copertura dei rischi, misure volte a promuovere l'accumulo di capitale che può essere utilizzato in periodi di stress, e l'introduzione di un indice di leva finanziaria che funge da rete di protezione ai requisiti basati sui parametri di rischio, nonché due standard globali di liquidità. In materia di normativa prudenziale bancaria, l'Emittente è sottoposto anche alla Direttiva "Bank Recovery and Resolution Directive" 2014/59/UE del 15 maggio 2014 ("BRRD"), recepita in Italia con i D.Lgs. 180 e 181 del 16 novembre 2015 - come modificata dalla Direttiva (UE) 2019/879, la "BRRD II" (recepita in Italia dal D.Lgs. 8 novembre 2021, n. 193), nonché alle norme tecniche attinenti e alle linee guida emanate dagli organismi di regolamentazione dell'Unione (i.e. l'Autorità bancaria europea (EBA)) che prevedono, inter alia, meccanismi di risanamento e di risoluzione delle crisi e requisiti minimi di fondi propri e passività ammissibili (MREL) per gli enti creditizi. Qualora UniCredit non fosse in grado di rispettare i requisiti patrimoniali/MREL imposti dalla normativa applicabile, potrebbe essere tenuta a mantenere livelli di capitale più elevati/passività ammissibili che potrebbero avere un impatto potenziale sui rating e sulle condizioni di finanziamento e che potrebbero limitare le opportunità di crescita di UniCredit.

Sezione 3 – Informazioni fondamentali sui Titoli

Quali sono le principali caratteristiche dei Titoli?

Tipologia di Prodotto, Sottostante e forma dei Titoli

Tipo di Prodotto: Titoli Knock-in Step-in Tracker (con liquidazione in contanti)

Sottostante: FTSE MIB Index (ISIN: GB00BNNLHW18 / Prezzo di Riferimento: Prezzo di chiusura)

I Titoli sono regolati dalla legge italiana. I Titoli sono strumenti di debito in forma nominativa dematerializzata ai sensi del Testo Unico in materia di intermediazione finanziaria (*Testo Unico della Finanza*). I Titoli saranno rappresentati mediante scrittura contabile registrate sul sistema di contabilizzazione del Sistema di Compensazione (*Clearing System*). Il trasferimento dei Titoli avviene mediante registrazione sui relativi conti accessi presso il Sistema di Compensazione. Il codice internazionale di identificazione dei Titoli (*International Securities Identification Number - ISIN*) è indicato nella Sezione 1.

Emissione e Durata

I Titoli saranno emessi il 30/04/2024 in Euro (EUR) (la "**Valuta Specifica**") fino a 30.000 Certificati. I Titoli hanno una durata definita.

Generale

A causa dell'effetto di altri fattori che influenzano il prezzo (come la volatilità attesa, il tasso di interesse, il rendimento da dividendi), il valore dei Titoli durante la loro vita dipende principalmente dalla performance del Sottostante. Se il prezzo del Sottostante sale, il valore dei Titoli sale. D'altra parte se il prezzo del Sottostante scende, il valore dei titoli scende.

Interessi

Soggetto ad una fine anticipata del pagamento degli interessi (vedi sotto), i Titoli pagano interessi per ogni Periodo di Interessi. L'Importo di Interesse rilevante dipende dall'Importo in Contanti Rilevante. L'Importo di Interesse rilevante sarà pagato alle relative Date di Pagamento degli Interessi.

L'Importo dell'Interesse sarà calcolato come segue:

L'Importo in Contanti Rilevante sarà moltiplicato per il Tasso di Interesse applicabile e la Frazione di Conteggio Giornaliero.

Il valore dell'Importo in Contanti Rilevante è fluttuante. Alla Data di Inizio degli Interessi, l'Importo in Contanti Rilevante corrisponde all'Importo in Contanti Rilevante (iniziale). Al verificarsi di un Evento Knock-in, l'Importo in Contanti Rilevante sarà ridotto come segue:

A partire dalla prima Data di Calcolo dopo la Data Knock-in (b) (con b = 1), l'Importo in Contanti Rilevante corrisponde all'Importo in Contanti Rilevante (b) (con b = 1), fino alla successiva Data Knock-in (b) (con b = 2). A partire dalla prima Data di Calcolo dopo la Data Knock-in (b) (con b = 2) l'Importo in Contanti Rilevante sarà ridotto all'Importo in Contanti Rilevante (b) (con b = 2). Questa procedura sarà ripetuta ad ogni successiva Data Knock-in (b) (con b = 3, ..., n). Eventi Knock-in multipli possono verificarsi in una singola Data di Osservazione Knock-in. In questo caso, l'Importo in Contanti Rilevante sarà ridotto alla Data di Calcolo immediatamente successiva all'Importo in Contanti Rilevante (b), che corrisponde alla Barriera Knock-in (b), in relazione alla quale si è verificato l'ultimo Evento Knock-in.

L'indice (b) denota il numero sequenziale del potenziale Evento Knock-in da quando i Titoli sono stati emessi.

Se non si verifica alcun Evento Knock-in, l'Importo in Contanti Rilevante rimane invariato per tutti i Periodi di Interesse.

Se si verifica un Evento Knock-in Finale, i Titoli smetteranno di pagare gli interessi, a partire dalla corrispondente Data Knock-in (b).

Tasso di Interesse:	7,50 % p.a.
Data di Inizio degli Interessi:	30/04/2024
Date di Pagamento degli Interessi:	30 April 2025 (1); 30 April 2025 (2); 30 April 2026 (3); 29 October 2027 (4)
Fazione di Conteggio Giornaliero:	Actual/Actual (unadjusted)

Rimborso

Rimborso alla Data di Pagamento Finale

I Titoli verranno rimborsati con il pagamento dell'Importo di Rimborso, che è calcolato moltiplicando il Prezzo di Riferimento Finale per il Multiplo. L'Importo in Contanti Rilevante (finale) verrà aggiunto al risultato.

L'Importo in Contanti Rilevante (finale) corrisponde al rimanente Importo in Contanti Rilevante (b) alla Data di Knock-in (b) che si è verificata più recentemente. Se non si è verificato alcun Evento Knock-in, l'Importo in Contanti Rilevante (finale) corrisponde all'Importo in Contanti Rilevante (iniziale).

Determinazione del Multiplo

Il Multiplo dipende dal verificarsi di un Evento Knock-in.

Alla Data di Osservazione Iniziale, il Multiplo corrisponde al Multiplo (iniziale).

Finché non si verifica un Evento Knock-in, il Multiplo corrisponde in qualsiasi momento al Multiplo (iniziale).

Al verificarsi dell'Evento Knock-in, il Multiplo sarà rettificato. La somma dei Multipli (b) come determinate ad ogni Data di Knock-in (b) sarà aggiunta al Multiplo Iniziale.

Il Multiplo Iniziale sarà calcolato moltiplicando la Base di Calcolo per un quoziente. Il quoziente sarà calcolato dividendo il Fattore di Partecipazione Iniziale per il Prezzo di Riferimento Iniziale

il Multiplo (b) sarà calcolato moltiplicando la Base di Calcolo per un quoziente. Il quoziente sarà calcolato dividendo il Fattore di Partecipazione Knock-in per R (b). Multiplo (iniziale) indica l'Importo di Investimento Iniziale diviso per R (iniziale).

Di conseguenza il Mutiplo dopo il verificarsi di un Evento Knock-in corrisponde alla somma del Multiplo Iniziale e del Multiplo (b).

Definizioni aggiuntive e termini del prodotto

Un Evento Knock-in Finale si verifica, se in relazione alla Barriera Knock-in (b) si è verificato un Evento Knock-in.

Un Evento Knock-in si verifica se il Prezzo di Riferimento del Sottostante è pari o inferiore alla Barriera Knock-in (b) rilevante ad una Data di Osservazione Knock-in.

Data di Osservazione Knock-in significa ciascuna Data di Calcolo tra il 01/05/2024 (incluso) e il 22/10/2027 (incluso).

Data di Knock-in (b) significa, in relazione alla relativa Barriera Knock-in (b), ogni Data di Calcolo in cui si è effettivamente verificato un Evento Knock-in.

Barriera Knock-in (b) significa il rispettivo Livello Knock-in (b) x R (iniziale).

R (b) significa il Prezzo di Riferimento del Sottostante alla rispettiva Data di Knock-in (b).

R (finale) significa il Prezzo di Riferimento del Sottostante alla Data di Osservazione Finale.

R (iniziale) significa il Prezzo di Riferimento del Sottostante alla Data di Osservazione Iniziale.

L'Importo in Contanti Rilevanti (finale) corrisponde al rimanente Importo in Contanti Rilevante (b) alla Data di Knock-in (b) che si è verificata più recentemente. Se non si è verificato alcun Evento Knock-in, l'Importo in Contanti Rilevante (finale) corrisponde all'Importo in Contanti Rilevante (iniziale).

Diritto di riscatto straordinario: Al ricorrere di uno o più eventi di riscatto (ad esempio, un Evento di Sostituzione dell'Indice (ad esempio il calcolo o la pubblicazione del Sottostante sono interrotti in modo indefinito o permanente) si è verificato e non è disponibile o può essere determinato alcun Sottostante Sostitutivo adeguato) (l'"Evento di Riscatto") l'Emittente può riscattare in via straordinaria i Titoli e rimborsare i Titoli al loro Importo di Riscatto. L'"Importo di Riscatto" è il valore equo di mercato di questi ultimi.

Rettifiche dei Termini e delle Condizioni dei Titoli: L'Agente di Calcolo potrà rettificare i Termini e le Condizioni dei Titoli (in particolare il Sottostante e/o tutti i prezzi del Sottostante specificati dall'Agente di Calcolo) qualora si verifichi un evento di rettifica (ad esempio, un certo cambiamento del relativo concetto dell'indice) (l'"Evento di Rettifica").

Stato dei Titoli: Gli obblighi dell'Emittente derivanti dai Titoli costituiscono obbligazioni dirette, incondizionate, non subordinate e non garantite dell'Emittente, avranno pari priorità nell'ordine dei pagamenti (fatte salve le obbligazioni privilegiate da qualsiasi legge applicabile (anche soggette allo strumento del bail-in, come implementato ai sensi della legge italiana)) rispetto a tutte le altre obbligazioni non garantite dell'Emittente e ad ogni altro obbligo presente e futuro, non garantito e non subordinato, dell'Emittente (salvo, quando previsto, le obbligazioni junior rispetto alle obbligazioni senior (incluse le obbligazioni senior non privilegiate e le eventuali ulteriori obbligazioni junior, rispetto a obbligazioni senior, consentite dalla legge successivamente alla Data di Emissione), ove previste).

Dove saranno negoziati i Titoli?

Ammissione alla negoziazione: Non è stata presentata l'istanza per l'ammissione a negoziazione dei Titoli presso un mercato regolamentato.

Quotazione: Sarà presentata istanza per l'ammissione a quotazione dei Titoli con efficacia dal 08/05/2024, presso i seguenti sistemi multilaterali di negoziazione (MTF): EuroTLX gestito da Borsa Italiana S.p.A. ("EuroTLX")

UniCredit Bank GmbH (il "Market Maker") si impegna a fornire liquidità in conformità alle norme sul *market making* di EuroTLX, dove ci si attende che i Titoli saranno negoziati. Inoltre, il Market Maker si impegna ad applicare, in condizioni normali di mercato, uno spread tra le quotazioni denaro e lettera non superiore all'1%.

Quali sono i principali rischi specifici dei Titoli?

Rischio di Credito dell'Emittente e rischi relativi alle misure di risoluzione che riguardano l'Emittente: I Titoli costituiscono obbligazioni non garantite dell'Emittente nei confronti dei Titolari. Pertanto, chiunque li acquisti è soggetto al merito creditizio dell'Emittente e non ha, in relazione alla propria posizione nell'ambito dei Titoli, alcun diritto o pretesa nei confronti di qualsiasi altra persona. I Titolari sono sottoposti al rischio di una parziale o totale inadempienza dell'Emittente per gli obblighi che il medesimo è tenuto ad adempiere in tutto o in parte ai sensi dei Titoli, ad esempio in caso di insolvenza. Peggiora la solvibilità dell'Emittente, maggiore è il rischio di perdita. Qualora il rischio di credito dell'Emittente si realizzi, il Titolare può subire una perdita totale del proprio capitale, anche se i Titoli prevedono un Importo Minimo alla loro scadenza. Inoltre, i Titolari possono essere soggetti a misure di risoluzione nei confronti dell'Emittente qualora il medesimo è in fallimento o a rischio di fallimento. Gli obblighi dell'Emittente ai sensi dei Titoli non sono garantiti, garantiti da terzi o protetti da un sistema di protezione dei depositi o di compensazione.

Rischi correlati a fattori che influenzano il valore di mercato: Il valore di mercato dei Titoli sarà condizionato da una serie di fattori. Questi sono, inter alia, il merito creditizio dell'Emittente, i relativi tassi di interesse e di rendimento prevalenti, il mercato per titoli simili, le condizioni economiche generali, politiche e cicliche, la negoziabilità e, se del caso, la durata residua dei Titoli nonché ulteriori fattori relativi al Sottostante che influenzano il valore di mercato. Tanto il valore di mercato quanto gli importi pagabili ai sensi dei Titoli dipendono principalmente dal prezzo del Sottostante.

Rischi correlati all'Importo di Rimborso: L'Importo di Rimborso potrebbe essere inferiore al Prezzo di Emissione o al Prezzo di Acquisto o anche zero. Ciò significa che il Titolare otterrà un rendimento solo se l'Importo di Rimborso sarà superiore allo specifico prezzo di acquisto pagato dal Titolare. Il rendimento potenziale dei Titoli è limitato rispetto ad un investimento diretto nel Sottostante. **Una perdita totale è possibile.**

Rischi derivanti dal mancato pagamento di importi nel corso della durata dei Titoli: I Titoli non sono soggetti a interessi e non garantiscono diritti - condizionati o non condizionati - per il pagamento degli importi nel corso della durata dei Titoli che possano compensare eventuali perdite di capitale.

Rischi legati agli indici: La performance dei Titoli legati ad indici è correlata alla performance dei rispettivi indici. Variazioni nel prezzo dei componenti dell'indice e variazioni nella composizione dell'indice, o altri fattori, possono incidere negativamente sulla performance dell'indice. Sussiste il rischio che, a partire da una determinata data, l'indice non possa più essere utilizzato come parametro di riferimento dei Titoli. In tal caso, i Titoli potrebbero essere rimossi dalla quotazione, rettificati, rimborsati prima della scadenza o comunque influenzati.

Rischi legati a potenziali conflitti di interesse: Possono insorgere conflitti di interesse relativi all'Emittente o ai soggetti incaricati dell'offerta che possono determinare decisioni svantaggiose per i Titolari dei Titoli.

Rischio di liquidità: Sussiste un rischio che i Titoli non siano ampiamente distribuiti e che non esista un mercato attivo di negoziazione che possa evolversi per i Titoli. L'Emittente può, ma non è obbligato, acquistare i Titoli in qualsiasi momento e a qualsiasi prezzo sul mercato aperto, mediante offerta pubblica di acquisto o contratto privato. I Titoli acquistati in questo modo dall'Emittente possono essere detenuti, rivenduti o cancellati. Un riacquisto dei Titoli da parte dell'Emittente può influire negativamente sulla liquidità dei medesimi. L'Emittente non può assicurare che un Titolare sarà in grado di vendere i propri Titoli ad un prezzo adeguato prima del loro rimborso.
