- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards.
- (2) *Business day convention:* If a Payment Date is not a Banking Day then the Following Business Day Convention shall apply. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.

- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the legal interest rate ("*Saggio degli Interessi legali*"), pursuant to Section 1284 CC, without prejudice to any other mandatory provisions under Italian law. Replacement Reference Rate, Adjustments, Interest Rate Adjustment Factor or Spread, Notifications

- (1) *Replacement Reference Rate:* Upon the occurrence of a Reference Rate Cessation Event on or preceding an Observation Date, the Reference Rate will be replaced by the Calculation Agent with an economically suitable reference rate (the "**Replacement Reference Rate**"). The Reference Rate should be replaced by a Replacement Reference Rate that pursuant to the following sequence of adjustment methods (each an "**Adjustment Method Level**")
 - (a) has been publicly and permanently declared as the replacement for the original Reference Rate by the Reference Rate-Administrator, the relevant central bank or a supervisory authority and may be used as a Replacement Reference Rate in accordance with the governing law of the Securities, or – in the event and as long as this is not the case –
 - (b) is typically used as a replacement reference rate for comparable securities (in particular with a view to the Reference Rate Currency, the type of interest payment and the term), or – in the event and as long as this is not the case –
 - (c) is typically used as a reference rate for (x) interest rate swaps (fixed/floating interest) in the Reference Rate Currency or (y) exchange traded interest futures with a comparable term, or – in the event and as long as this is not the case –

- (d) is determined by the Calculation Agent acting in accordance with relevant market practice and in good faith with a view to the Reference Rate Currency and the Designated Maturity in a reasonable economical manner, based on the general interest rate level at the relevant point in time in Italy.

The Replacement Reference Rate is – subject to the occurrence of a new Reference Rate Cessation Event – applicable to all subsequent interest periods. With respect to subsequent Observation Dates, however, a new adjustment may be made with respect to the preceding Reference Rate Cessation Event if an adjustment based on a prior ranking Adjustment Method Level pursuant to the sequence (a) to (d) is then possible at that time. This includes the change from a daily interest rate previously selected under a specific Adjustment Method Level to a previously unpublished term-based interest rate.

- (2) *Adjustments:* If necessary, the Calculation Agent will make further adjustments to these Terms and Conditions acting in accordance with relevant market practice and in good faith. This includes in particular:

- (a) the method of calculation or determination of the Additional Conditional Amount (m); this includes the application of an interpolation or an interest rate on the Securities by means of a formula on a daily interest basis;
- (b) the method for determination of the Reference Rate (including any rounding rules);
- (c) the Designated Maturity, which can be shortened or extended;
- (d) the relevant Screen Page, Reference Rate Time and/or Reference Rate Financial Centre; and/or
- (e) the business day convention according to § 6 (2) of the Special Terms and Conditions.

Such adjustments shall enable the Calculation Agent

- (i) to use the Replacement Reference Rate in accordance with the then prevailing market practice
- (ii) or – to the extent that the Calculation Agent determines that the application of any part of such prevailing market practice is not technically feasible, a prevailing market practice for the Replacement Reference Rate does not exist or does not lead to economically meaningful results –
- (iii) to use the Replacement Reference Rate in such a manner as determined by the Calculation Agent necessary for its use as the Replacement Reference Rate for the Securities; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

- (3) *Interest rate adjustment factor or spread:* In addition to an adjustment under paragraph (2), the Calculation Agent may also determine an interest rate adjustment factor or spread for the purpose of determining or calculating the Interest Rate or Interest Amount in such a way that the financial position of the Security Holders remains unchanged to the greatest extent possible.

- (4) *Notifications:* The Calculation Agent shall notify the Issuer without undue delay of the Replacement Reference Rate pursuant to paragraph (1) and the adjustments and determinations made pursuant to paragraphs (2) as well as the date of first application, who will notify the Security Holders and any exchange, on which the Securities are listed and whose provisions require a notification to the exchange pursuant to § 6 of the General Conditions of the Securities.
