In the case of a material change in the market conditions at the Relevant Exchange, such as a final discontinuation of the quotation of the Underlying at the Relevant Exchange and the quotation at a different stock exchange or a considerably restricted liquidity, the Relevant Exchange shall be substituted as the Relevant Exchange by another exchange that offers satisfactorily liquid trading in the Underlying (the **"Replacement Exchange"**); such exchange shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith. In the event of such substitution, any reference to the Relevant Exchange in these Terms and Conditions shall be deemed to refer to the Replacement Exchange.

§ 2

Interest

Interest: The Securities do not bear interest.

§ 3

Redemption

Redemption: The Securities shall be redeemed upon automatic exercise on the Exercise Date by payment of the Redemption Amount on the Final Payment Date pursuant to the provisions of § 6 of the Special Conditions.

The Securities shall be deemed automatically exercised on the Exercise Date.

§ 4

Redemption Amount

Redemption Amount: The Redemption Amount corresponds to an amount in the Specified Currency calculated or specified by the Calculation Agent as follows:

Redemption Amount = Calculation Amount x (Floor Level + Final Participation Factor x Performance of the Underlying (final))

However, the Redemption Amount is not less than the Minimum Amount.

§ 5

Issuer's Conversion Right

Issuer's Conversion Right: Upon the occurrence of a Conversion Event the Securities shall be redeemed at the Settlement Amount on the Final Payment Date.

The "**Settlement Amount**" shall be the market value of the Securities, with accrued interest for the period until the Final Payment Date at the market rate of interest being traded at such time for liabilities of the Issuer with the same remaining term as the Securities within ten Banking Days following the occurrence of the Conversion Event; it shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith. The fair market value, as calculated by the Calculation Agent, is calculated based on the redemption profile of the Securities which has to be adjusted taking into consideration the following parameters as of the tenth Banking Day before the conversion becomes effective: the price of the Underlying, the remaining time to maturity, the volatility, the dividends (if applicable), the current interest rate as well as the counterparty risk and any other relevant market parameter that can influence the value of the Securities. However, the Settlement Amount shall not be less than the Minimum Amount. If it is not possible to determine the market value of the Securities, the Settlement Amount corresponds to the Minimum Amount. The Settlement Amount shall be notified pursuant to § 6 of the General Conditions.

The Settlement Amount will be paid pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards.
- (2) *Business day convention:* If a Payment Date is not a Banking Day then the Following Business Day Convention shall apply. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the legal interest rate ('*Saggio degli Interessi legali*'), pursuant to Section 1284 CC, without prejudice to any other mandatory provisions under Italian law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on an Observation Date, the respective Observation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Observation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days, the Calculation Agent shall determine acting in accordance with relevant market practice and in good faith the respective Reference Price required for the calculations or, respectively, specifications described in these Terms and Conditions. Such Reference Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Milan local time) on this 9th Banking Day.

If within these 8 Banking Days traded Underlying Linked Derivatives expire and are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Underlying Linked Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in these Terms and Conditions. In that case, the expiration date for those Underlying Linked Derivatives is the respective Observation Date.

§ 8

Adjustments, Type of Adjustment, Replacement Specification, Reversal of Adjustment, Notifications

- (1) *Adjustments:* If an Adjustment Event occurs the Calculation Agent is authorised to adjust these Terms and Conditions (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 acting in accordance with relevant market practice and in good faith, taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

Within the context of an Adjustment the Calculation Agent proceeds as follows:

- (a) *Adjustment in accordance with the Determining Futures Exchange:* In general, the Calculation Agent will undertake the Adjustment in terms of content and timing in a way that to the greatest extent matches the designated Adjustment by the Determining Futures Exchange regarding the Underlying Linked Derivatives. The Calculation Agent is, however, also authorised to make an Adjustment if there is no adjustment made to the Underlying Linked Derivatives by the Determining Futures Exchange. In this case the Calculation Agent will make the Adjustment, if any, in accordance with the rulebook of the Determining Futures Exchange with respect to the Underlying Linked Derivatives.
- (b) *Deviating Adjustments:* In particular in the following cases the Calculation Agent is authorised to make Adjustments deviating from the adjustments made by the Determining Futures Exchange in order to take into account the Adjustment Goal in an appropriate manner:
- (i) The adjustment envisaged by the Determining Futures Exchange regarding the Underlying Linked Derivatives is impossible for the Issuer or the Calculation Agent or technically not feasible within reasonable economic efforts; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.
 - (ii) The adjustment envisaged by the Determining Futures Exchange regarding the Underlying Linked Derivatives is unreasonable for Security Holders, the Calculation Agent or the Issuer (e.g. because the Issuer would have to breach internal trading restrictions in order to hedge its payment obligations under the Securities); whether this

is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

- (iii) The adjustment envisaged by the Determining Futures Exchange regarding the Underlying Linked Derivatives is not suitable to meet the Adjustment Goal; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

(2) *Type of Adjustment:* In the context of an Adjustment the Calculation Agent may undertake in particular the following measures in accordance with paragraph (1) above:

(a) *Adjustment of Adjustable Product Data:* The Calculation Agent may redefine the Adjustable Product Data based on an adjustment factor (e.g. in case of a capital increase against cash contribution, issue of securities with options or conversion rights in shares, a capital increase from company funds, a distribution of special dividends or other measures undertaken by the company, that issued the Underlying or a third party, that impacts the computed value of the Underlying not only in an insignificant way, based on a change of a legal or economic situation, in particular a change of the fixed assets or equity of the company).

(b) *Replacement of the Underlying:* In case of a take-over or a merger or similar measure with respect to the Underlying the Calculation Agent can replace the Underlying with the share of the successor of the issuer of the original Underlying or with another share of – inter alia – comparable liquidity and industry affiliation as the original Underlying (the "**Replacement Underlying**"). Furthermore, until completion of the take-over or merger (excluding), the Calculation Agent may determine that either the shares submitted for sale or submitted for exchange are to be the Replacement Underlying.

In case of a split or a similar measure with respect to the Underlying the Calculation Agent may determine (i) a basket of shares and/or securities or (ii) a basket of shares and/or securities and a cash component to be the Replacement Underlying. The Calculation Agent may exclusively select, in deviation from the Adjustment made by the Determining Futures Exchange, the share with the highest market capitalisation or another share from the basket of shares determined by the Determining Futures Exchange with – inter alia – comparable liquidity and industry affiliation as the original Underlying to be the Replacement Underlying. In this case the Calculation Agent will, if necessary, determine an adjustment factor by itself to meet the Adjustment Goal and will undertake an Adjustment according to paragraph 2 (a) above.

If the Calculation Agent designates a Replacement Underlying, from the Adjustment Date on (as defined in paragraph (5) below), every reference to the Underlying in these Terms and Conditions shall be a reference to the Replacement Underlying, unless the context requires otherwise.

(3) *Replacement Specification:* If a published price of the Underlying as required pursuant to these Terms and Conditions is subsequently corrected and the correction (the "**Corrected Value**") will be published by the Relevant Exchange after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify the respective value by using the Corrected Value (the "**Replacement Specification**") and publish it pursuant to § 6 of the General Conditions.

(4) *Reversal of Adjustment:* If an Adjustment Event that has occurred subsequently ceases to exist (for example, if the effectiveness of a merger subsequently ceases to exist due to the agreement on the merger or a sovereign prohibition or lack of approval), the Calculation Agent shall be entitled to reverse a previously made Adjustment pursuant to this § 8 if this corresponds to the Adjustment Goal.

(5) *Notifications:* All Adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Security Holders according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.

§ 9

Early redemption at the option of the Issuer

(1) The Securities may be early redeemed at any time in whole but not in part, at the option of the Issuer, upon the occurrence of the MREL Disqualification Event, but subject to compliance with the then applicable MREL Requirements (including, without limitation, the Issuer having obtained the prior permission of the competent supervisory authority or the resolution authority, in each case to the extent

required by provisions of law), upon not more than 60 days' nor less than 30 days' prior notice of such early redemption, at their Optional Redemption Amount, in accordance with the MREL Requirements.

"MREL Requirements" means the laws, regulations, requirements, guidelines, rules, standards and policies relating to minimum requirements for own funds and eligible liabilities applicable to the Issuer and/or the Group, from time to time, (including any applicable transitional or grandfathering provisions), including, without limitation to the generality of the foregoing, any delegated or implementing acts (such as regulatory technical standards) adopted by the European Commission and any regulations, requirements, guidelines, rules, standards and policies relating to minimum requirements for own funds and eligible liabilities adopted by the Federal Republic of Germany or the Republic of Italy, a relevant resolution authority or the European Banking Authority from time to time (whether or not such requirements, guidelines or policies are applied generally or specifically to the Issuer and/or the Group), as any of the preceding laws, regulations, requirements, guidelines, rules, standards, policies or interpretations may be amended, supplemented, superseded or replaced from time to time.

"MREL Disqualification Event" means that, at any time, all or part of the Series of Securities is or will be excluded fully or partially from the eligible liabilities available to meet the MREL Requirements provided that: (a) the exclusion of a Series of such Securities from the MREL Requirements due to the remaining maturity of such Securities being less than any period prescribed thereunder, does not constitute a MREL Disqualification Event; (b) the exclusion of all or some of a Series of Securities due to there being insufficient headroom for such Securities within a prescribed exception to the otherwise applicable general requirements for eligible liabilities does not constitute a MREL Disqualification Event; and (c) the exclusion of all or some of a Series of Securities as a result of such Securities being purchased by or on behalf of the Issuer or as a result of a purchase which is funded directly or indirectly by the Issuer, does not constitute a MREL Disqualification Event.

- (2) The Optional Redemption Amount will be paid pursuant to the provisions of § 6 of the Special Conditions.
- (3) Any notice in accordance with this paragraph (3) shall be given by a notice in accordance with § 6 of the General Conditions. It shall be irrevocable, must specify the date fixed for redemption and must set forth a statement that the redemption is made in accordance with this § 9.

Pro-forma financial information

The table below presents selected pro-forma financial information of the UniCredit Group for the financial year ended at December 31, 2024. The figures are based on the Pro-Forma Consolidated Condensed Financial Information which were prepared, in accordance with Annex 20 of the Commission Delegated Regulation (EU) 2019/980, supplemented by the Guidelines on disclosure requirements under the Prospectus Regulation 32-382-1138, published by ESMA and with CONSOB notice No. DEM/1052803 of July 5, 2001, exclusively for illustrative purposes, by providing an illustration of the estimated retroactive effects of the planned acquisition of BPM on the financial performance of the UniCredit Group (the “**Pro-Forma Consolidated Condensed Financial Information**”).

The Pro-forma financial information contained in the Pro-Forma Consolidated Condensed Financial Information represents a simulation, provided merely for illustrative purposes, of the possible effects that might result from (i) the acquisition and subsequent potential Merger of BPM into UniCredit (disregarding any potential integration of a stake in Anima Holding S.p.A. (“**Anima**”) by BPM pursuant to the BPM Offer), and (ii) the acquisition and subsequent potential Merger of BPM into UniCredit also taking into account the incidental acquisition by BPM of a controlling stake in Anima in accordance with the various scenarios that might materialize pursuant to the terms of the BPM Offer (together, the “**Acquisitions**”). More specifically, as the pro-forma data were prepared to retroactively reflect the effects of subsequent transactions, despite compliance with the generally accepted rules and the use of reasonable assumptions, there are limitations inherent in the nature of these pro-forma figures and, by their very nature, they are unable to offer a representation of the prospective economic performance and financial position of the UniCredit Group. The Pro-Forma Consolidated Condensed Financial Information included in this Summary have been examined by the KPMG, who issued their own report on March 28, 2025.

What are the key risks that are specific to the Issuer?

Potential investors should be aware that in the case of the occurrence of one of the below mentioned risk factors the Securities may decline in value and that they may sustain a total loss of their investment. The following risks are key risks specific to the Issuer:

Risks associated with the completion of the acquisition of BPM, the consequent process of integration and potential failure to realize the expected synergies: The Offer's terms provide for the Issuer to pay a consideration equal to 0.175 New Shares in exchange for each tendered share of BPM (without prejudice to the adjustments that will be described in the Offer Document). The New Shares will originate from a share capital increase of up to 278,000,000 UniCredit shares, without option rights. With the Offer, the Issuer aims at acquiring the entire share capital of BPM to proceed with its Merger by incorporation (subject to the approval of the competent corporate bodies and authorizations by competent authorities) in pursuit of continued integration, synergy and growth of the UniCredit Group. The nature of the Offer - and of the envisaged transactions connected with it - is such that investors should take into account several risks associated with any forecasts concerning the Issuer's performance in the context of its own strategic targets, those of the Offer itself and the wider economic background. For instance, the acquisition of the BPM Group may not reflect the scope and timing it is expected to be characterized by, also given the different possible scenarios concerning adherence to the Public Exchange Offer. In addition, if the estimated implementation costs of the Offer and the integration measures are materially exceeded, the targets and future outcomes on which the Offer is based may not be realized. In particular, should the Issuer acquire a certain percentage of BPM (in any case higher than the Threshold Condition or 50% + 1 of the shares of BPM in case the Threshold Condition is waived) without, however, carrying out the Merger, the Issuer estimates that approximately 85% of the estimated cost and revenues synergies could be achieved, amounting to an overall value of approximately Euro 1 billion before tax, including revenues synergies of approximately Euro 300 million, and cost synergies of approximately Euro 700 million. It should be noted that the revenues and cost synergies expected from the transaction have been estimated regardless of the outcome of the BPM Offer and thus do not take into account any synergies which may be extracted from the integration of Anima and BPM, considering that the Issuer had no access to the detailed assumptions underlying any potential synergies deriving from the integration of Anima and BPM.

Risks associated with the UniCredit Group's activities in different geographical areas: Despite the Group's business being materially connected to Italy and, therefore, to the state of its economy (Italy accounted for approximately 45% of the Group's revenues in 2024, computed as sum of Italy, Germany, Central Europe including Austria, Eastern Europe and Russia) the UniCredit Group is also present in Germany (accounting for approximately 22% of the Group's revenues in 2024), in Central Europe (accounting for approximately 17% and covering Austria, Czech Republic and Slovakia, Hungary and Slovenia) in Eastern Europe (accounting for approximately 11% of the Group's revenues in 2024 and covering Croatia, Bulgaria, Romania, Bosnia and Herzegovina and Serbia). UniCredit also has marginal activities in Russia (accounting for approximately 5% of the Group's revenues in 2024). BPM's more pronounced presence in certain regions of Italy means that, especially following a potential Merger, any changes in the macroeconomic environment/geopolitical developments of the country, any trends in the prices of commodities and energy, or high interest rates on sovereign bonds might cause significant negative impacts on the UniCredit Group's business. The UniCredit Group's geographical spread will also continue to expose it (even post-Merger) to risks and uncertainties of a varying nature and magnitude affecting each of the various countries in which it operates and which could be more complex in relation to countries outside the European Union. Central and eastern European countries in particular have historically experienced volatile capital and foreign exchange markets, often coupled with political, economic and financial instability (at present potentially increased due to the Ukrainian crisis). The evolution of the geopolitical landscape remains under continuous monitoring by UniCredit, with current factors including recent and constantly evolving U.S. trade policy decisions, that could have potential implications on global trade relationships both with upsides (e.g. new trade partnerships) and downsides (e.g. impact on export/import) as possible outcomes. This area is at the early stage of evolution and potential impacts, if any, on UniCredit's primary geographies will be duly taken into account as part of the normal processes of the risk management framework. At the Registration Document Date, the Issuer's presence in Russia exposes it to the specific risks connected to the ongoing Ukrainian crisis. Such risk exposure also requires the Issuer to constantly employ a significant amount of resources for the dynamic management of risks and ongoing assessment of the possible effects of the geopolitical crisis, while maintaining an overall prudent and sustainable approach to distributions. With regards to the assets and liabilities of Russian subsidiaries, the Group holds investments in Russia through AO UniCredit Bank and its subsidiaries OOO UniCredit Garant, and OOO UniCredit Leasing. The line-by-line consolidation determined the recognition of total assets as of December 31, 2024, in the form of investments in Russia to be equal to Euro 5,597 million, as opposed to Euro 8,668 million as of December 31, 2023. Such a difference in total assets is mainly attributable to a reduction in financial assets at amortized cost. As of December 31, 2024, the foreign exchange revaluation reserve arising from the conversion of assets and liabilities in EUR is equal to Euro - 3,243 million. The negative delta for Euro 456 million in comparison with the same figure for year-end 2023 (Euro - 2,787 million) is mainly due to the depreciation of the Russian Ruble over the same period. Any theoretical event of loss of control over AO UniCredit Bank – including a nationalization – would determine the derecognition of net assets having a carrying value of Euro 5.5 billion. Such value includes the deconsolidation effects and embeds the negative revaluation reserve, mainly linked to foreign exchange, equal to Euro -3.3 billion. As a consequence, the overall impact on UniCredit's capital ratio is lower than the consolidated carrying value of AO UniCredit Bank and it is confirmed in line with the extreme loss scenario already disclosed to the market (-47 bps of the CET1 ratio as of December 2024 or -55bps including impact from threshold deduction, if this were applicable at the time the event occurs). This event, if occurred in 2024, would have led UniCredit to report a positive stated FY24 Group result of Euro 4.2 billion, instead of Euro 9.7 billion.

Risks connected with forecasts and estimates concerning UniCredit, BPM and the expected post-Merger process of integration and expected synergies: The forecasts and estimates regarding the UniCredit Group's future performance ambition (2025-27 Ambitions) are subject to uncertainties and other factors largely outside UniCredit's control. Expected synergies arising from the integration of BPM depend on UniCredit's ability to react to market and business changes during the combination, successfully and safely control the business integration process, and define and implement a new strategy, organizational and governance model. Estimates on the one-off costs of integration and the cost and revenues synergies may turn out to be imprecise or not materialize at all, and there might also be significant discrepancies between forecast and actual values. Based on (a) the UniCredit net profit ambitions for 2027 and (b) the standalone net profit estimates for 2027 from broker consensus for BPM and Anima (average retrieved from FactSet on March 20, 2025) and assuming, inter alia (i) completion of the Offer and the Merger and (ii) realization of the full revenues and cost synergies in 2027, the combined group would have a combined net profit of approximately Euro 12.8 billion in 2027. With particular reference to the targets and expected synergies, these have also been set by reference to estimates concerning the one-off costs of integration relating to the acquisition and the following cost and revenues synergies arising once BPM has been integrated into the Issuer's Group. In particular, the Issuer expects estimated revenues synergies of approximately Euro 300 million before tax per year and estimated cost synergies of approximately Euro 900 million before tax per year. UniCredit expects 50% of both costs and revenues synergies to materialize in 2026 and to be then fully realized in 2027. The one-off costs of the integration process have been estimated at approximately Euro 2 billion before tax, expected to be mostly concentrated at the initial stage of the process. Given the uncertainty characterizing any forecast data and the assumptions they are based on, including those retrieved from FactSet and broker consensus estimates, the

results actually achieved by UniCredit (including net profit) could significantly diverge from the identified forward-looking trends.

Credit risk and risk of credit quality deterioration: The financial and capital strength, as well as the profitability of the UniCredit Group also depend on the creditworthiness of its customers. An unexpected change in the creditworthiness of a counterparty exposes the Group to the risk of a change in the value of the associated credit exposure, requiring it to be partially or totally written down. Such credit risk is inherent in, and material to, the traditional activity of providing credit. As at December 31, 2024, UniCredit's non-performing exposures (NPEs) amounted to Euro 11.2 billion (with a gross NPE ratio of 2.6%), down by 4.6% Y/Y, while as at December 31, 2023 they amounted to Euro 11.7 billion, with a gross NPE ratio of 2.7%. The stock of LLPs as at December 31, 2024, was equal to Euro 5.1 billion with a coverage ratio of 45.87%. In terms of NPEs: (i) Euro 3.1 billion were classified as bad loans (coverage 69.33%), (ii) Euro 7.3 billion were classified as unlikely to pay (coverage 37.44%), (iii) Euro 0.8 billion were classified as impaired past due (coverage 32.47%).

As at December 31, 2024, the Group's net NPEs stood at Euro 6 billion, slightly decreased compared to the value of Euro 6.2 billion recorded as at December 31, 2023 (equal to, respectively, 1.4% and 1.4% of total exposures of the Group). The UniCredit Group's CoR increased by 2 bps to 15 bps as at December 31, 2024. On the other hand, as at December 31, 2024 the amount of the Group's overlays on performing exposures is of approximately Euro 1.7 billion. The UniCredit Group is also exposed to the non-traditional counterparty credit risk arising in the context of negotiations of derivative contracts and repurchase transactions (repos) on a wide range of products if a counterparty becomes unable to fulfil its obligations towards the UniCredit Group. As to the Group's securitizations relevant for credit risk purposes, UniCredit acts as originator (SRT securitizations, of which 27 are synthetic, 14 are true sales and 10 on NPEs exposures), sponsor (with its asset-backed commercial paper program for Euro 5.9 billion in 2024), sponsor (for its Asset-Backed Commercial Paper ("ABCP") program in UCB GmbH) and investor (total exposure of Euro 19.64 billion in 2024, of which (i) Euro 9.34 billion relates to rated positions, and (ii) Euro 10.3 billion relates to unrated senior exposures of private securitisations of banking and automotive sector clients). Furthermore, the size of the BPM investor portfolio is relatively small compared to the UniCredit Group's one, and even though UniCredit does not envisage a deterioration of the Group risk profile following the integration of BPM, the Issuer would only be able to provide a complete evaluation of any impact on credit risk (including that relating specifically to securitizations) only after the completion of the transaction.

Liquidity risk: The UniCredit Group is and will be, in a post-Merger configuration, exposed to the possibility of being unable to meet its current and future, anticipated and unforeseen cash payment and delivery obligations without impairing its day-to-day operations or financial position. The liquidity risks specific to the activities of UniCredit concern funding/market liquidity and mismatch/contingency risks. As of December 31, 2024, the Liquidity Coverage Ratio (LCR) of the UniCredit Group was equal to 144% whereas at December 31, 2023 it was equal to 154% (calculated as the average of the 12 latest end of month ratios). As of December 31, 2024, the Net Stable Funding Ratio (NSFR) was above 128%. Comparing values of such metrics for 2024 between UniCredit Group and BPM: (i) LCR: 144% for UniCredit Group and 132% for BPM; (ii) NSFR: 128% for UniCredit Group and 126% for BPM; (iii) loan to deposit ratio (LTD): 85% for UniCredit Group, 79% for BPM (even though not fully comparable); (iv) Current accounts and demand deposits over total financial liabilities at amortized cost due to customers: 73% for UniCredit Group and 96% for BPM. The regulatory liquidity indicators as at March 31, 2025 were as follows: (i) LCR above 140%, (ii) NSFR above 125% and (iii) LTD equal to 86.9%.

Section 3 – Key information on the Securities

What are the main features of the Securities?

Product Type, Underlying and form of the Securities

Product Type: Protection Performance Securities (Non-Quanto)

Underlying: Intesa Sanpaolo S.p.A. (ISIN: IT0000072618 / Reference Price: Prezzo di Riferimento)

The Securities are governed by Italian law. The Securities are debt instruments in dematerialized registered form pursuant to the Italian Consolidated Law on Financial Intermediation (*Testo Unico della Finanza*). The Securities will be represented by book entry and registered in the books of the Clearing System. The transfer of the Securities operates by registration on the relevant accounts opened in the Clearing System. The international securities identification number (ISIN) of the Securities is set out in Section 1.

Issuance and Term

The Securities will be issued on 29 July 2025 in Euro (EUR) (the "Specified Currency") as up to 100,000 Certificates. The Securities have a defined term.

General

The value of the Securities during their term depends mainly on the price of the Underlying. In principle, the value of the Securities rises if the price of the Underlying rises and falls if the price of the Underlying falls.

Interest

The Securities do not bear interest.

Redemption

Provided that no Conversion Event has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following an automatic exercise.

At the Final Payment Date the Redemption Amount is equal to the Calculation Amount multiplied by the total of (i) the Floor Level and (ii) the Performance of the Underlying (final) multiplied by the Final Participation Factor. The Redemption Amount will not be lower than the Minimum Amount.

Additional definitions and product terms

Performance of the Underlying (final) means the difference of (i) the quotient of R (final) as the numerator and R (initial) as the denominator and (ii) the Final Strike Level.

R (final) means the Reference Price on the Final Observation Date.

R (initial) means the Reference Price on the Initial Observation Date.

Final Observation Date:	9 December 2032
Calculation Amount:	EUR 100.00
Final Participation Factor:	145%
Final Payment Date:	16 December 2032
Final Strike Level:	100%
Floor Level:	100%

Initial Observation Date:	29 July 2025

Optional Redemption Amount:	Calculation Amount

Conversion of the Securities by the Issuer: Upon the occurrence of one or more conversion events (for example, if price quotation of the Underlying on the Relevant Exchange is suspended indefinitely or permanently discontinued and no Replacement Exchange is available or could be determined) (the "Conversion Event") the Issuer may convert the Securities and redeem them on the Final Payment Date by payment of the Settlement Amount. The "Settlement Amount" is the market value of the Securities, with accrued interest for the period until the Final Payment Date at the market rate of interest being traded at such time for liabilities of the Issuer with the same remaining term as the Securities within ten Banking Days following the occurrence of the Conversion Event, as determined by the Calculation Agent. The Settlement Amount is in any case not less than the Minimum Amount.

Early redemption at the option of the Issuer: The Securities may be redeemed at any time in whole but not in part, at the option of the Issuer at their Optional Redemption Amount on or after the date specified in a notice published on the Issuer's website on giving notice to the Paying Agent and the Security Holders, if the Issuer determines that all or part of the series of Securities is or will be excluded fully or partially from the eligible liabilities available to meet the MREL Requirements (MREL Disqualification Event).

Adjustments to the Terms and Conditions: The Calculation Agent may adjust the Terms and Conditions of the Securities if an adjustment event (for example, each measure taken by the company that has issued the Underlying or by a third party which, as a result of a change in the legal and financial position, affects the Underlying) (the "Adjustment Event") occurs.

Status of the Securities: The obligations of the Issuer under the Securities constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer, ranking (subject to any obligations preferred by any applicable law (also subject to the bail-in instruments as implemented under Italian law)) *pari passu* with all other unsecured obligations (other than obligations ranking junior to the senior notes from time to time (including non-preferred senior notes and any further obligations permitted by law to rank junior to the senior notes following the Issue Date), if any) of the Issuer, present and future and, in the case of the senior notes, *pari passu* and rateably without any preference among themselves.

Where will the Securities be traded?

Admission to trading: No application for the Securities to be admitted to trading on a regulated market has been made.

Listing: Application to trading will be made with effect from 30 July 2025 on the following multilateral trading facilities (MTF): EuroTLX, organized and managed by Borsa Italiana S.p.A. ("EuroTLX")

UniCredit Bank GmbH (the "Market Maker") undertakes to provide liquidity in accordance with the market making rules of EuroTLX, where the Securities are expected to be traded.

What are the key risks that are specific to the Securities?

Credit risk of the Issuer and risks in relation to resolution measures in relation to the Issuer: The Securities constitute unsecured obligations of the Issuer vis-a-vis the Security Holders. Any person who purchases the Securities therefore relies on the creditworthiness of the Issuer and has, in relation to his/her position under the Securities, no rights or claims against any other person. Security Holders are subject to the risk of a partial or total failure of the Issuer to fulfil obligations which the Issuer is liable to perform under the Securities in whole or in part, for example, in the event of the Issuer's insolvency. The worse the creditworthiness of the Issuer is the higher is the risk of a loss. In the case of realization of the credit risk of the Issuer the Security Holder may sustain a total loss of his/her capital, even if the Securities provide for a Minimum Amount at their maturity. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail. The obligations of the Issuer under the Securities are not secured, guaranteed by third parties or protected by any deposit protection or compensation scheme.

Risks related to market value-influencing factors: The market value of the Securities as well as the amounts distributable under the Securities primarily depend on the price of the Underlying. However, the market value of the Securities will be affected by a number of additional factors. These are inter alia the creditworthiness of the Issuer, the relevant prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability and, if applicable, the remaining term of the Securities as well as additional Underlying-related market value-influencing factors.

Risks related to the Redemption Amount: The Securities will be redeemed at their maturity at the Redemption Amount. The Redemption Amount may be less than the purchase price. This means, the Security Holder only achieves a return if the Redemption Amount exceeds the individual purchase price of the Security Holder.

Risks arising from missing ongoing payments: The Securities, do not bear interest or grant any other conditional or unconditional rights for ongoing payments which could compensate possible losses of principal.

Risks related to shares: The Securities are associated with similar risks for the Security Holders as in case of a direct investment in the shares specified as Underlying. The price of a share can fall sharply or it can become worthless, e.g. due to the insolvency of the issuer of the share.

Risks related to potential conflicts of interests: Conflicts of interest in relation to the relevant Issuer or the persons entrusted with the offer may arise, which may result in a decision to the Security Holder's disadvantage.

Liquidity risk: There is a risk that the Securities may not be widely distributed and no active trading market may exist and may develop for the Securities. The Issuer may, but is not obliged to, purchase Securities at any time and at any price in the open market, by tender offer or private agreement. Any Securities purchased in this way by the Issuer may be held, resold or cancelled. A repurchase of Securities by the Issuer may adversely affect the liquidity of the Securities. The Issuer cannot therefore assure that a Security Holder will be able to sell his Securities at an adequate price prior to their redemption.

Quali sono i principali rischi specifici dell'Emittente?

I potenziali investitori devono essere consapevoli che, qualora si verifichi uno dei seguenti fattori di rischio, il valore degli Strumenti Finanziari potrebbe ridursi con la conseguente perdita totale del capitale investito. I seguenti rischi sono i principali rischi specifici dell'Emittente:

Rischi associati al completamento dell'acquisizione di BPM, al conseguente processo di integrazione e alla potenziale mancata realizzazione delle sinergie attese: I termini dell'Offerta prevedono che l'Emittente paghi un corrispettivo pari a 0,175 Nuove Azioni in cambio di ogni azione di BPM portata in adesione (fatti salvi gli aggiustamenti che saranno descritti nel Documento di Offerta). Le Nuove Azioni saranno originate da un aumento di capitale sociale di massime 278.000.000 azioni UniCredit, senza diritto di opzione. Con l'Offerta, l'Emittente intende acquisire l'intero capitale sociale di BPM per procedere alla Fusione per incorporazione (soggetta all'approvazione degli organi sociali competenti e alle autorizzazioni delle autorità competenti) nel perseguimento di una continua integrazione, sinergia e crescita del Gruppo UniCredit. La natura dell'Offerta - e delle operazioni previste ad essa collegate - è tale che gli investitori dovrebbero tenere in considerazione diversi rischi associati a qualsiasi previsione sui risultati dell'Emittente nel contesto dei propri obiettivi strategici, di quelli dell'Offerta stessa e del più ampio contesto economico. Ad esempio, l'acquisizione del Gruppo BPM potrebbe non rispecchiare la portata e la tempistica che si prevede possa caratterizzarla, anche in considerazione dei diversi possibili scenari di adesione all'Offerta Pubblica di Scambio. Inoltre, se i costi stimati per l'attuazione dell'Offerta e delle misure di integrazione dovessero essere materialmente superati, gli obiettivi e i risultati futuri su cui si basa l'Offerta potrebbero non essere realizzati. In particolare, qualora l'Emittente acquisisca una determinata percentuale di BPM (in ogni caso superiore alla Condizione Soglia o al 50% + 1 delle azioni di BPM in caso di rinuncia alla Condizione Soglia) senza, tuttavia, realizzare la Fusione, stima che potrebbe essere comunque realizzato circa l'85% delle sinergie di costo e di ricavi stimate, per un valore complessivo di circa Euro 1 miliardo al lordo delle imposte, di cui sinergie di ricavi per circa Euro 300 milioni e sinergie di costo per circa Euro 700 milioni. Si precisa che le sinergie di ricavi e di costo attese dall'operazione sono state stimate indipendentemente dall'esito dell'Offerta BPM e, pertanto, non tengono conto di eventuali sinergie che potrebbero derivare dall'integrazione tra Anima e BPM, considerato che l'Emittente non ha avuto accesso alle ipotesi di dettaglio sottostanti a potenziali sinergie derivanti dall'integrazione tra Anima e BPM.

Rischi connessi alle attività del Gruppo UniCredit in diverse aree geografiche: Nonostante il business del Gruppo sia sostanzialmente legato all'Italia e, quindi, allo stato della sua economia (l'Italia rappresenta circa il 45% dei ricavi del Gruppo nel 2024, calcolati come somma di Italia, Germania, Europa Centrale inclusa l'Austria, Europa Orientale e Russia), il Gruppo UniCredit è presente anche in Germania (che rappresenta circa il 22% dei ricavi del Gruppo nel 2024), in Europa centrale (con una quota di circa il 17% e comprendente Austria, Repubblica Ceca e Slovacchia, Ungheria e Slovenia) e in Europa orientale (con una quota di circa l'11% dei ricavi del Gruppo nel 2024 e comprendente Croazia, Bulgaria, Romania, Bosnia-Erzegovina e Serbia). UniCredit ha anche attività marginali in Russia (circa il 5% dei ricavi del Gruppo nel 2024). La presenza più marcata di BPM in alcune regioni d'Italia implica che, soprattutto a seguito di una potenziale Fusione, eventuali cambiamenti nel contesto macroeconomico/sviluppi geopolitici del paese, eventuali andamenti dei prezzi delle materie prime e dell'energia, o alti tassi di interesse sui titoli di Stato potrebbero causare impatti negativi significativi sull'attività del Gruppo UniCredit. La diffusione geografica del Gruppo UniCredit continuerà inoltre a esporlo (anche dopo la Fusione) a rischi e incertezze di varia natura e portata che interessano ciascuno dei vari paesi in cui opera e che potrebbero essere più complessi in relazione ai paesi al di fuori dell'Unione Europea. I paesi dell'Europa centrale e orientale, in particolare, hanno storicamente sperimentato mercati dei capitali e dei cambi volatili, spesso associati a instabilità politica, economica e finanziaria (attualmente potenzialmente aumentata a causa della crisi ucraina). L'evoluzione del panorama geopolitico è costantemente monitorata da UniCredit, con fattori attuali che includono le recenti decisioni in continua evoluzione della politica commerciale statunitense, che potrebbero avere potenziali implicazioni sulle relazioni commerciali globali sia con aspetti positivi (ad esempio, nuove partnership commerciali) che negativi (ad esempio, impatto su esportazioni/importazioni) come possibili risultati. Quest'area è nella fase iniziale di evoluzione e i potenziali impatti, se ve ne sono, sulle principali aree geografiche di UniCredit saranno debitamente presi in considerazione nell'ambito dei normali processi del framework relativo alla gestione del rischio. Alla Data del Documento di Registrazione, la presenza dell'Emittente in Russia lo espone ai rischi specifici connessi alla crisi ucraina in corso. Tale esposizione al rischio richiede inoltre che l'Emittente impieghi costantemente una quantità significativa di risorse per la gestione dinamica dei rischi e la valutazione continua dei possibili effetti della crisi geopolitica, mantenendo un approccio complessivamente prudente e sostenibile alle distribuzioni. Per quanto riguarda le attività e le passività delle controllate russe, il Gruppo detiene investimenti in Russia attraverso AO UniCredit Bank e le sue controllate OOO UniCredit Garant e OOO UniCredit Leasing. Il consolidamento integrale ha determinato l'iscrizione di attività totali al 31 dicembre 2024, sotto forma di investimenti in Russia, pari a 5.597 milioni di euro, contro gli 8.668 milioni di euro al 31 dicembre 2023. Tale differenza nel totale delle attività è principalmente attribuibile alla riduzione delle attività finanziarie al costo ammortizzato. Al 31 dicembre 2024, la riserva di rivalutazione dei cambi derivante dalla conversione di attività e passività in euro è pari a - 3.243 milioni di euro. Il delta negativo di 456 milioni di euro rispetto allo stesso dato di fine 2023 (- 2.787 milioni di euro) è dovuto principalmente al deprezzamento del Rublo russo nello stesso periodo. Un eventuale evento teorico di perdita del controllo di AO UniCredit Bank - inclusa una nazionalizzazione - determinerebbe la cancellazione delle attività nette con un valore contabile di 5,5 miliardi di euro. Tale valore include gli effetti del deconsolidamento e incorpora la riserva di valutazione negativa, collegata principalmente all'oscillazione dei cambi pari a Euro 3,3 miliardi. Di conseguenza, l'impatto complessivo sul coefficiente di capitale di UniCredit è inferiore al valore contabile consolidato di AO UniCredit Bank ed è confermato in linea con lo scenario di perdita estrema già comunicato al mercato (-47 punti base del CET1 ratio al 31 dicembre 2024, o -55 punti base, compreso l'impatto della deduzione della soglia, se applicabile al momento in cui si verifica l'evento). Questo evento, se si fosse verificato nel 2024, avrebbe portato UniCredit a presentare un risultato positivo dichiarato del Gruppo per l'anno di esercizio 2024 pari a Euro 4,2 miliardi, invece di Euro 9,7 miliardi.

Rischi connessi a previsioni e stime relative a UniCredit, BPM e al previsto processo di integrazione post Fusione e alle sinergie attese: Le previsioni e le stime relative alle future ambizioni di performance del Gruppo UniCredit (Ambition 2025-27) sono soggette a incertezze e ad altri fattori in gran parte al di fuori del controllo di UniCredit. Le sinergie attese derivanti dall'integrazione di BPM dipendono dalla capacità di UniCredit di reagire ai cambiamenti del mercato e del business durante la combinazione, di controllare con successo e in sicurezza il processo di integrazione del business e di definire e implementare un nuovo modello strategico, organizzativo e di governance. Le stime sui costi una tantum dell'integrazione e sulle sinergie di costi e ricavi potrebbero rivelarsi imprecise o non concretizzarsi affatto, e potrebbero anche esserci discrepanze significative tra i valori previsti e quelli effettivi. Sulla base (a) degli obiettivi di utile netto di UniCredit per il 2027 e (b) delle stime di utile netto standalone per il 2027 del broker consensus per BPM e Anima (media ricavata da FactSet il 20 marzo 2025) e ipotizzando, inter alia, (i) il completamento dell'Offerta e della Fusione e (ii) la realizzazione di tutte le sinergie di ricavi e costi nel 2027, il gruppo combinato avrebbe un utile netto combinato di circa 12,8 miliardi di euro nel 2027. Con particolare riferimento a tali obiettivi e sinergie attese, questi sono stati fissati anche con riferimento alle stime relative ai costi di integrazione una tantum relativi all'acquisizione e alle successive sinergie di costo e di ricavi derivanti dall'integrazione di BPM nel Gruppo. In particolare, l'Emittente prevede sinergie di ricavi stimate in circa Euro 300 milioni all'anno al lordo delle imposte e sinergie di costo stimate in circa

Euro 900 milioni all'anno al lordo delle imposte. UniCredit prevede che il 50% delle sinergie di costo e di ricavi si materializzino nel 2026 e saranno poi pienamente realizzate nel 2027. I costi una tantum del processo di integrazione sono stati stimati pari a circa Euro 2 miliardi al lordo delle imposte con una concentrazione prevalente nella fase iniziale del processo. Data l'incertezza che caratterizza qualsiasi dato previsionale e le ipotesi su cui si basa, comprese quelle ricavate da FactSet e dalle stime di broker consensus, i risultati effettivamente raggiunti da UniCredit (compreso l'utile netto) potrebbero divergere in modo significativo dalle tendenze previste.

Rischio di credito e rischio di deterioramento della qualità del credito: La solidità finanziaria e patrimoniale, nonché la redditività del Gruppo UniCredit dipendono anche dall'affidabilità creditizia dei propri clienti. Un cambiamento inatteso nell'affidabilità creditizia di una controparte espone il Gruppo al rischio di una variazione del valore dell'esposizione creditizia associata, che richiede una svalutazione parziale o totale. Tale rischio di credito è intrinseco e rilevante per l'attività tradizionale di erogazione del credito. Al 31 dicembre 2024, le esposizioni deteriorate (NPE) di UniCredit ammontavano a 11,2 miliardi di euro (con un rapporto NPE lordo del 2,6%), in calo del 4,6% su base annua, mentre al 31 dicembre 2023 ammontavano a 11,7 miliardi di euro, con un rapporto NPE lordo del 2,7%. Lo stock di crediti in sofferenza al 31 dicembre 2024 era pari a 5,1 miliardi di euro con un tasso di copertura del 45,87%. In termini di NPE: (i) 3,1 miliardi di euro sono stati classificati come sofferenze (copertura 69,33%), (ii) 7,3 miliardi di euro sono stati classificati come unlikely to pay (copertura 37,44%), (iii) 0,8 miliardi di euro sono stati classificati come past due impaired (copertura 32,47%).

Al 31 dicembre 2024, gli NPE netti del Gruppo si attestano a 6 miliardi di euro, in leggera diminuzione rispetto al valore di 6,2 miliardi di euro registrato al 31 dicembre 2023 (pari, rispettivamente, all'1,4% e all'1,4% delle esposizioni totali del Gruppo). Il CoR del Gruppo UniCredit è aumentato di 2 bps a 15 bps al 31 dicembre 2024. D'altra parte, al 31 dicembre 2024 l'importo delle coperture del Gruppo sulle esposizioni in bonis è di circa 1,7 miliardi di euro. Il Gruppo UniCredit è inoltre esposto al rischio di credito di controparte non tradizionale derivante dalla negoziazione di contratti derivati e di operazioni di riacquisto (pronti contro termine) su un'ampia gamma di prodotti, nel caso in cui una controparte non sia in grado di adempiere ai propri obblighi nei confronti del Gruppo UniCredit. Per quanto riguarda le cartolarizzazioni del Gruppo rilevanti ai fini del rischio di credito, UniCredit agisce come originator (cartolarizzazioni SRT, di cui 27 sintetiche, 14 vere e proprie vendite e 10 su esposizioni NPEs), sponsor (con il suo programma di asset-backed commercial paper per 5,9 miliardi di euro nel 2024), sponsor (per il suo programma Asset-Backed Commercial Paper in UCB GmbH) e investitore (esposizione totale di 19,64 miliardi di euro nel 2024, di cui (i) 9,34 miliardi di euro relativi a posizioni con rating, and (ii) 10,3 miliardi di euro relativi a esposizioni senior di cartolarizzazioni private senza rating di clienti del settore bancario e automobilistico). Inoltre, le dimensioni del portafoglio di investitori di BPM sono relativamente ridotte rispetto a quelle del Gruppo UniCredit e, sebbene UniCredit non preveda un deterioramento del profilo di rischio del Gruppo a seguito dell'integrazione di BPM, l'Emittente sarà in grado di fornire una valutazione completa di qualsiasi impatto sul rischio di credito (incluso quello relativo alle cartolarizzazioni) solo dopo il completamento dell'operazione.

Rischio di liquidità: Il Gruppo UniCredit è e sarà, in una configurazione post-Fusione, esposto alla possibilità di non essere in grado di far fronte ai suoi obblighi di pagamento e consegna in contanti attuali e futuri, previsti e imprevisi, senza compromettere le sue operazioni quotidiane o la sua posizione finanziaria. I rischi di liquidità specifici delle attività di UniCredit riguardano la liquidità di finanziamento/mercato e i rischi di disallineamento/contingenza. Al 31 dicembre 2024, il Liquidity Coverage Ratio (LCR) del Gruppo UniCredit era pari al 144%, mentre al 31 dicembre 2023 era pari al 154% (calcolato come media dei 12 ultimi rapporti di fine mese). Al 31 dicembre 2024, il Net Stable Funding Ratio (NSFR) era superiore al 128%. Confrontando i valori di tali parametri per il 2024 tra il Gruppo UniCredit e BPM: (i) LCR: 144% per il Gruppo UniCredit e 132% per BPM; (ii) NSFR: 128% per il Gruppo UniCredit e 126% per BPM; (iii) rapporto prestiti/depositi (LTD): 85% per il Gruppo UniCredit, 79% per BPM (anche se non del tutto comparabili); (iv) Conti correnti e depositi a vista su passività finanziarie totali al costo ammortizzato verso clienti: 73% per il Gruppo UniCredit e 96% per BPM. Gli indicatori regolamentari di liquidità al 31 marzo 2025 erano i seguenti: (i) LCR superiore al 140%, (ii) NSFR superiore al 125% e (iii) LTD pari all'86,9%.

Conversione dei Titoli da parte dell'Emittente: Al verificarsi di uno o più eventi di conversione (ad esempio, se la quotazione del prezzo del Sottostante sul Relativo Mercato (*Relevant Exchange*) è sospesa in modo indefinito o interrotta in modo permanente e non è disponibile o poteva essere determinato alcun Mercato Sostitutivo (*Replacement Exchange*)) (l'"Evento di Conversione") l'Emittente può convertire i Titoli e rimborsarli alla Data di Pagamento Finale mediante il pagamento dell'Importo di Regolamento. L'"Importo di Regolamento" è pari al valore di mercato dei Titoli, maggiorato degli interessi maturati per il periodo che va fino alla Data di Pagamento Finale al tasso di mercato a cui sono negoziate in tale momento le passività dell'Emittente con la stessa durata residua dei Titoli, entro il decimo Giorno Lavorativo successivo al verificarsi dell'Evento di Conversione, come determinato dall'Agente di Calcolo. L'Importo di Regolamento in ogni caso non potrà essere inferiore all'Importo Minimo.

Rimborso Anticipato a discrezione dell'Emittente: I Titoli possono essere rimborsati in qualsiasi momento in tutto ma non in parte, a discrezione dell'Emittente al loro Importo di Rimborso Opzionale alla data specificata in un avviso pubblicato sul sito dell'Emittente, previa comunicazione all'Agente di Pagamento e ai Titolari dei Titoli, se l'Emittente determina che tutto o parte della serie dei Titoli è o sarà escluso in tutto o in parte dalle passività ammissibili disponibili per soddisfare i Requisiti MREL (Evento di Inammissibilità MREL).

Rettifiche dei Termini e delle Condizioni dei Titoli: L'Agente di Calcolo potrà rettificare i Termini e le Condizioni dei Titoli qualora si verifichi un evento di rettifica (ad esempio, ciascuna misura adottata dalla società che ha emesso il Sottostante o da una terza parte che, come conseguenza di un cambiamento nella posizione giuridica e finanziaria, influenza il Sottostante) (l'"Evento di Rettifica").

Stato dei Titoli: Gli obblighi dell'Emittente derivanti dai Titoli costituiscono obbligazioni dirette, incondizionate, non subordinate e non garantite dell'Emittente, avranno pari priorità nell'ordine dei pagamenti (fatte salve le obbligazioni privilegiate da qualsiasi legge applicabile (anche soggette allo strumento del bail-in, come implementato ai sensi della legge italiana)) rispetto a tutte le altre obbligazioni non garantite dell'Emittente e ad ogni altro obbligo presente e futuro, non garantito e non subordinato, dell'Emittente (salvo, quando previsto, le obbligazioni junior rispetto alle obbligazioni senior (incluse le obbligazioni senior non privilegiate e le eventuali ulteriori obbligazioni junior, rispetto a obbligazioni senior, consentite dalla legge successivamente alla Data di Emissione), ove previste).

Quotazione: Sarà presentata istanza per l'ammissione a quotazione dei Titoli con efficacia dal 30/07/2025, presso i seguenti sistemi multilaterali di negoziazione (MTF): EuroTLX, organizzato e gestito da Borsa Italiana S.p.A. ("EuroTLX")

UniCredit Bank GmbH (il "Market Maker") si impegna a fornire liquidità in conformità alle norme sul *market making* di EuroTLX, dove ci si attende che i Titoli saranno negoziati.

Quali sono i principali rischi specifici dei Titoli?

Rischio di Credito dell'Emittente e rischi relativi alle misure di risoluzione che riguardano l'Emittente: I Titoli costituiscono obbligazioni non garantite dell'Emittente nei confronti dei Titolari. Pertanto, chiunque li acquisti è soggetto al merito creditizio dell'Emittente e non ha, in relazione alla propria posizione nell'ambito dei Titoli, alcun diritto o pretesa nei confronti di qualsiasi altra persona. I Titolari sono sottoposti al rischio di una parziale o totale inadempienza dell'Emittente per gli obblighi che il medesimo è tenuto ad adempiere in tutto o in parte ai sensi dei Titoli, ad esempio in caso di insolvenza. Peggiora la solvibilità dell'Emittente, maggiore è il rischio di perdita. Qualora il rischio di credito dell'Emittente si realizzi, il Titolare può subire una perdita totale del proprio capitale, anche se i Titoli prevedono un Importo Minimo alla loro scadenza. Inoltre, i Titolari possono essere soggetti a misure di risoluzione nei confronti dell'Emittente qualora il medesimo è in fallimento o a rischio di fallimento. Gli obblighi dell'Emittente ai sensi dei Titoli non sono garantiti, garantiti da terzi o protetti da un sistema di protezione dei depositi o di compensazione.

Rischi correlati a fattori che influenzano il valore di mercato: Tanto il valore di mercato quanto gli importi pagabili ai sensi dei Titoli dipendono principalmente dal prezzo del Sottostante. Peraltro, il valore di mercato dei Titoli sarà condizionato da una serie di ulteriori fattori. Questi sono, inter alia, il merito creditizio dell'Emittente, i relativi tassi di interesse e di rendimento prevalenti, il mercato per titoli simili, le condizioni economiche generali, politiche e cicliche, la negoziabilità e, se del caso, la durata residua dei Titoli nonché ulteriori fattori relativi al Sottostante che influenzano il valore di mercato.

Rischi correlati all'Importo di Rimborso: I Titoli saranno rimborsati alla loro scadenza all'Importo di Rimborso. L'Importo di Rimborso potrebbe essere inferiore al prezzo di acquisto. Ciò significa che il Titolare otterrà un rendimento solo se l'Importo di Rimborso sia superiore allo specifico prezzo di acquisto pagato dal Titolare.

Rischi derivanti dal mancato pagamento di importi nel corso della durata dei Titoli: I Titoli non sono soggetti a interessi e non garantiscono diritti - condizionati o non condizionati - per il pagamento degli importi nel corso della durata dei Titoli che possano compensare eventuali perdite di capitale.

Rischi connessi ad azioni: I Titoli sono associati a rischi per i Portatori dei Titoli simili a quelli di un investimento diretto nelle azioni specificate come Sottostante. Il prezzo di un'azione può diminuire notevolmente o può diventare di nessun valore, ad esempio a causa dell'insolvenza dell'emittente dell'azione.

Rischi legati a potenziali conflitti di interesse: Possono insorgere conflitti di interesse relativi all'Emittente o ai soggetti incaricati dell'offerta che possono determinare decisioni svantaggiose per i Titolari dei Titoli.

Rischio di liquidità: Sussiste un rischio che i Titoli non siano ampiamente distribuiti e che non esista un mercato attivo di negoziazione che possa evolversi per i Titoli. L'Emittente può, ma non è obbligato, acquistare i Titoli in qualsiasi momento e a qualsiasi prezzo sul mercato aperto, mediante offerta pubblica di acquisto o contratto privato. I Titoli acquistati in questo modo dall'Emittente possono essere detenuti, rivenduti o cancellati. Un riacquisto dei Titoli da parte dell'Emittente può influire negativamente sulla liquidità dei medesimi. L'Emittente non può assicurare che un Titolare sarà in

grado di vendere i propri Titoli ad un prezzo adeguato prima del loro rimborso.
