Interest, Additional Amount

- (1) *Interest:* The Securities do not bear interest.
- (2) *Additional Conditional Amount (Coupon):* If with respect to an Additional Conditional Amount Observation Date (*Coupon*) (m) an Additional Conditional Amount Payment Event (*Coupon*) has occurred, the respective Additional Conditional Amount (*Coupon*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Coupon*) (m) pursuant to the provisions of § 6 of the Special Conditions.

If with respect to an Additional Conditional Amount Observation Date (*Coupon*) (m) an Additional Conditional Amount Payment Event (*Coupon*) has not occurred, the respective Additional Conditional Amount (*Coupon*) (m) will not be paid.
- (3) *Reference Rate:* **"Reference Rate"** means the offer rate (expressed as per cent. per annum) for deposits in the Reference Rate Currency for the respective Designated Maturity which appears on the Screen Page as of the Reference Rate Time, on the respective Calculation Date.

Subject to the occurrence of a Reference Rate Cessation Event, if the Screen Page is not available at the Reference Rate Time, or if such offer rate does not appear on the Screen Page, the Calculation Agent will acting in accordance with relevant market practice and in good faith
 - (a) request each of the Reference Banks in the Reference Rate Financial Centre to provide its rate at which deposits in the Reference Rate Currency are offered at the Reference Rate Time on the respective Calculation Date to prime banks in the interbank market for the respective Designated Maturity in a representative amount.

If at least two of the Reference Banks provide the Calculation Agent with such quotations, the Reference Rate will be the arithmetic mean (rounded if necessary to the nearest one thousandth of a percentage point, with 0.0005 being rounded upwards) of such quotations.

If on a Calculation Date only one or none of the Reference Banks provides the Calculation Agent with such quotations, the respective Reference Rate will be the arithmetic mean (rounded as described above) of the rates quoted by major banks in the Reference Rate Financial Centre, determined by the Calculation Agent acting in accordance with relevant market practice and in good faith, at the Reference Rate Time, on that Calculation Date for loans in the Reference Rate

In doing so, it may in particular

- (i) use an alternative rate for the Reference Rate formally recommended by the Reference Rate-Administrator or, alternatively, by the supervisor of the Reference Rate or the central bank for the Reference Rate Currency, or in the absence thereof
- (ii) use the alternative rate for the Reference Rate implemented by a futures exchange or alternatively a central counterparty for the Reference Rate, provided that it is sufficiently representative of the Reference Rate; or in the absence thereof
- (iii) use the average value of the last Reference Rates published at the Reference Rate Time of the previous five Banking Days prior to the respective Calculation Date.

§ 3

Redemption

Redemption: The Securities shall be redeemed by payment of the Redemption Amount on the Final Payment Date pursuant to the provisions of § 6 of the Special Conditions.

§ 4

Redemption Amount

Redemption Amount: The Redemption Amount corresponds to the Minimum Amount.

§ 5

The "**Settlement Amount**" shall be the market value of the Securities, with accrued interest for the period until the Final Payment Date at the market rate of interest being traded at such time for liabilities of the Issuer with the same remaining term as the Securities within ten Banking Days following the occurrence of the Conversion Event; it shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith. The fair market value, as calculated by the Calculation Agent, is calculated based on the redemption profile of the Securities which has to be adjusted taking into consideration the following parameters as of the tenth Banking Day before the conversion becomes effective: the price of the Underlying, the remaining time to maturity, the volatility, the dividends (if applicable), the current interest rate as well as the counterparty risk and any other relevant market parameter that can influence the value of the Securities. However, the Settlement Amount shall not be less than the Minimum Amount. If it is not possible to determine the market value of the Securities, the Settlement Amount corresponds to the Minimum Amount. The Settlement Amount shall be notified pursuant to § 6 of the General Conditions.

The right for payment of any Additional Conditional Amount (m) ceases to exist in relation to all Additional Conditional Amount Payment Dates (m) following the occurrence of a Conversion Event.

The Settlement Amount will be paid pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards.
- (2) *Business day convention:* If a Payment Date is not a Banking Day then the Modified Following Business Day Convention shall apply. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the legal interest rate (*'Saggio degli Interessi legali'*), pursuant to Section 1284 CC, without prejudice to any other mandatory provisions under Italian law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 8

§ 9

Replacement Reference Rate, Adjustments, Interest Rate Adjustment Factor or Spread, Notifications

- (1) *Replacement Reference Rate:* Upon the occurrence of a Reference Rate Cessation Event on or preceding an Observation Date, the Reference Rate will be replaced by the Calculation Agent with an economically suitable reference rate (the "**Replacement Reference Rate**"). The Reference Rate should be replaced by a Replacement Reference Rate that pursuant to the following sequence of adjustment methods (each an "**Adjustment Method Level**")
 - (a) has been publicly and permanently declared as the replacement for the original Reference Rate by the Reference Rate-Administrator, the relevant central bank or a supervisory authority and may be used as a Replacement Reference Rate in accordance with the governing law of the Securities, or – in the event and as long as this is not the case –
 - (b) is typically used as a replacement reference rate for comparable securities (in particular with a view to the Reference Rate Currency, the type of interest payment and the term), or – in the event and as long as this is not the case –
 - (c) is typically used as a reference rate for (x) interest rate swaps (fixed/floating interest) in the Reference Rate Currency or (y) exchange traded interest futures with a comparable term, or – in the event and as long as this is not the case –
 - (d) is determined by the Calculation Agent acting in accordance with relevant market practice and in good faith with a view to the Reference Rate Currency and the Designated Maturity in a reasonable economical manner, based on the general interest rate level at the relevant point in time in Italy.

The Replacement Reference Rate is – subject to the occurrence of a new Reference Rate Cessation Event – applicable to all subsequent interest periods. With respect to subsequent Observation Dates, however, a new adjustment may be made with respect to the preceding Reference Rate Cessation Event if an adjustment based on a prior ranking Adjustment Method Level pursuant to the sequence (a) to (d) is then possible at that time. This includes the change from a daily interest rate previously selected under a specific Adjustment Method Level to a previously unpublished term-based interest rate.
- (2) *Adjustments:* If necessary, the Calculation Agent will make further adjustments to these Terms and Conditions acting in accordance with relevant market practice and in good faith. This includes in particular:

- (a) the method of calculation or determination of the Additional Conditional Amount (m); this includes the application of an interpolation or an interest rate on the Securities by means of a formula on a daily interest basis;
- (b) the method for determination of the Reference Rate (including any rounding rules);
- (c) the Designated Maturity, which can be shortened or extended;
- (d) the relevant Screen Page, Reference Rate Time and/or Reference Rate Financial Centre; and/or
- (e) the business day convention according to § 6 (2) of the Special Terms and Conditions.

Such adjustments shall enable the Calculation Agent

- (i) to use the Replacement Reference Rate in accordance with the then prevailing market practice
 - (ii) or – to the extent that the Calculation Agent determines that the application of any part of such prevailing market practice is not technically feasible, a prevailing market practice for the Replacement Reference Rate does not exist or does not lead to economically meaningful results –
 - (iii) to use the Replacement Reference Rate in such a manner as determined by the Calculation Agent necessary for its use as the Replacement Reference Rate for the Securities; whether this is the case shall be determined by the Calculation Agent at acting in accordance with relevant market practice and in good faith.
- (3) *Interest rate adjustment factor or spread:* In addition to an adjustment under paragraph (2), the Calculation Agent may also determine an interest rate adjustment factor or spread for the purpose of determining or calculating the Interest Rate or Interest Amount in such a way that the financial position of the Security Holders remains unchanged to the greatest extent possible.
- (4) *Notifications:* The Calculation Agent shall notify the Issuer without undue delay of the Replacement Reference Rate pursuant to paragraph (1) and the adjustments and determinations made pursuant to paragraphs (2) as well as the date of first application, who will notify the Security Holders and any exchange, on which the Securities are listed and whose provisions require a notification to the exchange pursuant to § 6 of the General Conditions of the Securities.

§ 10

Early redemption at the option of the Issuer

- (1) The Securities may be early redeemed at any time in whole but not in part, at the option of the Issuer, upon the occurrence of the MREL Disqualification Event, but subject to compliance with the then applicable MREL Requirements (including, without limitation, the Issuer having obtained the prior permission of the competent supervisory authority or the resolution authority, in each case to the extent required by provisions of law), upon not more than 60 days' nor less than 30 days' prior notice of such early redemption, at their Optional Redemption Amount, in accordance with the MREL Requirements.

"MREL Requirements" means the laws, regulations, requirements, guidelines, rules, standards and policies relating to minimum requirements for own funds and eligible liabilities applicable to the Issuer and/or the Group, from time to time, (including any applicable transitional or grandfathering provisions), including, without limitation to the generality of the foregoing, any delegated or implementing acts (such as regulatory technical standards) adopted by the European Commission and any regulations, requirements, guidelines, rules, standards and policies relating to minimum requirements for own funds and eligible liabilities adopted by the Federal Republic of Germany or the Republic of Italy, a relevant resolution authority or the European Banking Authority from time to time (whether or not such requirements, guidelines or policies are applied generally or specifically to the Issuer and/or the Group), as any of the preceding laws, regulations, requirements, guidelines, rules, standards, policies or interpretations may be amended, supplemented, superseded or replaced from time to time.

"MREL Disqualification Event" means that, at any time, all or part of the Series of Securities is or will be excluded fully or partially from the eligible liabilities available to meet the MREL Requirements provided that: (a) the exclusion of a Series of such Securities from the MREL Requirements due to the remaining maturity of such Securities being less than any period prescribed thereunder, does not constitute a MREL Disqualification Event; (b) the exclusion of all or some of a Series of Securities due to there being insufficient headroom for such Securities within a prescribed exception to the otherwise applicable general requirements for eligible liabilities does not constitute a MREL Disqualification Event; and (c) the exclusion of all or some of a Series of Securities as a result of such Securities being purchased by or on behalf of the

Issuer or as a result of a purchase which is funded directly or indirectly by the Issuer, does not constitute a MREL Disqualification Event.

- (2) The Optional Redemption Amount will be paid pursuant to the provisions of § 6 of the Special Conditions.
- (3) Any notice in accordance with this paragraph (3) shall be given by a notice in accordance with § 6 of the General Conditions. It shall be irrevocable, must specify the date fixed for redemption and must set forth a statement that the redemption is made in accordance with this § 10.

What are the key risks that are specific to the Issuer?

Potential investors should be aware that in the case of the occurrence of one of the below mentioned risk factors the Securities may decline in value and that they may sustain a total loss of their investment. The following risks are key risks specific to the Issuer:

Risks associated with the impact of current macroeconomic uncertainties and the effects of the geopolitical tensions: The market environment in which UniCredit operates continues to be affected by high levels of uncertainty for both the short and the medium-term outlook. The economic consequences stemming from the geopolitical tensions, not only in Russia, pushed up inflationary pressures and could continue to unfold increasing uncertainty for the Euro area economy, with potential impact on the performance of the Group. The Russia-Ukraine crisis caused a sharp rise in commodities prices, further global supply-chain disruption, a tightening of financial conditions, heightened uncertainty, and a sharp drop in consumer confidence. From mid 2022, with inflation building up due to the increase in energy price and the supply disruptions, ECB changed its monetary stance (Deposit Facility rate: -50 bps in June 2022, 0 bps in July, 75 bps in September, 150 bps in October, 200 bps in December, 250 bps in February 2023, 300 bps in March, 325 bps in May, 350 bps in June, 375 bps in July, 400 bps in September) and market repriced interest rate expectations accordingly. Despite subsequently inflation started to record a declining path, the outlook is still surrounded by risks, further tensions on commodity/energy prices cannot be excluded as well as an upsurge in the ongoing Russia-Ukraine conflict and / or an intensification of the tensions in the Middle East. Therefore, the expectations regarding the performance of the global economy remains still uncertain in both the short and medium term. The current environment, characterized by highly uncertain elements as above mentioned could generate a worsening of the loan portfolio quality, followed by an increase of the non-performing loans and the necessity to increase the provisions to be charged to the income statement. On 9 December 2021 UniCredit presented to the financial community the 2022-2024 Strategic Plan, which included a set of strategic and financial objectives that considered the underlying scenario and resulted from the assessment performed at that time. The macro assumptions underlying the Strategic Plan excluded unexpected materially adverse developments such as the Russia-Ukraine conflict and worsening/resurgence of the COVID-19 pandemic, situations that UniCredit has been monitoring closely (From Strategic Plan presentation: Macro assumptions in the Strategic Plan consider the recent and existing impacts of COVID-19 at the time of the Plan presentation with a gradual normalization over the subsequent years. The scenario did not assume that the COVID-19 situation at that time would develop in a particularly negative way in the subsequent years).

Risks connected with the Strategic Plan 2022 – 2024: On 9th December 2021, UniCredit presented to the financial community in Milan the 2022-2024 Strategic Plan called "UniCredit Unlocked" (the "Strategic Plan" or "Plan") which contains a number of strategic, capital and financial objectives (the

"Strategic Objectives"). The Strategic Plan focuses on UniCredit's geographic areas in which the Issuer currently operates; with financial performance driven by three interconnected levers: cost efficiency, optimal capital allocation and net revenue growth. "UniCredit Unlocked" delivers strategic imperatives and financial ambitions based on six pillars. Such strategic imperatives and financial ambitions regard: (i) the growth in its regions and the development of its client franchise, changing its business model and how its people operate; (ii) the delivery of economies of scale from its footprint of banks, transforming the technology, leveraging Digital & Data and embedding sustainability in all that UniCredit does; (iii) driving financial performance via three interconnected levers. The macro assumptions underlying the Strategic Plan disclosed in December 2021 excluded unexpected materially adverse developments such as the Russia-Ukraine conflict and worsening/resurge of the COVID-19 pandemic, situations that UniCredit has been monitoring closely (From Strategic Plan presentation: Macro assumptions in the Strategic Plan consider the recent and existing impacts of COVID-19 at the time of the Plan presentation with a gradual normalization over the subsequent years. The scenario did not assume that the COVID-19 situation at that time would develop in a particularly negative way in the subsequent years). The Plan is based on six pillars: (i) optimise, through the improvement of operational and capital efficiency; (ii) invest, with targeted growth initiatives, including ESG; (iii) grow net revenues; (iv) increase return; (v) strengthen solidity thanks to revised CET1 ratio target and decrease of Gross NPE ratio; and (vi) distribute consistently with organic capital generation. On 7th May 2024 UniCredit presented Group results for 1Q24 as well as the update of the guidance for 2024 with no changes in overall strategy but with improved financial targets. UniCredit's ability to meet the Strategic Objectives and all forward-looking statements relies on a number of assumptions, expectations, projections and provisional data concerning future events and is hence subject to a number of uncertainties and additional factors, many of which are outside the control of UniCredit. For all these reasons, investors are cautioned against making their investment decisions based exclusively on the forecast data included in the Strategic Objectives (and latest updated guidance).

Credit risk and risk of credit quality deterioration: The activity, financial and capital strength and profitability of the UniCredit Group depend, among other things, on the creditworthiness of its customers. In carrying out its credit activities, the Group is exposed to the risk that an unexpected change in the creditworthiness of a counterparty may generate a corresponding change in the value of the associated credit exposure and give rise to the partial or total write-down thereof. The current environment continues to be characterised by highly uncertain elements, with the possibility that the slowdown of the economy, jointly with the termination of the safeguard measures, such as the customer loans moratorium, generates a worsening of the loan portfolio quality, followed by an increase of the non-performing loans and the necessity to increase the provisions to be charged to the income statement. UniCredit's Loan Loss Provisions ("**LLPs**") decreased by 66.8 per cent Q/Q and increased by 5.5 per cent Y/Y to Euro 103 million in 1Q24. Therefore, the cost of risk decreased by 19 bps Q/Q and increased by 1 bp Y/Y to 10 bps in 1Q24. The Group confirmed the amount of overlays on performing exposures at circa Euro 1.8 billion, which substantially reinforces the Group's capacity to withstand macroeconomic shocks. As at 31 March 2024, Group gross NPEs were down by 4.0 per cent Y/Y and by 3.4 per cent Q/Q to Euro 12.1 billion in 1Q24 (while as at 31 December 2023 they were equal to Euro 11.7 billion) with gross NPE ratio of 2.7 per cent (flat Y/Y and +0.1 per cent Q/Q). As at 31 March 2024, Group Net NPEs stood at Euro 6.6 billion increased compared to 31 December 2023 which attested at Euro 6.2 billion (Group Net NPE ratio increased compared to 31 December 2023 and is equal to 1.5 per cent). The Group has adopted procedures, rules and principles aimed at monitoring and managing credit risk at both individual counterparty and portfolio level. However, there is the risk that, despite these credit risk monitoring and management activities, the Group's credit exposure may exceed predetermined risk's levels pursuant to the procedures, rules and principles it has adopted.

Liquidity Risk: Liquidity risk refers to the possibility that the UniCredit Group may find itself unable to meet its current and future, anticipated and unforeseen cash payment and delivery obligations without impairing its day-to-day operations or financial position. The activity of the UniCredit Group is subject in particular to funding liquidity risk, market liquidity risk, mismatch risk and contingency risk. The most relevant risks that the Group may face are: i) an exceptionally high usage of the committed and uncommitted lines granted to corporate customers; ii) an unusual withdrawal of sight and term deposits by UniCredit's retail and corporate customers; iii) the decline in the market value of the securities in which UniCredit invests its liquidity buffer; iv) the capacity to roll over the expiring wholesale funding and the potential cash or collateral outflows the Group may suffer in case of rating downgrades of both the banks or the sovereign debt in the geographies in which it operates. In addition to this, some risks may arise from the limitations applied to the cross-border lending among banks. Due to the financial market crisis, followed also by the reduced liquidity available to operators in the sector, the ECB has implemented important interventions in monetary policy, such as the "Targeted Longer-Term Refinancing Operation" ("**TLTRO**") introduced in 2014 and the **TLTRO II** introduced in 2016. This liquidity support has approached its maturity in the first quarter of 2024. This resulted in the need for banks to seek alternative sources of long term borrowing, without ruling out the difficulties of obtaining such alternative funding as well as the risk that the related costs could be higher. Such a situation could therefore adversely affect UniCredit's business, operating results and the economic and financial position of UniCredit and/or the Group. The main indicators used by the UniCredit Group to assess its liquidity profile are (i) the Liquidity Coverage Ratio (LCR), which represents an indicator of short-term liquidity subject to a minimum regulatory requirement of 100 per cent from 2018 and which was equal to 154 per cent in December 2023, whereas at 30 September 2023 was equal to 157 per cent (calculated as the average of the 12 latest end of month ratios), and (ii) the Net Stable Funding Ratio (NSFR), which represents the indicator of structural liquidity and which in December 2023 was 130 per cent.

Basel III and Bank Capital Adequacy: The Issuer shall comply with the revised global regulatory standards (Basel III) on bank capital adequacy and liquidity, which impose requirements for, inter alia, higher and better-quality capital, better risk coverage, measures to promote the build-up of capital that can be drawn down in periods of stress and the introduction of a leverage ratio as a backstop to the risk-based requirement as well as two global liquidity standards. In terms of banking prudential regulations, the Issuer is also subject to the Bank Recovery and Resolution Directive 2014/59/EU of 15 May 2014 (BRRD), implemented in Italy with the Legislative Decree. 180 and 181 of 16 November 2015 as amended by Directive (EU) 2019/879, the "**BRRD II**" (implemented in Italy by the Legislative Decree No. 193 of November 8, 2021), as well as the relevant technical standards and guidelines from EU regulatory bodies (i.e. the European Banking Authority (EBA)), which, inter alia, provide for recovery and resolution mechanisms and Minimum Requirement for Own Funds and Eligible Liabilities (MREL) for credit institutions. Should UniCredit not be able to meet the capital/MREL requirements imposed by the applicable laws and regulations, it may be required to maintain higher levels of capital/eligible liabilities which could potentially impact its credit ratings, and funding conditions and which could limit UniCredit's growth opportunities.

Additional definitions and product terms

Calculation Amount:	EUR 1,000.00
Final Payment Date:	28 June 2027
Minimum Amount:	EUR 1,000.00
Optional Redemption Amount:	Calculation Amount

Conversion of the Securities by the Issuer: Upon the occurrence of one or more conversion events (e.g. the administrator of the Reference Rate ceases to calculate and publish the Underlying on a permanent basis or for an indefinite period of time and a suitable replacement reference rate is available) (the "Conversion Event") the Issuer may convert the Securities and redeem them on the Final Payment Date by payment of the Settlement Amount. The "Settlement Amount" is the market value of the Securities, with accrued interest for the period until the Final Payment Date at the market rate of interest being traded at such time for liabilities of the Issuer with the same remaining term as the Securities within ten Banking Days following the occurrence of the Conversion Event, as determined by the Calculation Agent. The Settlement Amount is in any case not less than the Minimum Amount.

Early redemption at the option of the Issuer: The Securities may be redeemed at any time in whole but not in part, at the option of the Issuer at their Optional Redemption Amount on or after the date specified in a notice published on the Issuer's website on giving notice to the Paying Agent and the Security Holders, if the Issuer determines that all or part of the Series of Securities is or will be excluded fully or partially from the eligible liabilities available to meet the MREL Requirements (MREL Disqualification Event).

Adjustments to the Terms and Conditions: In case of a Reference Rate Cessation Event (e.g. it becomes unlawful for the Issuer to use the Underlying) the Underlying will be replaced by an economically appropriate replacement reference rate. In addition, the Calculation Agent may, if necessary, make further adjustments to the terms and conditions of the Securities (e.g. the method of calculation or determination of the Additional Conditional Amount (m)).

Status of the Securities: The obligations of the Issuer under the Securities constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer, ranking (subject to any obligations preferred by any applicable law (also subject to the bail-in instruments as implemented under Italian law)) *pari passu* with all other unsecured obligations (other than obligations ranking junior to the senior notes from time to time (including non-preferred senior notes and any further obligations permitted by law to rank junior to the senior notes following the Issue Date), if any) of the Issuer, present and future and, in the case of the senior notes, *pari passu* and rateably without any preference among themselves.

Where will the Securities be traded?

Admission to trading: No application for the Securities to be admitted to trading on a regulated market has been made.

Listing: Application to trading will be made with effect from 4 July 2024 on the following multilateral trading facilities (MTF): EuroTLX, organized and managed by Borsa Italiana S.p.A. ("EuroTLX")

UniCredit Bank GmbH (the "Market Maker") undertakes to provide liquidity in accordance with the market making rules of EuroTLX, where the Securities are expected to be traded. Moreover, the Market Maker undertakes to apply, in normal market conditions, a spread between bid and offer quotes not higher than 1.00%.

What are the key risks that are specific to the Securities?

Credit risk of the Issuer and risks in relation to resolution measures in relation to the Issuer: The Securities constitute unsecured obligations of the Issuer vis-a-vis the Security Holders. Any person who purchases the Securities therefore relies on the creditworthiness of the Issuer and has, in relation to his/her position under the Securities, no rights or claims against any other person. Security Holders are subject to the risk of a partial or total failure of the Issuer to fulfil obligations which the Issuer is liable to perform under the Securities in whole or in part, for example, in the event of the Issuer's insolvency. The worse the creditworthiness of the Issuer is the higher is the risk of a loss. In the case of realization of the credit risk of the Issuer the Security Holder may sustain a total loss of his/her capital, even if the Securities provide for a Minimum Amount at their maturity. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail. The obligations of the Issuer under the Securities are not secured, guaranteed by third parties or protected by any deposit protection or compensation scheme.

Risks related to market value-influencing factors: The market value of the Securities as well as the amounts distributable under the Securities primarily depend on the price of the Underlying. However, the market value of the Securities will be affected by a number of additional factors. These are inter alia the creditworthiness of the Issuer, the relevant prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability and, if applicable, the remaining term of the Securities as well as additional Underlying-related market value-influencing factors.

Risks related to the Redemption Amount: The Securities will be redeemed at their maturity at the Redemption Amount. The Redemption Amount may be less than the purchase price. This means, the Security Holder only achieves a return if the Redemption Amount exceeds the individual purchase price of the Security Holder.

Risks arising from missing ongoing payments: Any Additional Conditional Amount (m) will only be payable if an Additional Conditional Amount Payment Event (m) occurs with respect to an Observation Date (m). If an Additional Conditional Amount Payment Event (m) does not occur, the Security Holder is not entitled to receive the respective Additional Conditional Amount (m). There is the risk, that in case of an unfavourable performance of the Underlying no payment of any Additional Conditional Amount (m) may occur.

Risks related to the regulation of benchmarks: The Securities make reference to a Benchmark (the "Benchmark") within the meaning of Regulation (EU) 2016/1011 (the "Benchmark Regulation") and therefore there is a risk that the Benchmark may not be used as reference value of the Securities from a certain point in time. In such event, the Securities could be de-listed, adjusted, converted or otherwise impacted. Any changes to a Benchmark as a result of the Benchmark Regulation could have a material adverse effect on the costs of refinancing a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with the Benchmark Regulation. Potential investors should be aware that they face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value of and the amount payable under the Securities.

Risks related to reference rates: Reference rates may be subject to significant fluctuations due to multiple factors such as changes in market interest rates, measures taken by central banks, fiscal interventions, as well as macro-economic or political influences. The publication of reference rates may be discontinued, in particular due to regulatory requirements. Changes, errors or manipulation in the calculation of a reference rate may have a material adverse effect for the Security Holder.

Risks related to potential conflicts of interests: Conflicts of interest in relation to the relevant Issuer or the persons entrusted with the offer may arise, which may result in a decision to the Security Holder's disadvantage.

Liquidity risk: There is a risk that the Securities may not be widely distributed and no active trading market may exist and may develop for the Securities. The Issuer may, but is not obliged to, purchase Securities at any time and at any price in the open market, by tender offer or private agreement. Any Securities purchased in this way by the Issuer may be held, resold or cancelled. A repurchase of Securities by the Issuer may adversely affect the liquidity of the Securities. The Issuer cannot therefore assure that a Security Holder will be able to sell his Securities at an adequate price prior to their redemption.

Quali sono i principali rischi specifici dell’Emittente?

I potenziali investitori devono essere consapevoli che, qualora si verifichi uno dei seguenti fattori di rischio, il valore degli Strumenti Finanziari potrebbe ridursi con la conseguente perdita totale del capitale investito. I seguenti rischi sono i principali rischi specifici dell’Emittente:

Rischi connessi all’impatto delle attuali incertezze del contesto macroeconomico e alle conseguenze derivanti dalle tensioni geopolitiche: Il contesto di mercato in cui UniCredit opera continua a essere influenzato da elevati livelli di incertezza sia sulle previsioni a breve che a medio termine. Le conseguenze economiche derivanti dalle tensioni geopolitiche, non solo in Russia, hanno provocato un aumento delle pressioni inflazionistiche e possono continuare a generare crescente incertezza per l’economia dell’area Euro, con possibili ripercussioni sull’andamento del Gruppo. La crisi tra Russia e Ucraina ha causato un forte aumento dei prezzi delle materie prime, un’ulteriore interruzione della catena di approvvigionamento globale, un inasprimento delle condizioni finanziarie, un aumento dell’incertezza e un forte calo della fiducia dei consumatori. A partire dalla metà del 2022, con l’aumento dell’inflazione dovuto all’incremento dei prezzi dell’energia e alle interruzioni delle forniture, la BCE ha modificato il proprio orientamento monetario (*Deposit Facility Rate*: -50 pb a giugno 2022, 0 pb a luglio, 75 pb a settembre, 150 pb a ottobre, 200 pb a dicembre, 250 pb a febbraio 2023, 300 pb a marzo, 325 pb a maggio, 350 pb a giugno, 375 pb a luglio, 400 pb a settembre) e il mercato ha rivalutato di conseguenza le aspettative sui tassi di interesse. Nonostante successivamente l’inflazione abbia iniziato a diminuire, le prospettive sono ancora circondate da rischi, non si possono escludere ulteriori tensioni in relazione ai prezzi delle materie prime e dell’energia, alla recrudescenza del conflitto in corso tra Russia e Ucraina e/o una intensificazione delle tensioni in Medio Oriente. Pertanto, le aspettative sull’andamento dell’economia globale rimangono ancora incerte sia nel breve che nel medio termine. Il quadro attuale, caratterizzato da elementi di elevata incertezza come sopra menzionati potrebbe determinare un deterioramento della qualità del portafoglio creditizio, con conseguente incremento dell’incidenza dei crediti *non performing* e la necessità di aumentare le rettifiche di valore da iscrivere a conto economico. Il 9 dicembre 2021 UniCredit ha presentato alla comunità finanziaria il Piano Strategico 2022-2024, che ha incluso una serie di obiettivi strategici e finanziari che hanno preso in considerazione lo scenario sottostante e hanno rappresentato i risultati delle valutazioni effettuate alla data. Gli assunti macroeconomici sottostanti il Piano Strategico non consideravano sviluppi particolarmente negativi come il peggioramento/ritorno della pandemia da COVID-19 e il conflitto Russia-Ucraina, situazioni che UniCredit ha monitorato con grande attenzione (dalla

presentazione del Piano Strategico: gli assunti macroeconomici contenuti nel Piano Strategico considerano i recenti e i presenti impatti del COVID-19 al momento della presentazione del Piano, in progressiva normalizzazione nel corso dei successivi anni. Lo scenario non ha ipotizzato che la situazione del COVID-19 in quel momento si sviluppasse nei successivi anni in maniera particolarmente negativa).

Rischi connessi al Piano Strategico 2022 – 2024: In data 9 dicembre 2021, UniCredit ha presentato alla comunità finanziaria a Milano il Piano Strategico 2022-2024 denominato "UniCredit Unlocked" (il "**Piano Strategico**" o "**Piano**") che contiene una serie di obiettivi strategici, patrimoniali e finanziari (gli "**Obiettivi Strategici**"). Il Piano Strategico ha ad oggetto le aree geografiche di UniCredit in cui l'Emittente al momento opera, con performance finanziaria guidata da tre leve interconnesse: efficienza dei costi, ottima allocazione del capitale e aumenti dei ricavi netti. "UniCredit Unlocked" persegue imperativi strategici e obiettivi finanziari basati su sei pilastri. Tali imperativi strategici e obiettivi finanziari riguardano: (i) la crescita nelle proprie aree geografiche e lo sviluppo della rete di clienti, trasformando il modello di business e il modo in cui i suoi dipendenti operano; (ii) il conseguimento di economie di scala dalla propria rete di banche, attraverso una trasformazione tecnologica, incentrata su Digital & Data e integrando la sostenibilità in tutte le azioni di UniCredit; (iii) la guida della performance finanziaria tramite tre leve interconnesse. Gli assunti macroeconomici sottesi al Piano Strategico comunicato a Dicembre 2021 non consideravano sviluppi particolarmente negativi come il conflitto Russia-Ucraina e il peggioramento/ritorno della pandemia da COVID-19, situazioni che UniCredit ha monitorato con grande attenzione (dalla presentazione del Piano Strategico: gli assunti macroeconomici contenuti nel Piano Strategico considerano i recenti e i presenti impatti del COVID-19 al momento della presentazione del Piano, in progressiva normalizzazione nel corso dei successivi anni. Lo scenario non ha ipotizzato che la situazione del COVID-19 in quel momento si sviluppasse nei successivi anni in maniera particolarmente negativa). Il Piano è basato su sei pilastri: (i) l'ottimizzazione, attraverso il miglioramento dell'efficienza operativa e del capitale; (ii) gli investimenti, con iniziative mirate, anche in ambito ESG; (iii) la crescita dei ricavi netti; (iv) l'aumento del rendimento; (v) il rafforzamento della solidità grazie alla revisione del target del coefficiente patrimoniale CET1 e del miglioramento del rapporto tra esposizioni deteriorate lorde e totale dei crediti lordi; e (vi) la distribuzione in linea con la generazione organica di capitale. Il 7 maggio 2024 UniCredit ha presentato i risultati del Gruppo per il 1 trimestre 2024 e ha aggiornato le linee guida per il 2024 senza modificare la strategia complessiva ma migliorando gli obiettivi finanziari. La capacità di UniCredit di raggiungere gli Obiettivi Strategici e tutte le dichiarazioni previsionali si basano su una serie di ipotesi, aspettative, proiezioni e dati provvisori riguardanti eventi futuri e sono pertanto soggette a una serie di incertezze e ulteriori fattori, molti dei quali sono al di fuori del controllo di UniCredit. Per le sopra esposte ragioni, gli investitori sono invitati a non fondare le proprie scelte di investimento esclusivamente sulle previsioni incluse tra gli Obiettivi Strategici (e le più recenti linee guida).

Rischio di credito e di deterioramento della qualità del credito: L'attività, la solidità patrimoniale e finanziaria e la profittabilità del Gruppo UniCredit dipendono, tra l'altro, dal merito di credito dei propri clienti. Nello svolgimento della propria attività creditizia il Gruppo è esposto al rischio che un inatteso cambiamento del merito creditizio di una controparte possa generare un corrispondente cambiamento del valore dell'associata esposizione creditizia e dare luogo a cancellazione parziale o totale della stessa. Il quadro attuale continua ad essere caratterizzato da elementi di elevata incertezza, con la possibilità che il rallentamento dell'economia, congiuntamente alla conclusione di misure di salvaguardia, quali le moratorie sui crediti, determinino un deterioramento della qualità del portafoglio creditizio, con conseguente incremento dei crediti *non performing* e la necessità di aumentare le rettifiche di valore da iscrivere a conto economico. Le rettifiche su crediti di UniCredit ("**LLPs**") sono diminuite del 66,8 per cento trim/trim e aumentate del 5,5 per cento a/a, attestandosi a Euro 103 milioni nel 1trim24. Pertanto, il costo del rischio è diminuito di 19 punti base trim/trim e aumentato di 1 punto base a/a, attestandosi a 10 punti base nel 1trim24. Il Gruppo ha confermato gli overlay sulle esposizioni performing, pari a circa Euro 1,8 miliardi, che rafforzano notevolmente la capacità del Gruppo di far fronte agli shock macroeconomici. Al 31 Marzo 2024, l'NPE lordo di Gruppo era in calo del 4,0 per cento a/a e in aumento del 3,4 per cento trim/trim attestandosi a Euro 12,1 miliardi nel 1trim24 (mentre al 31 dicembre 2023 era pari a Euro 11,7 miliardi) con l'NPE ratio lordo pari al 2,7 per cento (invariato a/a e +0,1 per cento trim/trim). Al 31 marzo 2024, l'NPE netto di Gruppo si è attestato a Euro 6,6 miliardi, in aumento rispetto al 31 dicembre 2023, quando si attestava a 6,2 miliardi (NPE ratio netto di Gruppo in aumento rispetto al 31 dicembre 2023 ed è pari all'1,5 per cento). Il Gruppo si è dotato di procedure e principi finalizzati al monitoraggio ed alla gestione del rischio di credito a livello di singole controparti e di portafoglio complessivo. Tuttavia, sussiste il rischio che, pur in presenza di attività di monitoraggio e gestione del rischio di credito, l'esposizione creditizia del Gruppo ecceda i livelli di rischio predeterminati ai sensi delle procedure, delle regole e dei principi adottati.

Rischio di liquidità: Il rischio di liquidità identifica l'eventualità che il Gruppo UniCredit possa trovarsi nella condizione di non riuscire a far fronte agli impegni di pagamento (per cassa o per consegna) attuali e futuri, previsti o imprevisi senza pregiudicare l'operatività quotidiana o la propria condizione finanziaria. L'attività del Gruppo UniCredit è soggetta in particolare al rischio di liquidità nelle sue forme di funding liquidity risk, market liquidity risk, mismatch risk e contingency risk. I rischi più rilevanti a cui il Gruppo è esposto sono: i) un uso eccezionalmente alto delle linee di credito revocabili ed irrevocabili da parte delle imprese; ii) un insolito ritiro di depositi a vista e vincolati da parte dei clienti UniCredit, siano essi persone fisiche o imprese; iii) un decremento del valore di mercato dei titoli in cui UniCredit investe il proprio *liquidity buffer*; iv) la capacità di rifinanziare il debito verso la clientela istituzionale in scadenza e le potenziali uscite di cassa o di garanzie che il gruppo dovrebbe fronteggiare in caso di declassamento delle banche o del debito sovrano nei Paesi in cui il Gruppo opera. Inoltre, alcuni rischi possono emergere anche dai limiti applicati ai prestiti tra banche appartenenti a Paesi diversi. A causa della crisi dei mercati finanziari, determinata anche dalla ridotta liquidità a disposizione degli operatori del settore, la BCE ha posto in essere importanti interventi di politica monetaria, come il programma di "Operazioni Mirate di Rifinanziamento a più Lungo Termine" ("**Targeted Longer-Term Refinancing Operation**" o "**TLTRO**") introdotto nel 2014 e il TLTRO II introdotto nel 2016. Tale supporto alla liquidità ha raggiunto la sua scadenza nel primo trimestre 2024. Ciò ha determinato la necessità per le banche di cercare fonti di provvista a lungo termine alternative, non sempre disponibili o disponibili a costi più elevati. La situazione descritta potrebbe quindi incidere negativamente sull'attività di UniCredit, sui risultati operativi e sulla situazione economica e finanziaria dell'Emittente e/o del Gruppo. I principali indicatori utilizzati dal Gruppo UniCredit per la valutazione del profilo di liquidità sono (i) il Liquidity Coverage Ratio (LCR) che rappresenta un indicatore di liquidità a breve termine soggetto ad un requisito minimo regolamentare pari al 100 per cento dal 2018 e che a dicembre 2023 era pari a 154 per cento, mentre al 30 settembre 2023 era pari a 157 per cento (calcolato come media delle ultime 12 osservazioni mensili dell'indicatore), e (ii) il Net Stable Funding Ratio (NSFR), che rappresenta l'indicatore di liquidità strutturale e che, a dicembre 2023, è stato pari a 130 per cento.

Basilea III e Adeguatezza Patrimoniale delle Banche: L'Emittente è tenuto al rispetto degli standard globali di regolamentazione aggiornati (Basilea III) sull'adeguatezza patrimoniale e la liquidità delle banche, che impongono, inter alia, requisiti per un capitale più elevato e di migliore qualità, una migliore copertura dei rischi, misure volte a promuovere l'accumulo di capitale che può essere utilizzato in periodi di stress, e l'introduzione di un indice di leva finanziaria che funge da rete di protezione ai requisiti basati sui parametri di rischio, nonché due standard globali di liquidità. In materia di normativa prudenziale bancaria, l'Emittente è sottoposto anche alla Direttiva "Bank Recovery and Resolution Directive" 2014/59/UE del 15 maggio 2014 (BRRD), recepita in Italia con i D.Lgs. 180 e 181 del 16 novembre 2015 - come modificata dalla Direttiva (UE) 2019/879, la "**BRRD II**" (recepita in Italia dal D.Lgs. 8 novembre 2021, n. 193), nonché alle norme tecniche attinenti e alle linee guida emanate dagli organismi di regolamentazione dell'Unione (i.e. l'Autorità bancaria europea (EBA)) che prevedono, inter alia, meccanismi di risanamento e di risoluzione delle crisi e requisiti minimi di fondi propri e passività ammissibili (MREL) per gli enti creditizi. Qualora UniCredit non fosse in grado di rispettare i requisiti patrimoniali/MREL imposti dalla normativa applicabile, potrebbe essere tenuta a mantenere livelli di capitale più elevati/passività ammissibili che potrebbero avere un impatto potenziale sui rating e sulle condizioni di finanziamento e che potrebbero limitare le opportunità di crescita di UniCredit.

Sezione 3 – Informazioni fondamentali sui Titoli

Quali sono le principali caratteristiche dei Titoli?

Tipologia di Prodotto, Sottostante e forma dei Titoli

Tipo di Prodotto: Titoli Cash Collect Protection (Cash Collect Protection Securities)

Sottostante: EURO 3 Month EURIBOR (Bloomberg: EUR003M Curncy, Reuters: EURIBOR3MD=) (il "Tasso di Riferimento")

I Titoli sono regolati dalla legge italiana. I Titoli sono strumenti di debito in forma nominativa dematerializzata ai sensi del Testo Unico in materia di intermediazione finanziaria (Testo Unico della Finanza). I Titoli saranno rappresentati mediante scrittura contabile registrate sul sistema di contabilizzazione del Sistema di Compensazione (Clearing System). Il trasferimento dei Titoli avviene mediante registrazione sui relativi conti accessi presso il Sistema di Compensazione. Il codice internazionale di identificazione dei Titoli (International Securities Identification Number - ISIN) è indicato nella Sezione 1.

Emissione e Durata

I Titoli saranno emessi il 27/06/2024 in Euro (EUR) (la "Valuta Specifica") fino a 200.000 Certificati. I Titoli hanno una durata definita.

Generale

Il valore dei Titoli durante la loro vita dipende principalmente dal prezzo del Sottostante. In linea di principio, il valore dei Titoli sale se il prezzo del Sottostante sale e scende se il prezzo del Sottostante scende.

Interessi

I Titoli non maturano interessi.

Definizioni aggiuntive e termini del prodotto

Base di Calcolo:	EUR 1.000
Data di Pagamento Finale:	28/06/2027
Importo Minimo:	EUR 1.000
Importo di Rimborso Opzionale:	Base di Calcolo

Conversione dei Titoli da parte dell'Emittente: Al verificarsi di uno o più eventi di conversione (ad es. l'amministratore del Tasso di Riferimento smette di calcolare e pubblicare il Sottostante in modo permanente o per un periodo di tempo indeterminato e non è disponibile un tasso di riferimento sostitutivo) (l'"Evento di Conversione") l'Emittente può convertire i Titoli e rimborsarli alla Data di Pagamento Finale mediante il pagamento dell'Importo di Regolamento. L'"Importo di Regolamento" è pari al valore di mercato dei Titoli, maggiorato degli interessi maturati per il periodo che va fino alla Data di Pagamento Finale al tasso di mercato a cui sono negoziate in tale momento le passività dell'Emittente con la stessa durata residua dei Titoli, entro il decimo Giorno Lavorativo successivo al verificarsi dell'Evento di Conversione, come determinato dall'Agente di Calcolo. L'Importo di Regolamento in ogni caso non potrà essere inferiore all'Importo Minimo.

Rimborso Anticipato a discrezione dell'Emittente: I Titoli possono essere rimborsati in qualsiasi momento in tutto ma non in parte, a discrezione dell'Emittente al loro Importo di Rimborso Opzionale alla data specificata in un avviso pubblicato sul sito dell'Emittente, previa comunicazione all'Agente di Pagamento e ai Titolari dei Titoli, se l'Emittente determina che tutto o parte della Serie dei Titoli è o sarà escluso in tutto o in parte dalle passività ammissibili disponibili per soddisfare i Requisiti MREL (Evento di Inammissibilità MREL).

Rettifiche dei Termini e delle Condizioni dei Titoli: Nell'ipotesi di un Evento di Cessazione del Tasso di Riferimento (ad es. diventa illecito per l'Emittente utilizzare il Sottostante) il Sottostante sarà sostituito da un tasso di riferimento sostitutivo economicamente adeguato. Inoltre, l'agente di calcolo può, se necessario, apportare ulteriori rettifiche ai termini e alle condizioni dei Titoli (ad es. il metodo di calcolo o la determinazione dell'Importo Condizionato Aggiuntivo (m)).

Stato dei Titoli: Gli obblighi dell'Emittente derivanti dai Titoli costituiscono obbligazioni dirette, incondizionate, non subordinate e non garantite dell'Emittente, avranno pari priorità nell'ordine dei pagamenti (fatte salve le obbligazioni privilegiate da qualsiasi legge applicabile (anche soggette allo strumento del bail-in, come implementato ai sensi della legge italiana)) rispetto a tutte le altre obbligazioni non garantite dell'Emittente e ad ogni altro obbligo presente e futuro, non garantito e non subordinato, dell'Emittente (salvo, quando previsto, le obbligazioni junior rispetto alle obbligazioni senior (incluse le obbligazioni senior non privilegiate e le eventuali ulteriori obbligazioni junior, rispetto a obbligazioni senior, consentite dalla legge successivamente alla Data di Emissione), ove previste).

Dove saranno negoziati i Titoli?

Ammissione alla negoziazione: Non è stata presentata l'istanza per l'ammissione a negoziazione dei Titoli presso un mercato regolamentato.

Quotazione: Sarà presentata istanza per l'ammissione a quotazione dei Titoli con efficacia dal 04/07/2024, presso i seguenti sistemi multilaterali di negoziazione (MTF): EuroTLX, organizzato e gestito da Borsa Italiana S.p.A. ("EuroTLX")

UniCredit Bank GmbH (il "Market Maker") si impegna a fornire liquidità in conformità alle norme sul *market making* di EuroTLX, dove ci si attende che i Titoli saranno negoziati. Inoltre, il Market Maker si impegna ad applicare, in condizioni normali di mercato, uno spread tra le quotazioni denaro e lettera non superiore all'1%.

Quali sono i principali rischi specifici dei Titoli?

Rischio di Credito dell'Emittente e rischi relativi alle misure di risoluzione che riguardano l'Emittente: I Titoli costituiscono obbligazioni non garantite dell'Emittente nei confronti dei Titolari. Pertanto, chiunque li acquisti è soggetto al merito creditizio dell'Emittente e non ha, in relazione alla propria posizione nell'ambito dei Titoli, alcun diritto o pretesa nei confronti di qualsiasi altra persona. I Titolari sono sottoposti al rischio di una parziale o totale inadempienza dell'Emittente per gli obblighi che il medesimo è tenuto ad adempiere in tutto o in parte ai sensi dei Titoli, ad esempio in caso di insolvenza. Peggiora la solvibilità dell'Emittente, maggiore è il rischio di perdita. Qualora il rischio di credito dell'Emittente si realizzi, il Titolare può subire una perdita totale del proprio capitale, anche se i Titoli prevedono un Importo Minimo alla loro scadenza. Inoltre, i Titolari possono essere soggetti a misure di risoluzione nei confronti dell'Emittente qualora il medesimo è in fallimento o a rischio di fallimento. Gli obblighi dell'Emittente ai sensi dei Titoli non sono garantiti, garantiti da terzi o protetti da un sistema di protezione dei depositi o di compensazione.

Rischi correlati a fattori che influenzano il valore di mercato: Tanto il valore di mercato quanto gli importi pagabili ai sensi dei Titoli dipendono principalmente dal prezzo del Sottostante. Peraltro, il valore di mercato dei Titoli sarà condizionato da una serie di ulteriori fattori. Questi sono, inter alia, il merito creditizio dell'Emittente, i relativi tassi di interesse e di rendimento prevalenti, il mercato per titoli simili, le condizioni economiche generali, politiche e cicliche, la negoziabilità e, se del caso, la durata residua dei Titoli nonché ulteriori fattori relativi al Sottostante che influenzano il valore di mercato.

Rischi correlati all'Importo di Rimborso: I Titoli saranno rimborsati alla loro scadenza all'Importo di Rimborso. L'Importo di Rimborso potrebbe essere inferiore al prezzo di acquisto. Ciò significa che il Titolare otterrà un rendimento solo se l'Importo di Rimborso sia superiore allo specifico prezzo di acquisto pagato dal Titolare.

Rischi derivanti dal mancato pagamento di importi nel corso della durata dei Titoli: Qualsiasi Importo Condizionato Aggiuntivo (m) sarà pagabile solo se si verifica un Evento di Pagamento dell'Importo Condizionato Aggiuntivo (m) in una Data di Osservazione (m). Se un Evento di Pagamento dell'Importo Condizionato Aggiuntivo (m) non si verifica, il Titolare non ha diritto a ricevere il rispettivo Importo Condizionato Aggiuntivo (m). Vi è il rischio che in caso di andamento sfavorevole del Sottostante non si verifichi il pagamento di alcun Importo Condizionato Aggiuntivo (m).

Rischi legati alla disciplina degli indici di riferimento: I Titoli fanno riferimento a un Indice di Riferimento (*Benchmark*) ("Indice di Riferimento") come definito ai sensi del Regolamento (UE) 2016/1011 (il "Regolamento Benchmark") e pertanto sussiste il rischio che, a partire da una determinata data, l'Indice di Riferimento non possa più essere utilizzato come parametro di riferimento dei Titoli. In tal caso, i Titoli potrebbero essere rimossi dalla quotazione, rettificati, convertiti o comunque influenzati. Qualsiasi modifica ad un Indice di Riferimento derivante dal Regolamento Benchmark potrebbe determinare un sostanziale effetto negativo sui costi di rifinanziamento di un Indice di Riferimento o sui costi e rischi di amministrazione o comunque di partecipazione alla definizione di un Indice di Riferimento e di adempimento del Regolamento Benchmark. I potenziali investitori dovrebbero considerare il rischio che eventuali modifiche al relativo Indice di Riferimento potrebbero avere un sostanziale effetto negativo sul valore e sugli importi dovuti ai sensi dei Titoli.

Rischi legati ai tassi di riferimento: I tassi di riferimento possono essere soggetti a fluttuazioni significative a causa di molteplici fattori quali le variazioni dei tassi di interesse di mercato, le misure adottate dalle banche centrali, gli interventi fiscali, nonché a influenze macroeconomiche o politiche. La pubblicazione dei tassi di riferimento può essere interrotta, in particolare a causa di requisiti regolamentari. Modifiche, errori o manipolazioni nel calcolo di un tasso di riferimento possono avere un effetto negativo rilevante per il Titolare.

Rischi legati a potenziali conflitti di interesse: Possono insorgere conflitti di interesse relativi all'Emittente o ai soggetti incaricati dell'offerta che possono determinare decisioni svantaggiose per i Titolari dei Titoli.

Rischio di liquidità: Sussiste un rischio che i Titoli non siano ampiamente distribuiti e che non esista un mercato attivo di negoziazione che possa evolversi per i Titoli. L'Emittente può, ma non è obbligato, acquistare i Titoli in qualsiasi momento e a qualsiasi prezzo sul mercato aperto, mediante offerta pubblica di acquisto o contratto privato. I Titoli acquistati in questo modo dall'Emittente possono essere detenuti, rivenduti o cancellati. Un riacquisto dei Titoli da parte dell'Emittente può influire negativamente sulla liquidità dei medesimi. L'Emittente non può assicurare che un Titolare sarà in grado di vendere i propri Titoli ad un prezzo adeguato prima del loro rimborso.
